NUMBER 69

Ah, Spring!

## Studies Rough? Spring Coming, Relief on Way

By ROBERT COUGHLIN

There's something about springtime. Figures released by A. L. Pugsley, dean of academic administration, indicate a young man's fancy turns lightly to his textbooks in the spring, in spite of popular opinion.

Students in upper level courses posted a solid 1.77 grade average for the spring semester of 1954-55; an increase of .05 over the over-all average of 1.72 in the fall semester.

Students in lower level courses bettered a fall grade-point average of 1.41 with a spring average of 1.45.

Top grade point honors for the various schools goes to the School of Agriculture whose upper-level students turned in a 2.06 average during the fall semester of last year.

The bonehead award goes to the Arts and Science freshmen and sophomores whose grade point average was 1.39 for both spring and fall semester.

On the other end of the scale, Arts and Sciences had the only department to post a 3.00 average during the entire year.

This remarkable feat is credited to the department of modern languages in the fall semester. In the spring semester the department average slid to 2.51.

The English department nailed down the other end of the curve with a 0.71 grade average for freshmen and sophomores during the fall semester.

Junior and senior students in modern languages set the phenomenal 3.00 department average when 85 per cent of those enrolled got A's for their efforts. The other 15 per cent of the class got incomplete grades.

People seem to work best in the summer months. During the summer session, the grade average crawled up with the thermometer.

In the School of Engineering and Architecture, the chemical engineers set a 3.0 mark. With one student enrolled in the department and doing "A" work, it was easy.

The Vet Medicine School and Agriculture School equaled the performance as one student in poultry husbandry earned an A, and another in pathology did likewise.

Competition was stiffer in horticulture with three students enrolled, but all three stayed close to the books and took A's home for their efforts.

Even the low grades in summer school were impressive. The Home Economics School filled in as anchor man with a 2.40 in Clothing and Textiles for upper level credit and a 2.03 in Art for the lower level courses.

The Ag School had highest over-all grade average for lower level courses with a 2.06. Vet Medicine won upper level honors, all departments considered, with a 2.50 average.

This only represents the high and low spots in the grade average picture. The largest number of students usually turn in an annual grade average nearer the 1.50 level.

A college student's fancy will, in spite of statistics, turn to thoughts of love—almost anytime.

Photo by Gary Haynes

BETTY THEISS, TJ JR., and Darrel Miller, TJ Jr., get their heads together to formulate plans for the spring semester Collegian. Miss Theiss was named business manager and Miller named editor by the Board of Student Publications in a meeting yesterday.

## Darrel Miller, Betty Theiss To Head Spring Collegian

Darrel Miller, TJ Jr., was named editor and Betty Theiss, TJ Jr., was named business manager of the spring Collegian yesterday by the Board of Student Publications.

Miller has wide newspaper experience that started, by accident, when he was 17.

"I walked into a newspaper office in Downs to put a wanted in the paper, and they asked if I wanted a job." He was so surprised that he took the offer. "I

had to pay for the ad some way," he recalls.

Miller worked for the Downs paper three years, and then was drafted into the Army. While in Germany he was on the staff of "Stars and Stripes," Army publication.

He enrolled in journalism at K-State in the fall of 1953, soon after he got out of the Army. He has worked previously as sports editor, feature editor, and associate editor of the Collegian. Mill-

er is married and has a son 2 years old.

Miss Theiss worked on the Collegian business staff as proofreader her freshman year, and as salesman her sophomore and junior years.

She also served on the editorial staff of the 1955 Royal Purple, and received a K-Key her sophomore year. This year she is class and organizations editor of the Royal Purple.

Her other journalism experience includes reporting for the Independence, Mo., Examiner. She is on the advertising committee for the Student Union, and is a member of the publicity committee for the forthcoming Mock Political Convention. She is a member of Pi Beta Phi sorority.

### Spring Collegian Seeks Applicants

Any student interested in working on the spring Collegian may apply to Darrel Miller, editor for the spring semester, or Betty Theiss, business manager, in K105A.

Positions are available on either the editorial or business departments of the Collegian. Applications must be submitted before January 20.

### Student Health

Four girls and five boys are patients in Student Health today. The girls are Karen Beins, Rosella Norton, Paula Pangburn and Maude Massie. The boys are Donald Foster, Benjamin Duell, William Jones, William Chapman, and James Elliott.

### Civic Theater Sells Tickets For 'Antigone'

Tickets for the Manhattan Civic theater's production of "Antigone" on January 30, 31, and February 1, are available at the English office or from James Rosenberg or Jordan Miller, English instructors. The price now is 50c but will be \$1 at the box office.

Dr. Earle Davis, head of the English department describes the play as "A Greek tragedy, done with modern language and setting and played in modern evening clothes."

"It is one of the great classical tragedies, which seems to retain as much excitement and interest to 20th century audiences as it has through the years," he said.

### KS Wool Judgers To Vie Saturday

The K-State wool judging team, national champions at the American Royal last fall, will try to add to their laurels when they compete Saturday at the National Western Livestock show at Denver.

Team members named today by Coach T. Donald Bell were George Atkeson, DH Sr, Jackson Todd, AH Sr, Roy Henry, AEd Sr, Ben Witty, Ag Sr, and Duane Johnson, AH Jr. The first three were on the prize-winning team at the Royal.

# Proposed GI Bill Increase

## Many-Sided, Needs Study

VETERANS studying at American colleges and universities now are petitioning U.S. Congressmen to legislate an increase in GI Bill benefits.

Many veterans say that the government aid, designed to be barely adequate, now is inadequate to support them while in school. They say that they have to work too many hours to supplement this government aid and that these long hours of work cut their grades.

However, some veterans contend that, while these benefits won't seat veterans in the lap of luxury, they do provide assistance for those who would not be able to acquire an education otherwise. These people say that veterans should be grateful for the money they now receive, and that any increase should go to disabled veterans.

IT SEEMS THAT anyone who has enrolled under veterans benefits has admitted one of two things—either he thinks the benefits are coming to him, or he hasn't the moral strength to follow his own opinion that they aren't.

If he thinks the benefits are coming to him, then probably he'll feel that the benefits need upping under present costs of living. The overall cost of living has gone up 14 per cent since this bill was passed, according to Calving Glenn, PrV Soph, who heads the K-State Veterans organization.

IT'S POSSIBLE that living costs for veterans alone haven't gone up that much, or that they've gone up more. The local veterans' organization is conducting a survey, with Mrs. Charles Correll, professor of household finance, in charge. She will determine the amount of money spent each month for living expenses.

The problem certainly calls for research into all its facets. Average rent in downtown Manhattan is \$75, but is only \$25 in College housing. Some veterans' wives work, and many veterans work. Many wives have children and can't work; others have to work anyway. Some veterans say that jobs are scarce, and that the average wage here is about 65 cents an hour.

THIS SEEMS to indicate a lack of money, but it will be hard to determine a naverage of how much benefits should be increased.

Single veterans now get \$110 a month,

married veterans \$135, and married veterans with children \$160.

Four hundred K-State veterans have signed a petition backing a bill introduced by Senator Young of South Dakota. This bill calls for increases of \$25, \$35, and \$45, respectively. The K-State veterans have sent letters to 150 large colleges all over the United States, Alaska, and Hawaii asking those schools to contact other schools and petition Congressmen to back this bill.

VETERANS AT Michigan State Normal college is backing another bill that would give a 14 per cent increase. That school has written to 1,000 other schools, asking them to petition for this increase. This would amount to about \$15 for single veterans, \$19 for married veterans, and \$22 for married veterans with children.

Many veterans seem to be having a hard time staying in school, even though they work part time. There probably have been those who lived downtown in the \$75-rent district who couldn't make a go of it. When sickness strikes, when a baby is born, etc., the veteran's shaky budget is demolished.

ALL OF THIS indicates that the bill now is inadequate. But that can't be decided by a veteran whose wife has a high-paying job and who is getting help from his parents. Neither can it be decided by a fellow who always is broke because he is too extravagant. It will have to be decided objectively on the basis of research.

The local petition, with 400 signers now, will be in the veterans office so that veterans can sign it as they sign the payroll the first of February.

But it shouldn't be signed because those involved want to get every cent they can, regardless of principle. That sort of thinking, while sound for the pocketbooks of the persons involved, isn't constructive from America's standpoint.

Some professional veterans seem to think the government owes them a living for the rest of their lives. Don't let your thinking fall into that greedy category. Look into the facts before you decide.—Darrel Miller.

might ever help our wrestling team.

IT'S HIGHLY UNLIKELY we could whip San Francisco four of 5 games this year but we sure as heck can beat any Big Seven team. Let's swing in gear and get a little organized cheering behind the boys.

It's beginning to look like school pep club members have a racket around here. They come late and get the choice seats and then do very little. They do have pretty uniforms, though, but the uniforms make no noise.—Gary Swanson.

## Calendar

### FRIDAY, JANUARY 13

Wranglers club, T, 8 p.m.  
Beta Sigma Psi-Alpha Kappa Lambda dance, Country club, 9-12 p.m.  
Flint Hills Geological society, W 115, 7:30 p.m.  
Kansas State Christian fellowship, A 212, 7 p.m.  
Free movie, "Bend of the River," EL

### SATURDAY, JANUARY 14

Basketball, K-State vs. Kansas U. Ahearn Field House, 7:30 p.m.  
K-State Union dance, Nichols gym, 9-12 p.m.  
Kappa Kappa Gamma senior dinner, KKG house, 1 p.m.

### MONDAY, JANUARY 16

Newman Club discussion group, J 15, 7 p.m.  
Orchestra, N 1, 7:15 p.m.  
Rifle club, MS, 7 p.m.  
Frog club, N 2-4, 7 p.m.  
Student Council, A 211, 7 p.m.

## Fag Fiends

# You, Too, Can Say Smugly 'Sorry I Quit Long Ago'

By ANN WEATHERS

ARE YOU a "fag" fiend?

If you smoke, and wish you didn't, there are better ways of quitting than stapling your lips shut or driving pins in your pack of cigarets so you can't pick it up without mortal injury, the Indiana Daily Student explains.

First, tell your friends you have given up smoking and laugh—gritting your teeth—as they tempt you. Next, you torture yourself by lighting cigarets for friends, taking the attitude "I'm better than you are" as they carry you off in the strait jacket. Soon you too may say, "Sorry, I gave it up long ago" (it sez here).

Does anyone have a match?

A WARNING to all those expecting to make 90 or higher on their exams. A student who made 100 on a midsemester exam at Texas university, thereby ruining the grade curve, was kidnapped and carried 18 miles into the country, where several of his classmates displayed their ire. This could happen to you!

SINCE THEY'VE adopted a "no-car-

## Scholastic Averages For KS Departments

FOLLOWING is a compilation of grade average posted by each department at K-State for the fall and spring semesters of 1954-55.

The grade average of all courses in the department are listed, without regard to the scholastic level of the individual course.

DEPARTMENT	FALL	SPRING
Agricultural Economics	1.74	1.70
Agricultural Engineering	1.93	1.80
Agromony	1.87	1.68
Air Science (lower level only)	1.27	1.22
Anatomy	2.01	1.89
Animal Husbandry	1.92	1.77
Applied Mechanics	1.23	1.10
Architecture	1.89	1.94
Art	1.64	2.00
Bacteriology	2.19	2.01
Botany	1.68	1.75
Business Administration	1.58	1.55
Chemical Engineering	1.34	1.51
Chemistry	1.41	1.50
Civil Engineering	1.62	1.62
Clothing and Textiles	1.87	1.89
Dairy Husbandry	1.77	1.96
Economics	1.53	1.47
Education	1.69	2.00
Electrical Engineering	1.58	1.53
English	.89	1.47
Entomology	1.75	1.74
Family and Child Development	1.54	1.81
Foods and Nutrition	1.67	1.58
Geology	1.48	1.73
General Studies (lower level only)	1.17	1.20
History	1.62	1.60
Horticulture	2.01	1.95
Household Economics	1.58	1.89
Industrial Engineering	1.37	1.67
Institutional Management	2.22	2.03
Machine Design	1.35	1.51
Mathematics	1.52	1.15
Mechanical Engineering	1.49	1.35
Military Science (lower level only)	1.37	1.54
Milling	1.85	1.82
Modern Languages	2.20	2.06
Music	2.37	2.32
Pathology	1.66	1.66
Physical Education	2.11	2.09
Physics	1.46	1.43
Physiology	1.68	1.40
Poultry Husbandry	2.16	2.09
Psychology	1.43	1.38
Speech	1.95	1.97
Surgery and Medicine (lower level only)	1.67	1.71
Technical Journalism	1.70	1.89
Zoology	1.53	1.51
COLLEGE AVERAGE	1.57	1.61
COLLEGE MEDIAN	1.63	1.72

riding" rule, most of the girls at Stephens college don't mind. They seem to feel that "the girls should get to know boys before riding in their cars. . . since some of the freshies haven't dated before." No comment.

A PROFESSOR at Syracuse university feels that "American students have no rights."

He said that universities today are set up as corporations with a board of trustees in the power position as directors. The board has the power to hire and fire students and faculty at a moment's notice. The only reason for the success up to now of our educational system, he said, is the "great good will of the persons involved."

REMEMBER, LADIES—don't sit back this year and wait for love to come your way. It may take more encouragement than that. There are only 17 million possible husbands available for 20 million possible wives this leap year, according to national census.

Keep this little rule in mind—"Tease are the times that try men's souls."

## School Aid Plan Set Up for 5 Years

Washington, (U.P.)—Main features of President Eisenhower's school-aid program:

### Federal Grants

A 5-year, 1 1/4-billion-dollar program of outright federal grants "to supplement local construction efforts in the neediest school districts." These grants would be made according to an incentive plan under which (1) States would be required to match the federal funds, at least in part; (2) Federal funds would be reduced proportionately in the case of "those few states that are noticeably lagging behind their ability to support their public schools;" (3) A relatively larger share of federal grants would be distributed where local and state resources are "least adequate to meet classroom needs."

### School Bonds

A 750-million-dollar, 5-year program to purchase local school-construction bonds when local districts "cannot sell them in private markets at reasonable interest rates." A 5-year program of federal advances to provide reserves for bonds issued by state school financing agencies that are unable to raise more capital because of current bonding limits.

### Planning

A 5-year, 20-million-dollar program of matching grants to help finance community and state planning on school-finance problems.

### Defense Areas

Continued federal aid for school construction in areas where defense activities have created "excessive burdens" on schools.

### Research

Major increase in funds for the U.S. Office of Education to step up educational research.

### Higher Education

Appointment of a "distinguished group of educators and citizens" to study the needs of education at college level.

### Duration

The program, if "speedily and fully utilized," should overcome the nation's classroom shortage within 5 years. When the shortage is ended, "the federal grant program can and must terminate."

## The Kansas State Collegian

Published by Student Publications, Inc., Kansas State college, daily except Saturday and Sunday during the fall and spring semesters, weekly during the summer school session. Entered as second-class matter at the post office, Manhattan, Kansas. Campus office—Kedzie hall Dial 283. One year at College post office or outside Riley county \$3.50. One year in Riley county \$4.50.

## Why Not a Rally Tonight?

Why don't we ever have a pep rally around this place!

So far during basketball season there has been no pep rally. Is there no pep or are there no pep leaders?

Kansas U has traditionally been K-State's most bitter rival. Every year we tear up the KU campus and KU students tear up our campus. On alternate years KU'ers battle for our goalposts and we battle for KU's goalposts.

BUT WHERE IS THAT bitter rivalry udrig basketball? It has been present before, but not his year. Are we a bunch of milksops?

Now we don't have to whip ourselves into a frenzy and start tearing things up. But we could have a real honest-to-goodness pep rally to get everybody in the right frame of mind for tomorrow's big game.

Some maintain that pep rallies are okay and some think they're rather foolish. Regardless of anyone's opinion, we ought to at least go on record publicly as saying we're in favor of beating KU.

There'll be a good crowd tonight at the wrestling matches tonight. It would be a nice thing if the cheerleaders would show up before hand and lead the crowd in a few "Beat KU" yells. The cheering

# Roger Williams Fellowship To Install Officers

The Roger Williams fellowship meeting at 5:15 p.m. Sunday evening will consist of installation of new officers and a dedication service.

New officers are Ronald Garlow, vice president; Dave McClure, social chairman; Betty Johnson, food chairman; Evelyn Sadler, devotions chairman; Emory Corbett, publicity chairman; and Bob Hoover, membership chairman.

A mixer and supper will precede the program. Sunday school will be at 9:45 and morning worship at 11 a.m.

## Gamma Delta

Henry Buck, Kansas City lawyer, will be the speaker at Gamma Delta Sunday.

The meeting will begin at 5 p.m. with a supper. A movie and Buck's talk will follow. Buck, Gamma Delta alumnus of Kansas university, is active in the Mission Board of the Missouri Synod church in Kansas City.

## Canterbury Association

Reports from four students who attended the Provincial Canterbury conference in Norman, Okla. December 27-30 will follow 6 p.m. supper at Canterbury house this week.

The four who attended the college life conference were Ron Philbrick, T Fr; Chuck Billings, ME r; Esther Valdes, PrL Fr; and John Painter, Hst Soph. Episcopal students from throughout the Southwest were present.

## Westminster

The new Westminster Fellowship cabinet and program committees will meet Saturday at 1:30 p.m. at Westminster house.

"The Call of Moses" is the topic for church school Sunday at 9:30 a.m. The fellowship supper at 5:30 p.m. Sunday at Westminster house will be followed by a discussion on "The Religion in Present Day Popular Religious Music."

The interest group on the World Council of Churches will meet at Westminster house at 4:30 p.m. Sunday. The current cabinet will

meet in the Thompson hall cafeteria Tuesday at 5:30 p.m.

"God's Man, Moses" is the topic for church school Sunday at 9:30 a.m. at Westminster house.

"What is the National Council of Churches?" will be discussed under the leadership of Marianne Ptacek in the interest group at 4:30 p.m. Lois Force is in charge of the program on summer opportunities for Westminster Fellowship Sunday at 5:30 p.m.

## Lutheran Students

"Give Your Faith in Education" will be the topic of a meeting of the Lutheran Student association. The meeting will be Sunday at 5 p.m. at the First Lutheran church.

The members of the Lutheran Student association will elect new officers at their Sunday night meeting. Following the election, vesper services will be conducted by Gilbert Christopher, AgE Jr.

The meeting will be in the First Lutheran church at 5 p.m.

Meditations will be given Tuesday at 5 p.m. in Danforth chapel by Dick Anderson, Phy Gr.

## United Presbyterian

A film, "The Ministry of Jesus Christ," will be shown at the meeting this Sunday evening of the United Presbyterian Youth fellowship group.

Ronald Buchanan, who is in charge of the meeting, will lead a discussion group following the movie. The group will meet at 7 p.m. in the Education building north of the United Presbyterian church at 1001 Fremont.

The United Presbyterian Youth fellowship meeting Sunday night, January 15, will be under the leadership of Harold Cordry, DH Soph.

"Daily Walking with the Lord" will be the topic for group discussion. The group will meet at 7 p.m. in the Education building north of the United Presbyterian church at 1001 Fremont.

## Theta Epsilon

Theta Epsilon elected officers Tuesday. Phyllis Loseke was elected president; Lois Graeff, vice-president; and Evelyn Sadler, secretary-treasurer.

Following the business meeting, Mrs. Elnora Huyck talked to the group on family life.

## Society of Friends

There will be meetings for worship at Danforth chapel every Sunday at 9:30 a.m. All are cordially invited to attend.

## Hillel

B'nai Brith-Hillel foundation members will attend church services at 7:30 tonight at the Jewish chapel, 10th and East streets, Camp Funston, Fort Riley.

## College Baptist

A guest speaker, the Rev. John Patten from Omaha Baptist Bible institution, will bring the message at the College Baptist Youth meeting Sunday at 6:30 p.m. in the College Baptist church.

Choir practice for the College Baptist youth will be at 8 p.m. in the College Baptist church.

## EUB

"How We Can Win Others to Christ" will be the theme of the lesson at the Evangelical United Brethren Student fellowship meeting Sunday. Kay Hofman will be in charge of the service and Eugene Lundgren will sing a vocal solo as a special number.

The meeting will be in Danforth chapel at 7 p.m., and all interested students are invited to attend.

## Latter Day Saints

The Book of Mormon will be studied at MIA next Thursday from 7:30 p.m. until 8:30 at the home of Dr. T. D. Bell, 434 Wickham road. Wayne Randall will

present the lesson. Recreation and refreshments will follow.

Sunday school will meet at 11 a.m., and the Sacrament service at 3 p.m. Sunday at Danforth chapel. Mr. and Mrs. Roy Hoefler will be the speakers at the Sacrament service.

## Wesley Foundation

The Rev. Ray Wonder will preach at the 9:50 a.m. Sunday church service followed by church school classes at 11.

"The Book Nobody Knows" will be given by Patricia Roberts at forum at 6 p.m. Ilene Davey will have devotions, Peggy Missimer will give a special number, and the senior farewell will be given. Bible study will be at 4 p.m., fellowship at 5, and lunch at 5:30.

A "January Jamboree" square dance will be tonight at 8. Open house will be Saturday night, Wednesday from 3 p.m. to 5 there will be a "Breezy Hour."

## USF

Election of officers will be at the United Student fellowship meeting, Sunday.

Slides which will feature the national USF and all of the organizations which it supports will be shown at the meeting. The meet-

ing will begin at 5:15 p.m. in Pioneer hall.

The young people's discussion class will meet at 9:45 a.m. Sunday, in Pioneer hall. Church services will follow at 11.

## KSCF

Three graduating seniors spoke at a Kansas State Christian fellowship meeting Tuesday night. They are Kay Hofman, St. George; Hazel Butts, Melvern; and Harvey Benson, Clay Center.

## DSF

The DSF will elect officers at their meeting Sunday. The meeting will follow fellowship at 5:30 p.m. and a meal at 6 p.m.

A panel of students who are conscientious objectors will discuss "The Christian's Responsibility in Military Training" in Sunday school. Coffee will be served at 9 a.m. at the Foundation, 1633 Anderson. Rides to the church will be available at 9:30 a.m.

The inter-denominational student group is planning the World Day of Prayer and will meet at the DSF foundation Monday at 5 p.m.

The Supper club will meet at the Foundation at 5 p.m., Thursday for a meal and discussion.

# Presbyterians Study, Play at Westminster

By NORMA LEE BROWN

"Building a rich fellowship among students and helping them come to a better understanding of their faith is the goal of the program of Westminster foundation," according to the Rev. Emerson I. Abendroth, director of Westminster foundation at K-State.

"It is a basic conviction that this goal is accomplished in study groups of various kinds as well as by sharing the lighter moments of life," he said.

Westminster foundation is

the arm of the Presbyterian church at work on the campus. The name Westminster comes from the Westminster confession of faith which is a basic confession of the Presbyterian church.

Westminster foundation at K-State dates back to 1920 when the Rev. William Upton Guerrant, a pioneer in the field of student work, convinced Presbyterians in Kansas they had a responsibility to their students on the college campus.

When classes are through  
And your girl's close to you  
Here's a good thing to do—have a CAMEL!

—Man, that's  
pure pleasure!

It's a psychological fact:  
Pleasure helps your disposition.

If you're a smoker, remember  
— more people get more  
pure pleasure from Camels  
than from any other cigarette!

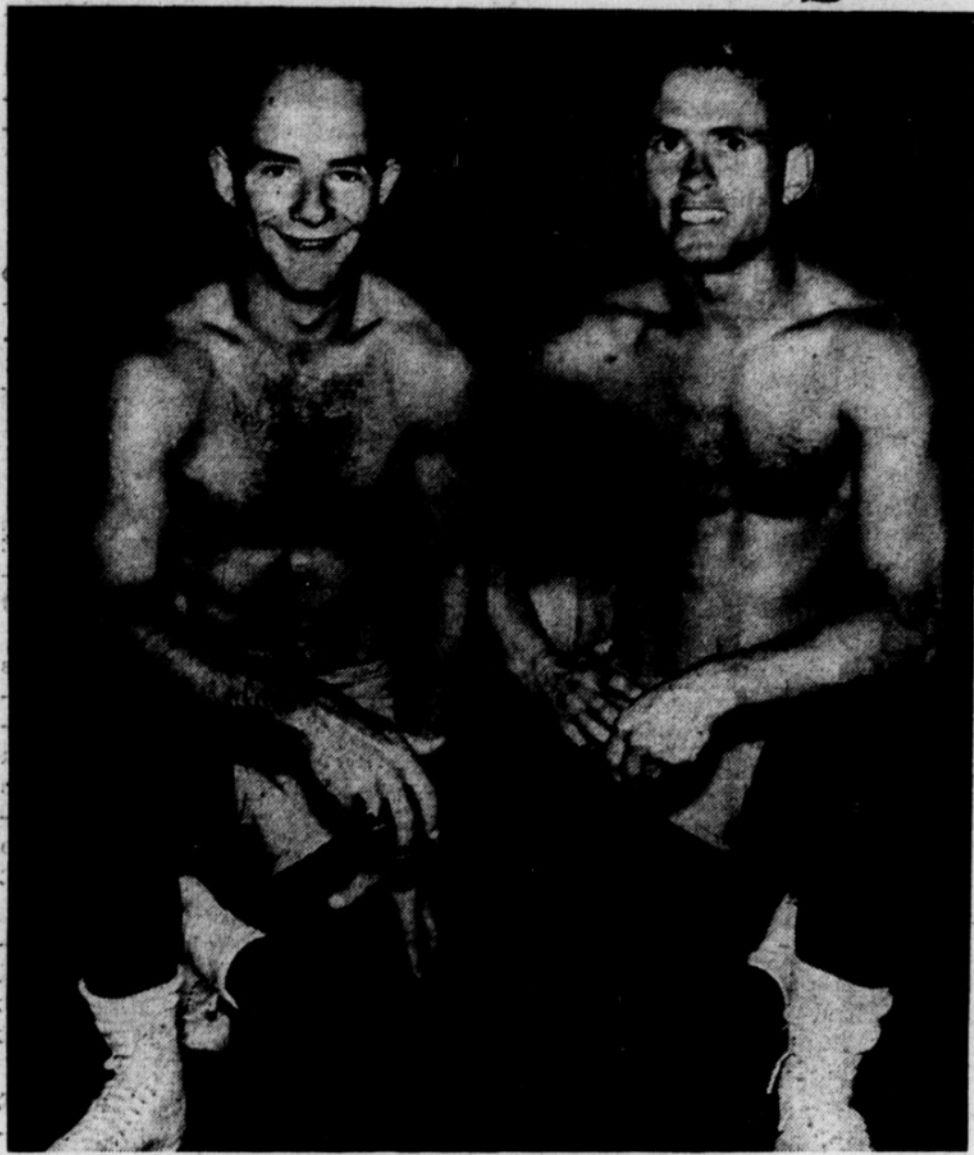

No other cigarette is so  
rich-tasting, yet so mild!

Camel

# Cat Wrestlers Seek Second Win Tonight

**GRAPPLING CAPTAINS FOR GOPHERS**—Andy Anderson on the left and Bill Hunt are both returning lettermen to the Gopher squad. Anderson placed 4th in the NCAA finals in 1954 but missed action last season due to a broken leg. Hunt is a two-year letterman, he placed second in the 123-pound class in Big Ten tourney in 1954.

K-State grapplers will be seeking their second win of the wrestling season tonight when they host the University of Minnesota at 7:30 in Ahearn field house.

Coach Fritz Knorr will use the same lineup against the Gophers that he used last week against Cornell College. The Wildcats downed Cornell, winning 24 to 5.

Bob Mancuso and Roland Alexander will lead the Cats as acting co-captains for the season. "The Wildcats will give Minnesota a real battle and should win the match," Knorr said.

Minnesota finished the season last year with a won 2, lost 5, tied 1 record. In the Big Ten they lost 4 while winning none. The Gophers finished ninth in the Big Ten conference meet at Minnesota last year.

The big gun for Minnesota appears to be co-captain Ed Anderson, who was sidelined last season with a broken leg. Anderson, wrestling as a 123 pounder, has won 15 and lost 8 in three years of competition.

Besides Anderson, the Gophers have three lettermen back from last year's squad.

They are co-captain William Hunt, Donald Meyers, and David Burgeson.

The leading matman for the Wildcats is Alexander. He finished the '55 season with a won 10 lost 3 record. Alexander gained the only pin last week against Cornell College.

"We would like to see a large turnout for tonight's matches," Knorr said. "Collegiate wrestling is picking up in this area, and the interest being shown in it has increased a lot in the last couple of years.

"I think that professional wrestling on TV has brought about the increased interest here. However, professional wrestling is quite different from collegiate wrestling. Collegiate wrestling depends almost entirely upon skill and speed," Knorr said.

The probable lineups for tonight are:

Minnesota	Wt.	K-State
Prunty	123	Landholm
Anderson	130	Mines
Jenks	137	Mancuso
Meyers	147	Linnell
Baker	157	Alexander
Burgeson	167	Glaze
Hardie	177	Haller
Herbold	HW	Rainsberger

## A Cat's-Eye View

With Dick Holdren

THE UTAH BASKETBALL SITUATION seems to be back on an even keel. Shortly after the holidays three players, two of them, Jim Frary and Ted Berner, former K-Staters, were dropped from the team. Frary was dropped for scholastic reasons and Berner because he missed a week-end trip.

Amid rumors that the boys were returning to Manhattan, Coach Gardner said that the trouble was being cleared up. Now Frary is set at Utah, making up his work, and Berner has been reinstated by his teammates.

### Abbott Remembered

Hayden Abbott, Cat sophomore ace, would have not been at K-State if it had not been for the memory of Cat assistant Howie Shannon, reports Dick Snider of the Topeka Daily Capital.

Abbott didn't play his senior year in high school because of a back injury but Shannon remembered him from the year before when he scored 39 points in one game. The result was that K-State was the only major school interested in Abbott.

### Lakers vs. Hawks

K-State fans may be interested in a game to be played in Kansas City Tuesday. The Minneapolis Lakers and St. Louis Hawks of the NBA will play in Kansas City.

## Cat Gymnasts To Meet NU

The varsity gymnastics team will open the season with a dual meet against the Nebraska Cornhuskers Saturday at 2 p.m. in Ahearn gymnasium.

Nebraska won the all-College meet last year and won over such teams as Iowa, Colorado university, and Navy Pier. Frank Thompson, Wildcat gym coach regards Nebraska as a "real power" in the Midwest.

Thompson says that if the K-State team is in top condition he expects a very close contest.

The meet is open to the public, and there is no admission charge.

# Saturday's Cat-Jayhawk Tilt Is 130th of Basketball Series

Basketball will be the order of the night Saturday when the Kansas Jayhawks move into Ahearn fieldhouse to meet the Wildcats, for the 130th game in a series that started back in 1907.

Of the 129 games played to date the Hawks have won 86 to 43 for the Wildcats. The Wildcats have not won a conference game from the Hawks since their first meeting in 1952. Their last win over the Hawks came in the Big Seven tourney in 1953. The Hawks now have a six game winning streak going against the Cats.

The Hawks were pre-season favorites to win the conference championship this year but were defeated in the finals of the Big Seven tourney by Iowa State. They have played two games since the tournament and have a conference mark of 1 win and 1 loss. They defeated Oklahoma in their loop opener then dropped a decision to Missouri last Monday night.

The Wildcats also lost to Iowa State in the tournament but defeated them in the conference opener for both teams at Ames last Saturday night. In addition to the win over Iowa State they defeated Oklahoma Tuesday night and now have 2 wins without a loss in loop play.

Last season KU played the Cats in the dedication game of Ahearn fieldhouse and defeated them 78-68. Later in the season the Cats journeyed to Lawrence to play KU in the dedication game of Allen fieldhouse, they again bowed to KU by 11 points, this time 77-67.

Both teams have identical records for the season, 8-4. KU has lost to Rice, Southern Methodist, Iowa State and Missouri, while the Cats have lost to Indiana, Drake, Houston, and Iowa State.

The KU loss to Missouri was termed by Coach Phog Allen as "the worst performance he has seen by any KU team."

At the same time, Coach Tex Winter termed the Cats win over Iowa State as "their best performance of the season."

The two teams both have four men in the probable starting lineup that have scoring averages in the double figures. For the Cats the game average for the starting five is 67.4 points. The entire squad has a game average of 76.5.

The starting lineup for KU has a game average of 62.7 points. The entire squad has a game average of 67.5.

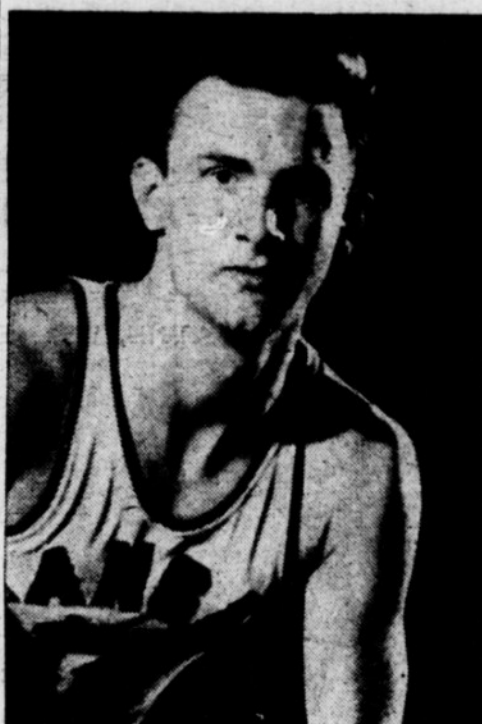

Coach Winter named his probable starting lineup as the same one that has started the last two games. It includes three sophomores who are responsible for a large percent of the Wildcat scoring. They are Jack Parr, 6-9 center, Hayden Abbott, 6-3 1/2 forward, and Roy DeWitz, 6-2 guard.

The three are among the top five in Wildcat scoring with Parr leading the way with a 15.8 point game average. He also leads the Wildcats in rebounding with 156 or an average of 13 a game.

Abbott did not break into the lineup until the conference game with Iowa State but in the last four games he has scored 70

points and has an average of 11.7 points a game for the 8 games he has seen action in. He also has the best field goal shooting average, hitting on 53 percent of his shots.

De Witz broke into the starting lineup in the final game of the tournament against Oklahoma. He is the low scorer on the starting

**A MENACE TO THE CATS**—Dallas Dobbs, leading scorer for KU this year, was the chief reason for KU defeating the Cats last season in Ahearn field house. He scored 36 points.

five with an average of 7 points a game in 8 games. In the Iowa State game he scored 16 points, second only to Abbott who took scoring honors with 27.

Rounding out the starting lineup for the Cats is Dick Stone, 6-3 senior forward, and Pachin Vicens, 5-8 junior guard. Stone leads the Cats in shooting percentage from the freethrow line with a 75 percent average. He has a 10.9 point per game average and is second to Parr in rebounds with a total of 72.

Vicens ranks second in team scoring with a 12.4 point average, and despite his height of 5-8 he ranks behind only Parr and Stone in rebounds with 69. He led the team in scoring in three games and was tied for high in another.

Coach Allen also starts a lineup with four men standing six foot

or better. The only starter that is under the six foot mark is Dallas Dobbs, 5-11 guard. His other probable starters are Lee Green, 6-5, and Gene Elstun, 6-3, at forwards, Lew Johnson, 6-6 1/2 at center, an dMaurice King, 6-2 at guard.

In last season's game played in Ahearn fieldhouse Dobbs went on a scoring spree and netted 36 points. This was the most number of points ever scored by a KU player against the Cats. He leads KU in scoring with a total of 193 points or an average of 15.2 points a game.

Green is low scorer on the starting five for KU but his 6-5 height gives them added strength in the rebounding department. His game shooting average is 3.3 points. Elstun, the other forward carries a 11.6 game average and also adds strength to their rebounding. He has grabbed 76 in 12 games.

Johnson, after a season behind Bill Brainard at the center post, has taken over the position and is rolling along at a 10 point game average. He leads in rebounding with 117 grabs.

King is another newcomer to the KU lineup this season and is their second leading scorer with an average of 12.6 points a game. He also is second in rebounding with 94 grabs.

A win by the Hawks would juggle the standings of the conference and put them in a position to edge closer to the top. They could not take over first place as Missouri plays Colorado Saturday night and neither of them have been defeated in loop lay. They would be tied with the Wildcats with a 2-1 record.

Should the Wildcats win the game they would increase their league lead with their third win without a defeat. At the same time the ywould break the six game winning streak which the Hawks now hold over them.

The game is scheduled to start at 7:35 with broadcast time at 7:30. Four radio stations will carry the game over the K-State Sports network. They are: WIBW Topeka, KSAL Salina, KWHK Hutchinson, and KGGF Coffeyville.

## Dons Would Tie Record With Victory Over Fresno

By UNITED PRESS

This is the night when San Francisco's national basketball champions will probably equal the all-time major-college record of 39 straight victories.

The awesome Dons will turn the trick, everybody is certain, by walloping outclassed Fresno State in San Francisco. Even Long Island university, co-holder of the record, is sure that the champions will win this big one.

The target is the record of 39 straight set by Long Island in 1935-36 and tied by Seton Hall in 1940-41. If the Dons tie the mark tonight, they must take time out for mid-year exams before

they try to set a new standard by beating dangerous California on January 28. The Dons' streak includes 26 wins last year and, 12 this year.

### ADVENTURES IN SOCIAL SCIENCE: NO. 2

Doff your caps and bells; there will be no fun and games this day. Today, with earnestness and sobriety, we make the second of our forays into social science. Today we take up the most basic of all the social sciences—sociology itself.

Sociology teaches us that man is a social animal. It is not his instincts or his heredity that determine his conduct; it is his environment. This fact is vividly borne out when one considers any of the several cases of children who were raised by wild animals. Take, for example, the dossier on Julio Sigafos.

Julio, abandoned as an infant in a dark wood near Cleveland, was adopted by a pack of wild dogs and reared as one of their own. When Julio was found by a hunter at the age of twelve, the poor child was more canine than human. He ran on all fours, barked and growled, ate raw meat, lapped water with his tongue, and could neither speak nor understand one single word. In short, he was a complete product of his environment.

... He was a complete product of his environment...

(Julio, incidentally, was more fortunate than most wild children. They never become truly humanized, but Julio was exceptional. Bit by bit, he began to talk and walk and eat and drink as people do. His long dormant mental processes, when awakened at last, turned out to be remarkably acute. In fact, he was so bright that he learned to read and write in a month, got through grammar school in five years and high school in two. And last June, as thousands of spectators, knowing Julio's tragic background, stood and cheered, he was graduated valedictorian from Cal Tech with a degree in astrophysics!)

(Who can say to what towering heights this incredible boy would have risen had he not been killed the day after commencement while chasing a car?)

But I digress. To return to sociology, people tend to gather in groups—a tendency that began, as we all know, with the introduction of Philip Morris Cigarettes. What an aid to sociability they are! How benignly one looks upon his fellows after a puff of Philip Morris's gentle, pleasant, flavorful tobacco! How eager it makes one to share, to communicate, to extend the hand of friendship! How grateful we all are to Philip Morris for making possible this togetherness! How good not to live in the bleak pre-Philip Morris world, with every man a stranger!

The groups that people live in today (thanks to Philip Morris) vary widely in their customs. What is perfectly acceptable in one society may be outlandish in another. Take, for instance, the case of Ug Poopoomoogoo.

Ug, a Polynesian lad, grew up in an idyllic South Sea isle where the leading social event of the year was the feast of Max, the sun god. A quaint all-day ceremony was held, with tribal dancing, war chants, fat lady races, pie eating contests, and, for the grand finale, the sacrifice of two dozen maidens.

According to Ug's folkways, sacrificing maidens was quite acceptable, but when in his eighteenth year he was sent as an exchange student to the University of Wisconsin, he soon learned that Americans take a dim view of this practice—in Wisconsin, at any rate. The first twelve or thirteen maidens Ug sacrificed, he was let off with a warning. When, however, he persisted, drastic measures were taken—he was de-pledged by his fraternity. A broken man, Ug quit school and moved to Milwaukee where today he earns a meagre living as a stein.

# Journalists To Edit Topeka Capital

K-State journalists will go to Topeka January 28 to edit the Topeka Daily Capital for the Kansas Day edition, January 29. This has been an annual affair for the past 34 years.

Named to the editorial staff by the technical journalism faculty are Robert Coughlin, TJ Sr, editorial page editor; Darrel Miller, TJ Jr, recently selected as editor of the spring Collegian, city edi-

tor; Gaye Fryer, HEJ Jr, state editor; George Vohs, TJ Jr, sports editor; and Beverly Sargent, HEJ Sr, society and women's page editor.

The journalism faculty invited 26 others to assist in publication. They are Joan Albers, TJ Soph; Malcolm Coldwell, AgJ Sr; John Costello, TJ Sr;

## Union's Opening To Be End Of 15-Year Student Dream

(This is the last in a series of feature stories about the nearly-completed Student Union.)

By PAUL JONES

Ideas for a student union building for Kansas State, instigated near 15 years ago, will be realized within a couple of months with the opening of the new \$1,650,000 building.

The citadel of social activity will provide a student hangout called the "Dive"; an area for offices of college and student organizations; cafeteria, banquet rooms and food service; a games area to house billiards, bowling, and ping pong; a culture center with music, art, literature and theatre rooms; and a grand ballroom.

Plans for the building began in 1941 when it was decided that a portion of student fees each semester would go toward the building. Several years ago about a third of the necessary amount had been collected and a bond issue for a million dollars was floated to get the construction under way. Actual construction started in April of 1953.

Loren Kottner, Union director, said that by charging each student \$7.50 a semester for the building fund it is expected that in 20 years the bond issue will be paid off. He added that with an increase in enrollment above expectations the issue could be retired sooner.

Approximately 50 full time employees and 150 students will be employed in the building on a part time basis. Head members of the Union staff include: Kottner; Bob Alexander, Union Program director; Jack Lockett, food service director; Verlyn Richards, accountant; Frank MacCreary, games director and night manager; and Clarence Shandy, building engineer.

General contractor for the building is the O. D. Milligan

Construction company of Manhattan, mechanical contractor is Powell Brothers of Manhattan, and electrical contractor, Williamson Electric of Manhattan. Ken White of New Jersey is in charge of interior decorations.

The building will house some 110,000 square feet of floor space in three floors in the west half and four in the east. All but the fourth floor will be used when the building opens, and four janitors will be required to keep them clean.

Hours for the building will be

7 a.m. to 10:30 p.m. from Sunday to Thursday, inclusive, and 7 a.m. to 12:30 a.m. on Fridays and Saturdays.

Types of flooring include cork, wood, plastic tile, asphalt, rubber, quarry tile, glazed tile, linoleum and cement, Kottner said. Hand-picked furniture will give an air of color to the building.

Five dollars will be taken from student fees each semester for operating funds for the Union. Students started paying the operating fee this fall.

## Proper Ironing Techniques May Help Wife's Humor

By JEANICE BLAUER

Because ironing is a regular and tiring job, women who try to improve their methods will not only save time and energy but probably dispositions also, ac-

cording to Mrs. Ethel Self, Extension home management specialist. A proper mental attitude can certainly make ironing easier, she says.

Wives can now iron their husband's shirts in 4½ minutes each, if they'll practice the method advocated by the Extension service.

College student wives say this would cut their present shirt ironing time about two-thirds.

This method was developed from a study of ironing methods of 400 women.

"It has to be practiced," warns Mrs. Self, "a women cannot expect to iron the first shirt she tries by this method in 4½ minutes." Details of this technique are in a bulletin that can be obtained free from Mrs. Self in Extension.

A comfortable chair, preferably with castors, that fits the back and is the correct height is best to use for ironing. A woman can prevent backaches by organizing the ironing center to cut out walking and reaching.

Other ironing helps are feather-weight irons, adjustable boards, and a wide board that can be fastened to the top of a regular board for flat pieces and even for shirts.

When buying shirts be sure to look for construction features that do not hinder ironing, Mrs. Self advises.

## Chicken Pickers Win Top Honors

Top winners in the open poultry contest recently are Bill Brethour, AEd Soph, winner of the \$10 senior division award, and Glenn Hartke, PrV Soph, winner of the \$15 junior division prize.

The announcements were made Wednesday at the annual Poultry Science club banquet in Thompson hall.

Second place in the senior division went to David Mugler, AEd Soph, who won \$7. Nelson Galle, AEd Jr, received the \$5 third place award; Dale Tindell, PH Sr, \$4 for fourth; and Christian Obl, PH Sr, \$2 for fifth.

In the junior division, which included over 100 entries, Richard Strets, AEd Fr, received \$10 for second place; Loy Reinhardt, BA Fr, \$6 for third; Don Seibel, PrV Soph, \$5 for fourth; and Jerome Regier, PrV Soph, \$4 for fifth.

Smaller awards totalling almost \$50 were made to others who placed below fifth in the divisions.

## Reviews Laud Second Edition Of Medlin Text

"A must" for yearbook editors and advisers—National Publisher.

"Authoritative and practical, covering every phase of yearbook production"—High School Journalist.

These things and more reviewers are saying about the second edition of "School Yearbook Editing and Management," which is just off the press, written by C. J. Medlin, graduate manager of student publications.

The book contains more than 200 drawings and illustrations, with sample pages from 22 high school and college annuals.

A number of the pictures in the publication are from the 1955 Royal Purple, K-State annual, which Medlin has guided to an All-American rating for 20 consecutive years.

# Friday 13 Holds Little Fear For Black-Cat 'Specialist'

ALAN VIANA has triple trouble today. It's Friday the 13th, his lab project is a black cat, and leap year brings out the females in droves. Of the three hazards, it would appear the latter holds fewer fears for Alan.

By ROGER MYERS

And you think you have it bad. Consider the case of Alan Viani, TA Jr, who was born on January 13. Add the black cat he's working on in zoology lab and top it off with proposals of marriage from leap year crazy gals and one comes up feeling real sorry for such a poor lad.

"Having my birthday fall on Friday the 13th doesn't bother me in the slightest," Alan said. "Fact is, I'm proud that my birthday is on the 13th. At least it's different."

During his 20 years Alan has had four birthdays fall on Friday 13th. "Nothing disastrous has ever happened to me on my birthday," he said, "just little things that weren't serious."

"Of course, I've never been working on a black cat when Friday the 13th has popped up and I don't know what will happen," he said. "I won't be able to rest easy until the day is over though."

Alan gets quite a bit of ribbing from friends because of the date on his birthday. "Friday 13th would be normal for me except for my roommates," Alan said. "They had threatened to do something to me but this picture came as a complete surprise," he said. "I was plenty embarrassed when the girls started to propose to me." (The Collegian got a tip from Alan's pesky roommates and posed the picture with the victim.)

Black cats, walking under ladders, and other Friday 13 dreads don't bother Alan. "I'm not superstitious at all," he said. "But with all these things happening to me I'm not so sure anymore."

Alan's advice to other people who have birthdays on the 13th is to watch their step.

## 12 Staters To Debate Meet At William Jewell College

Twelve debaters will go to William Jewell college in Liberty, Mo., Saturday to compete in a one-day debate tournament.

Competing will be Tom Bowman, ChE Soph; Bunny Cowan, Psy Soph; Ray North, PrL Soph; Jim Shane, Hst Soph; Anita Grimm, TJ Soph; Nancy Porter, Sp Soph; and Robert Paulson, ChE Fr.

Calvin Adams, AgE Soph, Ed McCoy, PrL Soph; Ron Garlow, EE Fr; Larry McDonald, ME Soph; and Kay Eplee, Clo Fr.

Accompanying the debaters and acting as critic judges at the tournament will be Charles Goetzinger, forensics director, Caroline Drummond, instructor in speech, and Gerry Day, VM Sr.

**IFYE DELEGATES** are (girls, left to right) Rosa Larson, Virginia Devinish, and Ardella Rusk. Boys are Jim Withers (left) and Nelson Galle. Jim Hundley and Darrel Gale were not available for the picture.

## IFYE Group Receives Foreign Appointments

Seven K-Staters have been tentatively assigned countries they will visit as International Farm Youth Exchange delegates.

Students and their assignments are Virginia Devinish, HDA Jr, Germany; Rosa Larson, FdN Sr, Brazil; Ardella Rusk, HE Sr, Denmark; Jim Hundley, AEd Jr, Netherlands; Jim Withers, AgE Soph, Scotland; Darrel Gale, AH Sr, Nicaragua; and Nelson Galle, AEd Jr, Turkey.

Assignments were made by the National 4-H foundation, Washington, D.C. They are for the fall, winter, and summer phases of the program.

Called the IFYE program, this exchange of young people of the United States and 40 other countries is designed to promote world understanding and peace through cultural means. Delegates live and work on farms in the country they choose to visit for 5 months.

They learn about the country, its people, and their way of living. Upon returning to the United States, they will present illustrated talks to explain their experiences while abroad.

Delegates home countries

## Gerritz Mails Instructions For Seniors

Information and instructions concerning commencement exercises are now being mailed to graduating seniors by E. M. Gerritz, registrar.

Each degree candidate should inquire at the College Post Office often between now and commencement for these initial and any subsequent instructions, Gerritz said.

Commencement exercises are scheduled for 10 a.m., January 28, in the Auditorium.

## Student Health

One boy and two girls are patients in the Student Health hospital today. The boy is William Jones and the girls are Paula Pangburn and Karen Binns.

give financial support to the applicants who obtain approval from their county extension agents before applying for the program.

Since 1948, 61 Kansas youths have gone abroad in this two-way exchange of grassroots ambassadors. Of these, 4 have been K-Staters.

## Debaters Tie For Top Place In Tourney

Two K-State debaters tied for first place in the junior division of a debate tournament held on the campus of William Jewell college Saturday.

Ed McCoy, PrL Soph, and Ron Garlow, EE Fr, scored four wins to gain the tie in the one-day tournament at Liberty, Missouri.

Other K-State debaters who competed were Tom Bowman, ChE Soph, and Bunny Cowan, Psy Soph, 2 wins and 2 losses; Ray North, PrL Soph, and Jim Shane, Hst Soph, 2 wins and 2 losses; Ani taGrimm, TJ Soph, and Nancy Porter, Sp. Soph, 2 wins and 2 losses; Robert Paulson, ChE Fr, and Calvin Adams, AgE Soph, 2 wins and 2 losses, and Larry McDonald, ME Soph, and Kay Eplee, Clo Fr, 4 losses.

Forensics director Charles Goetzinger, Caroline Drummond, instructor in speech, and Gerry Day, VM Sr, accompanied the debaters and acted as critic judges at the tournament.

## UGB Members Attend Conference

Eight representatives from K-State attended the Regional Union conference on the campus of Pittsburg State Teachers college Friday and Saturday, January 13 and 14. The purpose of the conference was to exchange ideas and discuss methods of program improvement of college unions.

Representing the Union Governing Board, program council members who attended were Ed Gillette, VM Sr; Delaine Smith, HEA Sr; Keith Swenson, ArE Soph, Conrad Smith, Hst Sr; Roger Tointon, LDs Jr; and Gary Rumsey, AEd Soph.

Student Union director Loren Kottner and Union program director Bob Alexander accompanied the group.

### McCain Says

## Outlook 'Favorable' As Politicos Discuss New Student Health

The outlook is "favorable" on K-State's proposed new Student Health clinic and hospital, President McCain said.

There was a misunderstanding between state health board officials and the college that almost caused the appropriation for the new hospital to be left out of the

1956-57 budget, McCain said.

"The state hospital council originally recommended to the Legislature that we contract hospital services locally, and maintain a clinic in the present Student Health building," McCain said.

"After we explained that the

contract for hospital facilities would use money that could be put into the new hospital, the council reversed its recommendation," he added.

After a recent inspection, the hospital facility division of the Kansas Board of Health condemned the hospital portion of K-State's present Student Health center.

"At one time it was recommended that K-State contract all their Student Health services out, but this idea did not gain much favor here or at the Legislature," McCain said.

The new hospital is a \$350 thousand item in K-State's 1956-57 budget that is being discussed by the first budget session of Kansas' Legislature.

## Dean Myers Takes Job At Arizona

Dr. Harold E. Myers, acting director of the experiment station, will assume the duties of dean of agriculture at the University of Arizona, Richard A. Harvill, Arizona president, announced Saturday.

Myers will take over his new duties in about six weeks, Harvill's announcement said.

Dr. A. D. Weber, dean of agriculture, said that Myers "has con-

## Extra Graduation Invites Available

A few extra graduation invitations are still left and may be purchased in Kedzie 101. Students who have ordered invitations are asked to pick them up immediately.

## Extension Moves To Umberger Hall

The College extension division will probably be settled in its new building by Wednesday, reports Building and Repair labor foreman, George Tracey.

Extension personnel, previously housed in the barracks west of Waters hall, are now in the new Umberger hall,

located on the north side of the campus.

Workmen have taken eight truck loads of office furniture from the barracks to Umberger hall each day for 12 days, Tracey said. Each piece of furniture was marked with its room number in the new building. This kept confusion and errors at a minimum, Tracey said.

More than 300 articles of office furniture have been arranged according to floor plans provided, Tracey continued. Of course, as one workman said, several rooms have been rearranged according to the secretary's plans.

The staff's work has been interrupted very little. Most began working in their new offices as soon as desk, chair, and typewriter were provided.

Executives and secretaries are still getting acquainted to the amount of storage space and other conveniences never before available.

Extension workers feel mostly relief as a result of the move. All agree it's good to have the space and lighting provided in the new building. Also available are Williams auditorium, six conference rooms, and two large demonstration rooms.

Offices and storage rooms make up the rest of the three-floor building.

## Livestock Judgers Take Top Honors At Denver Meet

The K-State team took first place honors in the National Western Livestock judging contest at Denver over the weekend, out of a field of 15 teams.

The team as a whole finished first in sheep, cattle, and hogs, and third in carload judging.

James Flanders AH Jr, was high man in over-all individual judging, while Arthur Armbrust, Ag Jr, took second in individual honors. John Brink, AH Jr, was sixth high in judging all classes.

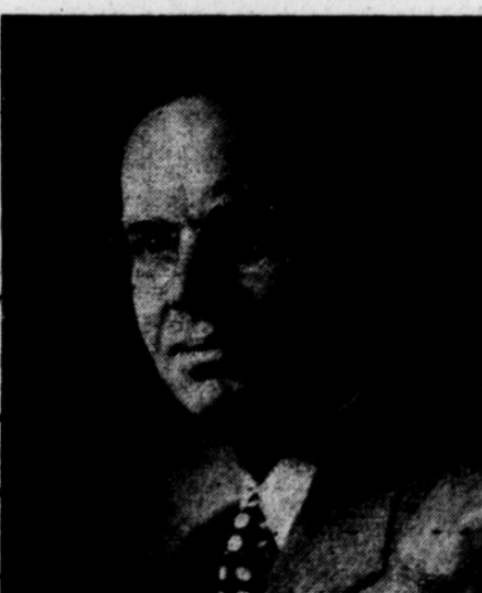

Oklahoma Panhandle and Texas Tech finished behind K-State in that order.

By events, Flanders was second in cattle and fifth in hogs. Armbrust was fourth in cattle, fourth in hogs, and Charles Miksch, Agr Jr, was second in sheep.

Coach of the team, which returns Tuesday, is Don Good.

The wool team finished sixth out of ten teams and George Atkeson, DH Sr, was sixth high individual in wool judging.

Awards were made to the teams and individuals at the contest banquet last night.

Dr. Harold E. Myers

tributed immeasurably to Kansas agriculture and to the local academic and research programs of this institution."

"I have watched with pride his development since he was a top student in one of my freshman classes," Weber said. "His leaving is a real personal loss to me. But our loss is Arizona's gain. He goes with the best wishes of all his colleagues at K-State."

McCain lauded Myers and described him as "one of the most able and valuable members of the staff. He is regarded with the greatest of respect and affection not only by his colleagues at the College but by the thousands of Kansas farmers he has served so effectively. He has already achieved stature as a national leader in agriculture. It is safe to predict that in his new position he will continue to enjoy outstanding success."

## Fifty Greeks, Five Independents On Student Council Committees

'Twas ABOUT A WEEK ago when a Student Council member took exception to a Collegian news article quoting him in regards to discussing a candidate's qualifications for a position on the Union Governing Board.

The Council member said, "X is one of my frat brothers, and I guess I should say something." That feeling has prevailed among Council members for several years, and is reflected in the Council's appointments to committees.

Here's the way appointments by the Council stack up this year. Information was taken from SGA files.

GREEKS NAMED to committees, 50; independents named to committees, 5.

Doesn't speak very well for the independents, does it?

Greek organizations and the number of appointments for each are Pi Beta Phi, 4; Kappa Kappa Gamma, 5; Alpha Gamma Rho, 4; Beta Theta Pi, 5; Sigma Alpha Epsilon, 2; Sigma Chi, 5; Clovia, 1; Delta Delta Delta, 8; Delta Tau Delta, 6; Alpha Xi Delta, 4; Alpha Delta Pi, 2; Phi Delta Theta, 2; Chi Omega, 1; Lambda Chi Alpha, 1.

EVEN THOUGH a great majority of Council appointments are Greeks, the appointees are from only 14 of K-State's 31 Greek houses. Thirty-seven of the Greek appointees are from Pi Beta Phi, Kappa Kappa Gamma, Alpha Gamma Rho, Beta Theta Pi, Delta Tau Delta, Delta Delta Delta, and Sigma Chi.

On the Council itself, are one Pi Phi, no Kappas, two AGRs, three Betas, no Deltas, one Tri-Delt, and two Sigma Chis. SGA president Gerry Day is a Delt. Also represented on the Council are Alpha Chi Omega, Farm House, Delta Sigma Phi, and Lambda Chi Alpha, leaving two student independent members.

So-called political leaders around the campus are always gunching about the apathy of students toward student government. It might not be apathy—it might only be disgust after a futile struggle to break into student government circles by means of a committee appointment.

UNDER THE GUISE of soliciting applications for Council committees, the SGA pretends to arouse interest in student government. But when it comes appointing time, the application cards are oft times forgotten, and sorority sisters and frat brothers wind up with the positions.

This is representative government?

The same method of appointing members to committees probably will be used years and years hence unless something is done at the polls. Independents should get on the ball and have organized politics if they're interested. If they're not interested, the Greeks won't care.

Next spring, when a political aspirant tells you he's interested in representative government, ask him what frat he's representing.—Gary Swanson.

## Don't Come Knockin' at Our Door

KU GAMES may come, and KU games may go, but the old K-State tradition remains—the Field House doors never open until 6 p.m.

Why?

Hundreds of students waited patiently or impatiently Saturday night for a long time before the gates opened. The first student arrived shortly after 2:30 p.m., and he was joined by many before the 6 o'clock "zero hour." And it was cold.

Why couldn't the doors be opened at 5 p.m. or sooner so those who wanted to come early could go inside and spend their waiting period where it was warm? The main reason probably is because nobody thought of it.

It might be well if a Student Council committee could look into such matters which, though small in themselves, are tremendously important to cold, shivering students. The situation is nothing new and it'll recur next year unless somebody thinks about it ahead of time.

OPENING THE DOORS at 5 p.m. would necessitate paying an extra hour's wage to several ticket punchers. But if students could get into the field house earlier they'd probably buy enough extra hot dogs, etc., to pay those wages. As another possibility, I'm sure most students would gladly chip in a few cents for wages if they could get in out of the cold.

To make matters worse for those shivering in line, the Purple Pepsters, Whi-purs, and Wampus Cats were allowed to go into the Field House at 5:40 p.m.

I'm not begrudging the pepsters a little heat—I just hope they didn't have any trouble getting a good seat.—Gary Swanson.

P.S.—The (Ho-Ho) "Peace Pact" presentation was delightful, wasn't it?

## Eisenhower, Hall Face Tax Woes

### State Legislators Balk As Hall Asks Increase

TOPEKA (U.P.)—Legislative leaders are hopeful that the 3-day recess in the Kansas budget session gave lawmakers a chance to test sentiment in their home districts on the controversial budget proposals facing them.

Both houses convene today to go to work in earnest on appropriation and tax matters. At the end of the first week, few legislators were willing to accept Gov. Fred Hall's thesis that more tax revenue was necessary.

The governor submitted a budget calling for expenditures of 262.9 million dollars during the next fiscal year. This figure was about 9.6 million dollars above estimated tax receipts—at current levels—for the same period.

The governor proposed boosting state income tax by 50 per cent to make up the major part of this deficit.

With that end in mind, Hall ordered the bill-drafting department to prepare legislation carrying out his budget recommendations. He was uncertain, however, of how to place the bills before the Legislature.

A BTTER STORM of criticism followed his message. Opposition to raising taxes in a year of declining farm income came from all sectors of the political scene.

Toughest reactions were those of Sen. Paul Wunach and Rep. Howard Bentley. Both are Republican political foes of the governor, and both used strong language in denouncing the budget. Other legislators were less outspoken, but equally determined, that no new taxes would be added until they had undergone close scrutiny.

Minority Democrats, meanwhile, considered their position the best in recent years. Thirty-six Democrat House members will hold the balance of power in any outright fight between the anti- and pro-Hall Republican forces.

The Democrats already have designed their strategy—hold the line against all new taxes, and put every move of the majority under rigid inspection. They think they'll be able to tell the voters next fall that they alone were responsible for no additional state taxes this year.

GOVERNOR HALL insisted his budget does not call for new taxes. He said it broadens the base of existing taxes, and makes long-overdue adjustments in others.

But Hall was having a hard time convincing even his friends that a 50 per cent hike in the income tax was only an "adjustment."

Some persons thought Hall made a tactical error in his budget message when he admitted that existing taxes would cover all requested appropriations in his budget. He added, however, that the state's cash balance would be precariously low unless additional revenues were provided to make up the deficit.

There was a considerable body of opinion that perhaps any new taxes under these circumstances might be subject to court test. This argument took into account the limitations set on the session—to consider budget matters only.

### No Tax Cut Planned In President's Budget

WASHINGTON (U.P.)—President Eisenhower laid a balanced black-ink budget before Congress today—but held back on tax cuts.

He proposed to spend 65.9 billion dollars in fiscal 1957 to protect peace with "the greatest military power in our peacetime history," and to foster steady growth and wider sharing of "our unprecedented prosperity."

The spending figure was up 1.6 billion dollars over the current year, with most of the increase earmarked for air power, atomic weapons, and guided missiles.

Federal revenues were estimated to rise even faster under the impact of a booming economy—from 64.5 billion dollars this year to 66.3 billion dollars in fiscal 1957, which begins next July 1.

That means a budget surplus of 400 million dollars for 1957. Eisenhower said revised figures for the current year show there will be a surplus of 200 million dollars on June 30.

HE RENEWED his opposition to a tax cut now. He said the prospective surpluses are too "slim" to permit tax relief, and should be applied to reducing the national debt, now 279 billion dollars.

He didn't explicitly rule out the possibility of a tax reduction before the end of the year, should the surplus jump.

That could happen if—as some private fiscal experts believe—the administration were super-cautious in its revenue estimates and the government's actual income proves to be considerably larger than Eisenhower's forecast.

On the other hand, the surplus estimate could prove to be optimistic in some respects. It was based on the assumption that Congress would increase postal rates by 350 million dollars—an uncertain prospect.

This budget is the first balanced budget submitted to Congress since January of 1947.

At that time, then-President Truman presented his budget for fiscal 1948, showing an expected surplus of 200 million dollars. The government ended fiscal 1948 with a whopping 8.4-billion-dollar surplus.

TRUMAN'S BUDGET for fiscal 1951, as presented to Congress, forecast a deficit of 5.1 billion dollars. But, partly as a result of sharp spending cuts by the Republican-controlled 80th Congress, the government showed a surplus of 3.5 billion dollars that year.

Fiscal 1951 was the last year in which there was a surplus.

The budget at a glance:

- Tax Cut—Zero.
- Spending—65.9 billion dollars, up 1.6 billion; defense and atomic energy account for most of the increase.
- Revenues—66.3 billion dollars up 1.8 billion "as a result of our present unprecedented prosperity."
- Surplus—400 million dollars to be applied toward reducing national debt.
- Big Items—National security programs (defense, foreign aid, atomic energy) will cost 40.4 billion, or 64 per cent of total budget. Interest on the national debt will take 7 billion, or 11 per cent. Other big items are veterans' benefits, 4.9 billion; farm programs, 3.4 billion; domestic welfare programs, including school aid, 3 billion.

## New 5-Year Plan for Soviet Russia

MOSCOW, (U.P.)—An optimistic new Soviet 5-year plan announced yesterday reveals a vast program in which Russia hopes to surpass the industrial output of the United States while raising living standards.

The 5-year plan, sixth to be announced since the Russian revolution, calls for a great industrial revolution with the use of atomic power and envisages a "new mighty advance."

PARIS—Guy Mollet, leader of the French Socialist party, emerged today from the jungle of French politics as the most likely candidate to be France's next premier in an alliance with Pierre Mendes-France.

WASHINGTON—The first big issue of the election-year Congress went before the Senate today for formal debate—a bill to exempt independent natural gas producers from direct federal control. The big point of controversy is whether the bill would have any effect on the pocket-

books of the nation's 30 million gas consumers.

CAIRO—Premier Gamal Abdel Nasser proclaims today a new constitution for Egypt that signals the official end of military government and the beginning of parliamentary rule. It is a day of nationwide celebration, and thousands of persons streamed into Cairo to hear the 37-year-old Nasser read the proclamation at a mammoth rally.

SAN FRANCISCO—Mud-smeared levee workers sloshed across the spongy top of the repaired dike at Yuba City today in belief they had saved the city from a second inundation by the Feather river.

Yuba City, however, still remained the critical situation in the Northern California flood disaster area.

All the coastal streams that had gone over their banks and driven thousands from their homes over the weekend were reported falling today. The crisis passed when the 48-hour storm

that began last Friday came to an end yesterday afternoon.

For a time, the storm had threatened to duplicate the Christmas week disaster when floods resulted in 75 deaths and more than \$175,000,000 property damage. Although the storm had passed, constant vigilance had to be maintained at Yuba City.

# Matmen Win Second Meet, Host Colorado State Friday

The K-State wrestlers will try for their third win of the season Friday night when they meet Colorado State of Greeley in Ahearn fieldhouse. Last Friday night the wrestlers won their second meet of the season when they downed the University of Minnesota wrestling team 17-13.

Each team won one match by a pin and Minnesota gained a win by a forfeit brought about by an injury.

Bob Mancuso gained the only pin for K-State as he pinned John Ross in 6:35 minutes. Minnesota's heavyweight, Dave Herbold, pinned Ellis Rainsberger in 4:12.

Minnesota gained five points in the 147 pound class when James Linnell forfeited to Don Meyers. The match was stopped after Linnell suffered a rib injury with 5:55 minutes gone.

An unusual feature in the match was the wrestling of Ross of Minnesota in the 137 pound class. Ross is blind and fights entirely by hearing his opponent. However, once contact was made this lack of sight is not noticeable.

Summary of the match:  
123 pound—Landholm (KS) decisioned Prunty (MU) 3-1.  
130 pound—Anderson (MU) decisioned Mines (KS) 6-5.  
137 pound—Mancuso (KS) pinned Ross (MU) 6:35.  
147 pound—Meyer (MU) won by forfeit over Linnell (KS) 5:55.  
157 pound—Alexander (KS) decisioned Baker (MU) 4-3.  
167 pound—Glaze (KS) decisioned Burgeson (MU) 2-1.  
177 pound—Haller (KS) decisioned Hardle (MU) 13-11.  
Heavyweight—Herbold (MU) pinned Rainsberger (KS) 4:12.

## Buffaloes Lead In Big-7 Race For Cage Title

Kansas City, Mo., Jan. 16 (U.P.)—Colorado, surprise victor over Missouri last weekend, was out in the lead in the Big Seven conference race today and figured to stay right there through another week.

Only five games are on tap this week, four of them conference affairs. Missouri is at Nebraska tonight and then hosts Kansas State Saturday night. A double win plus a Colorado loss to Nebraska Saturday night could put Missouri on top. Iowa State is at Kansas tonight and hosts Drake Friday night for the other games.

Colorado showed signs of repeating last season's rise from obscurity by whipping Missouri on strategy and steadiness, 79-72.

Forward Mel Coffman held Missouri guard Norm Stewart to 15 points for the win, and the Tigers had to count on Lionel Smith for points, 27.

Iowa State, back on track after the K-State loss, downed Oklahoma 58-55 on a 20-point production by little Gary Thompson.

Now Playing!

WAREHAM

**LOOK NO HEAD**—That is the position Ellis Rainsberger, K-State heavyweight wrestler, is in at this point of his match with Dave Herbold, Minnesota-heavyweight. Rainsberger later found out that he could not get ahead as Herbold pinned him in 4:12.

## Pro Cagers Meet in KC

Kansas City, Mo., Jan. 16 (U.P.)—Big Clyde Lovellette, former all-American at the University of Kansas, returns to his home area for a professional basketball game between the St. Louis Hawks and Minneapolis Lakers at the Municipal auditorium here tomorrow night.

The game will feature Lovellette against Bob Pettit, former all-

American at Louisiana State university.

Another "big name" player, George Mikan, will be in the Laker lineup. Mikan came out of retirement only Saturday night against the Fort Wayne Pistons and scored 11 points.

Mikan drew a crowd of 7,122 at Minneapolis, the largest National Basketball Association crowd there in two years. Lovellette got 22 points in that game.

## Husker Gymnasts Beat Wildcats 77-35

The University of Nebraska gymnastics team scored a 77-35 win over the K-State gym team here Saturday as Bruce Riley of the Huskers took first place in 5 events, second place in 1 event, third place in 1 event.

Riley won first place in tumbling, side horse, free exercise, hi-bars, and parallel bars. His second place finish was in the flying rings and the third place finish was in the trampoline.

In the seven event meet Nebraska completed the sweep with first place wins by Ervin Kirst in the trampoline and Wayne Strickler in the flying rings.

Wendell Holt led the K-State scorers with second place finishes in the free exercises, trampoline, and tumbling. He also registered third place finishes in the hi-bar and parallel bars.

Meet results:

Free exercise—1st, Riley (NU); 2nd, Holt; 3rd, Strickler (NU); 4th, Bumpus; 5th, Kirst (NU).

Trampoline—1st, Kirst (NU); 2nd, Holt; 3rd, Riley (NU); 4th, Strickler (NU); 5th, Bumpus.

Side horse—1st, Riley (NU); 2nd, McDonald (NU); 3rd, Minck-

ley; 4th, Strickler; 5th, Olsen.

Hi-bar—1st, Riley (NU); 2nd, Strickler (NU); 3rd, Holt; 4th, Bumpus; 5th, McDonald (NU).

Parallel bars—1st, Riley (NU); 2nd, Kirst (NU); 3rd, Holt; 4th, Strickler (NU); 5th, Eshelbrenner.

Flying rings—1st, Strickler (NU); 2nd, Riley (NU); 3rd, Kirst (NU); 4th, Minckley; 5th, Bower.

Tumbling—1st, Riley (NU); 2nd, Holt; 3rd, Bumpus; 4th, Kirst (NU); 5th, Gramzow.

# Cagers Set Three Records

KANSAS STATE COLLEGIAN  
Monday, January 16, 1956-4

The Wildcats 91-86 loss to Kansas Saturday night set three new records for Sunflower state play. It was the biggest score by a Kansas team against K-State, the 52 points scored by each team in the second half was the most points in a half in Ahearn field house, and it was Tex Winter's fifth straight loss to Phog Allen.

While the Wildcats were going down to defeat at the hands of KU, Missouri journeyed to Boulder to take on Colorado and came out on the short end of the score 79-72. By virtue of the win, Colorado moved into undisputed first place in the Big Seven conference race.

In the other conference game played Saturday night Iowa State, led by Gary Thompson, won a close game over Oklahoma 58-55. Iowa State now has a 1-1 conference rating while Oklahoma slipped farther into the cellar with 3 defeats without a win.

Here in Manhattan the Wildcats jumped off to a 4-0 lead then after the lead had changed hands several times, KU pulled from a

14-14 tie and were never behind after that time.

KU built up a 15 point lead at one time during the first half when the Wildcats went scoreless for 4½ minutes. Maurice King, KU guard, led the attack during this period as he scored 8 points on four field goals in 1½ minutes. The score was 22-18 when the Wildcats hit their scoring drouth and it was 33-18 before they could find the range again. At that point Jack Parr hit two free throws and the drouth was over.

By the time the half had rolled around the Wildcats had cut the lead to 39-34 as Parr and Hayden Abbott, sophomore forward, led the attack.

When the second half got underway Pachin Vicens and Roy DeWitz each hit 2 points to pull within 1 point at 39-38 then the Cats went into another scoring drouth that lasted for four minutes. By the time they could score again KU held a 50-38 lead.

KU led by from 9 to 12 points through most of the last half and with 8 minutes and 40 seconds left they led the Wildcats by 16 at 68-52.

The Wildcats then began to pull back into the game as Abbott and Fritz Schneider led the scoring to trim the KU lead to 7 points at 78-71.

With about two minutes left KU had again built up their lead to 11 points at 89-78 but a last

minute surge by the Cats cut the margin to 89-82 then scored 4 points, two each by Schneider and Eddie Wallace, to 2 for Dallas Dobbs of KU and the game became another one for the record books at that point.

Abbott led the K-State scoring with 23 points while Parr hit for 18 and grabbed 19 rebounds. The Cats shooting percentage for the night was 31.8 and they grabbed 50 rebounds.

Dobbs led the KU scoring with 24 points and was followed by King with 18. Lew Johnson, KU center, was top rebounder for the Hawks with 13 grabs. The KU team hit 38.7 percent of their shots and had 65 rebounds.

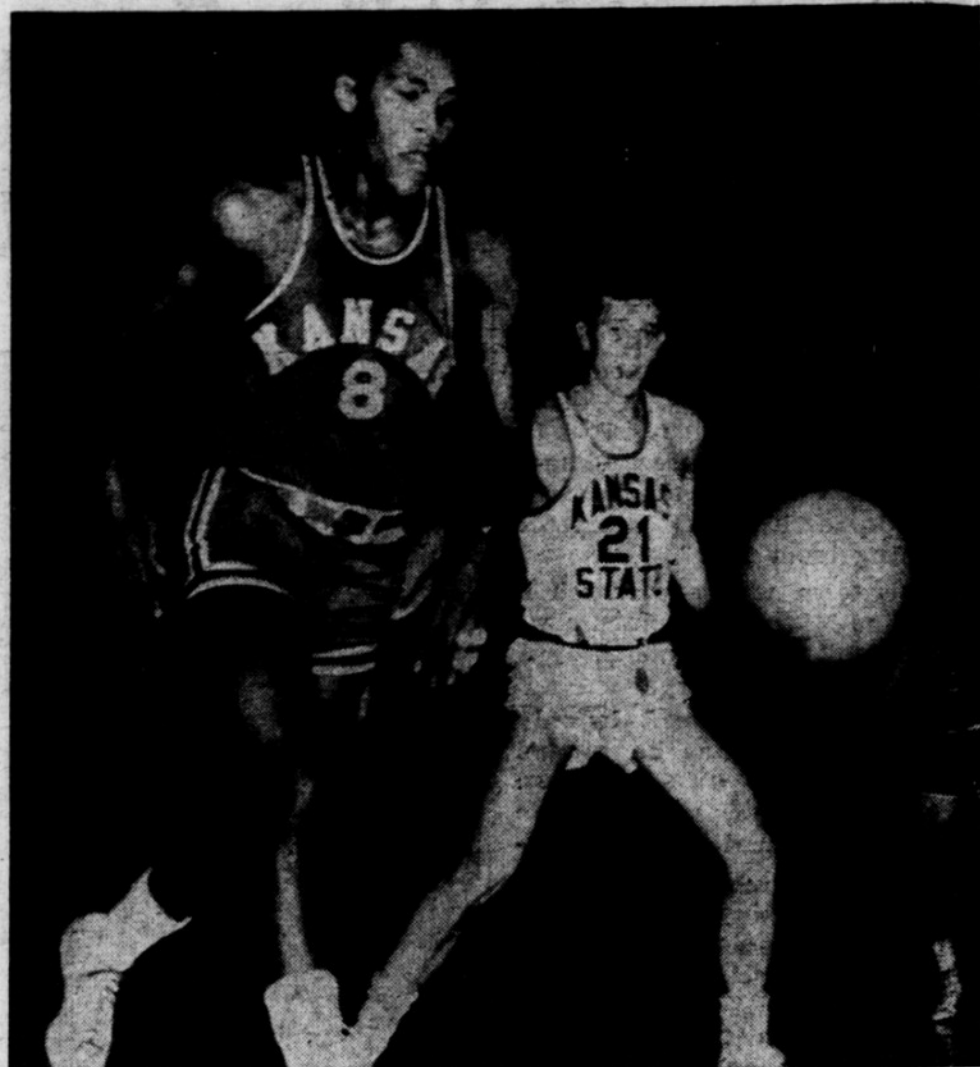

The two teams are scheduled to meet in Allen fieldhouse in Lawrence on March 6.

#### Box score:

K-State	FG	FT	Pts.
Stone	0	0	0
Schneider	4	8	16
Abbott	9	5	23
Powell	2	0	4
Parr	5	8	18
Vicens	5	2	12
Wilson	1	3	5
DeWitz	2	2	6
Wallace	0	2	2
	28	30	86

KU	FG	FT	Pts.
Green	1	3	5
Lockley	1	0	2
Johnson	1	11	13
Cleland	0	0	0
Elkston	4	2	10
Johnson	5	3	13
Brainard	2	2	6
Dobbs	7	10	24
King	8	2	18
	29	33	91

OH NO! Not again!—seems to be the expression on Hayden Abbott's face as Maurice King chases a free ball to give KU offensive possession—again. King was the Hawks' spark in the Saturday game.

# Sticker Instead of 'Donation' In Council's New Traffic Plan

A new traffic system whereby a student would have to purchase a new parking sticker for each traffic ticket he receives was proposed to the Student Council last night by Bonner Staff, Pys Jr, a member of the traffic appeals board.

The new system was submitted after a Council proposal to graduate "contributions" to a park-

ing fund had been turned down by the administration. No action on the new system was taken last night by the Council.

Staff's proposal, backed by President McCain, would re-

Drake declared this in essence seemed like a system of fines.

"Personally, I'll agree with you, but Dr. McCain said he would support this one," Staff replied. He added that A. R. Jones, dean of financial administration, said he felt "rather strongly" that the system should apply to students only, that the faculty worked here and shouldn't be charged to park at their business addresses.

Garry Day, student body president, said that the main difference in the new program from the contribution plan is that the \$2 fee is a "maintenance fee" which Dr. McCain felt the Regents would approve since it was on a steady level. A graduated fee is considered a penalty, Day said.

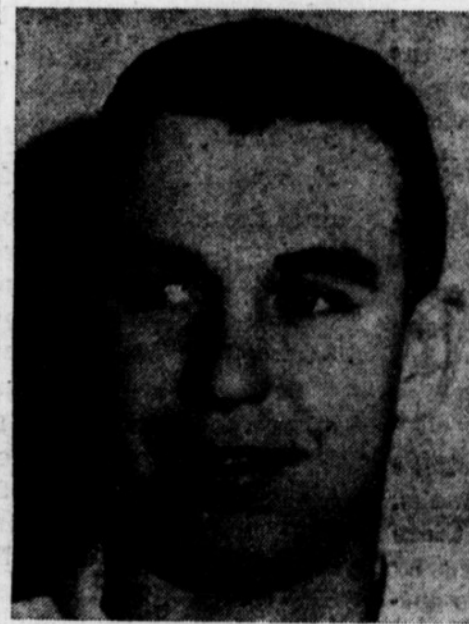

Staff added that the money realized from the registration fees would be used to maintain parking but any excess funds would have to be sent to Topeka at the end of the fiscal year. Legislation would be required to bring the money back to Kansas State.

A resignation by Bill Kennedy, BA Sr, Council treasurer, was accepted.

Don Hunt, AH Sr, was elected to replace Kennedy.

A committee to study having the week before final week free from tests was established by the Council.

Day reported that the Student Council's recommendation to post professor's names with their classes and line numbers had been approved by the Administrative Council of Deans.

Don Hunt

quire all motor vehicles parked or operated on the campus by students and staff members to be registered for a \$2 fee.

A driver would be entitled to seven tickets, however, if he received an eighth he would be subject to dismissal from school.

Appeals would have to be made within 48 hours to the traffic appeals board. All tickets would be assumed valid and the burden of proof would be on the offender, Staff said.

Council chairman Mark

**THE FIRST SNOW** of 1956 blanketed the campus last night. Shown above are the steps leading to the south door of Anderson. The photo was taken by Collegian photographer Elmer Karstensen during the storm last night.

## Union Governing Board

# Date for Union To Open Still Undecided—Kottner

An opening date for the new Student Union has not yet been set, Loren Kottner, Union director, told the Union Governing board last night.

Kottner said that a few details still remain to be settled before an opening date can be determined. He said that he hoped to be able to announce the opening date in the next two weeks.

Kottner told the board that profits from the temporary Student Union will have to be used to provide additional equipment necessary to complete furnishing the Union. This profit, earned over the past two years, amounts to \$13,000.

Additional items necessary are a refrigeration unit for food service, down payment on the bowling alleys, and miscellaneous office fixtures.

The cost of this additional equipment is estimated at \$215,460, Kottner said. The Union already has \$204,000 to spend on this equipment, he said. The \$204,000 comes from \$190,000 income from the construction budget, a \$1,000 gift from Blue

Key, \$266 from the senior class last year, and \$4,500 from Collegiate 4-H.

This amounts to \$12,500 less than the estimate, which could be paid by the temporary Union profits, he said.

Even with this additional money more funds will be needed to provide operating capital during the slack summer months, Kottner said.

He said that if the temporary Union profit should be used for operating capital the Union would have to open without some basic equipment such as a deep freeze unit.

The Union might be able to borrow the necessary money from some other College fund, Kottner said, although this possibility has not been investigated fully.

The board heard a report of a regional Union conference held at Pittsburg, Saturday, from Keith Swenson, ArE Soph, and Ed Gillette, VM Sr, board representatives to the conference.

The K-Staters participated in discussions of programming and organization about what students

want from a college Union program, new ideas for informal parties, and achieving effective representation in Union governing programs.

Swenson said that the program to be established here compares favorably to those at other schools.

Verlyn Richards, BAA Sr, manager of the temporary Union, has been employed as an accountant for the new Union.

The board thanked Doreen Clair, HEJ Sr, for her fine work on the Union Governing board and the social and recreation committee. Doreen, a graduating senior, has been replaced on the board by John Watt, VM Soph.

# Vet Hospital Treats 23,000 In First Year of Operation

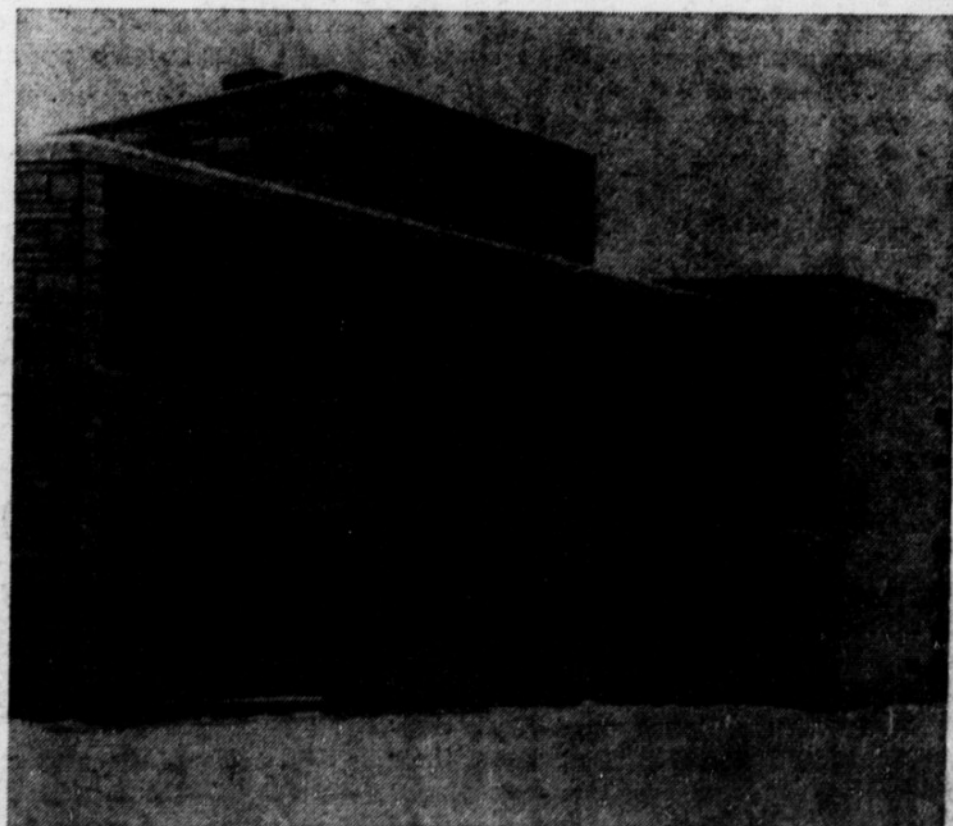

Dykstra Veterinary hospital is now beginning its second year of operation.

During the first year about 23,000 cases passed through the hospital. Of this total 11,000 were ambulatory and 12,000 were hospital cases.

"Shortly after moving into the new building it was filled to capacity and has been full ever since," Edwin J. Frick, head of the surgery and medicine department of the Veterinary Medicine school, said.

"The main objective of the hospital staff is to train students and to provide service for owners of any kind of an animal," Frick said.

A majority of animals treated are farm animals, but many other kinds of animals are also treated, Frick said. Dogs, cats, and parakeets were patients at the hospital last year. Also on the hospitalization list was an alligator, an elephant, and a beaver, Frick added.

Dykstra Veterinary Hospital  
"... 23,000 cases in first year."

# Five Schools Okay Veterans' Petition

A petition, started by K-State Veterans, asking for an increase of GI benefits is being adopted by other colleges, Calvin Glenn, president of the local Veterans group, said.

The local organization sent the petition to 150 colleges in the U.S. and its territories, requesting that they circulate it on their campuses.

Five colleges have responded so far and all are in favor of the plan.

"The idea is catching on fast and I hope to hear from some of the other colleges soon," Glenn said.

Colleges that have adopted the petition and put it in circulation

are the University of Tennessee, North Texas State college, Michigan State Normal college, Western Illinois State college, and Bethany college.

Many of the colleges do not have an organized veterans club but they are placing the petition in the school veterans office, Glenn said.

"The petition here is in the veterans office and can be signed office hours. It will also be available when the Veterans sign for their subsistence pay," he said.

The petition was started here January 9, thus far, approximately 600 Veterans have signed it, he said.

THE NATIONWIDE newsprint shortage has hit most of the country's newspapers, the Collegian included. It has been a nip-and-tuck battle with paper companies the past semester to get enough newsprint to publish daily.

The newsprint shortage might affect publication of the Collegian next semester. Date for our next shipment of newsprint has been set back 60 days.

THIS SEMESTER we've been forced at times to reduce the number of pages in some issues of the Collegian to conserve newsprint. That shortage was revealed more emphatically yesterday when we had to leave out Pogo to get all news in the issue. We have national advertising commitments and the ads have to run on the day specified, so we can't leave out advertising.

One of these days the shortage will be over and everybody will be happy. But that day isn't here yet, so please bear with us.—Gary Swanson.

## And You Thought You Had Trouble

THESE ARE the times that tax men's souls.

Pity those poor fellows who represent Kansans at the Legislature in Topeka and at the Congress in Washington. They have the unenviable job of providing their constituents with more and more services—such as aid for schools—and at the same time cutting taxes.

In addition, this year they have to figure out which way they'll lose the least votes—by turning down pet projects or by continuing the tax burden or adding to it.—Darrel Miller.

## Readers Say

### KS Library a Dreary Spot, Must Go

I WOULD LIKE TO register my support of Miss Holliday's fine idea that the library be closed on Friday and Sunday nights, and on such occasions as basketball games. However, Miss Holliday does not go far enough.

Why should the library be open at all? Anyone who has been in that dull, dreary place on a perfectly good weekday night knows that most students don't use it anyway. And why should they? Isn't it enough work to read through a boring text book in only one semester?

Of course, it's true that the college has spent good money for all those books. (According to President McCain, there are near 200,000 of them!) But why should the individual student have to suffer? It's perfectly obvious that we can't read all those books. So why try?

BUT SOME PEOPLE may be squeamish. "Isn't it necessary to keep up a front?" they ask me. Or, "How will it look to others?" To these chicken-livered cowards, I say: "Stand up and defend your position. If you're against education, why seek to hide the fact? Have the courage of your conviction! And remember, you aren't alone. There are 6,000 students behind you."

"But can we simply close the library?" some readers may ask. To these scoffers I pose the question: What use do you make of it anyway? Admit it, you're only been using it as a meeting place. Surely, you can find another—and one that's less depressing. What purpose does it serve, that lumbering edifice, that electricity-consumer? Walk by there at night and see how many lights are on. It would be possible to illuminate six or seven new pool halls, a tavern or two, and a gymnasium with all that wasted power.

But let us examine what must be the characters of the few, paltry individuals who do honestly and sincerely make use of the library; for we must admit that there are still a few of these cowards around. They are selfish scholars who sneak off shamefacedly at the height of parties and dances to indulge their extravagance and be alone. With what? With dried, processed wood, bound in cumbersome covers!

THESE PEOPLE WILL never be able to adjust to society, anyway. They can never understand the true values in life. Yet, perhaps you think these people ought to have a place to pass their leisure hours. I cannot deny that it is their democratic right. But, logic alone tells us that the very people who go stealthily through the sombre halls of that building are the same ones who would receive the highest grades in any case. Then, why must the rest of us make the sacrifice of maintaining in our midst the visible sign of their over-indulgence of their perverted tendencies? They have their grades. What else could anyone want? After all, what are we going to school for?

Yet, there is even a further argument

for the abolishment of that glaring vestige of ancient tradition. That is, plainly that it is an eye-sore. The library reminds us, during our free hours, of all that which we would forget. After all, does the miner bring home his shaft, the engineer his locomotive? Why should we allow that pernicious reminder of all that is unpleasant in our lives to stand as a symbol in the midst of our campus?

Still, even this objection might be overcome were it not for the offensive location of the structure. It is unfortunately true that many of the women students have to pass it on the way to the field house. It can only remind them that their professors have pleaded with them to visit that museum piece. Why should the evenings of our co-eds be blotted by this unwholesome thought? Don't we owe them more for all they've given us?

AND THEN, who can state positively that the light cast upon their spirits does not adversely affect their cheering, the meagre volume of which adversely affects that of our athletes—who, after all, know what they are playing for? Who knows how many games this hulking monster in our midst has caused dear old K-State to lose to other educational institutions. Why, it puts our whole academic rating in jeopardy.

But I suppose some doubters will still raise the petty objection: "If we do as you say, what will we do with that huge white elephant on our hands?" Here we come to the best part of my scheme. It would be criminal even to contemplate such a waste. This is my suggestion. Renovate! Rip out the floors, sell the books, and convert the building into a gym. Leave only so many stacks as are necessary for the storage of basketballs and other athletic equipment. Then you will have done something. Then you will be promoting the cause of the student body. Give up all vain illusions. Throw over the past. Onward, and progress!

And after all, I'm not really suggesting very much. The library isn't open enough now for it to make any difference.

Howard Siegel, Eng. Gr.

# Troubles? Try the Olmec Or Jivaro Indian Cures

By ANN WEATHERS

FOR ALL PENNILESS PEONS, with problems to solve, the University of Colorado has something that may help.

Oolie, a grotesque, 2,000-year-old Olmec Indian idol, and property of the psychology department at CU, will grant your fondest wishes for just a few pennies.

This notice appears beneath Oolie: OOLIE WILL accept contributions in return for granting of wishes and other foolishness at the following rates:

- Small, insignificant wishes, 1 cent;
- Medium-sized wishes, 2 cents;
- Big deals (comprehensive and language-exam passing, women, football pools), 3 cents.

If Oolie can't help you during finals, perhaps you can switch to a different set of Indians—for instance, the Jivaro.

The Jivaros have a cute little habit of shrinking the head of any handy neighbor (thus effectively reducing excess population). If your instructors become too obnoxious during final week, it might be well to master the manly art of head-shrinking for the protection of future

generations of students. For the recipe, just write to "Pinhead," in care of the Collegian.

"The quality of mercy is not strained . . . it is twice blest; it blesseth him that gives and him that takes." Finals cometh. Profs shouldst heedeth.

IF ALL ELSE fails, you can go primitive and study (nasty word, that) for your finals. Here's a few tips from Indiana university:

- Stop sleeping now so that you'll be accustomed to not sleeping by final week. (This should prevent you from sleeping during your test.)
- Apply for admission into Student Health. (If you don't pass your finals, you always can tell your folks that you were sick and just couldn't do it.)
- Rig up a system of mirrors so that you won't have to strain your neck or take the chance of being caught while searching for last minute answers during the test. (The professor never will suspect that the mirrors are for a villainous purpose.)
- Make a list of, and exterminate, all dirty curve raisers.

## World News Briefs

# Tax-Cut Vision Won't Quit

WASHINGTON, (U.P.)—That ballot box vision—an election-year tax cut—shimmered in capitol corridors today. It refused to blow away.

House Democratic Leader John McCormack said the White House promised Republican Congressmen a tax cut bill before the November elections.

McCormack said House GOP leaders in lining up votes against a Democratic tax-cut bill last year told GOP congressmen that President Eisenhower would ask for an election-year tax cut.

House Republicans denied it. They also repeated Eisenhower's budget-message statement that expected surpluses are too "slim" to permit tax relief. But Republican House Whip Leslie

Arends (Ill.) and Sen. Styles Bridges, GOP Senate policy committee chairman, were optimistic. They said maybe the surpluses will be bigger than anticipated. Then the national debt could be reduced and taxes could be cut too, they thought.

LOS ANGELES—Secretary of Agriculture Ezra T. Benson today favored the sale of surplus U.S. farm commodities to "other than friendly countries" to help relieve the decline in the national farm income.

"We (the administration) urge that sales of surplus agricultural commodities to other than friendly countries be permitted under conditions that protect our national interests," Benson told the National Council of Farmer Cooperatives convention here.

WASHINGTON—The Ford Foundation announced today it will offer 10.2 million shares of Ford Motor company stock for sale to the public tomorrow at \$64.50 a share.

The long-awaited announcement on how much the public must pay to buy an interest in the nation's biggest privately owned company came shortly before 722 brokerage firms prepared to sign final contracts for the sale of the stock.

LONDON—Two internationally known diplomats left today by plane for the troubled Middle East, where a series of crises has threatened war.

U.N. Secretary General Dag Hammarskjöld departed for Athens and said he would make an unscheduled visit to Jordan, where anti-Western rioting raged this month.

India's roving ambassador, V. K. Krishna Menon, left by plane for Cairo for talks with Egyptian government leaders on Middle East problems.

# R. N. McDaniel Elected To Head Pi Tau Sigma

Roland McDaniel, senior from Goodland, was elected president of Pi Tau Sigma, mechanical engineering honorary, for the spring semester recently.

Bob Miller, Wichita senior, was chosen vice-president; LaVerne Lervold, Scandia junior, secretary; Tom Creech, junior from Licking, Mo., treasurer; Ralph Knox, Kansas City freshman, corresponding secretary; and Nor Sutton, junior from Lincoln, Neb., editor.

## Graduate Student's Association

The Graduate Student's association will meet Wednesday in Recreation Center at 7 p.m. for the purpose of electing officers. Dancing will follow the business meeting.

## ISA

The independent students here at K-State have a chance to get ahead in politics this year that

they have never had before, Dan Farrell, PrL Jr, told the ISA meeting last week.

"Both campus political parties have expressed an interest in getting the support of the independent students. It's about time that ISA took advantage of what is offered to them," he said.

ISA members voted to meet with the Independent Organized House council to discuss the political picture for the spring elections on the campus.

## Chaparajos Club

Chaparajos club will not meet during the month of January. The next meeting will be February 14, Dale Hodgson, president, announced.

## Angel Flight

Angel Flight will not meet today, Rosemary Derks, commander, said. All uniforms and books must be returned before grades will be issued.

## IAS

The Institute of Aeronautical Sciences will meet Thursday at 5

p.m. in Engineering lecture hall. Philip G. Kirmser, associate professor of applied mechanics, will show movies of "Operation Crossroads," the A-bomb tests at Bikini. Prof. Kirmser was present at the tests. Everyone is invited to this meeting.

# One of Every Five Staters Is Married, Figures Show

One out of every five students attending the College this fall is married, figures released by Thornton Edwards, director of housing, reveal.

There are 1,061 student husbands compared to 3,489 single men and 148 student wives to 1,286 single women. This figures out as 23.8 per cent married men and 10 per cent married women.

There are 424 graduate students and 190 of them are married. Forty-five per cent of the men graduates are married, and forty-two per cent of the graduate women are married.

The number of married men on campus increased a great deal last spring. There were 800 married men on campus for the fall semester a year ago, yet, despite

a drop in enrollment last spring of nearly 400, Edwards found there were 938 married men.

The actual percentage of married men attending K-State this semester is 23.3, as compared to 22.6 for the fall semester a year ago.

The 288 College-operated apartments and 52 spaces available in College trailer courts actually provide housing for less than a third of K-State's married student population.

Housing for married students may be eased this fall, when 96 dormitory apartments are scheduled for completion, while an additional 96 will be available February 1, 1957.

## VIVE LE POPCORN!

The other day as I was walking down the street picking up tinfoil (Philip Morris, incidentally, has the best tinfoil, which is not surprising when you consider that they have the best cigarettes, which is not surprising when you consider that they buy the best tobaccos and the best paper and put them together with skill and loving care and rush them to your tobacco counter, fresh and firm and loaded with gentle smoking pleasure to lull the palate and beguile the senses and shoo the blues) the other day, I say, as I was walking down the street picking up tinfoil (I have, incidentally, the second largest ball of tinfoil in our family. My brother Eleanor's is bigger—more than four miles in diameter—but, of course, he is taller than I.) the other day, as I was saying, while walking down the street picking up tinfoil, I passed a campus and right beside it, a movie theatre which specialized in showing foreign films. "Hmmm," I said to myself, "I wonder how come so many theatres which specialize in showing foreign films are located near campuses?"

And the answer came right back to me: "Because foreign films are full of culture, art, and esoterica, and where is culture more rife, art more rampant, and esoterica more endemic than on a campus? Nowhere, that's where!"

...He keeps hoping she'll turn back into a Woman...

I hope that all of you have been taking advantage of the foreign film theatre near your campus. Here you will find no simple-minded Hollywood products—full of treacly sentiment and machine-made bravura. Here you will find life itself—life in all its grimness, its poverty, its naked, raw passion!

Have you, for instance, seen the recent French import, *Le Jardin de Ma Tante* ("The Kneecap"), a savage and uncompromising story of a man named Claude Parfum, whose consuming ambition is to get a job as a meter reader with the Paris water department? But he is unable, alas, to afford the flashlight one needs for this position. His wife, Bon-Bon, sells her hair to a wigmaker and buys him a flashlight. Then, alas, Claude discovers that one also requires a leatherette bow tie. This time his two young daughters, Caramel and Nougat, sell their hair to the wigmaker. So Claude has his leatherette bow-tie, but now, alas, his flashlight battery is burned out and the whole family, alas, is bald.

Or have you seen the latest Italian masterpiece, *La Donna E Mobile* ("I Ache All Over"), a heart shattering tale of a boy and his dog? Malvolio, a Venetian lad of nine, loves his little dog with every fibre of his being. He has one great dream: to enter the dog in the annual dog show at the Doge's palace. But that, alas, requires an entrance fee, and Malvolio, alas, is penniless. However, he saves and scrimps and steals and finally gets enough together to enter the dog in the show. The dog, alas, comes in twenty-third. Malvolio sells him to a vivisectionist.

Or have you seen the new Japanese triumph, *Kibutsi-San* ("The Radish"), a pulse-stirring historical romance about Yamoto, a poor farmer, and his daughter Ethel who are accosted by a warlord on their way to market one morning? The warlord cuts Yamoto in half with his samurai sword and runs off with Ethel. When Yamoto recovers, he seeks out Ethel's fiancé, Chutzpah, and together they find the warlord and kill him. But, alas, the warlord was also a sorcerer and he has whimsically turned Ethel into a whooping crane. But loyal Chutzpah takes her home where he feeds her fish heads for twenty years and keeps hoping she'll turn back into a woman. She never does. Alas.

©Max Shulman, 1956

The makers of Philip Morris, who bring you this column, hope that if there's smoking in the balcony of your campus theatre, it will be today's new, gentle Philip Morris you'll be smoking.

# Cage Wins Scored By Huskers, Hawks

By UNITED PRESS  
Big Seven basketball seems to have reached a state in which anyone can win, anytime, especially if you're the underdog. It was certainly that way last night at Lincoln, where the Cornhuskers downed Missouri, 83-77.

It wasn't quite that way at Lawrence, where Kansas downed Iowa State, 68-63. But Iowa State had beaten Kansas 67-56 for the Big Seven tournament champion only a couple of weeks ago.

Nebraska's win over Missouri was only its third of the season in 12 games. It gave the Huskers a 1-1 conference mark, and dropped Missouri to 1-2.

To confuse the state of the who's-beat-who, Missouri whipped Kansas 76-54 a week ago last night. Kansas State, which earlier had downed Iowa State, lost to Kansas last Saturday.

Colorado still holds the conference lead with a 2-0 mark, but in the upset department, it still looks like anyone's flag.

The strategy worked two ways. Thompson was held to 11 points. And King probably won the game for Kansas by dunking in 14 points in a short span during the middle of the last half. King's produc-

## Swiss Gym Team To Perform Here

One of the world's greatest Olympic gym squads will present a two-hour exhibition here in Kansas State's Mike Ahearn field-house Sunday, February 5. K-State athletic officials have announced.

From Switzerland, the squad includes three "gold-medal" winners from the 1952 Olympic games. They will present a 10-event program including most of the Olympic events in which the Swiss team placed second to Russia at Helsinki.

The 10-man Swiss troop is touring the United States through the cooperation of the Swiss-American Gymnastic association and the AAU. The performers were chosen from the 1952 Olympians and additional newcomers who were selected in test competition.

Their performance here will mark the second annual appearance of Europe's top gym performers.

"20 Years of Progress in Manhattan"

## Cage Teams Aim for Spots In NCAA Meet

By UNITED PRESS

Paced by a tall, hot-shooting Illinois team that now seems definitely the class of the Big Ten, five ambitious basketball clubs grabbed first-place berths today in major conference races that lead to the NCAA tournament.

Illinois, wallowing "cinderella team" Purdue, 92-76, on the losers' court, clung to first place in that Big Ten struggle and emphasized its new number 4 national ranking.

Meanwhile, North Carolina jumped ahead in the Atlantic Coast conference, Arkansas in the Southwest conference, Vanderbilt in the Southeastern, and Utah in the Skyline conference.

Each of these last four enjoys its leading margin only in the "win column," but Illinois, which now is riding a nine-game winning streak, is the only Big Ten team that is unbeaten in league play.

North Carolina led all the way in beating Maryland, 64-55, to push its Atlantic coast record to 7-1 as against Duke's 6-1. Arkansas moved its mark to 4-0 by downing Texas A&M, 98-66, to jump ahead of SMU's 3-0 mark.

tion pulled KU from a 53-47 deficit, after the Hawks had led, 37-31 at the half. King got 20 points in all, the same as Iowa State's Chuck Vogt.

Nebraska jumped to an 11-0 lead in its game, but Missouri rallied for a 45-45 halftime draw. The lead then changed hands seven times before Nebraska took over for good with 15 minutes to go.

Don Smidt paced the Huskers with 18 points and was aided by forwards Charles Smith and Rex Ekwall. All three fouled out before the game was over.

The standings:

Conference Games	W	L	Pct.
Colorado .....	2	0	1.000
Kansas .....	3	1	.750
K-State .....	2	1	.667
Nebraska .....	1	1	.500
Iowa State .....	1	2	.333

## Dons Retain Top Position In National Cage Ratings

New York, Jan. 17, (U.P.)—San Francisco's talented Dons, idle for two weeks because of exams, clung to the number 1 United Press college basketball ratings today, and during their layoff some tough opposition faces their closest pursuers, Dayton and North Carolina State.

While Coach Phil Woolpert's Dons put their 39-game winning streak on the shelf until January 28, runnerup Dayton and third-ranked N.C. State play games that could determine their chances of at least closing in on first place in the ratings.

Dayton, which has a 12-0 record this season, meets Villanova Wednesday night and Xavier of Ohio on Saturday. Illinois moved up one notch to the number 4 ranking, and Southern Methodist retained 7th place.

Duke jumped two places from last week to share the number 7 rating with SMU.

Temple, which like San Francisco and Dayton is undefeated thus far, and Louisville (13-1) were this week's newcomers among the top 10. Temple (10-0) jumped from 14th to 9th place as it joined the select group for the first time this season. Louisville, 13th last week, moved back among the leaders in the number 10 spot. The Cardinals were the top pick of one coach.

For the second week in a row, there were five southern teams among the top 10.

What young people are doing at General Electric

## Young scientist works on new ways to improve metals

Today scientists and engineers face one of the toughest barriers of all — the "metal barrier." Modern technology has progressed so rapidly that today's metals can't meet the tremendous demands placed upon them. For such fields as aviation, electronics, atomic energy, present metals must be improved and new kinds of materials must be developed.

One of the young men playing a role in this new and important field is 30-year-old Dr. Roland P. Carreker, Jr.

Carreker's Work Interesting, Vital

As a research associate in the General Electric Research Laboratory's Metals and Ceramics facility, Carreker's chief concern is the improvement of metals through new processing techniques.

In his work, Dr. Carreker has dealt with such important metallurgical problems as metal failure in high-speed turbine rotors, determining the strength of pure metals from -425°F, the temperature of liquid hydrogen, to 2,800°F and economic studies of new metallurgical processes.

25,000 College Graduates at General Electric

When Carreker came to General Electric in 1947, he already knew the work he wanted to do. Like each of our 25,000 college-graduate employees, he is given a chance to grow and realize his full potential. For General Electric has long believed this: When fresh young minds are given freedom to make progress, everybody benefits — the individual, the company, and the country.

Educational Relations, General Electric  
Company, Schenectady 5, N. Y.

Progress Is Our Most Important Product

**GENERAL ELECTRIC**

**DR. ROLAND CARREKER** joined General Electric in 1947 after receiving a B.S. in 1945 and an M.S. in 1947 at the University of Illinois. He received his Ph.D. in 1955 at R.P.I. under a G-E program. During World War II he served on active duty as a naval officer.

# Kansas State Collegian

VOLUME LXII

Kansas State College, Manhattan, Kansas, Wednesday, January 18, 1956

NUMBER 72

**GETTING STARTED**—The steering committee which started a Psychology Club last night are Jackie Wade, Psy Jr; Bill Eddy, Psy Gr; and Marianne Ptacek, Psy Sr.

## 40 Students Form Psychology Club

Forty students appeared in J15 last night to organize the Psychology club, an organization open for charter membership to students with either a major or minor in psychology. Professor Arthur H. Brayfield, chairman of the department of psychology will be faculty advisor for the club.

Bill Eddy, Psy Gr, opened the meeting by explaining that the organization of such a club would allow students in psychology to get to know each other better.

Prof. Brayfield gave a brief history of the field of psychology, both on a national level and on the campus here at K-State. He said that the purpose of most psychology clubs is to further the aims of psychology as a science and as a profession.

Marianne Ptacek, Psy Sr, explained that the club would be recognized as an organization by the time the next meeting of the club is called. Election of officers will be held at the next meeting, for which the date has not yet been determined.

Students present at the meeting were Hub Mansfield, Jackie Wade, Roy Young, Jim R. Smith, Pat Burke, Harry Knox, Mike Ryan, Bill Burgwin, Max Goss, Dale King, Rodney Bentson, Jack Kochner, Vince Wells, Lewis Terriss, E. C. Tolman.

Jack D. Gantz, James Garey, Katherine Horney, E. R. Guthrie, Mal Skinner, Duane Brown, John R. Snider, Steve Prouty, Pat McClelland, Zak Ek Webelem, Daryl Landell.

Marjorie Mallisee, Judy McWhorter, Yvonne Rorhbaugh, Stuart Weissman, Dean Smith, Gary Gebhart, Lovitt Henderson, B. F. Skinner, David Wechsler, Charles Carroll, and David McClellan.

## Positions Vacant For Chairmen On Union Council

Applications for two chairmanships, two subchairmanships, and memberships on the Union Program council will be accepted through January 23, Bob Alexander, program director, said yesterday.

Positions open are the chairmanships of the hospitality and promotion committees, subchairmanships of the publicity subcommittee of the dance committee and news and advertising subcommittee of the promotion committee, and memberships on the decoration subcommittee of the dance committee.

## 'Better Homes' Representative On Hill Today

A representative of Meredith publications' personnel department, Miss Cornelia Lockhart, is on campus today to confer with students interested in work on Better Homes and Gardens, or Successful Farming.

Two journalism classes this morning heard her discussion of the wide variety of jobs available in magazine work: in writing and editing, in promotional work, in advertising, and in circulation, as well as in scouting for articles and article ideas.

### With the President

## McCain Would Okay Parking Sticker Plan

By ROBERT COUGHLIN  
President McCain expects to approve the new plan for a paid campus parking sticker which may be revoked for traffic violations, if the Student Council recommends it to him.

"This proposal is not the answer to the parking problem, but it will do the job until the Legislature meets next year and passes a bill that will allow the College

to levy fines for traffic violations," McCain said.

As of January 13, 20 students have three traffic tickets for violations on the campus. One more ticket in each case would be cause for the student's expulsion from school under existing regulations.

"We don't like to penalize a student scholastically for something as far removed as traffic

violations, but there seems to be no other solution under the present regulations," McCain said.

Administration officials are also trying to do away with "the police court atmosphere in the Dean of Students office," and consider the Student Council's recommendation a possible solution to this problem.

"Another good feature of the proposed plan is the revenue from parking stickers that could be used to build new parking lots, and for maintenance and improvement of present parking areas," McCain said.

Campus parking permits under the proposed system would cost \$2, and would be revoked for the second infraction of college traffic regulations. When a parking permit has been revoked, it could be renewed for an additional \$2.

"I don't believe the staff should be charged to park on the campus," McCain said. "It's only natural that they should be allowed parking privileges where they work."

A student would be allowed seven tickets under the new system. A chronic offender with eight tickets or more would be subject to dismissal.

## Saturday Dance Is 'Cram Session'

The "Cram Session," last dance to be given by the dance committee of the Union program council this semester, will be in Nichols gym Saturday, January 21, according to Conrad Smith, committee head.

It will be a come-as-you-are couple dance. Music will be by the "Dreamaires" of Junction City. Time will be from 9 p.m. until midnight.

In charge of entertainment during intermission are the Tau Kappa Epsilon quartet and Frank Anneberg, city recreation director.

## Eight Debaters To Nebraska For Tourney

Four K-State debate teams will compete in a two-day debate tourney at Midland college, Fremont, Neb., Friday and Saturday, Charles Goetzinger, director of forensics at K-State, said today.

There will be six rounds of debate, with semi-finals in the senior division only.

Two of the K-State teams, Bunny Cowan and Tom Bowman, and Ray North and James Shane will compete in the senior division. Members of junior division teams include Calvin Adams and Robert Paulson and Dave Nuttle and Dahn Hahn.

### Milbourn Says

## Situation Status Quo Concerning TV Here

"K-State is in no greater danger of losing its educational TV channel now than it was two or three months ago," Max Milbourn, director of public service said last night.

Milbourn said the situation concerning Channel 8—the channel allocated to K-State—has not changed since station KEDD, Wichita, asked that it be transferred to them at Hutchinson.

Last weekend, the Manhattan chapter of the American Association of University Women received information from their national office that K-State was in danger of losing the channel.

Two of the local women wired Senators Andrew Schoepel and

## Kappa Sig Named IFC Spring Head

Vergil Wright, Sp Sr, has been elected president of the Interfraternity council for the spring semester. He is a Kappa Sig.

Other new officers are Jerry Thies, Ent Soph, an Acacia, vice-president; Gary Rumsey, AEd Soph, a Delt, secretary; Daryl

Vergil Wright

Becker, AA Soph, Sig Ep, treasurer; and Jim Gates, PrVet Soph, a Beta, corresponding secretary.

The members-at-large are Gene New, Ag Jr, also an Acacia, and Richard Disney, NE Soph, a Theta Xi.

## State To Host HS Debaters January 20, 21

Seven Kansas Class A high schools will compete at K-State Friday and Saturday in a district debate contest, Charles Goetzinger, director of K-State forensics and chairman of the contest, announced today.

The schools include Abilene, Bonner Springs, Hiawatha, St. Agnes of Kansas City, St. Joseph's of Shawnee, Washburn Rural of Topeka, and Wamego.

Each school will enter an affirmative and a negative team. There will be six rounds of debate, with debaters from each school meeting those from every other school. Debate rounds will be held Friday afternoon at 2:45 and 4:15, Friday night at 7 and 8:30, and Saturday morning at 8:45 and 10:15. All debates will be in Eisenhower hall.

The question for debate is: "Resolved: That the Federal Government Should Guarantee Higher Education to Qualified High School Graduates Through Grants to Colleges and Universities."

Goetzinger said the top two teams in the contest will receive trophies and qualify for the finals, to be held January 27 and 28 at Kansas university.

## Student Health

There are eight girls and four boys in Student Health hospital today. The girls are Charlotte Williams, Paula Pangburn, Barbara Barnett, Nancy Paulsen, Patti Penrod, Mary Fabin, Beverly Barnett, and Jo Ann Lydick. The boys are Billy Cox, Richard Evers, Don Latter, and William Jones.

# Instructors' Names To Be Listed by 33 Departments

IN COMPLIANCE with requests from College officials, 33 departments already have posted, or plan to post, a list of department courses with the instructor's name beside each course.

Thirteen departments will not post course lists, because generally one instructor will teach all sections of a course. Students in those departments also are familiar with what prof teaches what course, making a course list unnecessary.

Departments that already have posted lists or plan to post course lists, and the spot where lists will be posted, are:

Agricultural Economics—Wa, third floor.  
Agricultural Education—Holton bulletin board.  
Ag engineering—Seaton 135.  
Applied Mechanics—Seaton 112.  
Bacteriology—Vet Hall 103.  
Business Administration—Wa, third floor.  
Chem engineering—Chem engineering building.  
Chemistry—Willard, first floor.  
Clothing and Textiles—Calvin 205.  
Dairy husbandry—Wa, first floor.  
Economics and sociology—Wa, third floor.  
Electrical engineering—Seaton, first floor.  
English—J 104.  
Entomology—Fairchild, second floor.  
Flour and feed milling—Feed tech 203.  
General studies—Office barracks B, second floor.

Geology and geography—Basement, Fairchild.  
History, government, and philosophy—Eisenhower, second floor.  
Home economics education—Holton hall.  
Household economics—Calvin 215.  
Industrial arts—Shops hallway, east side.  
Mathematics—Math hall.  
Military science—MS, first floor.  
Milling—door of 203.  
Modern languages—Eisenhower, first floor.  
Physical education—Men's gym, second floor.  
Physical education, women—Nichols 101.  
Physics—Willard.  
Psychology—Holton, second floor.  
Speech—Eisenhower hall.  
Technical journalism—Kedzie, lower hall.  
Vocational education—Holton, main board.  
Zoology—Fairchild 104.

NOT POSTING a list of courses with the instructors' names are agronomy, animal husbandry, architecture and allied arts, art, botany, civil engineering, foods and nutrition, horticulture, institutional management, machine design, music, and poultry husbandry.

Placing of the instructors' names beside the courses they'll teach was recommended to the Administrative Council by the Student Council. There has been argument pro and con regarding the matter and it'll probably take a couple semesters to determine if it's worth while. Students have clamored for the new system, and time will tell what profs are popular, etc.

With pre-enrollment coming to the fore, the lists should be out sooner if the students plan to get a lot of good from them. On the other hand, departments can't make final plans for teaching loads until after pre-enrollment. Oh, well.—Gary Swanson.

## GOP Will Spring Tax Cut, Demos Say

WASHINGTON, (U.P.) — Belief grew among Democrat leaders today that President Eisenhower will ask Congress to cut taxes later this year.

"The administration says it is against any tax-reduction bill at this time," Speaker Sam Rayburn (D-Texas) told a Democratic dinner at Baltimore last night.

"But, mark my words, in an election year like 1956 I predict that before Congress adjourns the administration will recommend a tax cut."

House Democrat Leader John McCormack (Mass.) also expects such a move. "It is difficult for me to believe" the administration will not recommend tax relief, he said. He suggested the move

might be aimed at helping re-elect House Republicans who voted against the Democrat tax-cutting plan last year.

WASHINGTON — Republicans and Democrats split today over how to help the financially squeezed farmer.

Democrats said the administration farm bill was partisan, inadequate, and unworkable. The blast came as the Senate agriculture committee continued hearings on farm legislation.

Sen. George Aiken (R-Vt.) and five of the six other Republicans on the agriculture committee introduced the administration bill yesterday. Its main feature is a voluntary soil-bank plan under which farmers would be paid to take acreage out of production. Some Democrats have favored a mandatory soil bank.

UNITED NATIONS, N.Y. — Israel fought a losing battle today against formal censure by the United Nations Security Council, but appeared to be avoiding economic sanctions for its attack on a Syrian outpost.

A Syrian demand that the United States cut off all economic aid to Israel was referred to Washington for an answer.

U.S. Ambassador Henry Cabot Lodge Jr. told newsmen the Syrian demand was "a matter for Washington" to consider.

PARIS—Political observers predicted today Socialist Guy Mollet will be France's next premier-designate, with radical Pierre Mendes-France to form a government. The promise of Communist support has assured their Leftist Republican front of a majority in the badly splintered national assembly, which meets for the first time tomorrow.

NEW YORK—The mad scramble for Ford Motor company stock began in earnest today.

Brokers girded for the worst, as housewives and laborers who never owned stock before joined seasoned investors in the rush to buy a chunk of the 2.4-billion-dollar motor empire.

## Poor Richard' Renovated

NEW YORK, (U.P.)—Yesterday was the 250th anniversary of the birth of Benjamin Franklin. So it's about time we brought "Poor Richard" up to date with some proverbs for modern times.

Try these:

"Too many cooks spoil the broth by serving too many martinis before dinner."

"OIL AND WATER don't mix. If they did, somebody already would have mixed them, powdered them, and packaged them for sale as instant oily-water."

"Spoil the hot rod and spare the child."

"You can't make a silk purse out of a sow's ear, but it's a safe bet that the DuPont company can."

"You can lead a horse to water but you can't drive him to drink. Good horses don't drive while drinking."

"A LITTLE KNOWLEDGE is a dangerous thing. Have you considered the tax on \$64,000?"

"Fair faint never won heart, lady. Try an unfair faint."

"If you're fat, slow down your eating—haste makes waist."

"Time is money. And any consumer-credit survey will show you we're living on borrowed time."

"IT'S A LONG LANE that has no turning, and the speed limit is 60 miles an hour, and it's radar-checked, and it has a toll gate every 20 miles."

"What goes up must come down—except satellites during the international geophysical year."

"A bird in Brooklyn is worth two cheers in the Bronx."

"Time wounds all heels. Hope you don't feel hurt."

## 'Brevity Is the Soul', Somebody Said; Cosmopolitan Nomination Anticipated

To the Editor:

Dear Mr. Swanson,

"BREVITY IS the soul of wit," somebody said.

Howard Siegel, author of the verbose letter in Tuesday's Collegian never heard of brevity-OR wit. But did you need to give him rope to hang himself?

Until yesterday, Collegian letters were limited to somewhere near 250 words. Siegel, in 942 of them attempted to be satiric or humorous. The humor eluded me, all 12 paragraphs of it.

A 250 WORD LIMIT would have blessed us by cutting his water off in paragraph 5, line 8, just between "does" and "it." But it didn't. He was just getting wound up. And all he said in the letter could have been said in 5 words, which he finally used: "The library isn't open enough."

An editorial on the same page told of the acute newsprint shortage that required you Monday to leave out Pogo. Why didn't you leave the last 692 words out of the letter and run the Monday Pogo strip, if you needed something to fill space? If people want to write, let a publisher somewhere decide how funny they are.

Save newsprint. Cut 'em short. I go Pogo.

In fact, if you really want to save space, you probably should throw this letter away.

Not too sincerely,

Gary Haynes, student member  
Board of Student Publications.

(Editor's Note:) It was hard to resist

the temptation of Mr. Haynes' last paragraph.

THE NOMINATION of the officers of the Cosmopolitan club Monday was rather a hasty, reckless, and disastrous parliamentary procedure. Swift and legal and democratic as it appeared, justice seemed to have been an isolated matter and some of the members seemed to have been deprived of their rights to enjoy their privileges as members of a democratic organization.

The nomination seemed to have been an anticipated scheme and many of the members were stunned at the procedures.

I do not wish to criticize or besmear the name of the organization. Neither would the object of this comment be to upturn one's honest access to the office, since an attitude designed to sabotage is not a noble act and is indicative of jealousy. But I do believe that the Cosmopolitan club was organized to promote understanding and harmonious relationship among members from different countries.

TO ADHERE strictly to the rules embodied in the constitution without giving leeway for a desirable suggestion seems not to attain a purposeful end. Hence, it is but justified to appreciate a member's suggestion and be voted on the floor if it is to be honored. Suppressing one's suggestion seeking for justice seems to be outside of this world and contrary to the essence of democracy. Society, especially in a democratic society like ours, demands understanding and everyone to join hands together to work for a common good.—Ben Torrevillas, AgE Sp.

Southeast and Northwest hall's chuck wagon dinner.

## Ford Success Story Outdoes Horatio Alger

NEW YORK, (U.P.)—Almost 53 years ago a wiry young inventor pounded the pavements in Detroit, pleading with people to back his "horseless carriage" with some cold cash.

"You won't be sorry," he must have promised.

But most people thought he was a little tetch in the head. "Imagine a cart that runs without a horse. Preposterous."

Young Henry Ford scraped up 28 thousand dollars in cash from a dozen friends. It wasn't much, but it got his fledgling Ford Motor company off the ground.

Today—in the Wall Street that Ford came to distrust—his company's stock is going to raise a whopping 657.9 million dollars—more than 23 thousand times the original capital—with fabulous ease.

FOR MOTOR COMPANY today is a far cry from the business that began in a single Detroit factory in 1903 with a 2-cylinder, 8-horsepower car. Ford now has facilities in more than 20 countries, and its domestic auto production last year topped the 2-million-car mark.

No matter what fortune awaits Ford's new stockholders, they will not do as well as the original backers of the late Henry Ford's newfangled invention.

# Howard Siegel Has Written Full-Length Plays, Novel

By SHARI SHELLINGER  
Writing is the life of Howard Siegel, graduate assistant in English at K-State.

Lately, however, Siegel hasn't had much time for writing. Besides taking 10 hours of regular work on the campus, Siegel teaches two sections of Written Communications I. He finds that studying and grading papers don't leave much of the spare time he would like to have for writing.

Siegel observes, "It seems like I've been writing all my life." When he was 19, he had completed a full-length novel with which he wasn't satisfied.

Since then he has written about a dozen television plays and two full-length plays. One of the longer plays, a comedy, Mr. Siegel hopes to submit in New York this summer. He has received much encouragement about the play from a New York writer who has written scripts for the Jackie Gleason show.

Half-hour television dramas are a favorite of Siegel. He unites his interests in literature by doing

adaptations of short stories by English and American authors. Siegel says, "Some day, after I get my PhD, I would like to run a

television series of these adaptations."

Interested in television, Siegel believes one of its weaknesses is its failure to present enough serious literature to the public.

He is a native of New York. His undergraduate work was done at Queen's college in New York City, where he received a degree in English literature. Part of his graduate work was done at the University of Connecticut, but he had attended classes there only a few months when he was drafted into the service. After two years in the army, Mr. Siegel came to K-State, where he is presently working toward a master's degree in American literature.

This fall Siegel and his wife, Eleanor, will go to Kansas university, where Mrs. Siegel has been accepted into the medical school. Mrs. Siegel, a junior in biochemistry here at K-State, will continue her work in that field while Mr. Siegel will work toward his PhD in literature.

Howard Siegel

## Mrs. Myra Able Is Homemaker, Wife, Sophomore in Home Ec

By JUDY WILLIAMS

Being a college coed, mother, and homemaker gives Myra Abel, sophomore in home economics and teaching, the feeling that she is three different persons.

Wife of Walter Abel, minister of Student Disciple fellowship, Mrs. Abel has a two-year-old son, Steve, and is expecting her second child in April.

"We want our family now—and a little schooling along with it," she told reporters. "Of course, it will take an awfully long time to get through school. I enrolled in September of 1952 as a freshman,

and here in '56 I'm just a sophomore!"

With an average of six credit hours a semester Mrs. Abel laughingly remarked that she "may be graduating the same year little Steve does."

In 1953, Mrs. Abel missed first semester final work because Steve arrived almost two months early. "I took my finals a week late that time," she said.

Her husband who is also taking graduate work helps out tremendously by getting the baby's breakfast on days when his wife has an 8 a.m. class.

"Walter was a better cook than

I was when we were first married," Mrs. Abel admitted. "He made up a chile recipe that I've used ever since."

"Home economics courses have certainly proven valuable. "When I learn in class I take home and apply to my family. Foods I, especially, helped me. I'd never cooked before we were married. I remember the first time we had company—I spilled all the noodles in the sink—I was just frantic. Walter came in and told me to use the noodles anyway—that the sink was clean. And eventually I learned to cook a decent meal," she smiled.

"My studying comes at night after the baby is in bed. I always cram for tests but never stay up very late," she said. The one big disadvantage of her life is not having enough time to spend with the baby.

"Sometimes I wish I could be a regular wife and mother instead of chasing off to school," Mrs. Abel said. "But don't get me wrong—I wouldn't trade what I've got for anything."

Her advice to young people who want schooling and a family together is "have a sense of humor—then try to keep it."

Of Japanese serving terms for war crimes, 834 had been paroled by occupation authorities as of April 15, 1952.

## Don't Pile Up Clothes, Hang Them Up Right

By JEANICE BLAUER

Are you guilty of just giving your clothes a toss when you take them off? Letting them pile up on chairs, desks, and beds until that's all you can see, is very hard on them declares Miss Naomi Johnson, extension specialist in clothing and textiles.

Hang clothes up immediately after wearing with shoulders in place and all fastenings closed, she advises college students. Padded or contour shaped hangers are useful for suits and coats. Clothing to be stored in drawers or chests should be folded, and dividers or boxes would help keep them in order.

Before putting clothes away air them if possible, she says. Brushing helps reduce the cleaning bill. Sturdy fabrics require a medium soft brush, and delicate fabrics a piece of velvet. Brush with the grain or up and down of the fabric.

Try bathroom steaming to remove wrinkles. Hang in a closed

bathroom and over a tub filled with hot water. Remove the clothes after a short time, and allow time for the wrinkles to hang out and the material to dry thoroughly.

Mend the garments as soon as needed, and check the new clothing as well as the old. It is possible to have professional reweaving done for tears, burns, and moth damage.

Keep an iron handy and use it—boys can do this as well as girls. Press shiny fabrics on the wrong side or with a press cloth. Steam irons are, of course, very useful. Press lengthwise to maintain shape and to avoid wrinkles at the hem. Allow the clothes to cool and dry before wearing.

Be careful and protect clothing to prevent spots and stains. Don't press stained areas between cleanings as it may set the stain permanently. Small spots can often be removed at home.

Most of all, remember that care adds to wear.

## Wedding Corsages Made In 'Flower' Class by Coeds

By JUDY WILLIAMS

A tom thumb wedding corsage and a real-life scene made of driftwood and ferns are projects of two girls in Floral Arrangement class.

One of the seven girls taking the course, Beth Fulton, HT Sr, economics and teaching senior, says that any girl is missing the boat when she passes up this two hour credit class.

"It's interesting and it's going to be so valuable later," she said.

"We learn to make Valentine's day centerpieces, many types of fall and winter arrangements, including Christmas floral decorations, as well as so many others. We made Kansas day centerpieces and small corsages using the same colors to go with the table decorations," Miss Fulton said.

Another member of the class, Anne Hutcherson, HEJ junior, said that she first heard about the class through a friend in dietetics, who was enrolled in the course.

"I began attending two weeks late—but it didn't take long to catch up," she said. "The class is held once a week, on Friday afternoons. We have a one hour recitation period, then spend two hours trying our skill in the greenhouse," Miss Hutcherson explained.

# Sophomore Jack Parr Tops Wildcat Scorers

**TOP SCORER**—Jack Parr, 6-9 sophomore leads the Wildcats in scoring and rebounding with 207 points and 175 rebounds in 13 games, and an average of 15.9 and 13.5 respectively. He came within three rebounds of tying Dick Knostman's record of 23 when he grabbed 20 against Loyola of Los Angeles.

By ROGER MYERS

The Wildcat scoring column is headed by a big boy from Richmond, Virginia, 6-9 Jack Parr, the sophomore center. Parr has scored 207 points in 13 games and has a 15.9 point average a game.

"Jack has as much physical power as any sophomore we've ever had at K-State," said Cat coach Tex Winter. "As the season progresses he has an opportunity to develop into the outstanding center of the conference."

Parr's 26 points and 20 rebounds against Loyola of Los Angeles is easily the most outstanding performance of any K-State sophomore in K-State's history.

His 20 rebounds against the Lions is second only to a 23 mark set by all-American Dick Knostman in 1953.

"Jack lacks experience," Winter said, "but as the leading scorer and rebounder on the team he's picking up that experience. I feel Jack is living up to my expectations in high style," Winter said.

Up until August 30 of 1954, Jack had planned to attend the University of Virginia. However at Lake Vermillion, Minn., he met former assistant football coach John Cudmore and sophomore basketball Bill Laude.

"Laude got me interested in K-State," Parr said, "and I owe my

presence at K-State to him."

The 6-9 sophomore was offered a full scholarship at Virginia U. which was the first time the school had ever offered a full scholarship to anyone.

Parr attended St. Christopher's High School in Richmond, Va., where he lettered three years in basketball. He started playing the cage sport as a 6-5 sophomore at St. Chris and in one game scored 34 of the team's 67 points.

Jack, who worked out at Ahearn fieldhouse last summer to perfect his post play, considers the hook and jump shots as his best point producers.

"I think I have two big problems right now," he said. "I should relax more when I shoot and my rebounding will have to improve. These will get better with experience though."

"K-State will beat Missouri next Saturday night because we're the better team," Parr said.

"There's a psychological element in every basketball game," he said. "Missouri has lost their last two games and they'll be playing at home, but the only advantage the Tigers will have is playing on their own court."

"K-State will end up on top in the Big Seven this season, because the Wildcats are a better road team than any other club in the conference," Parr said.

## A Cat's-Eye View

With Dick Holdren

THE FIRST TWO weeks of the Big Seven race has only further confused the experts as to the final loop standings.

At this time, KU and Colorado seem to be in the best positions to take the championship, although Colorado's 2-0 record is a little tainted in that the Buffs have not played outside Boulder.

Missouri, an earlier contender on the strength of their 76-64 win over Kansas, has slipped with two straight losses to Colorado and Nebraska on the road.

NEBRASKA'S 83-77 conquest of the Tigers Monday at Lincoln served notice that the Cornhuskers were going to be as rough as ever at home.

Iowa State, the pre-season tourney winner, has had its troubles, too. They lost their first game to K-State, had trouble in defeating Oklahoma 58-55, and then almost beat KU at Lawrence, losing 68-65.

If the Cyclone's are to be a contender, they will have to win their remaining home games, a situation confronting almost everyone in the league.

SHOULD K-STATE defeat Missouri at Columbia Saturday, the Wildcats would be in an excellent position to take it all.

With a win over the Tigers, two of the toughest road games would be out of the way, although KU, Nebraska, and Colorado remain. Again, the Cats seem forced to win the rest of their home tilts to stay in contention.

### KU Attacks

KU'S LEO FLANAGAN, in a column aptly named "A Bit o' Blarney" in the Daily Kansan, has accused me of misinterpreting the facts in the Phog Allen-Harry Henshel controversy. He says the "young K-Stater doesn't know about what he's talking."

Far be it from me to talk back to my elders, but the remarks were published, not just in Missouri, but all over the nation. Doesn't this publication make them libelous, and open Phog and the newspapers to a libel suit?

TRUE, PHOG MADE his remarks in a speech. But he has talked enough in the last 40 years to know that his remarks would be published. If he wanted to stay out of trouble he would have kept quiet.

## Crusaders Appear Tourney Bound

UNITED PRESS

Holy Cross, a regular visitor to post-season basketball tournaments since the end of World War II, can count on another tourney berth this year because it appears far and away the best team in New England.

The Crusaders, ranked 13th nationally, racked up their 12th win in 14 starts last night in Worcester, Mass., by an emphatic 81-67 score over Dartmouth. More important, the win gave Holy Cross a perfect 8-0 record against New England rivals.

Holy Cross has appeared in the National Invitation tournament for the last two years, winning it in 1954. But it also could be tapped for a berth in the NCAA tournament, which it won in 1947.

Oklahoma City, ranked 17th nationally, was last night's big upset victim, bowing to Seattle, 89-84, in overtime, at Seattle. It was only the third loss in 13 starts for Oklahoma City. The two teams meet again tonight.

## Gym Squad To Colorado For Second Meet of Season

The K-State gymnastic team journeys to Boulder to meet Colorado Saturday in their second gym meet of the season. Their gym schedule consists of 9 meets and exhibitions at the halftime of 3 of the K-State basketball games.

Coach Frank Thompson sent his mostly-novice gym team against Nebraska here Saturday and suffered a 35-77 loss. The Huskers Bruce Riley, nationally ranked performer, won 5 events.

Leading Wildcat scorer was letterman Wendell Holt, senior from El Paso, Texas, who placed second in free exercises, trampoline, and tumbling. He also reg-

istered third place in the high bar and parallel bars.

The other K-State letterman, Wendell Minckley of Ottawa placed third in the side horse and fourth in the flying rings.

## Lovellette Leads Lakers, Scores 22 in KC Victory

Kansas City, Mo. (U.P.)—Big Clyde Lovellette had a "homecoming" at Municipal auditorium last night and dunked in 22 points to lead the Minneapolis Lakers to a 97-86 win over St. Louis in a regularly scheduled basketball game.

The win allowed the Lakers to tie Rochester for second place in the Western division of the National Basketball association.

Lovellette, former Kansas star who has performed many times before in Municipal auditorium, gained five points on the Hawks' Bob Pettit in the NBA scoring race. Pettit got 17 after sitting out the first period, but still led Lovellette by 10 points for the season with a total of 829.

Former Wildcat performer, Lew Hitch, got 4 points for Minneapolis. Hitch, who now weighs 210, considerably more than when at K-State, listed his home as Manhattan.

George Mikan, playing in only his third game for the Lakers

since coming out of retirement, got three points. He tallied 11 in his first game and 10 in the second. Chuck Share led St. Louis with 21 points.

The Hawks were in contention throughout the first half with a 44-41 intermission lead. But Minneapolis whittled that away in the third period and broke the game wide open with a 19-point, 76-67 lead midway in the final period.

## Cat Wrestlers Undefeated After 2 Meets

Beating the University of Minnesota wrestlers 17-13, here last week, the Kansas State wrestling team remained undefeated in dual competition for this season. They risk that record again here Friday night when they meet Colorado State, longtime Wildcat wrestling foe.

The meet, held in Ahearn fieldhouse, starts at 7:30 p.m.

Third in a series of five 1956 home meets for the 'Cat matmen, four of them in January, the Colorado State match will find a new K-State grappler in the lineup. Pete Everist, 147-pound sophomore from Oberlin, will step up to fill the vacancy created by an injury to Jim Linnell. Linnell suffered a cracked rib in the Minnesota match and had to forfeit his match after 6 minutes of action.

Everist marks the fourth sophomore to earn starting chores on the K-State team. Other rookies include Ray Glaze, 167 pounds, Gary Haller, 177 pounds, and Ellis Rainsberger, heavyweight. Glaze and Haller are undefeated, and Rainsberger shows one loss to Minnesota's outstanding heavyweight Dave Herbold.

Last season's match at Greeley saw the Wildcats maneuver to a 16-11 win.

## Marquette Offers Post To Mullins

Larry (Moon) Mullins, director of athletics, is being considered for the athletic directorship at Marquette.

"Marquette is interested in me becoming their athletic director and I am interested in going there," Moon said. "I have just now been able to give the matter serious consideration and should be able to give a definite answer soon," he said.

"It is a decision that I have to make," he said. "I haven't been able to get down to the problem thoroughly because of the trip to the Orange Bowl and the NCAA meeting in Los Angeles."

"I will have to reach a conclusion within a short time and let the Marquette officials know in case they should become interested in someone else for the job," he said.

The post at Marquette is open because of the retirement of Con Jennings, present athletic director. Jennings has been at Marquette since 1922 and was made athletic director in 1926. He is the only athletic director in the history of the Wisconsin school.

## Burnine Signs Grid Contract For NY Giants

Los Angeles (U.P.)—End Harold Burnine of Missouri, leading pass catcher in college football last fall, was signed by the professional New York football Giants Monday.

The Giants also signed Arkansas fullback Henry Moore and West Virginia tackle Robert Lee Huff at the pro meeting here. Burnine was the Giants' 12th draft choice last year.

## Cagers Seek Third Upset at Columbia

Handed their first conference loss by Kansas here Saturday night, Kansas State's basketball Wildcats are bundling their belongings for a risky trip into the Columbian wilds of Missouri.

Meeting Sparky Stalcup's Tigers in their own lair Saturday night, K-State will attempt to run to three their upset wins inside M.U.'s Brewer fieldhouse. Last season the Wildcats squeezed out a 78-67 win there, and in 1954 they scrambled to a 79-78 victory.

Results against the only common Big Seven opponent of Missouri and K-State, however, leave the Wildcats little hope of repeating the trick this season. The Tigers ripped Kansas, 76-54, at Columbia, and Kansas took a 91-86 decision here in Ahearn fieldhouse Saturday.

Although the Tigers were cut down, 79-72, at Colorado Saturday, they had the chance to even things up for the two-game road trip, when they met Nebraska at Lincoln Monday night. The Huskers defeated them 83-77.

K-State will be going into the Missouri game with a 2-1 Big Seven record, and 8-5 overall. Missouri has a 1-2 league record and 8-5 overall.

Best hope for the Wildcats is the strong surge of sophomores that has resulted in three rookies on the starting five and placed another in the first line of reserves.

Showing the best progress of all so far has been Hayden Abbott, 6-3½ forward who has pulled up to second place among 'Cat scorers with a 12.6 average through nine games. The Olathe sophomore also claims the best one-night performance for the Wildcats with his 27 points against Iowa State at Ames.

Jack Parr, 6-9 sophomore center, added 18 points to his total against K.U. to make his average 15.9. Third sophomore starter, Roy DeWitz, rates as one of the Wildcats' best defensive men and has contributed 6.9 points per game on offense.

DeWitz, or any other man Coach Tex Winter chooses, will have a full night's work however, in defending Tiger Norm Stewart. Stewart is far and away top Tiger scorer with a 22.3 average through 12 games. Junior guard Lionel Smith popped up with 27 against Colorado Saturday, and junior forward Bill Ross is averaging more than 12 points a game, giving M.U. secondary scoring threats when Stewart is held to a low count.

## Busy Life Planned By Phog Allen Upon Retirement

Kansas City, Kan. (U.P.)—Forrest C. (Phog) Allen, University of Kansas basketball coach, steered clear of controversial subjects in a speech before the Junior Chamber of Commerce here last night.

Allen pushed aside the question of his retirement with the remark: "I'll be busy either way."

An audience of some 120 persons heard Allen discuss the development of the "personality quotient" through participation in sports. He made no reference to his current battle of words with AAU official Harry D. Henshel.

# Frats Choose Spring Semester Officers

Newly elected officers of Chi Omega are Betsey Thomasson, president; Genie Munn, vice-president; Mary Louise Ek, secretary; Jan Kraft, treasurer; Anne Hutcherson, pledge trainer; Shari Shellenburger, chapter correspondent; Barbara Lewis, personnel chairman; Joan McCluggage, senior Panhellenic representative; Connie King, junior Panhellenic representative; Marilyn Clark, social chairman; Janet Nicholson, assistant social chairman; Gwyn Gates, song leader; Nancy Hayes, activities chairman; Mary Jane Sherer, vocations chairman; Myrna Williamson, intramurals chairman; Loyce Cheatham, social and civic service chairman; JoAnn Berrigan, rush chairman; Glee McAuley, assistant rush chairman; and Marilyn Pinsker, historian.

Beta Theta Pi has elected the following officers for the new term: Frank Farrell, president; George Peters, vice-president; Kenny Nesmith, recording secretary; George Bemis, corresponding secretary; Bill Stolzer, treasurer; Paul Attwater, pledge trainer; Dave Carlson, social chairman; Phil Weaver, building and repair chairman; Jerry Bray, music chairman; Don Upson, librarian; Hayes Walker, alumni relations chairman; John Pickeliefs, homecoming; Bob Haymaker, Y-

Orpheum; Les Brown and Jim Gates, rush chairmen; and George Yapp and Jim Gates, IFC representative.

Newly elected officers of Kappa Sigma fraternity are Jack Scott, grand master; Bill Quarles, grand procurator; Dick Kaaz, grand master of ceremonies; Steve Prouty, grand treasurer; Jim Carlson, grand scribe; Bob Jedwabny, house manager; Larry Fischer, guard; Jon Dutton, guard; and Jack Downing, social chairman.

Newly installed officers at Clovia are Marjorie Hamon, vice president; Ardella Rusk, house manager; Leanna Bohne, chaplain; and Glennis Unruh, marshall.

Paul Hatfield, DM Soph, from Valley Falls is new president of Delta Sigma Phi. Other officers recently elected are: Robert Goodin, Ar 02, vice-president; Rayburn Lippe, AgJ Soph, secretary; William Throp, BA Soph, treasurer; and Richard Davis, AH Jr, sergeant-of-arms.

New pledge of Theta Xi is Norman Jackson, freshman in electrical engineering from Palco.

Ron Nery, Gop Jr, Cheswick, Penn., was initiated into Sigma Nu on Sunday, January 15.

## Parties

Members of Theta Xi entertained their dates at a house party Saturday night, January 14.

Theta Xi will hold formal pledging services and senior recognition Friday night, January 20.

A senior dinner was given Sunday, January 15, for the seniors of Alpha Delta Pi. Honored were Judy Menehan Sheets, Pat Casey Burton, Kay Hofman, Nancy Frame, Doreen Cronkite Clair, and Luci Crain.

"A Night in Bagdad" was the theme of the party at the Alpha Delta Pi house Friday, January 13, for the girls and their dates. It was given by the pledges.

"House of Blue Lights" was the theme for the Alpha Kappa Lambda-Beta Sigma Psi dance Friday at the Country Club. Gordon Bute provided music for the dance. Pledge classes from each fraternity gave skits during intermission.

Pi Kappa Alpha and Alpha Delta Pi had an hour dance Tuesday, January 17.

Pi Kappa Alpha entertained 15 rushees on Saturday and Sunday, January 14 and 15. Following the K-State-KU basketball game, Richard Ford demonstrated hypnosis for the boys.

Sigma Nu held a Roman party Friday, January 13. Fifty couples attended the party held at the fraternity house. Chaperones were Mr. and Mrs. Ed Lindly and Mr. and Mrs. Ron Ranke.

The Kappas had their annual senior dinner, January 15.

A party was held at the Kappa Sig house Saturday night, January 14, following the KU basketball game, for Kappa Sig members and their dates.

Members of TKE and their dates attended a house party after the K.U. game Saturday evening.

## Pinnings

Chocolates at Southeast hall and cigars at the Delta Sigma Phi house announced the pinning of Carol Bowen, EEd Soph, to Paul Hatfield, DM Soph, Thursday. Both are from Valley Falls.

## Weidenbach-Winzeler

Chocolates at the Kappa Delt house and cigars at the TKE house announced the pinning of Rae Weidenbach, HEc Soph, and Dick Winzeler, BAA Jr, Wednesday, January 11. Rae is from Newton and Dick is from Gridley.

## Piper-Shimer

The pinning of Marian Piper, Manhattan, and Dick Shimer, CHE Sr, was announced at the TKE house by passing cigars January 11. Marian is employed at the College. Dick is from Topeka and will graduate this semester.

## Wendland-Misak

Chocolates at Van Zile and cigars at the TKE house January 12, announced the pinning of Joan Wendland, EEd Jr, from Randolph, and Dale Misak, PEM Sr from Freeport.

## Misak-Rapp

The pinning of Eleanor Ann Misak from Bluff City and Galen Rapp, AEd Fr from Plevna, was announced Sunday at the TKE house. Eleanor is teaching grade school in Caldwell.

## Rhodes-Mausfield

Chocolates at the Chi Omega house Wednesday, January 11, announced the pinning of Rhodes-Mausfield. (Continued on page 8)

©A.T. Co. PRODUCT OF The American Tobacco Company AMERICA'S LEADING MANUFACTURER OF CIGARETTES

## Four Frosh Girls Enrolled In 'Surprise' KS Curriculum

By NORMA LEE BROWN

Four freshmen girls can surprise a few people on the usual "what curriculum are you in?" question by answering—"agriculture."

They are Sue Hays Lunt of New York, Janice Gaddis of Wichita, Mary Butler of Topeka, and Verna Decker of Wichita.

Sue Hays Lunt, an agronomy freshman is interested in genetics, and believes the best way to learn about genetics is by studying plant breeding. Sue was a laboratory technician in the Brookhaven National laboratories, a research project sponsored by the Atomic Energy commission at Brookhaven, New York. She did experiments on genes and studied effects of atomic radiation on gene muta-

tions. She lived in Southeast hall until her marriage December 22 to Leon Lunt, geology senior from Pratt.

Janice Gaddis wants to exhibit quarter horses when she graduates. Janice, a freshman in animal husbandry, has already had some experience in this line.

Last summer she won first in the state in the Kansas Western Horse association, western horsemanship class (age 14 to 17), and third in the queen contest. She belongs to Chaparajos rodeo and riding club on the campus.

A Topeka girl, Mary Butler, wants to go into livestock ranching when she graduates in animal husbandry. Working two years as assistant to a veterinarian and

helping two summers at a riding academy is the basis for her choice. Mary is historian of the Chaparajos riding club.

A desire to cover and report the big stock shows led Verna Decker to enroll in agricultural journalism. Verna's hobby is, naturally enough, horses! She spent last summer showing quarter horses at various exhibits of the Kansas Western Horse association. She is a member of Chaparajos riding club.

The girls say they enjoy being in ag classes, although none feels that they receive any special attention from the instructors. They all agree that the boys who are their classmates are "real swell guys."

## 'Life Enjoyed More' Puerto Rican Says

By MARY JANE SHERER

"People in the U.S. don't enjoy life as much as the Puerto Rican people do," Jose Simonet, a student from that country, said.

Many more holidays are celebrated and they also keep all the holidays which we celebrate in the U.S., he said.

Jose lives in Ponce, one of the larger cities in Puerto Rico. It is typical of modern cities in the U.S.; the people dress as we do, drive the same cars, and enjoy the same modern conveniences such as TV, radio, and household equipment.

"You have to know a girl pretty well before you ask her for a date," Jose commented, "and you must be approved by the family."

Whenever a girl goes with a boy she has a chaperone who is usually her mother or sister. On first dates they go to large dances and parties. After they have dated a while they may go to shows occasionally without a chaperone.

One of the things I miss most is the rice and beans which we eat every meal as you eat potatoes or bread," Jose explained. "No one around here seems to know how to cook them." Another common food

is Vianda, made from green bananas, potatoes, sweet potatoes, squash and cod fish boiled together.

Jose, junior in animal husbandry, is president of the Cervantes club. He also belongs to the Cosmopolitan club, 4-H, and ISA. His hobby is collecting tropical fish which he keeps in ponds and aquariums.

## No Change In Weather

Topeka (U.P.)—There will be no letup in the cold weather enveloping Kansas through tomorrow, but neither will there be the compensating moisture which rode in with the sub-normal mercury readings Tuesday.

The U.S. weather bureau at Topeka said it would be colder in the East, but otherwise not much change in temperatures. The lows tonight will be around the 10 below level in North Central Kansas and the highs tomorrow 15 to 25 throughout the state.

### Klub Kolumn

## SDX Pledges Elect Officers

Sigma Delta Chi

Pledge officers of Sigma Delta Chi, professional journalistic fraternity, are Robert Coughlin, TJ Sr, president; Charles Holdren, TJ Sr, vice-president; Orval Jackson, TJ Jr, secretary-treasurer; and Roger Myers, TJ Soph, public relations officer.

Alpha Epsilon Rho

Officers, of the pledge class of Alpha Epsilon Rho, honorary radio fraternity, are Don Latter, Sp Soph, president; S. W. Gunter, Sp Jr, vice-president; Karen Chapman, Sp Jr, secretary-treasurer; and Don Lancaster, Sp Jr, publicity director.

Co-ed Extension Club

Officers elected by the K-State Co-ed Extension club for the spring semester are Donald Bernbeck, president; Norma Lee Brown, vice-president; Lois Adams, secretary; Bill Sparks, treasurer; and John Herod, corresponding secretary. Sigma Chi

Butch Bullock has been elected president of Sigma Chi. Other officers are Bill Bales, vice-president; Norvin Stunkel, secretary; Duane Ginter, treasurer; Gaylord Stunkel, corresponding secretary; Barrie Thorp, pledge trainer, Tom Allen, historian; Carl Bulger, associate editor; Bill Koch, rush chairman, Bill Schicktan and Warren Keegan, IFC; and Rodney Bentson, sergeant-at-arms.

Plus 10 RCA Victor Color TV Sets to the college organizations designated by the 10 Thunderbird winners!

JUST NAME THIS  
AMAZING FILTER!  
THAT'S ALL YOU  
DO TO WIN!

20,000 FILTER TRAPS  
TWICE AS MANY AS THE  
NEXT TWO LARGEST-SELLING  
FILTER BRANDS—FOR THAT  
REAL TOBACCO TASTE!

### HINTS TO HELP YOU WIN!

You'll think of dozens of names when you read these facts: The Viceroy Filter is the most modern in the world today! Perfected through 20 years of research!

It contains no cotton, no paper, no charcoal, no asbestos, no foreign substance of any kind! Instead, it is made from pure cellulose—a soft, snow-white, natural material found in many good foods you eat.

Only the Viceroy Filter has 20,000 filter traps—twice as many filter traps as the next two largest-selling filter brands! No wonder Viceroy gives you that Real Tobacco Taste!

Name this amazing filter and win! It's easy!

NO OTHER FILTER LIKE VICEROY!  
No cotton! No paper! No asbestos!  
No charcoal! No foreign substance  
of any kind! Made from Pure Cellulose—  
Soft... Snow-white... Natural!

It's easy to name this amazing Viceroy Filter when you know what it's made of... why it's superior... why Viceroy's give you that real tobacco taste you miss in every other filter brand!

Remember, the Viceroy Filter is made from 100% pure cellulose—a soft, natural material found in many good foods you eat! There are no impurities in the Viceroy Filter. So naturally it lets the real tobacco taste come through!

Name the Viceroy Filter! Enter this \$50,000 contest, today!

### JUST FOLLOW THESE EASY RULES!

- 1 On any plain paper, write the name you think most suitable for the pure, white Viceroy Filter described on this page. It's easy! You can think of dozens of names like "Super-Pure," "Filtron," "Naturale," "Flavor Flow," "Cellutrate," "Twice-The-Traps." You can use one, two or three words. Any name may win!
- 2 Mail your entry to Viceroy Thunderbird Contest, P. O. Box 6A, Mount Vernon 10, New York. Write plainly or print your name, the name of your college and your mailing address at college! Submit as many entries as you wish—but with each entry include the picture of the Viceroy Filter Tip torn or cut from the backs of two (2) Viceroy packages.

- 3 Contest open to all students attending colleges and universities in the U.S.A.
- 4 Contest closes midnight, January 31, 1956. Entries judged by The Reuben H. Donnelley Corporation on the basis of aptness of thought, originality and interest.
- 5 Prizes listed elsewhere in this ad. Winners of the ten Thunderbirds will also be permitted to designate the school organizations to which Brown & Williamson Tobacco Corporation will award RCA Victor Color TV Sets! Write the name of the organization you want to receive this award on your entry.

Kansas State College, Manhattan, Kansas, Thursday, January 19, 1956

NUMBER 73

## New Union To Open March 8

### YMCA Offers Career Guide To Students

"Career," the annual guide to business opportunities which lists business and industrial opportunities for graduating seniors, is available in the YMCA office now.

These books are for seniors majoring in engineering, chemistry, economics, geology, math, physics, accounting, and business administration. They are indexed according to major field, geographic location, company, and industry.

"These are free of charge and the seniors graduating this semester are urged to pick theirs up now," Kent Pridey, Ag Soph, who is in charge of distribution, said.

Loren Kottner and Bob Alexander pull the mystic number out of the hat.

### Plans Include Special Guests, Dances, Movie

K-State's new 1.6-million-dollar Union will open March 8.

Director Loren Kottner said last-minute delays have made it impossible to get the building ready by February 1, which was set as a target date last year but was cancelled recently.

K-Staters in charge of arrangements for the March 8 opening are planning to keep ceremony to a minimum, thus letting the students dedicate the building by their use of it.

President Emeritus F. D. Farrell, during whose administration the Union drive actually got under way, is to speak briefly at a dinner on March 8.

His talk will be followed by a "ribbon cutting," at which Gerry Day, student body president, and Rick Harman, president of the K-State Alumni association, will preside.

As the ribbon is cut the Union will blaze into light, with student activities in full swing.

On the night's program will be two dances, a movie, an art exhibit, and a number of student-committee meetings. Activities in game rooms, craft shop, browsing library, and music-listening rooms also will be available.

Kottner said the building essentially is completed now, except for some details in the food service area, lighting in the bowling alleys, and the addition of a deep freeze.

Although the building formally will not open until March 8, one portion of the building already is in use.

On January 4, contractors turned over the south wing of the first and second floors to the College, following inspection by the state architect. Union activities now are being directed from the student activities center on the second floor of the south wing.

Installation of an 8-lane bowling alley is to be completed in time to handle 10 second-semester bowling classes.

All furniture and furnishings, and the permanent kitchen equipment, have been contracted for but it will take most of February to get these items installed, Kottner said.

Key staff positions for the building now have been filled, Kottner said. Appointments previously announced were Robert Alexander as program director, and Jack Lockett as food service director.

Rounding out the key staff are Clarence Shandy, building engineer; Frank MacCreary, games and night manager; and Verlyn Richards, accountant.

Richards, a senior in business administration, will receive his B.S. degree at commencement exercises January 28.

When the Union is in operation there will be a full-time staff of 45 to 50, with 75-100 students employed on a part-time basis. Most of the employees will be in the food service department, Kottner said.

### Saturday Big Day; Final Exams Start

Finals may start a day early for some students this semester as the final exam schedule calls for the first exams to begin on Saturday afternoon, January 21. The exams will continue through Friday morning, January 27.

Registration for the spring semester will get underway Monday morning, January 30 and will continue through Wednesday, February 1. Testing and orientation for first semester freshmen and transfer students also will begin Monday, and they will be the last to enroll Wednesday afternoon.

Second semester classes begin at 8 o'clock Thursday morning, February 2.

Nine evening college classes have been scheduled for the first term of the spring semester. First meetings of these classes will be during the week of February 6.

### Stream Pollution To Be Studied By Game Wardens

The second annual short course for game protectors will be held January 25-27 in Fairchild hall under the supervision of Otto W. Tiemeier and R. B. Moorman, professors in the zoology department.

About 45 game wardens are expected to attend the meeting which will be devoted primarily to a study of predators and stream pollution, Tiemeier said.

Lectures will be given by Tiemeier and Moorman and other speakers experienced in wildlife conservation and effects of pollution.

The course was inaugurated last year by Moorman and Tiemeier.

### PM Classes Scheduled By Extension

Twenty-six evening college and extension classes, to be offered by K-State at Manhattan and at Fort Riley during the first term of the spring semester, have been announced by Roman Verhaalen of the office of general extension.

Seventeen of the courses are being offered at Fort Riley, with classes to meet twice weekly starting February 6 or 7, and to continue through the first week in March.

The Fort Riley classes will be open to both civilians and military personnel. Registration for the classes will be Tuesday and Wednesday, January 31 and February 1, at 7 p.m. in Rooms 10 and 11 of Building 879, the T&E office, at the main post in Fort Riley.

Those interested in classes being offered on the K-State campus in Manhattan should preregister by mail through the office of general extension, or should preregister at the office. Registrations also will be accepted at the first class meetings. These classes begin the week of February 6.

Courses at Fort Riley offered on the Monday-Wednesday schedule include Microbiology of Human Diseases, Economics I, Written Communications I, Principles of Geography, United States History before 1865, College Algebra, German I, General Psychology, Group Discussion Methods.

### Vets Must Sign After Final Exam

Veterans attending school under the Korean GI bill should sign certification forms for February subsistence pay in the veterans' office as soon as they complete their final exams, Wendell R. Kerr, veterans' service officer, said.

### Student Health

Eight girls and five boys were in Student Health today. Girls are Charlotte Williams, Barbara Barnett, Paula Pangburn, Nancy Paulson, Patti Penrod, Mary Fabin, Beverly Barnett and Jo Ann Lydick. The boys confined are Billy Cox, Richard Evers, Ernest Omiya, Charles Thompson, and Hsi Mas Chen.

### UN, Congress Are Spots on 'Y' Tour

The second annual YM-YWCA Washington-United Nations trip tentatively is scheduled to start immediately after the nine weeks exams next semester.

The Washington schedule includes such speakers at luncheons and dinners as Vice-President Nixon; Senator Frank Carlson, (R-Kan.); E. Raymond Wilson, associate of the Friends Committee on National Legislation; Sen. Richard Neuberger, (D-Oregon); and others.

Students will make a trip to New York for a UN seminar. Features of the seminar will be interviews with UN delegates, and visits to the General Assembly. There also will be time for sightseeing.

MEMBERS OF the K-State Radio club hold a "ham" session. Clifford Chamny, DM Fr, and Gene Ismert, Geo Jr, adjust the controls while Vernon Gaylord, AgE Soph, looks on.

# Don't Let Atmospheric Data Of Moon Flood You Out, Too

By ANN WEATHERS

HOORAY! Finals aren't the only things that some college students dare to think about.

At the University of Oregon, a couple drove out to a favorite spot on the Willamette river beach a while back to discuss "atmospheric conditions on the moon, and other such trivia."

When they tried to leave—much, much later—the car wouldn't start. The man in question got out to look for the problem. To the couple's mutual surprise, the beach was flooded, and they had to wade to shore.

That must have been a truly wonderful discussion on lunar atmospheric conditions.

DO YOU LIVE in a cellophane world?

A Daily Kansan editor claims that many students are more concerned with Grace Kelly's engagement than with what the President said in his State of the Union message. Instead of following the fight between Egypt and Israel, the average college student would rather follow the nearest attractive coed. "Four years is a long time to be out of touch with the world."

I know some who would say that it's a long time to be without coeds, too.

THE DAKOTA STUDENT finally has answered

the age-old question, "What is a college man?"

"College men come in assorted colors—swarthy, sandy, freckled, and bloodshot.

"They have one creed in common—to borrow every penny of every nickel of every dime of every dollar of every fraternity brother.

"They are found anywhere—in hallways of sorority houses, in debt, on barstools, in front of TV sets, behind Playboy magazine, and under the weather. Mothers love them, fathers finance them, sisters tolerate them, and girls amaze them.

"A college man is Purity with a hangover, Dignity with a hole in his stocking, Beauty with a 5-o'clock shadow, and Wisdom with a D for deficiency.

"He likes his roommates' ties, beer, red sweaters, picnics, "38-21-37" statistics, french-fried onions, and money. He hates short hair, presentation teas, Bermuda shorts, 11-o'clock hours, Phi Deltas, ROTC, painted toenails, and bank statements."

HERE'S A FINAL gem of wisdom for the semester—

"A closed mouth gathers no feet."

## Lost: One \$40 Coca-Cola Bottle

Dear Editor:

THIS IS A LETTER to the student body.

Last Saturday, January 14, the Union dance committee held a dance, "Basket Ball." Attendance at the dance ran high with over 800 tickets sold. The band had special attractions, entertainment was furnished, refreshments were sold, and expensive decorations (expensive both in dollars and work hours) were put up.

Those of you who were at the dance will remember the 6-foot Coca-Cola bottle in the center of the floor, the two 3 1/2-foot Coke bottles by the bandstand, and the Cat and Hawk heads on the basketball goals.

AT THE END of the dance only one small Coke bottle was left; souvenir hunters and pranksters had made off with the other two Coke bottles, and with the Cat and Hawk heads. Similarly, decorations also were taken from Ahearn gymnasium at the time of the Les Elgart dance.

Each time decorations are taken, it means that extra time and money must be spent on the next dance. Actually, a few students are robbing the rest of you of future dances. When decorations amounting to more than \$100 are taken, there are only a few ways that this loss can be offset. One is to do without decorations completely; the second is to have fewer dances; and the third is to increase the admission price to the dances.

OF THE TWO Coke bottles taken, the 6-footer and a 3 1/2-footer, the large bottle has been returned. The two were valued at \$120 by the Manhattan Coca-Cola Bottling company, who loaned them to us. If the small bottle is not returned to us, it will mean a loss of about \$40 of your—the students'—money.

If the people who took this bottle will bring it back before Monday, January 23, no questions will be asked or penalties imposed. They may be returned to the lost and found department at the temporary union.

We on the dance committee feel that the students

should do something to stop the souvenir taking. Remember, it is your money that is being stolen.

Conrad Smith and members of K-State Union dance committee.

## I Go Pogo, You Go Pogo

Dear Editor:

IN YESTERDAY'S issue of the Collegian I noted that you had explained the absence of Pogo in a previous issue because of a newsprint shortage.

May I urge you that in the future, should a similar situation arise, leave out the editorials, any of the so-called "news," or anything else, but keep in Pogo.

Yours sincerely, Gregory B. Mulkern, Ent Grad.

## Pepsters 'Sorry Sight'

To the Editor:

I WOULD LIKE to go on record as head of a self-appointed committee of one to state that the 1955-56 edition of the Kansas State pep club is a "sorry damn sight."

My purpose in making this statement is not to run down the school or any of its organizations, but rather with the hope that an unsightly purple and white section of the fieldhouse bleachers will be transformed into a neat formation.

IT IS A TREAT during the football season to watch the football games on TV and see the outstanding card stunts put on by schools such as UCLA, USC, Illinois, etc. Then one goes to a Kansas State basketball game, and the clowns we have here that make up the pep club can't even sit in a "K" formation. The pep club's appearance at the K-State-KU game last Saturday night was a shining example.

Dress it up, and quit being an unsightly blot on the landscape.—M. H. Thorne (class of '50).

## World News Briefs

### Eden's Support of Dulles' Policy Raises U.S.-England Unity Hopes

LONDON, (U.P.)—Prime Minister Anthony Eden's firm endorsement of "deterrent power" as the path to peace today raised hopes here for important Anglo-American policy agreements in the forthcoming Eden-Eisenhower talks in Washington.

A top item in the conference between Eden and President Eisenhower is the explosive situation in the Middle East.

Eden came out in support of the theory of U.S. Secretary of State John Foster Dulles that peace can be maintained through the "deterrent of nuclear weapons." Dulles outlined the theory in his "brink-of-war" interview with Life magazine.

Eden's speech was a hopeful sign to diplomats who had turned pessimistic on the outlook of the Washington conference after the Dulles interview provoked angry British reaction.

WASHINGTON—Republicans today countered Democrat criticism of Secretary of State John Foster Dulles' "brink-of-war" policy with the argument—"Truman did it, too."

Senate Republican leader William F. Knowland said Dulles' policy was nothing new. He said the Truman administration followed a policy of taking a "calculated risk" on war in at least two instances—fighting the Berlin blockade, and warning Yugoslavia to stay out of northern Italy.

President Eisenhower was certain to enter the international debate for the first time with a defense of Dulles at his news conference today.

Besides the foreign-policy issue, Eisenhower was expected to answer attacks on his defense program. Gen. Matthew B. Ridgway, former army chief of staff, has charged that the nation's armed forces were cut by the administration for political reasons.

NEW YORK—Thousands of investors from London to San Francisco now have a Ford in their future.

They are the tycoons and ditch-diggers, the housewives and secretaries who bought the first shares of Ford Motor company stock ever sold to the general public.

Between 200 thousand and 500 thousand persons are estimated to have bought the 10.2 million shares of Ford stock sold yesterday.

To many of these lucky stockholders, their Ford shares will become collectors' items. Others bought the stock to make a profit, or for income, or "to put away for the kids."

TOPEKA—The Senate ways and means committee reportedly sliced \$237 thousand from Gov. Fred Hall's budget for the University of Kansas, despite the pleas of Dr. Franklin D. Murphy, the institution's chancellor.

## Pinnings

### Buck-Menghini

Cigars at the Alpha Gamma Rho fraternity Wednesday announced the pinning of Joan Buck and Francis H. Menghini. Joan is a student at the KU Medical center and is from Cuba. Francis is a pre-med junior from Pittsburg.

### Lyon-Bressler

Chocolates at the Kappa house announced the pinning of Laura Lyon, Eng Soph, and Steve Bressler, FT Soph, Sunday, January 15. Steve is a Sig Alph from Wamego. Laura is from Kansas City, Mo.

### Wahle-Schickeltanz

Chocolates at the Pi Beta Phi house and cigars at the Sigma Chi house announced the pinning of Dorothy Wahle and Bill Schickeltanz. Dorothy is a sophomore in elementary education, and Bill is a sophomore in psychology. Both are from Junction City.

## Engagement

### Webb-Adams

Thayla Webb, HT Soph, from Barnard, and Calvin Adams, Psy Soph from Simpson, announced their engagement Sunday by passing chocolates at Southeast hall and cigars at the 1834 Club.

### Henderson-Dailey

The wedding of John Dailey, ME Jr, and Elva Henderson was announced at the Sigma Nu house,

Wednesday, January 11. The wedding will be January 28. Both are from Salina.

### Worden-Overall

The engagement of Betty Worden and Douglas Overall was announced by the passing of chocolates at Clovia, January 15. Betty, a senior in home economics education, is from Olathe, and Douglas is a '55 graduate in business administration.

### Russell-Wendland

Chocolates at Clovia January 15 announced the engagement of Dorothy Russell, Dover, and Phil Wendland, Manhattan. Both were '55 graduates. Dorothy is teaching home economics in Baldwin, and Phil is employed near Topeka.

### Peterson-Gillette

The engagement of Carol Peterson and Ed Gillette has been announced at the Delta Tau Delta house. Ed, from Coffeyville, is a senior in veterinary medicine, and Carol, of Kansas City, was a member of Gamma Phi Beta at Illinois university.

### Donahue-Fletcher

The engagement of Rosemary Donahue and Tom Fletcher, NE Fr, was recently announced at the O.K. House. Tom and Rosemary are both from Plains.

### Crawford-Alger

Chocolates at Van Zile hall announced the engagement of Rose Anne Crawford and John Alger. Rose Ann is a '55 graduate in medical technology from Ottawa. She is at the KU medical center. John is a senior in agricultural administration from Dodge City.

### Prose-Hledik

Chocolates at Southeast hall January 8 announced the engage-

ment of Terry Joy Prose and Jack Hledik. Terry, BA Fr, is from Liberal. Jack is a graduate assistant in the math department and will receive his master's degree in May. He is from Dickinson, N.D.

## Weddings

### Hahn-Houser

Franklin Houser, '55, Wellington, and Bonnie Hahn, Clo Sr, St. John, will be married in St. John January 29. Franklin is a member of Sigma Alpha Epsilon and Bonnie of Delta Delta Delta.

### Harkabus-Orban

Roger Orban, ArE Soph, and Vivian Jean Harkabus of Chicago will be married in Chicago January 28. He is a member of Sigma Alpha Epsilon.

### Walker-Giffin

February 4 is the wedding date set for Phyllis Jean Walker, BA Jr, and Edward Giffin, '55, Kansas City. They will be married in Junction City. She is affiliated with Alpha Delta Pi and he is a member of Sigma Alpha Epsilon.

## Pledges

New Lambda Chi Alpha pledges are Boyd Smith, PrV Soph, and Harvey Young, ME Jr.

# Sooner Cager May Enroll at K-State

Norman (U.P.)—Oklahoma university basketball coach Doyle Parrack today faced prospects of meeting Iowa State January 28 with a squad of only eight or nine players.

First string guards Jimmy Peck and Gary Balding and freshman Don Blizzard announced yesterday they were switching to other schools. Two other players had dropped out earlier because of grades.

Kansas State may gain another basketball player starting next semester. Gary Balding, guard on the Oklahoma team, has reported that he may enroll at K-State.

Under Big Seven rules Balding would be ineligible for varsity play for two full semesters but he would become eligible for varsity competition in the spring semester of 1957.

Speculation turned toward Fred Hood, Denver sophomore, as a

possible returnee to the squad. Hood, formerly active in football, has been out for one workout this season and it was believed he might rejoin the squad.

Peck and Balding, both attending the university on athletic scholarships, listed no grievances against Parrack in quitting the team. Peck is from Leedey, Okla., and Balding from Hazelton, Kan.

"I don't have any personal difficulties with Coach Parrack," said Peck, the team's second highest scorer. "But when you lose confidence and you can't enjoy playing the game, then it's time to do something."

Balding said he felt he "wasn't helping the team nor myself. Besides, I can save money by transferring back to Kansas."

Parrack declined to answer reporters' questions, but issued a statement through sports publicity director Harold Keith.

"They felt like they weren't doing any good here and wanted to transfer," Parrack said. "If a boy thinks he can't help the team and wants to make other plans, then I think it's best that he do so."

Peck, who has an average of 14 points a game, said he planned to enroll at Southwestern State college, Weatherford, Okla., for the second semester.

Reserve guard Max Claiborne, who had been reported dropping from the squad, apparently will continue to play. Jim Thornton, sports editor of the Oklahoma Daily, student newspaper, said.

Peck and Balding had no bad comment about Parrack's coaching. Since Parrack came here from Oklahoma City university last spring, the Sooners have posted a season record of 3 wins against 13 losses. The team is 0-3 in the Big Seven conference.

# MU Coach Not Concerned Over Cat-Tiger Cage Tilt

Columbia, Mo. (U.P.)—Sparky Stalcup, University of Missouri basketball coach, looked without apparent concern to Saturday's Big Seven contest with Kansas State despite his team's disappointing start.

Stalcup admitted he was a man with troubles, but he wasn't breaking out the crying towel—yet.

His team returned home recently from a two game trip that resulted in a tumble into a fifth-place tie in the conference. Norman Stewart, the team's all-Conference guard and team's top scorer, is hobbled by an injured back. A host of minor injuries were sprinkled through the squad.

"I don't like our position, but I'm not discouraged," Stalcup declared. "Sure, the defeats at Colorado and Nebraska hurt us, but the trip wasn't disastrous. Other teams have been worse off and have come through. In this league it's going to be rough for anyone to win on the road."

# Cat Gym Squad To Meet Huskers, Buffs Saturday

The K-State gymnastics team will meet Colorado and Nebraska in a double-dual meet at Lincoln Saturday, instead of meeting Colorado at Boulder as reported in yesterday's Collegian.

Most of the interest will center on the results of the dual scores with the Buffaloes since the Cats lost a 35-77 decision to Nebraska last Saturday.

The Wildcats lost to Colorado by a close score last year but the loss of key men has weakened the Buffs.

Wendell Holt will lead the Wildcats against their conference opponents at Lincoln. He scored 18 points against the Huskers Saturday with seconds in free exercise, trampoline, and tumbling, and third in the high bar and parallel bars. He is followed by Albert Bumpus with eight points and Wendell Minckley with a third in the side horse and fourth in the flying rings.

Also making the trip to Lincoln will be Bob Eshelbrenner, Darrell Bower, Robert Gramzow, Jack Harmon, and Larry Northway.

# Wes Santee To Miss Mile In Philadelphia

Philadelphia, (U.P.)—The Philadelphia Inquirer games Friday night will be without America's premier miler, Wes Santee.

Santee was scratched yesterday from the one-mile event because of a recent injury to his leg. He has been unable to train for several weeks and also missed the Knights of Columbus meet at Boston last Saturday.

# Kansas State Collegian

VOLUME LXII

Kansas State College, Manhattan, Kansas, Friday, January 20, 1956

NUMBER 74

## Forty Air Cadets To Fly to Florida

Forty Arnold Air society members will fly to Eglin Air Force base, Fla., for a 3-day visit January 28.

Leaving from Marshall field, Ft. Riley, the group will make a second attempt at the visit to Eglin, having been grounded by weather conditions December 1.

Capt. Howard L. Malchow, instructor-organizer for the group, said the group will be flown to and from Florida in a USAF twin-engined plane.

A partial list of those making the trip includes Eddie R. Fowler, James Bell, William G. Hanna, Wesley D. Hedden, James Hotchkiss, Raymond E. Johnson, William C. Kennedy, Ray E. Maddux.

Donald G. McDonald, Bobby L. Moore, John Ricklets, Wayne K. Riley, John L. Oltjen, Charles F. Scholer, Estel J. Schultis, Robert L. Shipp, James R. Schafer, James D. Stamm, Leo Stolzer, Donald V. Upson, Ralph L. Webb, George J. Yapp, Gene L. Youngstedt, and John C. Landon.

Capt. Malchow said the trip would consist of inspection of Eglin's facilities and methods.

## Organ Recital Sunday at 4

The K-State Student Organ Guild will present a recital in the auditorium Sunday at 4 p.m.

Members of the guild taking part in the recital are: Karen Boyington, MA Fr; Jane Thompson, Hst, junior; JoAnn Schroer, EEd Jr; Janet Weselowski, MEI Sr; Kathleen Schultis, HEJ Fr.

Marcella Matzke, EEd Fr; Carol Fleming, MEI Jr; Carolyn Hughes, MEI Soph; Jeanette Hendricks, HT Soph; and Ramona Tucker, HT Jr.

## Many Jobs Open In New Union

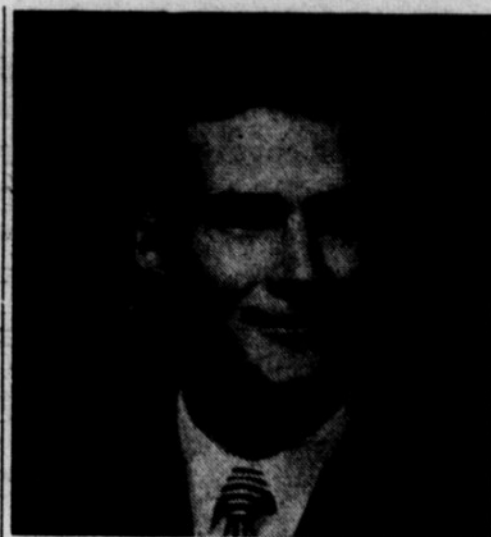

A demand for additional student help in several departments exists, Loren Kottner, Student Union director, said today.

There is a need for pinsetters and desk attendants in the games area, student janitorial help, information desk attendants, and student food service employees. The need is for girls as well as boys to handle the information and games desks, Kottner said.

Students interested in employment in the new Union should contact Kottner on the second floor of the building as soon as possible, the director said. Applicants should have their second semester class schedule with them.

## Student Health

Five girls and five boys are in Student Health today. The girls are Barbara Barnett, Paula Pangburn, Patti Penrod, Louis Ottaway, and Jo Ann Lydick. The boys are Bill Cox, Richard Evers, Larry Schneeweis, Hsi Mas Chen, and Raymond Glaze.

## Francis Reichart Wins \$100 Award

Francis Reichart, a K-State senior in agronomy from Valley Falls, has been awarded the Kansas Seed Dealers' \$100 award for the outstanding student in farm crops.

The award was presented to Reichart by George Knaup, president of the association, at its annual meeting recently.

Reichart, who was selected by a committee from the agronomy department, has majored in farm crops, and has been employed on research projects in the department on a part-time basis.

## Next Collegian On February 3

Because of final exams and spring-semester enrollment, today's Collegian will be the last until February 3.

## Two Groups Donate \$1,000 To KS Union

Blue Key, senior men's honorary, presented the Student Union with money for a fireplace last night, and Alpha Phi Omega, service fraternity, announced plans to provide a bulletin board.

The presentation of \$800 from Blue Key was made by president Martin Eby, CE Sr. An additional \$200 will be given next fall. A suitable plaque will be placed beside the fireplace which will be in the main lounge, said Union director, Loren Kottner.

The bulletin board to be provided by Alpha Phi Omega will be called, "Today at the Union" and will be a daily calendar of all Union activities. It will be placed

# A Glance at the Fall Term

By ROYANNE McMULLEN and BILL WHISTLER

## September

Orientation and getting adjusted to class schedules took up everyone's time during most of the month. Some of the K-Staters were busy with queen contests and getting started in other school activities.

Enrollment ended with 5,838 students registered. This was an 11 per cent increase over the fall semester last year.

Kappa Kappa Gamma sorority and Farm House led the Greek houses in scholarship during the last spring semester. The Kappas had a 2.076 average and the Farm House had a 1.845 average.

Sondra Tate, Art Soph and a member of Pi Beta Phi, was in California competing in the nationwide Miss Football Contest.

President McCain approved smoking in offices of campus buildings.

Mrs. Kenneth Adamek, HT Sr and member of Kappa Delta, was the national sweetheart of Tau Kappa Epsilon.

K-State sororities pledged a record of 247 girls. Alpha Delta Pi sorority led in the largest number pledged with 39 coeds.

The fraternities pledged 342 which was one less than last year's number. Sigma Alpha Epsilon led in number pledged with 35.

Charles Zickefoose, Ar 03, received the James Richard Koefod award for having a 2.538 average for last year. He is the first winner of the award. Each year it will be awarded to a varsity letterman in the major sports who has a grade average in excess of 2.25 and has the top average among lettermen.

Jannene Foust, HEJ Fr, was chosen Orientation Queen.

Prof. C. A. Dorf, member of the chemistry staff, passed away.

Barbara Lowe, HM Soph, was selected in the top 15 of 37 coeds competing in the 1955 College Queen contest at Asbury Park, New Jersey. She is a member of Delta Delta Delta.

K-State Wildcats lost 38-20 to the University of Wyoming in the football opener.

President McCain spoke at the first assembly and stressed importance of present-day happenings.

Seven fraternities have moved, remodeled or are building. Acacia and Farm House have new buildings; the "1834 Club," Delta Sigma Phi, and Phi Kappa Tau have moved; and Alpha Tau Omega and Tau Kappa Epsilon have remodeled their buildings.

Roger Rankin, AH Sr, was appointed regimental commander of the Army ROTC and Donald R. Hill, Ec Sr, commander of the Air Force ROTC.

Homecoming plans began. The theme of "Sooner or Later" was used throughout the plans.

President McCain asked the Legislature to legalize traffic fines for K-State.

K-State asked the 1956 state legislature for \$50,000 for adequate landscape maintenance of the campus.

Three sophomore gridders were promoted to Wildcat star eleven. They were Don Zadnik, end; John Keelan, tackle; and Ellis Rainsberger, guard.

AFROTC names 132 cadet junior officers.

Nancy Howard, EEd soph, was named drum major replacing Marlene Young, EEd Soph. Miss Young was the first girl drum major in K-State history. Three new twirlers were Karen Blume, Lynn Mechesney, and Joyce Brower.

Sixteen girls were chosen to compete for Royal Purple queen. K-State lost 28-7 to Iowa university at Iowa City.

The freshman pep club chose Joan Strohmeier, Soc Fr, president.

Mike Cornett and Joyce Larson resigned from Student Council. Jack Barrett was removed because of scholastic ineligibility.

Dr. W. D. Hastings, formerly a biochemist on the University of

Washington staff, was named associate professor in the department of flour and feed milling industries.

Sigma Alpha Epsilon and the Hillbillies won the fraternity and independent championships in intramural golf.

Doug Roether, fullback, was selected as Wildcat "Player of the Week."

Kay Hutchinson, Sp Sr, was chosen general manager of KSDB-FM and Gene Dickinson, Sp Jr, was chosen program director.

Phil Stiles, BS Sr, last year's head cheerleader at KU, was named K-State's head cheerleader. Other cheerleaders selected were Sondra Tate, Art Soph; Jean Cooper, BMT Soph; DeAnn Mackle, PEW Jr; Marilyn Adams, EEd Soph; Dave Larson, BA Jr; J. M. Thies, BA Soph; Larry Youngdoff, AA Soph; and alternates Dale Scott, EE Jr; and Rachel Pickett, MEI Soph.

Jim Windle, AA Jr, was named

editor of the 1956 Who's Who, 4-H yearbook.

Sixteen girls were chosen to represent campus organizations as Ag Barnwarmer queen candidates. "Trumpet," a new alumni publication, was printed.

Hui O Makules and Delta Tau Delta won the fraternity and intramural swimming titles.

Marylyn McCready, EEd Jr, and Bill Johnson, Geo Sr, were elected by the School of Arts and Sciences to Student Council vacancies.

Gov. Fred Hall was invited to take part in the Homecoming ceremonies.

Purple Pepsters, women's pep club, initiated 61.

## October

Homecoming with house decorations, pep rally, queen and attendants, a parade and football game,

was the biggest event during this second month of school.

Dr. Clarence H. Faust, president of the Fund for the Advancement of Education, was assembly speaker.

K-State asked legislature for \$20,000 for a nuclear reactor.

Nebraska Cornhuskers won 16-0 over the Wildcats—in football contest.

Ag Week began. The traditional Aggie horse tank claimed quite a few victims. The feud between the Aggies and Vets livened up the week.

Faculty professors were polled on their viewpoint on faculty participation in the new Student Union.

Jim Furey, starting center and captain of the Wildcats, was named as "Player of the Week."

College library was dedicated to Francis David Farrell, former president of the College.

K-State asked the Legislature for \$69,000 for research on water problems, particularly as they affect production from the land and farm water supplies.

Frog Club elected 38 new members from a group of 66 swimmers who tried out.

Gary Rogers, ChE Sr, was elected to Student Council from the School of Engineering to replace Mike Cornett, AgE Sr.

Seventeen girls were chosen to compete for Homecoming Queen.

Mark Drake, AH Sr, was selected as Integrity party candidate for senior class president. Other party candidates were Eleanor Griffith, HE Sr, secretary; Diane Benedix, BA Sr, treasurer; and Avis Tromble, HE Sr, vice-president.

Executive committee to help plan a mock political rally was chosen. Members are Pat Wilkerson, BA Jr; Dick Gallion, Gov. Sr; Don Hill, Ec Sr; Ray North, Psy Soph; Martha Helmers, HE Sr; and Thomas Bowman, ChE Soph.

John McComb, PrV Fr; Marilyn Smith, BMT Jr; Ruth Pickett, FdN Jr; Denretta Joy, EEd Jr; Gene

CHARLES ZICKEFOOSE, first winner of the James R. Koefod Memorial award, receives the award certificate from President McCain.

# Swanson's Swan Song

KANSAS STATE COLLEGIAN  
Friday, January 20, 1956-2

THIS IS IT!!

Today's issue of the Collegian is the last this semester. Undoubtedly some persons will rejoice and make merry as they realize that the present staff no longer will hurl comments at some groups and individuals.

We've enjoyed putting out the Collegian this semester, and we hope you've enjoyed it. Being realistic, we haven't attempted to please all 100 per cent of you. But we hope we've pleased the majority. We've printed what we thought you'd like in the way of features, and have thrown in editorials when we thought them appropriate.

This fall's paper could be called a "renaissance" of the Collegian. We've started from scratch in typography and have greatly expanded pictorial coverage and feature and other coverage. We hope these measures have been reflected in a higher quality and more readable paper. Our main interest was to give you a paper which you'd be eager to get, and would enjoy reading.

THANKS GO to the many staff members, reporters, and others who contributed to the paper. Without you, dear K-Staters, there would have been no Collegian. You paid for it and furnished the news (also the staff).

A good staff is lined up to head the Collegian next semester. With the same cooperation as was given the fall edition, the spring paper should be the best in history.

And so, all things must end. I've enjoyed it all—the \$60 a month, the 12 hours a day (on the lighter days), and the inability to attend classes on many days.

It's all yours, Miller. I gotta study.—Gary Swanson.

## 'Me for Milt'

## Politicos Poet Laureate Indicates Trends With Campaign Slogan-Button Ideas

NEW YORK, (U.P.)—It's official, folks. The campaigns are under way. You always know they're off and running in the Presidential sweepstakes when the poet laureate of politics begins plucking his bloomin' lyre.

Emanuel Ress, the maestro of the campaign button, is warming up to the task he faces every 4 years—inventing the slogans that you and I wear on our lapels.

LEST WE FORGET, Ress is the man who early in 1952 gave us such lines as "Kefauver, take over," "We need Adlai badly," "Averell will fill the bill." He also claims to have invented "I like Ike" back in 1947.

Ress has manufactured and sold millions of buttons. It goes without saying that he's strictly neutral in politics. When you see him around a national convention, he usually is wearing a huge button reading, "I don't care who wins—my business is buttons."

WHAT'S HE GOT new for 1956?

"Well," he said, "I've got 'My pick is Dick.' I just dusted it off from 1952. It

originally was for Dick Russell, but with Nixon looming it could come in mighty handy again this year.

"For something brand new, I've got 'Me for Milt.' There's a fellow down in Georgia starting a Me-for-Milt movement, and he ordered a thousand buttons to send out as feelers. That was shortly after the President's heart attack. But now, with Ike recovering, he's waiting for things to simmer down.

"THIS FELLOW was an original I-Like-Ike man, but there's one thing about him—he doesn't like Nixon, no how. He wanted something on buttons like 'Nix on Nixon,' but I talked him into a positive approach.

"Also, there were some requests from Knowland people in New York, asking how long it would take to turn 'em out. Now they're holding up pending a decision by Ike. I'm turning over in my mind some things like 'There's Knowland Like My Land,' but nothing definite yet."

Ress said he dashed off a song parody for the Milt man down South, and sent it along to him for possible use. Based on "Tea for Two," it starts like this:

"ME FOR MILT," and Milt for me; for he's the one that ought to be—President if only he . . . will run . . ."

And it ends:

"First it's Ike, we all agree; but it Ike says no, then it will be, brother Milt, yes, brother Milt for me."

Ress said he's had a couple of calls for "I still like Ike" buttons, and he has made up a sample of "If we ever needed Ike, we need him now." He's also thinking of this Ike campaign button: "Peace, prosperity . . . and Ike's sincerity."

Looking ahead to one possible Democrat ticket, he's holding in reserve: "Adlai and Estes are the bestes'."

## Comments—Both Wise and Otherwise

For the benefit of future generations, some old saws from the files of the Collegian editorial page during the past semester have been compiled so that they can be inflicted upon future generations. Clip this and put it in a safe place.

DO YOU go steady? If so, you probably come from an unhappy home, a family sociology professor says. He found that adolescents from unhappy homes have less confidence in associations with the other sex, date less, but go steady more often.

PEOPLE WHO EAT pie for breakfast and dessert before the main course have grown up feeling insecure and unloved. They let food take the place of affection.

MORE PEOPLE are using alcohol all the time.

FEELING BLUE? Exams got you down? Devote the noon hour to laughter, song, and good fellowship.

WOMEN'S HATS may change from season to season, but their designs remain the same.

TWO SONGS seem to be on their way to the top-10 list. The first is a lovely and sentimental ballad called "I Could Tell She Was a Schoolteacher by the Pupils in Her Eyes;" the other was released under the title "I'll Never Forget What's Her Name."

ONE UNIVERSITY abandoned the honor system years ago when it became evident that the profs had the honor and the students had the system.

RESULTS of a university survey on intolerance indicated that church-going students are inclined

to be more intolerant than students who never attend church.

A KING by the name of Hitnoah Went hunting, and stepped on a boa;

The snake reared and faced him, And then it embraced him;

Oh, Hit ain't gonna reign no moah.

GIRLS! Science has proved that when your heart skips a beat or stands still it is perfectly normal. The heart just syncopates, as in music. Also—if the girl's heart is "in her mouth" it's just a rapid upsurge of blood pressure; when the girl is all "weak in the knees and feels as if she will melt, it's just a sudden drop in blood pressure.

SORORITY—A male student's idea of heaven.

AFTER MAN came woman—and she's been after him ever since.

QUOTING a KU alumnus after he watched the K-State band and KU's doubletuning band at the football game at Lawrence: "K-State's band may be better than ours, but our band is fastest."

IN REVIEWING Shulman's book on campus humor, this little quote came to light: "If you love me, like I love you—then shame on us." Also this bit of philosophy: "Three characteristics common to campus humor are (1) a irreverence toward authority, (2) a love for the outlandish, and (3) a preoccupation with sex.

CRAMMING at 3 a.m.—"How weary, flat, stale and unprofitable seems to be all the uses of the world."—Hamlet.

(If you don't want to clip out this section, then tear it out.)

## World News Briefs

## Ike Will-Won't (Choose 1) Run, Politicos Say

WASHINGTON, (U.P.)—Speculation on President Eisenhower's second-term plans reached new heights in the wake of his news conference yesterday.

It was clear that Eisenhower's remarks indicated two things: he will run for reelection; he will retire from politics.

Sen. Styles Bridges (R-N.H.) said the President's announcement that he would not oppose entry of his name in Presidential primaries is "an indication that we are near a favorable decision on his running again."

Sen. John Sparkman (D-Ala.) said apparently the President "has been telling his Republican colleagues in an oblique way that he won't run."

WASHINGTON—President Eisenhower tonight makes his first major public appearance since his heart attack to help the Republican party raise millions of dollars for the 1956 campaign.

The chief executive will be principal speaker at one of hundreds of "salute to Eisenhower" dinner rallies being staged by the GOP national finance committee. The occasion is the third anniversary of Eisenhower's inauguration.

WASHINGTON—John Foster Dulles to-

day observed his third anniversary as Secretary of State amid a growing political controversy over the Eisenhower administration's foreign policy.

Dulles knows enough of the political facts of life not to be caught unaware by his position. But the intensity of current attacks is bothering the secretary a bit.

Two Democrat senators and one Republican today proposed a full Congressional review of foreign policy as a result of the controversial Dulles' "brink-of-war" statement.

Sen. Mike Mansfield (D-Mont.) planned to take the Senate floor to propose a "complete review" of foreign policy.

Another Democrat, Sen. John Sparkman, told reporters "we are going to have to re-examine the facts" of foreign policy in light of the furor over Dulles' statement and President Eisenhower's all-out defense of his secretary of state.

Dulles also came under attack from a member of his own party's more conservative wing, Sen. William Jenner (R-Ind.), who described Dulles as an "identical twin" of Dean Acheson.

"... our Homecoming beauty"

## October

(Continued from page 1)

Randall, AA Jr; and Shirley Davis, DIM Jr.

Diane Higley, PEW Fr, representing Southeast hall, was crowned Barnwarmer queen. Attendants were Marguerite Scherling, Van Zile hall; Janie Fulton, Delta Dela Delta, Diane Whitley, Waltham hall; and Dorothy Fox, Clovia. The girls performed various farm chores in front of Anderson hall the afternoon before the dance.

The Board of Regents approved K-State's 1956-57 budget of \$6,408,137.

The Student Union Governing board debated about charging a fee for faculty members using the Union.

Wildcats beat Marquette 42-0. Bob Whitehead, senior quarterback, was "Player of the Week."

George Atkeson, DH Sr, was selected as the New All-College party candidate for senior class officer. Other candidates were Ann Shaw, Sp Sr, vice-president; Beth Shafer, Sp Sr, secretary; and Barbara Puhr, PEW Sr, treasurer.

Janice Ames, Art Soph, was selected as one of two finalists in Lawrence Welk vocal talent contest.

Gov. Fred Hall accepted invitation to be in the Homecoming ceremonies.

First honorary K-State parents were Mr. and Mrs. Roscoe Wilson of Salina, parents of Thomas Wilson, Ar Fr.

Yearbook staff named by Sam Logan, editor, and Peggy Howard, business manager. Editorial staff members are Janet Duy, TJ Sr, associate editor; Gary Haynes, TJ Jr, photographer; Darrel Miller, TJ Jr, sports editor; Everett Browning, TJ Gr, administration; Royanne McMullen, TJ Soph, activities; Betty Theiss, HEJ Jr, departmental organizations; Connie Taylor, HEJ Soph, sororities.

Peggy Tillotson, HEJ Soph, photography editor; Margo Widner, TJ Fr, religious organizations; Ann Hutcherson, HEJ Jr, honorary organizations; Gaye Fryer, HEJ Jr, fraternities; Lila Orme, TJ Sr, class section; Laura Lyon, Ehg Soph, class section; Faith McConnell, TJ Jr, independent houses; Mary Beckmeyer, TJ Jr, student government.

The business staff is Dick Haines, TJ Jr; Darlene Beeman, EEd Soph; Kay Berg, EEd Soph; and Joan Campbell, TJ Jr.

Dr. Joseph Fletcher, professor of social ethics at Episcopal Theological school in Massachusetts, was religious emphasis week speaker.

Parent's day, Band day, and Editor's day, were all on Saturday of the Colorado game. K-State Wildcats lost 34-13.

Robert McDowell, PrL Soph, was elected to fill an Arts and Science vacancy on Student Council.

Melba Ludlam, HE Fr, was killed in a car accident while coming back to K-State from her home at Toronto.

Jazz at the Philharmonic pleased 3,500 students. Outstanding performers were Ella Fitzgerald, songstress, and Buddy Rich, drummer.

Student Council sent a recommendation to President McCain that the names of instructors should be listed by the course they teach in line schedules.

Frank Rodman, Wildcat senior tackle, was named "Player of the Week."

Three one-act plays were presented. They were "Aria Da Copa," "Opera! Opera!" and "Red Peppers."

Students voted in SGA assembly not to have a holiday after the KU game if K-State does not win.

Bob Ecklund was selected editor of the Kansas Agriculture Student, the magazine of the School of Agriculture.

Dance Theater-Berlin's performance of Shakespeare's Hamlet climaxed a ballet program in College auditorium.

The 1955 Royal Purple received

All-American rating. This is the 20th straight All-American for K-State. Prof. C. J. Medlin is graduate manager of the Student Publications, and Phyllis Ruthrauff and Liz Lambert were editor and business manager, respectively.

Ken White, interior decorator of the new Union, declared the Union as "the best in the Midwest."

Joneta Edwards, BA Soph, Chi Omega, was crowned Flush Bowl queen at the halftime of the ninth annual Flush Bowl touch football game between Sigma Alpha Epsilon and Phi Delta Theta. Attendants were Barbara Starnes, DIM Soph, Alpha Delta Pi, and Nancy Cardwell, Art Soph, Alpha Xi Delta. The Sig Alphas won.

New All-College party won three of the senior class officers. They were George Atkeson, DH Sr, president; Ann Shaw, Sp Sr, vice-president; and Barbara Puhr, PEW Sr, treasurer. Eleanor Griffith, HE Sr, Integrity candidate, was elected secretary.

Student Governing Board revised list of charges for use of the Union facilities. Revision shows: (1) student and College-affiliated conferences and meetings—\$15 plus a 10-cent-a-person-a-day conference fee; (2) students—\$50; (3) College-affiliated groups—\$60; and (4) outside groups—\$75.

K-State defeats Iowa State 9-7. Jim Rusher, end, and Ellis Rainsberger, tackle were named "Players of the Week."

Scabbard and Blade chose six honorary cadet Lieutenant Colonels. They were Joyce Rawlins, Alpha Chi Omega; Dixie Brown, Alpha Delta Pi; Marie Price, Chi Omega; Leann Riggs, Kappa Kappa Gamma; Connie Eller, Pi Beta Phi; and Dottie Newton, Northwest.

New student directories were issued. The editor was Doreen Cronkite Clair, HEJ Sr.

Touchdown IV was kidnapped. The lock was broken on his cage and he was chased into a smaller one which was used to transport him to football games. He was then carried off.

Two hundred juniors qualified for optional attendance because they had maintained a B average or better their last semester at college.

Jr. AVMA and Sigma Phi Epsilon were champions in the independent and fraternity sections of the intramural touch football contest.

Jean Cooper, BMT Soph, Pi Beta Phi, was announced as Homecoming Queen at the talent show which began Homecoming activities. She was a cheerleader, member of the music, art, and library committee of the Student Union, member of the Methodist church group, and last year was chosen as Honorary Cadet and "Queen of Queens."

Attendants were Marjorie Badeker, Clo Jr, Northwest Hall; Gall Compton, Sp Fr; Southeast Hall; Becky Culpepper, EEd Soph, Kappa Kappa Gamma; and Alice Schulze, HDA Sr, Northwest Hall.

Thirty-three houses and dormitories worked out Homecoming

decorations following the theme of "Sooner or Later."

Six fraternities, three sororities, two church groups, and seventeen campus clubs entered floats in the Homecoming parade.

Lanscaping on the new Student Union was begun.

Eleven Wildcat seniors played their last home game when K-State lost the Homecoming game to the Oklahoma Sooners 40-7. They were Ed Dunn, tackle; Jim Furey, center; Ron Nery, tackle; Frank Rodman, tackle; Doug Roether, fullback; Jim Rusher, end; Bob Whitehead, quarterback; Bob Willibey, quarterback; Kerry Clifford, center; Burt Schmidt, guard; and Chuck Zickefoose, end.

Delta Delta Delta and Beta Theta Pi won first place in house decorations. Chi Omega placed

second in the sorority division. The "1834 Club" (Delta Upsilon colony) and Sigma Chi placed second and third in the fraternity division.

The Tri Deltas turned Oklahoma football players into mice inside a magic pumpkin. The Betas tied Oklahoma players to a torture rack and dragged them through a vat of defeat.

Lambda Chi Alpha with boys dressed like Trojans pulling a "Trojan Cat" won first place in the parade floats. The K-Club and Chaparajos placed second and third, respectively.

# KS Meets Missouri In Big Loop Game

By DICK HOLDREN

K-State meets Missouri tomorrow night in an important loop game for both teams.

A win on the Tigers home court would put the Cats in a good position for the rest of the league race with three big wins on the road.

Missouri will be fighting to get back in the conference running. The Tigers won their loop opener with a 76-54 upset of Kansas at home but lost to Colorado, 79-72, and Nebraska, 83-77, on the road.

Leading the Tigers in season's play is senior guard Norman Stewart. Stewart has scored 293 points in the Tigers 8 wins and 5 losses, an average of 22.5 points a game.

He suffered a back injury against Colorado but came back to hit 25 against Nebraska. However, he was not able to go at top speed and was hampered on defense.

Sharing starting roles with Stewart will be 6-3 Roger Egelhoff (4.0) and 6-2 Bill Ross (12.1)

at forwards, 6-6 Chuck Denny (10.7) at center, and 6-2 Lionel Smith (12.3) at guard.

Stewart, who set the Tiger scoring record earlier this year, hitting 35 points against Texas Tech, has had plenty of help in the scoring column from Ross and Smith.

Ross led the Tigers past the Jayhawks with 24 points and Smith hit 27 in the Colorado game.

K-State will answer the starting whistle with the same starting lineup that emerged from the pre-season tournament. This includes 6-3 Dick Stone and 6-4 Hayden Abbott at forwards, 6-9 Jack Parr at center, and 6-2 Roy DeWitz and 5-8 Pachin Vicens at guards.

Abbott, the league's most-talked-about rookie, is in the runnerup spot in Big Seven scoring with an average of 19.3 for three conference games. He is second to KU's Dallas Dobbs, who had an average of 21.7 before last Monday's game.

# 4 Cat Gridders Picked in Draft By NFL Clubs

By CAROLYN SNELL

The final list of National Football League draftees include four K-State gridders, Jim Rusher, Jim Furey, Charles Zickefoose, and Ron Nery.

The New York Giants selected Nery in the eighth round, Furey was named in the 13th round by the Cleveland Browns, and in the 21st round Zickefoose and Rusher were named by the Chicago Cardinals and the Baltimore Colts.

Other Big Seven selections include Ralph Moody, Kansas, San Francisco; Al Portney, Missouri, New York; Ray Detring, Missouri, New York; Sam Salerno, Colorado, Chicago Cardinals; Bo Bolinger, Oklahoma, Chicago Cardinals; Robert Burris, Oklahoma, Green Bay; Cecil Morris, Oklahoma, Green Bay; Frank Clarke, Colorado, Cleveland; Harry Javernick, Colorado, Cleveland; and Joe Mobra, Oklahoma, Cleveland.

At 7:30

# KS-Colo. State Wrestle Tonight

By ORVAL JACKSON

K-State's wrestling team will be seeking its third win of the season when the grapplers square off against Colorado State college at 7:30 tonight in the field-house.

Two new faces will be in the Wildcat lineup for tonight's match. Dale Blume, Jr, will wrestle in the 167 pound class. He is replacing Ray Glaze.

Pete Everist, Soph, will fight in the 147 pound division. He will be taking the place of Jim Linnell. Linnell was injured in

the Minnesota match last week.

K-State's two wins this year have been over Cornell College, 24 to 5, and the University of Minnesota, 17 to 13.

Co-captains for the Wildcats are Bob Mancuso and Roland Alexander.

Probable lineups for tonight:

Colorado State	K-State
Rivas	Landholm
Odle	Mines
Kroeger	Mancuso
Sinner or Douglas	Everist
Bottom	Alexander
Miskel	Blume
Green	Haller
Johnson	Rainsberger

# Alpha Xi Delta Coeds Lay Claim To KS Chocolate-Passing Record

The eighty pounds of chocolates passed at the Alpha Xi Delta house this semester to announce sixteen pinnings and engagements is believed to be a record by members of the sorority.

Five pounds of chocolates announced each of the eight pinnings and eight engagements, including that of the house-mother, Mrs. Vilette Walters.

In addition, four girls who received diamonds and one girl who received a pin did not pass chocolates to announce the events. Three other girls announced wedding dates with roses.

## Pinnings

### Young-Christlieb

Chocolates at Northwest and cigars at the Kappa Sig house at Washburn announced the pinning of Sue Young, ArG Fr, to Callan Christlieb Jr. at Washburn university. Sue is from Morganville, and Callan is from Clay Center.

### Fellows-Cramer

Chocolates at the Alpha Xi Delta house announced the pinning of Diana Fellows and Al Cramer. Diana is a junior in home economics and nursing from Manhattan, Al, a 1954 graduate of Iowa university from Wayne, Neb., is a member of Sigma Alpha Epsilon.

## Engagements

### Schultz-Thompson

Chocolates at Clovia January 18 announced the engagement of Millicent Schultz, Pawnee Rock, and Jerry Thompson, Kansas City. Millicent is a senior in home economics and Jerry is a senior in agricultural education. Both will graduate in January.

### Gibbons-Lundquist

The engagement of Jean Gibbons and Robert Lundquist, DM

Sr, was recently announced by cigars at the Phi Kappa Tau house. Both are from Manhattan.

### Peters-Kippes

Chocolates at the Alpha Xi Delta house announced the engagement of Nancy Peters and Arlin Kippes. Nancy is a freshman in English from Tonganoxie. Arlin is from Topeka.

## Weddings

### Sandborne-Beazer

LaVerne Sandborne and Charles Beazer were married January 1 in Sedan. Charles, a senior in industrial engineering, is a member of Phi Kappa Tau. LaVerne is working in Manhattan.

## Officers

Spring semester officers for Alpha Kappa Lambda fraternity are president, Charles Sheldon, ME Jr; vice-president, Harry Hunsley, CE Soph; treasurer, Penn Morton, ME Soph; corresponding secretary, Kenneth Wells, ArE Soph; house manager, Gaylord Chizek, AEd Jr; recording secretary, John Slade, EE Soph; scholarship chairman, Jim Bonner, EE Sr; rush chairman, Lon Navrat, PrV Soph; social chair-

man, Norman Benzinger, EE Soph; Interfraternity Council, Gary Galyardt, Ar 04; Charles Gibbens, BA Sr; and Larry French, ME Soph.

Newly elected officers of Tau Kappa Epsilon are Dick Winzeler, BAA Jr, president; John Stapp, BA Soph, vice-president; Lee Sinderson, Agr Jr, secretary; John Dorst, BA Soph, treasurer; Darrel Dyer, BPM Soph, chaplain; Joe Holbert, TJ Soph, historian; Dale Cook, ChE Soph, Sgt.-at-arms; Lynn Albers, ChE Jr, pledge trainer; Don Smith, IE Jr, social chairman; Ed Becker, Ar 02, rush

## A Campus-to-Career Case History

## "I take a job from scratch"

The Air Force introduced Forrest I. Hurst to communications. In 1953 he was Communications Officer at Lowry Air Force Base near Denver, Colorado. He was partially responsible for the communications setup of the President's "Summer White House," and in this assignment he met members of the local Bell telephone company.

"The telephone people I met," says Forrest, "were always helpful. I considered them the experts. They gave a very good impression of the Bell System. So three months before I was discharged I wrote to Indiana Bell for an interview, and subsequently I was hired as a Student Engineer."

Today Forrest is in Indiana Bell's Engineering Department, working with

carrier facilities—the means by which a number of telephone calls can be sent simultaneously over one circuit.

Forrest is given the basic circuit and equipment requirements for a job. "My boss farms it out to me," Forrest says, "and I take it from scratch." Forrest does the complete engineering job. He writes the specifications, including wiring plans and the list of equipment for the job. Then the installers take over.

"I really feel that I'm contributing to the telephone business," Forrest says. "My wife does too. When we're in the car we get a kick out of driving by a job that I engineered. Nothing can compare with a career in a business that's growing as fast as the Bell System. It's the place to move ahead."

Forrest graduated in 1952 from Purdue University with an E.E. degree. His career is typical of those which exist in other Bell Telephone Companies, and in Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information about Bell System companies.

# November

(Continued from page 3)

Mid-semester exams, Thanksgiving, and the thrilling KU game were the big events for most of the students during this fall month. The semester was well underway and activities of all kinds were filling up the days for K-Staters.

The Union Governing board voted to allow conference groups to use meeting space in the new Student Union for about one-third of what students would pay to have a dance in the same area.

Reorganization of the School of Agriculture pertaining to coordinating the services of Extension, Experiment stations, and the School of Agriculture was considered.

Touchdown IV refused to eat so KU students disclosed the fact that they had him. They phoned Dr. E. J. Frick, zoo director, to find out how to take care of the cat and her eating habits.

Janice Ames, Art Soph, was disqualified from the finals of the Lawrence Welk vocal talent contest because she was not 21 years old.

Tony Addeo, junior halfback, was named "Player of the Week" for his play against Oklahoma.

KU and K-State students began to clash in pre-game activities before the game. The letters KU were burned into the turf in K-State's stadium. Fourteen Jayhawks were picked up by the police. KU students painted different KS buildings. K-State students were found doing similar acts at KU.

President Emeritus F. D. Farrell spoke at the dedicatory ceremonies for Umberger hall and Williams auditorium.

President McCain and Chancellor Franklin D. Murphy of KU released a statement that no more damage will be tolerated on the two school campuses.

Athletic Council proposed new ticket plan for student wives so they could attend games for lower prices.

The Kansas University paper said that Touchdown IV may be returned at the KU-K-State game Saturday.

A large pep rally was held which included a snake dance, lots of cheers, and speeches by students and townspeople before the KU game.

Stephen Potter, English satirist, discussed the essence of American and English humor and their inter-related effects upon each other at an all-College assembly.

The K-State band marched during the halftime of the KU game. They gave a salute to John Phillip Sousa, America's march king.

Whi-Purs, the freshmen girl's pep club, claimed 224 members.

Rosemary Derks was appointed Angel Flight Commander over the 50 girls in Angel Flight. Squad leaders were Yvonne Warner, Janice Graham, Jean Harreld, and Lou Ann Sheldon. Marilyn Doran was selected assistant flight commander.

K-State Wildcats defeated KU Jayhawks in a 46-0 victory, the largest margin a K-State football team has beaten them in 53 years. The Wildcat traveling squad of 36 gridders were selected as "Players of the Week."

Bus Mertes, coach, said "You can't single out any one player as more outstanding than the rest. They all played well. It was just a case of 36 guys wanting to play a good game and to prove a lot of

things to themselves and everyone else."

The KU triumph of stealing Touchdown IV was ruined by the appearance of a fierce Touchdown V.

The K-Staters received a holiday just before nine week tests because of the victory. Mid-semester exams kept everyone occupied for the rest of the week.

Six Military Ball queen finalists were selected by the Arnold Air society. They were Marilyn Adams, Delta Delta Delta; Kay Benjamin, Kappa Kappa Gamma; Charlene Brooks, Pi Beta Phi; Kathleen Dodd, Van Zile; DeAnn Mackie, Alpha Delta Pi; and Genie Munn, Chi Omega.

Barbara Marshall, Sp Soph, and Bruce Wilson, Hst Sr, won the first annual Delta Sigma Rho extemporaneous speaking contest. Pi Beta Phi and Alpha Tau Omega won the house trophies.

Eight army ROTC cadets received the Distinguished Military Students award. They were Roger L. Rankin, AH Sr; Frank Farrell, BA Sr; Duane Ginter, IA Jr; Gene Martin, ME Sr; Donald Reed, TA Sr; Edwin Rieg, ChE Sr; Henry Windisch, EE Sr, and Gary Rogers, ChE Sr.

Students in agriculture and home economics who held Sears-Roebuck Foundation scholarships were honored at the annual Foundation banquet.

The reading quartet of the speech department presented a comedy, "Papa Is All." Members were Ann Shaw, Sp Sr; Bill Patterson, Sp Soph; Jim Hollis, Sp Jr; and Nancy Porter, Sp Soph.

K-State's rifle team, composed of air force and army ROTC members, won a match by default with Michigan State college.

Benjamin F. Fairless, chairman of the Executive Advisory committee of the United States Steel, was the featured speaker at the dedication of the new Feed Technology building.

Many prominent leaders in industry, agriculture, education, and

government were on the campus to attend the dedication ceremonies. They inspected the Feed Technology building and equipment.

K-State is the only school in the world offering instruction, a degree in theory and fundamentals, and the actual "do-it-yourself" practice in the production of formula feeds—the ninth ranking industry in the United States.

An appropriation of \$6,300 was granted to the Student Union Program council by the Apportionment Board. The appropriation was used "to provide movies, dances and other activities that were scheduled before the new Union was ready for use."

Carol Wilkins, HE Soph, was elected state president of Independent Students' association at a recent state convention. Wilma Wilber, EEd Soph, was elected state secretary.

Kansas university and Kansas State Teachers college of Emporia tied for first place in K-State's eight annual novice debate tournament.

Boris Goldovsky's Opera Theater's performed Donizetti's "Don Pasquale." John McCollum's portrayal of "Ernesto," Don Pasquale's nephew, highlighted the evening's entertainment.

Fourteen Delta Sigma Phi pledges cleaned up Sunset Park.

Twenty-four candidates were selected by organized houses to com-

pete for Favorite Man on Campus honor.

Wildcats of K-State overpowered the Missouri Tigers 21-0.

College juniors took their English proficiency tests.

K-State's Student Health hospital was claimed as a disgrace to the College by Dr. Benjamin Lafene, director.

K-State's new Union will be minus many of the furnishings originally planned for it when it opens, Loren Kottner, Union director, announced.

Student Council passed an amendment to the constitutional by-laws allowing a political candidate's party affiliation to be placed by his name on the ballot blanks.

The entire football squad was again chosen "Players of the Week" because they showed cooperation and took advantage of the breaks as they came against Missouri.

Dr. Haridas T. Muzumdar, noted lecturer on India, drew a comparison between Mahatma Gandhi's vision of a free India and the India developing under Nehru's leadership in an all-College assembly.

Five Air Force riflemen who shot second in national competition last year received rewards at an AFOTC review. They were Stanley Braman, BPM Sr; Floyd Bayer, Chm Soph; Terry Poling, BPM Soph; Paul Parsons, IE

KANSAS STATE COLLEGIAN  
Friday, January 20, 1956-4

Soph; and John Gangel, VM Fr.

K-State fraternities pledged 64 since the end of rush week. Phi Kappa Tau and Sigma Phi Epsilon head the list with eight pledges each.

Sigma Tau, honorary engineering fraternity, initiated 32 members in a ceremony at Skyline.

Bill Himes, CE Sr, was elected to fill a vacancy on Student Council left by Mackie Murphy, CE Sr, who resigned.

K-State Players presented "My Three Angels," a play revolving around the capers of the three crooks who are serving time in a penal colony in French Guiana.

Melvin Baughman, Hst Sr, was elected national chairman of the K-State Mock Political convention. The Mock Political convention organization was formed this year for the purpose of acquainting the students with the major issues facing the country, and to sensitize

(Continued from page 6)

### Students to their responsibilities as citizens in a democracy.

Almost 1,000 K-State Air Force ROTC cadets paraded in Memorial stadium in the annual fall ROTC review.

The Cosmopolitan club held the annual Feast of Nations with dishes from six different countries on the menu.

Wildcats lost to Oklahoma A&M in the season's final game, 28-0.

President McCain was authorized by the Board of Regents to ask the state legislature for \$350,000 to build a new student health center for K-State.

The K-State student apartment bids were over the engineering estimates. The combined bids of \$1,215,695 was more than \$72,000 above the estimated cost.

K-State Ag Student won first place for the best cover on an agricultural magazine at the annual national agricultural college magazine association convention. The pictorial cover was photographed and schemed by J. R. McLeland, K-State grad, who now works for the illustrations department at K-State.

The Student Council accepted a proposal whereby students' wives or husbands would be allowed to attend athletic events for reduced rates.

Doug Roether, Cat fullback, was named to the Associated Press and United Press all-Big Seven football teams. He was also chosen to play with the Blue team in the Blue-Gray game at Miami.

Jim Furey, Ron Nery, and Bob Whitehead were picked for second-team honors by UP, while Nery and Furey were named to the second team by AP.

Jerry Smith, PrL Soph, was elected president of the national Chancery club for pre-law students.

K-State crop judges took second place in the International Livestock exposition crops judging contest at Chicago.

Doug Roether was named winner of the "Most Inspirational Player award" at the grid banquet. Roether is a three-year letterman at K-State.

Ellis Rainsberger, sophomore tackle, was elected 1956 football captain over Kenny Nesmith, junior halfback.

Bus Mertes, K-State coach, was named along with Bill Glassford of Nebraska as Big Seven "Coach of the Year," by the Kansas City Star. Ron Nery and Doug Roether were selected on the Star's first team while Jim Rusher and Jim Furey were selected for the second team.

## December

The K-State poultry judging team placed fourth in the International poultry judging contest.

Twenty-eight football players won grid letters for their play with the 1955 Wildcat team.

Kenny Ellis, captain of last season's wrestling team, was inducted into the army.

White Foot, the black Angus steer of Elaine Olson, TJ Jr,

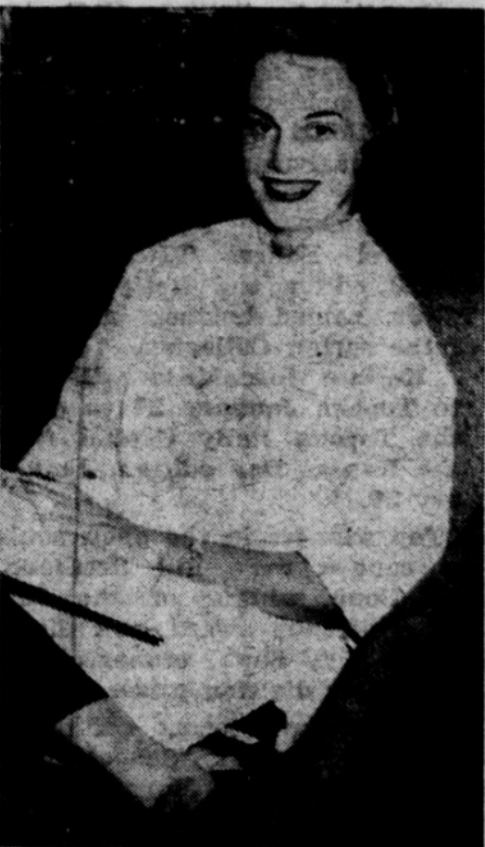

stepped into third place at the International Livestock exposition in Chicago.

Norman Cousins spoke at an all-College assembly. Cousins said "U.S. made serious error skirting Asia meet."

The meats judging team placed seventh out of twenty-three teams, competing at the Intercollegiate Meats judging contest in Chicago.

Two K-State gridders, fullback Doug Roether and tackle Ron Nery, were given honorable mention on the AP all-American team.

Gene Gustafson, ChE Soph,

RELAXING INFORMALLY is Martha DeGraff, Royal Purple queen. She was chosen by Norman Rockwell, noted artist and illustrator.

was crowned Favorite Man on Campus at the Snowball.

A proposal was submitted to the Student Council stating that "students who receive their third or fourth traffic tickets may be able to 'contribute' to a parking improvement fund in lieu of being restricted from driving on the campus or being expelled."

Beatrice Jones, ML Soph; Patricia Tucker, Math Soph; and Carol Gillen, HT Soph, were honored for having the highest grade average of all freshman girls last year at the Mortar Board scholarship banquet.

Pi Tau Sigma's annual award to the mechanical engineering sophomore with the top grade average as a freshman was won by Richard Weidler.

Nine Y-Orpheum skits were selected for presentation on February 23-24, Fred Hart, Y-Orpheum student manager, announced.

The load of hearing appeals on traffic violation tickets was taken off the Tribunal with the establishment of a traffic appeals board, according to Charles Jacot, assistant dean of students.

Harold Lonsinger, ME Sr, was announced as manager for the 32nd annual Engineers' Open House.

A \$1,400,000 loan to finance married students housing was underwritten by the Housing and Home Finance agency of the Federal government.

K-State's basketball team, led by sophomores Jack Parr and Larry Fischer, started the season in a winning way as they defeated Texas Tech 89-70.

Eight student finalists were selected from a field of more than 70 to compete for top honors in the ninth Larry Woods Speech

contest. Selected were Patsy McClenahan, EEd Fr; Jerome Beery, NE Fr; Sanja M. Hanson, EEd Fr; Charles J. Wingert, Hst Fr; Hinnie Smith, EEd Fr; Patricia R. Ritz, EEd Soph; Sally M. Carney, EEd Soph; and Thomas B. Hale, EE Fr.

One hundred-and-fourteen students were named members of the K-State Union Program council.

Mrs. Patricia Casey Burton, FdN Sr, was the recipient of the 1955-56 Borden Home Economic award.

Students will be able to remove their traffic tickets by a monetary donation if a recommendation to be presented to the Student Council is approved.

Floyd Wolfenbarger and associates, Manhattan architects, have been employed by the College to expedite planning for the first men's dormitory.

Martha DeGraff, Art Soph, was crowned queen of the 1956 Royal Purple at the Frost Fantasy dance in the Ahearn Fieldhouse gym.

Thomas B. Shackelford has been hired as the first campus landscape architect in the history of Kansas State.

The most important research problem of the poultry department went up in smoke when the constant temperature house of the poultry farm caught fire.

The Wildcats were defeated by Indiana 96-72.

The K-State Swimming club romped over Hutchinson Naval Air Station 46-38 in their first dual meet of the year.

Three K-State matmen, wrestling for the Manhattan club, reached the finals of the Iowa State Teachers Invitational wres-

ting meet, but were defeated.

A kitchen equipment contract for the new Student Union resulted in a "controversy" between College officials and members of the state purchasing division, according to an Associated Press news story.

The Student Council voted okay on parking fund "donations."

The recent Collegian story on the nephew of former Chancellor Malott of KU coming to K-State on the advice of his uncle was revealed as a hoax by the "nephew," Joel Malott.

Anita Grimm, TJ Soph, placed second in original oratory at the Southwestern debate tournament in Winfield.

The Drake Bulldogs put on a second half scoring splurge, good for 39 points, to defeat the Wildcats 70-64, in a game played in Drake field house.

The Faculty Senate recommended that no fees be assessed against staff members for Student Union participation other than those already established for faculty members enrolled as students.

(Continued from page 7)

was selected the first-place winner in the Larry Woods speech contest.

An honor code proposed for the SGA constitution was approved by Blue Key members.

President McCain said that no one had informed him of a controversy regarding contracts for Union kitchen equipment.

Thirty-four K-Staters were named chairmen of committees for the Little American Royal, according to Mark Drake, executive chairman.

Nineteen committee chairmen for K-State's mock political convention were named by Mel Baughman, Hst Sr, chairman of the executive council.

Sigma Alpha Epsilon and the Hillbillies repeated as team champions in the intramural free-throw tournament.

Joe Ostendorf, VM Sr, and George Barney, Pth Gr, were announced as recipients of the 1955 Lederle Veterinary Medical Students Research scholarships.

The Home Economics council appointed Elin McCandless, HDA Fr, to fill a vacancy on the Student Council left by Charlotte Henry, HEJ Jr, who resigned.

The Wildcats won their second game of the season as they defeated Loyola of Los Angeles 92-66.

Three Wildcat football players were picked to play in the first annual Christian Bowl game at Murfreesboro, Tenn. The three were quarterback Bob Whitehead, tackle Ron Nery, and end Jim Rusher.

K-State's own political party was named the Bovinian party by members participating in a mock political convention on the campus.

Genies, dancing girls, and Aladdin kept an audience of about 400 persons wondering what would happen next in the Kansas State Players' presentation of "Aladdin and the Wonderful Lamp."

An honor code proposed for the SGA constitution by Blue Key

was presented to the Student Council.

Two Wildcat gridders, Frank Rodman and Chuck Zickefoose, were named to the Big Seven "Dean's team" honoring star football players who also excelled in the classroom.

Traffic "donations" in lieu of traffic tickets are illegal according to state law said Dean of Students Herbert Wunderlich.

A motion to allow faculty participation in a Student Union fee program was killed by the Union Governing board.

Departmental chairmen of the 32nd annual Engineers' Open House were announced by Harold Lonsinger, Open House chairman.

One hundred sixty-one K-State sophomores were selected for Phi Kappa Phi Freshman recognition for scholastic achievements during their freshman year.

The Christmas portion of Handel's Messiah was presented today at the annual Christmas assembly.

## January

Airplane flights were taken by thirty AFROTC freshmen and sophomores at Marshall Field, Fort Riley.

Janet Phillips and Bruce Nauman, both freshmen, were listed in fair condition at the Riley County hospital after their car overturned in an accident west of town.

Names of more than 250 candidates for degrees at the January commencement were announced by E. M. Gerritz, director of admissions and registrar.

K-State's first PhD degree in engineering will go to Charles E. Stoneking, who is an associate professor of architectural engineering at the University of New Mexico, Albuquerque.

Patrick Wilkerson, BA Jr, was named chairman of the 1956 Big Seven Student Government conference at Kansas City during the Big Seven pre-season basketball tourney.

K-State veterans are petitioning their Congressmen in support of a bill now pending before the Senate labor and welfare com-

mittee which, if passed, would raise monthly training allowances by 14 per cent.

Fifteen K-Staters were among 3,000 students and leaders attending a world-wide student conference on the Christian world mission.

Names of six freshmen in agriculture who have been awarded \$250 scholarships each was announced by Arthur D. Weber, dean of agriculture. The scholarship winners were Coy Allen, Donald Foster, Dwight Jackson, Richard Rolph, Wade T. Smith, and Richard Street.

Dr. Franz Polgar, Hungarian-born hypnotist, spoke at the Jan. 9 all-college assembly.

An alligator became the mascot of Sigma Nu fraternity following the holidays.

Eleven pre-med students were accepted to medical schools, Prof. Otto W. Tiemeier, Pre-med club adviser, said.

"Events of That Planet Earth" is a new radio program on KSDB-FM. The broadcast is heard at 5:30.

K-State basketballers beat Iowa State, 68-64.

Cat swimmers tied Nebraska 42-42.

Matmen trounced Cornell 25-5. Robert E. Webster, BAA Sr, received Alpha Kappa Psi's scholarship award.

K-State debaters turned in top scores in the McPherson college debate tournament.

Kansas university billed the Student Council \$386.19 for damages done to the Lawrence campus during the week of the K-State-KU football game.

Joy and sorrow were side by side as students viewed results of English proficiency exams.

K-State Veterans petitioned for more GI benefits.

More than \$1 million of K-State's proposed 1956-57 budget will be used for new building on the campus, according to President McCain.

Students may learn who their instructors will be before enrollment next semester.

Carl Dahl became the twelfth K-Stater to be accepted by KU School of Medicine.

Twenty-three K-State seniors

were added as candidates for degrees at K-State's mid-winter commencement exercises January 28.

Casts for three one-act plays, February 16 and 17, were announced by Dr. John L. Robson, speech professor.

The Wildcat basketball team defeated the Oklahoma Sooners 61-50 to gain top spot in Conference.

Twenty-three K-State seniors and three graduate students were formally initiated into the K-State chapter of Phi Kappa Phi, honorary scholastic society.

Francis A. Grillot, ChE Jr, along with six other Kansas farm youths, was recognized for outstanding achievement in the field of vocational agriculture at the 85th annual meeting of the Kansas State Board of Agriculture in Topeka.

Darrel Miller, TJ Jr, was named editor and Betty Theiss, TJ Jr, named business manager of the spring Collegian.

K-State journalists will go to Topeka January 28 to edit the Topeka Daily Capital for the Kansas Day edition, January 29.

Top winners in the open poultry contest were Bill Brethour, AEd Soph, winner of the \$10 senior division award, and Glenn Hartke, PrV Soph, winner of the \$15 junior division prize.

Reviews laud second edition of C. J. Medlin's text, "School Yearbook Editing and Management." Mr. Medlin is graduate manager of the student publications.

Seven K-Staters were tentatively assigned countries they will visit as International Farm Youth Exchange delegates.

President McCain said the outlook is "favorable" on K-State's proposed new Student Health clinic and hospital.

Two K-State debaters tied for first place in the junior division of a debate tournament held on the campus of William Jewell college.

The College extension division will probably be settled in its new building January 18, said George Tracey, Building and Repair labor foreman.

The K-State team took first

KANSAS STATE COLLEGIAN  
Friday, January 20, 1956-8

place honors in the National Western Livestock judging contests at Denver.

K-State matmen beat the University of Minnesota wrestling team 17-13.

The K-State basketball team lost a heartbreaker to KU 91-86. Sticker instead of "donation" was proposed to the Student Council by Bonner Staff, Pys Jr, a member of the traffic appeals board.

The date for new Student Union opening is still undecided, Koren Kottner, Union director told the Union Governing board.

A petition, started by K-State Veterans, asking for an increase of GI benefits was adopted by other colleges, Calvin Glenn, president of the local Veterans group, said.

The new Vet hospital has treated 23,000 cases in its first year of operation.

President McCain expects to approve the new plan for a paid campus parking sticker which may be revoked for traffic violation, if the Student Council recommend it to him.

Vergil Wright, Sp Sr, has been elected president of the Interfraternity council for the spring semester.

Forty students appeared in J15 to organize the Psychology club, an organization open for charter membership to student with either a major or minor in psychology.

"K-State is in no greater danger of losing its educational TV channel now than it was two or three months ago," Max Milbourn, director of public service, said.

**"NO MORE WINTER** if I can help it," Kay Benjamin, EE Soph, said yesterday. The minute the sun came from behind a cloud, she was ready with a shade so Mr. Groundchuck wouldn't see his shadow. She claims that if this particular animal has anything to do with the weather, there will be no more winter. However, if winter continues, blame it on our photographer. He used a flashbulb to fill in the shadows in the picture.

## Competition Stiff For Mullins' Job

Applications for the position of athletic director were screened by the Athletic Council Wednesday.

More than 25 applications had been received at the time of the meeting, according to members of the council. This number was reduced at the Wednesday meeting, but no decisions were made regarding a choice for the job.

Applications for the position will be accepted until the Athletic Council meets again, according to Dean R. I. Throckmorton, chairman of the council. No date has been set for another meeting of the council to discuss the remaining applications, and other applications that may be received.

Applications have been received from many individuals, and members of the Athletic Council and coaching staff have added their recommendations to this list. Recommendations also have been received from other sources.

A final decision is not expected until March.

## Paul Young Named A&S Associate Dean

Paul Young, new associate dean of Arts and Sciences, has replaced Prof. Ralph Sanger, acting associate dean of the school. Sanger has returned to his position as head of the math department.

Dean Young, who will continue as director of summer school, came to K-State in 1947 as an associate professor of mathematics. In 1953 he was appointed acting Dean of Students. He was appointed director of summer school in September 1954.

Dean Young is a graduate of Miami University at Oxford, Ohio. He received his doctorate in math from Ohio State university. After graduation he served 4 years in the navy.

Mrs. Young is a 1938 K-State grad. The Youngs have a boy two years old.

### Engineering Gains 301

## Enrollment Hits 5,569, Up 616 from Year Ago

Enrollment for the spring semester reached 5,569 last night after 53 late enrollees. This is an increase of 616 over the same time last year, and 392 less than last fall.

The biggest gain over that of last spring is in

the School of Engineering and Architecture, E. M. Gerritz, registrar, said. At the close of formal enrollment Wednesday the Engineering school had 301 new enrollees, more than 50 per cent of the new students.

There are 1,388 engineers this spring, as compared with 1,087 last year—a gain of nearly 28 per cent.

Arts and Sciences showed the next largest gain. Enrollment was up 235 from 1,950 last spring, to 2,185. The school's gain of 12 per cent was just about average for the entire College, and slightly less than the increases in the Graduate School, where the figure was up from 355 to 401.

Home Economics is the only school showing a decrease. Enrollment in Home Ec decreased 32, from 517 last year to 485 this year.

## Marterie Orchestra To Be Here Tuesday

Ralph Marterie  
... popular college band

Ralph Marterie and his orchestra will present a special two-hour concert in the Auditorium at 8 p.m., Tuesday, February 7.

Unexpected changes in travel plans allowed the K-State Union program council to arrange a booking with the Marterie group, according to Conrad Smith, chairman of the Union dance committee.

Included among the hit records made by the Marterie orchestra are "Pretend," "Tenderly," "September Song," "Caravan," "Crazy Man, Crazy," "Skokiaan," "Trumpeter's Lullaby," "Dry Marterie," and many others.

Featured vocalist for the aggregation is Bill Walters. Although this event was not one originally scheduled by the Program council, it was felt that the opportunity to feature this special group could not be passed-by, according to Smith.

Marterie's group is voted the most popular band in America's colleges by Down Beat magazine.

## January Grad Gets Fulbright Study Grant

Donald Randall Hill, who graduated "with honors" at Kansas State last Saturday, has won a Fulbright scholarship to study government at Victoria University college, Wellington, New Zealand.

Hill will leave late this month for New Zealand. His grant is one of seven to be awarded for study in that country.

### World News Briefs

## Allies May Reject Friendship Appeal By Red Premier

WASHINGTON, (U.P.)—The United States, Britain, and France will reject Russia's latest plea for separate 20-year friendship pacts with the three Allies, diplomats predicted today.

This was the quick and official reaction to Soviet Premier Nikolai Bulganin's second appeal, made in a 3,000-word letter to President Eisenhower, for a non-aggression pact with the United States.

ATLANTA, (U.P.)—Southern states expressed added determination today in their efforts to rebuff the Supreme Court's anti-segregation rulings.

South Carolina and Virginia have introduced resolutions in their legislatures designed to "protect the sovereignty and rights of its citizens."

TOPEKA, (U.P.)—The Kansas Legislature has killed any new or increased taxes.

Sen. Paul Wunsch (R-Kingman), the powerful Republican leader, said flatly: "There will be no tax bills passed in the few days remaining."

Photo by Gary Haynes

**"SNOWBALLS OR FOOTBALLS?"** Dick Corbin, No. 1 Wildcat quarterback, asks Coach Bus Mertes (right), who announced that spring football drills will begin February 20. Freezing Manhattan temperatures plus snow give the surroundings anything but a football atmosphere.

## Comments—Wise and Otherwise

By DARREL MILLER

All things must start somewhere, and so today has been chosen as the day to begin publishing the second semester's Collegian. We, the new staff members, hope we're starting something you'll like.

We'll be trying to give you up-to-the-minute campus news coverage, plus as many pictures and feature stories as we can squeeze into the paper. We'll be commenting on campus issues and giving you interpretive and informative articles about those issues.

We're against sin and in favor of motherhood. We think America needs to return to the Good Old Virtues. We'd like to bring back the days of the nickel cigar and the penny postcard. We'd like to have lower taxes and more government services.

Many persons probably would like us to stand for nothing else. They like freedom of the press only in an abstract way and at some other place, but don't like freedom of the press when criticism gets too close to home.

Long ago we quit trying to be everyone's friend. That leaves us in a position to (as Crazy

Auto once said) "column as we see 'em." If you don't see 'em as we "column," there's always the Letters to the Editor department.

Which is enough of serious issues, so on to better things.

Another Groundhog Day has come and gone, in case you didn't notice. Reliable reports indicate that the poor pig hardly could make it out of his hole—the snow was too deep.

I, for one, don't believe in Groundhog Day any more. But don't pay any attention to me, for I don't believe in George Washington or Columbus either.

In fact, the only ground hog I ever saw was in some sausage I once ate for breakfast.

### Readers Say

#### 'Impossible' State Exists on Tickets

Dear Sir:

I am a student here and am writing you in regards to this "impossible situation" of obtaining a basketball ticket for student wives.

It seems in order to go to a basketball game (or any other sport that requires an admission fee) that a student exchange ticket must be obtained for the wife. That is unless a season ticket is purchased.

I am a student in engineering and often find that my studies keep me from going to a game. This was the case a few days ago, so I thought I'd let my wife go to the game on my ticket, since I have already paid for the game. But I wanted to make it a legal transaction so I went over to have my ticket exchanged for a student exchange ticket for my wife.

I was informed that in order to get a student exchange ticket I would also have to buy a reserved ticket. I asked the attendant what I would do with the reserve ticket, and he informed me that the only way I could get my wife into the game was to buy a reserve ticket.

So this is the end of my sad tale of woe. I would appreciate it if you would print this letter in the Collegian and maybe if enough people get together something can be done to alter this situation.

Sincerely yours,  
Arthur J. Rhodes, CE Jr.

# Same Old Delay and Anguish Shows Pre-Enrollment Flaws

Many students discovered that pre-enrollment counseling had flaws when they had to submit to the usual delay of enrolling while assigners worked out a new schedule of classes in Nichols gym this week.

The schedule of classes worked out during the counseling process often proved worthless. The lucky students who managed to have the right initial and enroll the first day were benefitted, but the others . . . ?

## Original Plan Was Simple

The original pre-enrollment plan recommended by the Student Council was to have a student meet with his assigner sometime during the 11th, 12th, or 13th week of the previous semester. His schedule would then be made out.

The student would then go to various departments to pull IBM cards. Each department would have all the cards of the classes offered by that department. The student would then turn his cards in to the Registrar's office. At final enrollment the pre-enrolled student would need only to fill out his IBM cards, have his picture taken, and pay his fees.

This process sounds fairly simple, it seems that few conflicts would arise, and that the student would be spared much trouble.

Maybe the Council's plan should be used for something has gone astray. At least the above plan never has been put into effect in its entirety. The student goes to his assigner and fills out a schedule, but that's all.

## Flaws Brought To Light

Flaws in the plan were brought to light last

### Students Indicate

# Value of Pre-Enrollment Like Law of Diminishing Returns

By LANCE GILMORE

The value of pre-enrolling at semesters or seeing an adviser and making out a schedule ahead of time, seems to follow the law of diminishing returns.

Students enrolling on Monday found the practice a real time-saver and heartily endorsed the idea, those enrolling on Tuesday generally considered it a good idea, but Wednesday enrollees considered pre-enrollment of little value since they had so much trouble drawing cards.

"It only took me 15 minutes to get a schedule once I got to Nichols," is the way Judy Deewall who enrolled on Monday put it. Miss Deewall, BMT Jr., said, "My adviser and I worked out all my conflicts ahead of time so there was nothing to it."

Jerry Greene, AEd Fr., who enrolled Tuesday, feels that pre-advisement and early scheduling did him more harm than good.

"I think I would have been able to draw cards sooner if I had started from scratch. As it was," he said, "I wasted a lot of time trying to change my original schedule around so it would work when it just wouldn't."

"For the first semester since I've been up here, I went right through without a hitch," was the

way when an assistant dean of agriculture advised assigners in the Ag School:

"If it seems advisable to the adviser-assigner and the student, alternate courses may be entered on proof tickets to be taken in case a class closes or courses are repeated."

This merely means that assigners should write down "alternate" courses because a student stands as much chance of getting his first-choice course as a goldfish has of living in hot sand.

The flaws in the system were clarified further when the Registrar announced that the enrollment process (despite pre-enrollment) would be essentially the same—cards to fill out in Rec center, the picture, a check for the cashier, and a trek to Nichols to pull cards.

## Same Enrollment Process

It was revealed that the only real difference pre-enrollment counseling would make would be that, instead of hunting up a faculty member representing his curriculum to make out a proof ticket in Nichols, a student would have the ticket made out during his pre-enrollment counseling.

Then any faculty member could assign his line numbers, and he could try to pull his cards.

But, the cards often were not all there. In that case, he and a faculty assigner could work out alternate schedules until they found out one that worked.

Is this any different than the old enrolling process before the days of pre-enrollment counseling? It's little more than a start in the right direction.

Seems to us that pre-enrollment is a long way around to obtain a piece of paper, or a subtle way to insure that a student gets acquainted with his adviser before he graduates.—George Vohs.

way Neil Scott, Zoo Soph., who enrolled Tuesday, summarized the new system.

On the other side of the fence, Wednesday enrollee Harry Annan, BMT Soph, thought, "Pre-enrollment might be okay for some, but for those who go through late, it doesn't mean a thing. I couldn't get a single class that I had scheduled," he said.

Connie Tyler, HT Sr, was snowed out of Manhattan and couldn't get back until Wednesday to enroll.

"I usually don't put much faith in pre-enrollment but because I did it this time my instructor, who knew my predicament and my schedule, pulled my cards and got the schedule I wanted."

Jan Madsen, HEJ Fr., had trouble with late enrollment.

"I had an idea what I wanted to take because I had seen an adviser but it didn't allow me to draw cards any quicker because I had to chuck the schedule I had made out when I couldn't get certain courses," she said.

Marky Madden, Hst Jr., managed to make it through Wednesday without any trouble and without any pre-advisement or schedule.

"I just didn't bother to do anything ahead of time, and I got every card I wanted Wednesday," she said.

# Students in Introduction to Humanities Prefer Reorganized System of Teaching, Prof Says

"Students enrolled in Introduction to Humanities prefer our new system of teaching," Dr. Earl Edgar, head of general studies, said.

The reorganized system was based upon suggestions of students taking the course last year.

Students now use several pocketbook editions of plays, poetry, and art, instead of two large texts which were previously followed," Edgar said. "More classroom time is devoted to recitation," he added.

Introduction to Humanities is

a two-semester course, Edgar explained. The first four weeks are devoted to the basic principles of the arts. This is followed by the study of ancient religions, Greek culture and philosophy, Roman culture, the origin of Christianity, and the visual arts.

The second semester includes music, reading of plays, lyric poetry, and the study of humanities in the nineteenth and twentieth centuries, Edgar said.

Charles Stratton of the music

department will give a series of lectures on music appreciation. Students will listen to five recording sessions and hear live music by the Resident String Quartet.

"The first music sessions will include seventeenth century compositions by Bach and Brogue," Edgar said. "The development of symphonic forms, such as contemporary music, will also be included."

"Students will read 'Pygmalion,' a well-known play by George Bernard Shaw and 'Emperor Jones' by Eugene O'Neal," Edgar said.

## Debaters To Compete At Pittsburg Tourney

Six K-State debate teams will participate in a tournament at Pittsburg State Teachers college today and tomorrow, according to Charles Goetzinger, director of forensics.

The two teams competing in the senior division are Ray North, PrL Soph, and Jim Shane, Hst Soph; and Anita Grimm, TJ Soph, and Nancy Porter, Sp Soph. Dave Nuttle, AH Soph, and Dan Hahn, Ar 01; Robert E. Paulson, ChE Fr, and Ed McCoy, PrL Soph; Gail Denton, EEd Fr, and Charlotte Riley, Sp Fr; and Kay Eplee, Clo Fr, and Larry McDonald, ME Soph, are competing in the junior division.

They will debate on the subject "Resolved that the non-agricultural industries of the United States should guarantee their employees an annual wage."

In addition to the debate, Ray North and Ed McCoy will enter

extemporaneous speaking, Nancy Porter will compete in poetry reading, Larry McDonald in after dinner speaking, and Anita Grimm in oratory.

Charles Goetzinger, Caroline Drummond, and Verdel Wilson will accompany the teams as judges.

At the Midland college tourney held January 27-28 at Fremont, Neb., K-State debaters Bunny Cowan, Psy Soph, and Tom Bowman, MT Jr, tied for third in the senior division by winning five and losing one. In the junior division Dave Nuttle and Dan Hahn won four and lost two ending in second place.

## 'Bernadine' Play Tryouts To Continue

Try-outs for the Kansas State Players winter production "Bernadine" will continue tonight at 7:30 in the auditorium, said Earl G. Hoover, professor of speech.

The play, a comedy in two acts by Mary Chase, takes place at the Shamrock, a juke box joint, where a group of high school boys think, dream and plan about the future and their dream woman, Bernadine.

The large cast offers opportunities for all students who are interested. Play books are now available in Eisenhower Hall J 5.

Work in the scene shop will begin in about a week, according to Don Hermes, assistant professor of speech.

## Vets Plan Alum Seminar

The 64 graduating seniors in veterinary medicine will have a chance to explore the different fields open to them Saturday, February 4, at 9 a.m. at the sixth annual KSC alumni-senior seminar day according to Dean E. E. Leasure, dean of the School of Veterinary Medicine.

The four seminar speakers, all KSC alumni, are Dr. Ralph L. Messer, Kansas City; Dr. M. P.

Reeve, Garden City; Dr. F. O. Steele, Wichita; and Dr. L. H. Smith, Topeka.

A spark plug must give from 1,000 to 2,000 sparks a minute in 1,500 degree temperature and withstand explosive pressure as high as 500 pounds to the square inch.

# Cat Cagers Pace Big Seven, Must Whip CU To Keep Lead

The K-State basketball team is currently on top the Big Seven conference heap with a 4-1 record, having played one more game than runnersup Colorado and Kansas, with 3-1 records.

Big Seven action over the mid-semester holiday saw 4 conference games being played.

The Cats met the Missouri Tigers at Columbia Saturday, January 21, and after trailing most of the way, eked out a 58-54 win.

Schneider paced the Wildcats with 21 points for high point honors, while Lionel Smith garnered 19 for the Missourians.

The Wildcats' win over the Tigers sent them into a second-place tie with Kansas University with a 3-1 record.

The Iowa State Cyclones were rude hosts that following Monday, Jan. 23, when they knocked the Buffaloes into a three-way tie with Kansas and K-State. A final-gun field goal netted them a 70-68 win.

Iowa State remained in it's winning way by downing hapless Oklahoma University 71-59, Saturday, Jan. 28.

The Sooners, fresh from the Cyclone thrashing continued on the road Monday, Jan. 30, against Kansas State.

The Wildcats were fought virtually to a standstill for 36 minutes in a rugged contest. The Cats, however, pulled away with a closing flurry to post a 71-63 triumph.

Oklahoma's Joe King was high point man for the evening with 23 points. Center Jack Parr had 21 for the Cats.

The win gave the Wildcats a 4-1 conference standing, good for first place.

The league standings going into tomorrow night's games are:

	W	L	Pct.
Kansas State	4	1	.800
Colorado	3	1	.750
Kansas	3	1	.750
Iowa State	3	2	.600
Nebraska	1	2	.333
Missouri	1	3	.250
Oklahoma	0	5	.000

The top running K-State Wildcats will take on the Colorado Buffaloes tomorrow night at Ahearn Field House with the conference lead at stake.

The Wildcats have a 4-1 conference record and the Buffaloes are close behind with 3-1. Kansas also has 3-1 record in loop play.

The Buffaloes missed a chance to keep the Big Seven lead when they dropped a 70-68 game to Iowa State on January 23 at Ames. The loss dropped them into a tie for second with KU.

Jim Ranglos, third leading scorer in the Big Seven, will be the man K-State must stop. Ranglos, 6-4 senior forward, has a 17.8 average per game. George Hannah, 6-7 senior center, is also figured to give the Wildcats plenty of trouble.

Hannah was overshadowed for two years by Burdette Halderson but now is becoming a good defensive man and a strong rebounder in his own right, according to Bebe Lee, Colorado coach. Hannah has an average of 12 points a game for the season, and has hit at a 14-point clip in the last five games.

The Buffaloes have not received kind treatment on the K-State hardwood having won only once in 8 tries at Manhattan. The one win was last year, when after being on the short end of a 32-9 count in the first half, the Buffs bounced back to win 63-60.

## PROBABLE STARTERS

Kansas State	Colorado
Abbott (6-3½)	F Coffman (6-3)
Schneider (6-3)	F Ranglos (6-4)
Parr (6-9)	C Hannah (6-7)
Vicens (5-9)	G Peterson (6-0)
DeWitz (6-2)	G Mowbray (6-1)

## Cat-Hawk Tickets On Sale in Gym

Tickets for the K-State-KU basketball game now are on sale at the ticket office in Ahearn gym.

The game will be at Lawrence March 6. Tickets cost \$2 for reserved seats and \$1.50 for general admission.

Fred Schneider  
... 21 against Tigers

## KU's Dobbs Is Ineligible

Dallas Dobbs, KU cage captain and the Big Seven's leading scorer, is ineligible for the remainder of the current basketball season because of low grades.

Dobbs, who scored 82 points in the Hawks' 4 loop games, has been a regular for the Hawks for 3 years.

## Low Grades Drop 3 Cats from Team

K-State's hopes of retaining first place in the Big Seven basketball race were given a jolt Tuesday when three cagers were ruled ineligible.

Ruled ineligible for the spring semester because of scholastic difficulties were Gene Wilson, senior guard and two-year letterman, and sophomores Wayne Hutchins, and Charles Hollinger.

# Staters To Perform With Swiss Gymnasts

Four K-State gymnasts will perform Sunday afternoon in conjunction with the Swiss gymnastic exhibition to be presented in Ahearn Field House at 3 p.m.

The K-Staters will take part in a trampoline exhibition. Weddel Holt, Richard Rood, and Jack Harmon will present a series of exercises on the trampoline and Albert Bumpus will present a clown act.

The Swiss gymnastic team has been world champion for the past three years.

The team placed second in the 1952 Olympics behind Russia. In

the Olympics, the Swiss team had three gold medal winners.

Included in the performance by the Swiss team will be skills in vaulting, tumbling, and high-bar performing. An added attraction will be a presentation of Swiss folk music—complete with yodeling numbers.

The purpose of having the music numbers included in the program is to offer a more complete picture of Swiss customs.

This will be the second European gymnastic team to be at K-State. Last year the Swedish gymnastic team appeared here.

## Why Chancellor Adenauer reads The Reader's Digest

"In my country more than 500,000 people read the Digest in German each month. And they read not only about the people of the United States, but about the people of all nations. The Reader's Digest has forged a new instrument for understanding among men."

—KONRAD ADENAUER, Chancellor of West Germany

## In February Reader's Digest don't miss:

**LEARN TO LIVE WITH YOUR WORRIES.** Some anxieties spur you to greater effort. But many simply distort your judgment, wear you down. Ardis Whitman tells the kind of worry you should learn to overcome, how to put sensible anxieties to good use.

**THE ONE AND ONLY BENCHLEY.** When told his drink was slow poison, Benchley quipped, "So who's in a hurry?"... Chuckles from the life of one of America's best-loved humorists.

**BOOK CONDENSATION: I WAS SLAVE 1E-241 IN THE SOVIET UNION.** Seized without cause, John Noble (a U.S. citizen) was sent to a Russian concentration camp to work in a coal mine. In episodes from his forthcoming book, "Slave 1E-241," Noble tells of Red brutality... and how the "slaves" rebelled in 1953—a revolt he's sure can occur again.

**PRIVATE LIFE OF ADOLF HITLER.** Was the Fuehrer insane? Did he really marry his mistress Eva Braun the very night before they planned to kill themselves? Is his body secretly buried? Hitler's personal valet reveals hitherto unknown facts.

## GOODYEAR AIRCRAFT CORPORATION

The Engineering Departments in Akron, Ohio, and Litchfield Park, Arizona, areas are engaged in all phases of guided missiles, guidance systems and the development of analog computers. Specialists in microwave, servomechanism, circuitry, etc. are highly important to these operations. Other departments require electronic, electro-mechanical, mechanical, structural, propulsion, and aeronautical development engineers. Many opportunities exist in these departments which cater to the entire aircraft industry in the fields of simulated trainers, lighter-than-air, radar, radomes, airplane wheels and brakes, fuel cells, airframes, fuselages, canopies, laminates, large aperture antennas for ground-based and air-borne radar, and many other projects.

Opportunities Are Unlimited At Goodyear Aircraft where new ultra-modern facilities are being built in preparation for expansion of our activities. Here is where you can get general or specialized experience in keeping with your capabilities and future plans.

# 'Stilt' Won't Cinch Title For KU, Cat Sophs Say

DeWitz, Abbott, Parr  
... K-State's Soph Starters

Wilt (the Stilt) Chamberlain will provide a lot of competition in Big Seven basketball during the next 3 years, but won't cinch first place for KU.

That's the opinion of K-State's three sophomore cage starters—Jack Parr, Hayden Abbott and Roy DeWitz—who should be seeing a lot of action against Wilt during the next 2 years.

It takes five men to make a good team, and no one man, no matter how good, can make an unbeatable team, the three K-Staters say. But their present goal is to help win the league crown this year.

"A lot depends on the next two games," Parr said. "If we win those two, we'll have a good chance for the conference title.

Of course, it won't be won until we walk off the court with it safely tucked away on March 6," he said.

DeWitz was an all-Chicago area quarterback in high-school football, and in baseball had a chance to sign a minor league contract with the Milwaukee Braves. DeWitz is one of a family of 12, and is a phys ed major here.

Parr and Abbott both are pre-med students. Parr attended an Episcopal prep school at Richmond, Va., where he played three years of high school basketball. Abbott pitched for the baseball team and was on the track team, as well as playing basketball at Olathe. He didn't play basketball as a senior because of an injury.

## Cat Thinclads Face Huskers In First Meet

The Kansas State track team opens the indoor season against Nebraska Saturday at Lincoln with a potentially strong team.

K-State has 16 lettermen back plus a crop of sophomores which track coach Ward Haylett says is one of his best sets of rookies.

Haylett said Kansas State is stronger this year than last, but emphasized that the rest of the Big Seven teams are also improved.

Haylett says that the sophomores may prove to be a weak point at least in this first meet. The K-State sophomores are untried whereas Nebraska opened their season last Saturday against Iowa State. Several Husker sophomores are outstanding, Haylett said.

The Wildcats defeated the Cornhuskers last season 58-46. Haylett predicts rough sledding against them this year because of the untried sophomores. Nebraska returns lettermen who accounted for 40 points of the Husker total of last year. Haylett said the Cats can muster only 37½ of their total.

K-State's strength is in sprints, the high and low hurdles, and the pole vault, Haylett said. He added there is improvement this season in the mile and two-mile events. Kansas State is weakest in the field events, according to Haylett.

Gene Wilson's ineligibility, because of low grades, has lowered Wildcat hopes for the high jump. The only high jump letterman left is senior Joe Powell, who is currently playing basketball. Powell will be unable to concentrate on track until the end of the basketball season.

The Wildcats next meet after Nebraska is a home quadrangular with Drake, Emporia Teachers, and Omaha University, on February 7.

## Face Sooners

# KS Matmen Seek 5th Straight Win

K-State wrestlers will seek their fifth straight win of the season when they go against Oklahoma tonight at Norman.

Fresh from their win over Nebraska, last week, the Wildcats will be facing what is probably the strongest team in the Big Seven. Oklahoma has lost but one man from last year's squad.

Last year the Sooners won

their sixth straight conference championship and placed fourth in the NCAA meet at Ithaca, N. Y.

Heading the Sooners this season is Dan Hodge, 177 pounder. Hodge was the NCAA champion of that weight division last year.

The Wildcats will start the match tonight at a disadvantage. Joe Landholm, 123 pound wrestler for K-State, has been forced to give up wrestling because of a heavy scholastic load.

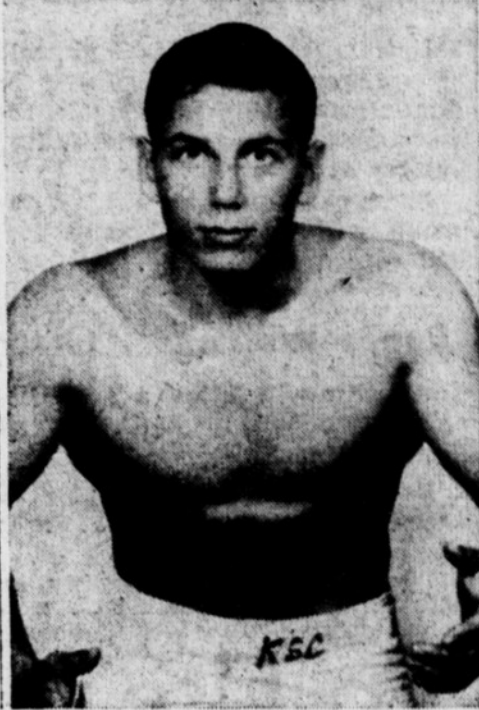

Lee Young, defending 147 pound champion of the Big Seven, is the only man from last year's squad not returning this year.

Young underwent surgery in December for the removal of cartilage in his right knee. He is not going to attempt to get back in shape for this season.

This will be the 24th wrestling meet between the two schools. In the series, which began in 1927, the Sooners have won 17 and the Wildcats have won 6.

# 'Vocation in Religion' Is Discussion Topic

"My Vocation in Religion" is the topic to be led by Larry Wills, ChE Fr, at a forum Sunday at 6 p.m. at Wesley Foundation. Devotions will be by Betty Childs, HE Soph. Bible study will be at 4, fellowship at 5, and lunch at 5:30.

The Rev. Ray Wonder will speak on "The Sin of Being Ordinary" at the 9:50 a.m. church service; church classes will follow at 11.

A Kappa Phi pledge meeting is set for 1 p.m. Saturday.

## Newman Club

A monthly corporate communion is planned for February 5 at the 10 a.m. mass in Seven Dolors church. A meeting and coffee hour will follow.

On February 6, Newman club will sponsor a mixer and social hour at 7:30 at the Student Union.

Father Weisenberg, director of Newman club, will lead a weekly discussion Monday night at 7 in J 15.

Mass will be at Danforth chapel Friday at 7 a.m.

## Westminster

Supper at 5:30 p.m. will precede installation of new officers

at 6:30 at Westminster house. Incoming officers are Jim Elliott, ME Jr, president; Gerald Thiepestein, AgE Jr, and Gail Gross, AA Soph, vice-presidents; Nancy Howard, SEd Soph, secretary; and Richard Bair, DH Jr, treasurer.

## Hillel

The B'nai B'rith Hillel lodge of Topeka will be host to Kansas university and K-State Hillel organizations and student leaders this evening.

## College Baptist

Lucien Regnier, HE Soph, will be speaker at a College Baptist Youth Fellowship meeting in the basement of College Baptist church Sunday at 6:30 p.m.

After choir practice Friday, the group will start a cleanup that will continue Saturday.

## Roger Williams

Worship will follow a 5:15 dinner in Fellowship hall of First Baptist church.

Early church service is at 8:30 a.m.; church groups meet at 9:45; late service is at 11.

Theta Epsilon is planning an

alumni day and initiation breakfast for 7:30 a.m. Sunday in Fellowship hall. Betty Johnson, HE Fr, Loretta Magers, HEJ Fr, Evelyn Sadler, Caroline Krieh, BAA Jr, Lois Graeff, Art Soph, and Rosa Larson, HDA Sr, are to be initiated.

## Gamma Delta

Gamma Delta will have a sleigh ride party Sunday evening if the weather permits. Members are to meet at the church at 5 p.m.

## DSF

Don Argabright, Ag Soph, has been elected president of Disciples Student Fellowship. Other officers are Lynne Joines, BMT Soph, first vice-president; Joan King, EEd Jr, second vice-president; Wendell Cole, CE Jr, secretary; and Glen Horton, ME Sr, treasurer.

Disciples Students has started a system of electing freshmen to assist the elected officers to better acquaint the newcomers with the foundation.

## Canterbury Association

Election of officers for Canterbury club is set for Sunday evening at the supper meeting.

## United Presbyterian

Sunday evening worship ser-

vices of United Presbyterian Youth Fellowship will be led by Norma Bolling, HE Fr.

## Lutheran Students

"The Role of the Christian in Politics" is to be the theme of group discussions at 5 p.m. Sunday at First Lutheran church.

Devotions and a talk by Janet

Wilkins, Hst Gr, are planned for Tuesday at 5 p.m. in Danforth chapel.

## Latter Day Saints

Latter Day Saints plan no church service Sunday because of a district conference at Wichita Friday and Saturday nights and all day Sunday.

# KS Players To Use Prof's 'Ogden' Play

"Major Ogden," a play about Fort Riley by Dr. John L. Robson, associate speech professor, will be presented in the Auditorium on April 12 and 13. It will be presented by the K-State Players and directed by Earl Hoover.

Major Ogden was the first commander at Fort Riley and supervised the construction of the Fort in the summer of

1855. It is a story of the many men who deserted their jobs because of a cholera epidemic.

Dr. Robson has written plays based on historical facts in different sections of the country. His thesis play, "Blue Ridge," was performed at Vanport college in Portland, Oregon. It is a story of the poverty among the "first families of Virginia."

## Houses Elect New Officers For Semester

### Alpha Chi Omega

Newly elected officers of Alpha Chi Omega are Jane Mills, EEd Soph, president; Corrine Crumbaker, EEd Jr, first vice-president; Ramona Sue Tucker, HT Jr, second vice-president.

Pat Noll, MGS Jr, corresponding secretary; Bobby Ann Rhynolds, BA Soph, treasurer; Gailyn Grey, BA Soph, assistant treasurer; Janet Eddy, Soc Jr, social chairman.

Edith Lancaster, HE Soph, assistant social chairman; Marilyn Brooks, HT Soph, activities chairman.

Carol Gillen, HT Soph, activities chairman; Elin McCandless, HDA Soph, assistant scholarship chairman; Gail Smith, HDA Soph, intramurals chairman; Virginia Devinish, HDA Jr, warden; Marjorie Janasek, HT Jr, chaplain.

Naomi Trumbull, HT Soph, Lyre editor; Corrine Crumbaker, EEd Jr, senior Panhellenic representative; Joline Boehner, BMT Soph, junior Panhellenic representative.

Charlene Wess, MAI Jr, song leader; Carolyn Snell, TJ Soph, house manager; and Sharon Hansberry, HT Jr, historian.

### Kappa Delta

Judie Cain is the newly elected president of Kappa Delta. Other officers are Nancy Hill, EEd Soph, vice-president; Leone Cowan, Hst Jr, secretary.

Barbara Duncan, Eng Soph, treasurer; Rosella Hiebert, Art Soph, editor; Joan Skupa, Clo Jr, membership; Joyce Rust, HEC Soph, assistant membership; Dornadine Macek, BAA Jr, historian; Ann Colburn, HT Jr, scholarship.

Dixie Robert, HEA Soph, activities and intramurals; Peggy Tillotson, HEJ Soph, social service; Sally Smith, BMT Soph, social chairman.

Ronnie Johnson, DIM Soph, assistant social chairman; Nyla Arents, EEd Soph, assistant editor; Norma Eversole, PEW Jr, house manager; Eva Jeane Schroedel, EEd Soph, Panhellenic; Pat Johnson, Clo Soph, Panhellenic; Carol Stephenson, Ch Fr, magazine.

Martha Evans, HE Soph, education; Nancy Rasher, Hum Jr, song leader; Beverly Miller, Mus Soph, devotional leader; Barbara Winter, HEC Sr, sergeant-at-arms; Marilyn Hiebert, BMT Jr, guard; and Ilene Parshall, HT Sr, parliamentarian.

### Waltheim

Carrie Beth Moffatt, BMT Jr, is the newly elected president of Waltheim. Other officers are Wilma Denholm, Clo Sr, vice president; Gaye Lane, Sp Soph, secretary; and Maxine Utt, BAA Soph, treasurer.

### Phi Delta Theta

Newly elected officers of Phi Delta Theta are Lloyd Phillips, president; Doug Jones, secretary; Dave Nuttle, warden; Arlan Stackley, chaplain; Evert Asjes, social chairman; Darrell Feaker, rush chairman; and John Spangler, scholarship chairman.

### Sigma Alpha Epsilon

Recently initiated officers of Sigma Alpha Epsilon are John Costello, TJ Sr, president; Ed Dunn, Gov Sr, vice-president; Mike Stout, Ag Soph, treasurer; Fred Salmon, BAA Jr, pledge trainer; Darwin Hester, BA Jr, recorder.

Dave Smith, BA Soph, correspondent; Bob Kissick, FT Soph, chronicler; Fred Inman, BA Soph, warden; Dave Dicken, ME Soph, herald; Darrell Ford, Geo Soph, chaplain; and Dee Shreve, PrL Soph, house manager.

## Home Ec Dean Plans February Wedding

Dean Doretta Schlapheff will marry this month, but plans to continue as dean of the School of Home Economics, she announced today.

Her parents, Mr. and Mrs. Carl Schlapheff of Waverly, Neb., announced her approaching marriage to Wendell L. Hoffman, Lincoln, son of Mr. and Mrs. A. L. Hoffman, Springfield, Ore., on February

26, in Waverly Methodist Episcopal church.

Hoffman is in charge of photographic production at the University of Nebraska. He does photography for CBS-TV, particularly for such programs as those of Eric Severeid, on his CBS Sunday news show.

Hoffman will continue to handle the photography from Manhattan for the Severeid show after moving here next June.

The couple will be at home in Manhattan.

Dean Doretta Schlapheff  
... announces wedding plans

### Wedding

#### Scott-Boyd

Inez Scott and Jim Boyd were married January 28, in Bonner Springs. Inez is an HT Sr from Bonner Springs and a member of Clovia. Jim, a VM Jr, is from Plevna and a member of Beta Sigma Psi.

### Pinning

#### Ernst-Gunter

Chocolates at Chi Omega and cigars at Delta Tau Delta January 18, announced the pinning of Carol Ernst, HT Jr from Salina to Dub Gunter, Sp Jr from Manhattan.

# Dean Weber 1st 'Kansan of Year'

Arthur D. Weber, dean of the School of Agriculture, was named "Kansan 1956" at the Native Sons and Daughters banquet last Friday in Topeka's Jayhawk hotel.

Dean Weber is the first person to receive this distinction in a plan of the Native Sons and Daughters to name a Kansan each year for the honor.

A walnut plaque, presented to Dean Weber by the society, bears

the inscription, "For distinguished service, adding to the glory, wealth and welfare of Kansas, to Arthur D. Weber." The plaque is hanging in Dean Weber's office in Waters hall.

Dean Weber was chosen by a committee representing the various fields of business, professions, and industry from nominations made by the public. He was nominated by John O. Miller, agricultural representative of the Topeka Chamber of Commerce.

To qualify for the award, "the individual chosen must be a native born Kansan who is residing in the state of Kansas, and who has distinguished himself in some way as to have added to the glory, wealth and welfare of Kansas."

This honor is one of many which Dean Weber has received since becoming dean of the School of Agriculture. In 1953 he became the first foreigner ever to judge the Smithfield beef cattle show in London, the oldest livestock show in existence.

He was the first and only American ever to select the grand champion steer at the Chicago Livestock exposition, an honor which has been his continuously since 1950.

## New Staters Can Buy RP Photos

All new students who want their pictures in the class section of the yearbook should fill out a photo receipt in K-103a, then make an appointment at the Studio Royal to have the picture taken, Sam Logan, Royal Purple editor, said.

## KS Livestock Judgers Third At Fort Worth

Kansas State's junior livestock judging team won third place in the Southwestern Exposition and Fat Stock Show general livestock judging contest at Fort Worth last Saturday. Iowa State was first in the 15 team contest.

Kansas State placed fourth in cattle and third in hog judging. Walter Martin of K-State was high individual in Hereford judging.

Walter Martin, Nelson Galle, Jim Gammell, Harold Garner, Ray Zimmerman, Gilmore Dahl, and Bert Warne, made the trip with Don Good, team coach.

KANSAS STATE COLLEGIAN  
Friday, February 3, 1956-8

1956-57 Fiscal Year

# KS Budget Okayed With Minor Cuts

The K-State budget for the 1956-57 fiscal year, increased over the previous year by \$1¼ million, has been passed by the Kansas legislature.

"The increase from \$4.7 million to \$6 million is to make up for nonrecurring items in the appropriations for this year," President McCain said. The additional money will go for salary raises and for hiring 24 new staff members, he explained.

## Budget Reduced by \$131 Thousand

The only projects cut from K-State's proposed budget were an experiment field in the Kaw valley, a nuclear reactor, and water resources research, McCain said. This reduction amounted to \$131 thousand.

"It is expected that the legislature will allocate the second half of appropriations for a new home ec building and for an ag engineering building," McCain said.

"This money comes from the educational building fund, and amounts to \$¾ million for the home ec building, and \$½ million for ag engineering," he said.

## Beaver to Coat Process To Be On 'KS Hour'

The process between a live beaver and a fur coat will be shown by George Halazon, extension agricultural specialist on "The K-State Hour" tonight at 10:15.

"The K-State Hour," produced by Ken Thomas, head of Extension radio, first went on the air over WIBW-TV last November. Since then, aided by different departments of the College, programs have varied from anthropology to clothing and textiles.

In the future there will be programs on science, atomic energy, band formations, ROTC, and the American Indian.

Directors for "The K-State Hour" are G. E. Landen, radio and TV specialist, and Robert Snyder, instructor in speech. Gene Warner, associate extension editor, and Ernest Peck, Art Jr., are in charge of visuals.

About 10 days before a program goes on the air there is a story conference, and two camera rehearsals in Nichols gym before it is taken to Topeka. On Friday night the program is run through with the WIBW-TV staff before it goes on the air.

## Veterans Expected To Hit Congress For More Money

Petitions for an increase in veterans' aid will bombard Congressmen from college veterans' organizations over the country, according to Calvin Glenn, PrV Soph. Glenn is president of the Kansas State Veterans' organization which started the movement.

The petitions ask for support of Senate Bill 533, which calls for an increase in educational allowances to help offset the increased cost of living.

They are asking for a 32 per cent raise of \$25 for unmarried students, \$35 for married students without children, and \$45 for married students with children.

The K-State organization mailed letters to 150 colleges and universities throughout the United States and its territories and to every college in Kansas. Fifteen schools have replied that they are circulating petitions on their campuses.

Of the 1300 veterans on the K-State campus, about 1,000 have signed the petition. Eastern Kentucky State college reported that it has 6000 signatures on its petition.

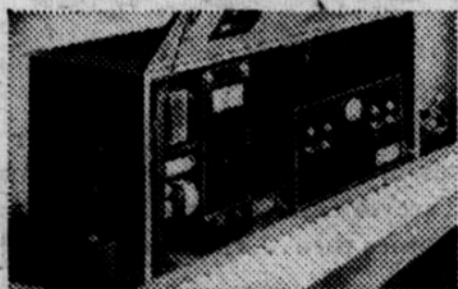

Veterans in favor of the bill claim that their cost of living has increased 14 per cent since the original bill was passed. Others say that veterans will be able to obtain higher degrees in college with the increase.

Those against the petition say that the aid they receive is to help them through school and not support them entirely. They argue that taxes will be too high if the bill is passed.

Senate Bill 533 is favored in Congress today and is pending in the House Ways and Means committee. It was brought before them by Senator Milton R. Young of North Dakota.

# AGR Plans To Build Soon; Farm House Moves In

AGR 'dream' house

The new Farm House fraternity house was recently occupied, and construction on a new Alpha Gamma Rho house will start soon in a current building and redecorating movement among K-State fraternities.

Farm House members moved into their new quarters at 1830 College Heights road last week. Alpha Gamma Rho has announced plans for ground-breaking ceremonies for their new house at Platt and Quivera.

Farm House, built and furnished for \$150,000, was constructed by Green Construction company of Manhattan. F. O. Wolfenbarger and associates were architects.

The house will accommodate 56 men in two dorms, and 28 three-man study rooms on two floors. The study rooms are furnished with built-in desks and closets.

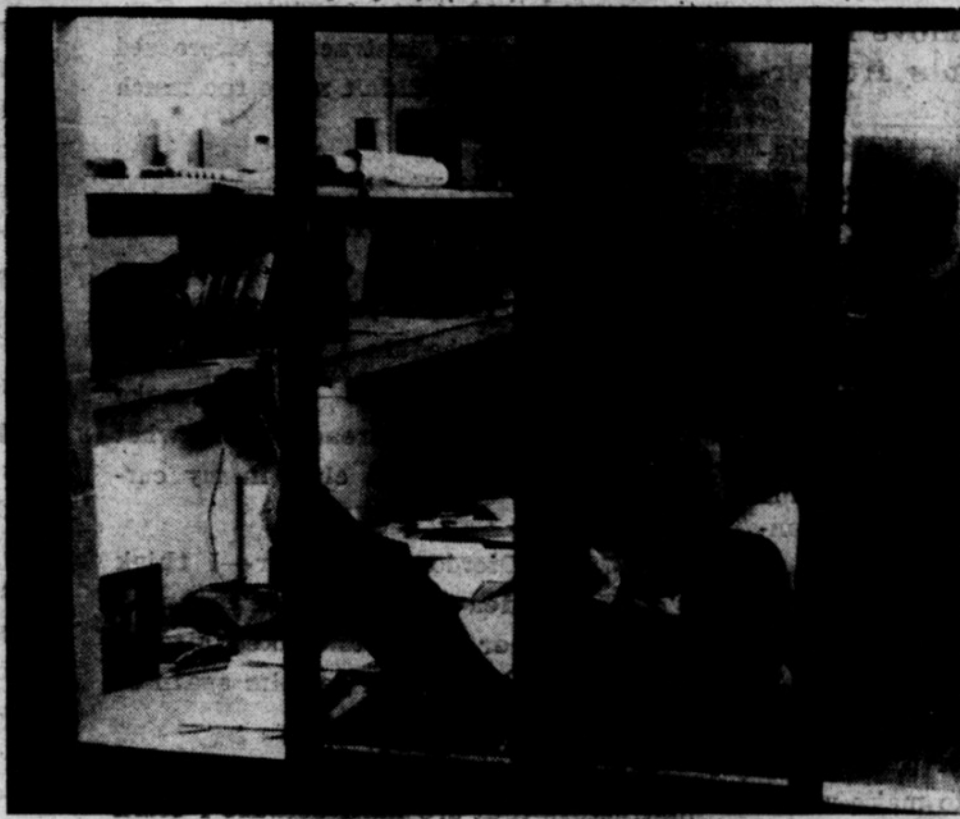

The house also includes a living room, a dining room, and a chapter room. A recreation room in the basement remains to be furnished.

Ground-breaking ceremonies for the AGR house will be February 18. The \$130,000 structure is expected to be completed sometime next fall, and will be constructed of native limestone and brick with redwood trimming.

The house will house 55 to 60 men and will be built on two levels. The lower level will contain kitchen and storage facilities, plus a dining room that can be combined with a large social area for parties or a rumpus room. Housemother quarters and a living room will be on the top level. Study and sleeping quarters will be in a wing.

Terrill-McCall of Kansas City were the architects. Milligan and Stevenson of Manhattan will construct the building.

Other building activity is being done by Acacia, Tau Kappa Epsilon, and Alpha Tau Omega.

Collegian photo by Gary Haynes

**PICTURE WINDOW STUDY SESSION**—Members of Farm House fraternity gather during a break and discuss the three R's. There are no drapes yet, and members say a large number of cars stop during the evening to gape.

## Crack in North Wall Of Danforth Addition

A crack was discovered last week in the north wall of the nearly completed addition to Danforth chapel.

The crack, located near the center arch, is believed to have developed within the past 10 days. The physical plant had inspected the building 10 days previously and found no evidence of a crack.

Cracks in new buildings are not uncommon, R. F. Gingrich, superintendent of the physical plant, said. The addition hasn't been accepted by the College, and the College won't accept the building with such a crack in it, he added.

Contractor Mont Green Jr. said

the damage will be investigated.

Chairs for the addition arrived January 31 and are being put into place. Construction of the building, other than furnishings, has been completed and is awaiting inspection by the state architect. The addition is expected to be ready for use March 1.

The animal industries building on the northeast edge of the campus is 20 per cent completed, Gingrich said. In addition, preliminary grounds preparation has been started on married housing apartments.

Other campus buildings being planned include an engineering wing, and a home ec building.

## IBM Coughs Out 29 Hours; Frosh Gets Money's Worth

By JOHN TOMS

John Schaubach, Chm Fr, has learned firsthand that IBM machines can goof. Those over-worked machines coughed out a set of class cards that had John reeling a little.

Schaubach's class cards totaled 29 hours. Since he enrolled in only 17 hours, he feels sure he's getting his money's worth.

He even can choose which hour he wants to drop into class. If it feels too cold to roll out for an 8 o'clock class, he can sleep another hour and go to a 9 o'clock in the same course.

Although Arts and Sciences solved Schaubach's problem by a revision, administrators don't know where to start with one card that came out. It said: "Line number, 15; course, M2K10PAS2; hours, 6; days, SBAO; room, 2."

There's no name on the card, so the student taking the course prob-

ably will have to report to the dean.

Four business administration students' cards contained only their names. But, due to an instructor's knowledge of how to plot the system of holes in the cards, the students had little trouble.

## SC To Discuss KU 'Prank' Bill

Student Council tonight plans to discuss the bill from Kansas university for expenses incurred by K-State student pranks, Marge Badeker, Student Council secretary, said.

The Council also plans to discuss what to do with books collected in a Books for Democracy drive, she said.

The council meets at 7:30 in A 211.

## Farm-Home Week Shows KS Findings

The 88th annual Farm and Home week got under way today with the first of its 4-day series of meetings.

During the 4 days, latest research and information will be made available in dairying, home ec, poultry, ag engineering, beekeeping, rural art, public affairs, farm management, ag economics, livestock raising, and agronomy.

A Kansas art exhibit and a children's book exhibit will be on display. Open house will be observed by the nursery school, home management houses, and residence halls. A talent show is planned.

The week is an outgrowth of the world's first farmers' institute at K-State in 1868. The institute became Farm and Home week in 1915. During its 88 years, the purpose of the week has been to give Kansas farmers a chance to advise the College of their problems.

## No Appropriation-- No Student Health

By DON MARKER

K-State hopes for a new Student Health hospital soon were shattered when the Kansas Legislature failed to pass a \$350,000 appropriation. The College had requested the appropriation to begin construction of a new building as soon as possible. The State Board of Health recently said

it would seriously consider revoking the license of the present hospital unless improvements were made.

What effect the denial of the appropriation will have on Student Health operations is not known by College officials.

"We hope the State Board of Health will allow us to operate," Dr. B. W. Lafene, Student Health director, said. "We'll just have to wait for developments now."

Dr. Thomas Hood, secretary of the Board of Health, said that

### World News Briefs

## Negro To Attend University Despite 'Scare' Attempts

Tuscaloosa, (U.P.)—Aatherine Lucy, first Negro student in the University of Alabama's 125-year history, will attend classes today despite attempts to "scare" her with two campus demonstrations on successive nights, her attorney said Sunday.

More than 1,000 students demonstrated against the Negro coed's enrollment early Sunday, breaking the windows of the car of a passing Negro motorist and chanting, "Yea hey, yea ho, Aatherine has got to go."

President McCain is expected to discuss the Student Health center in his "State of the College" message at tomorrow's all-College assembly at 9:30 a.m. in the Auditorium. He also will talk about appropriations passed by the Legislature, and their relation to future plans of the College.

nothing definite can be decided until the Board discusses the situation with College officials.

President McCain said Saturday he knew of no scheduled meeting with the Board of Health, but said that Student Health would continue to operate on a full-scale basis.

The new proposed Student Health center will receive first priority in the 1957 session of the Legislature, McCain said. He added that to provide revenue for the appropriation, additional taxes would be necessary and the Legislature is now trying to avoid new taxes.

### Navy Plane Missing

Antarctica, (U.P.)—The icebreaker Eastwind steamed toward Little America today with another airplane and a helicopter to help search for a Navy plane missing since Friday in the Antarctic wastes with seven men aboard.

Distress signals were heard Friday and Saturday from an emergency radio believed carried by the missing plane, but efforts by the army signal corps failed to pinpoint their location.

**NOT DONE WITH MIRRORS**—He's actually upside down! A Swiss gymnast demonstrates the skill that won him team international honors. He found his feet in time to keep from making his nose into a dimple. The gymnast appeared here yesterday.

# Cats To Play NU, Face 3-Year Jinx

Collegian photo by Gary Haynes

**HIT THE DECK**—Jim Ranglos, Colorado forward, loses his balance in a scramble for a loose ball with George Hannah (30) and Roy DeWitz (11). The Buffs "hit the deck" for the evening, too, and bowed to K-State, 82-51.

The Wildcat cagers meet the Cornhuskers tonight at Lincoln in an attempt to increase their conference lead to 1 1/2 games over Iowa State.

The Cyclones moved into undisputed second place Saturday with a 4-2 record by drubbing KU, 79-63, while the Staters were whipping Colorado 82-51. KU and Colorado both have 3-2 conference records, good for third place.

The Cats, with a 5-1 conference record, will attempt to break a three-year jinx on the Nebraskans' home court.

In the over-all 90-game series with Nebraska, K-State holds a 47-43 lead. The Cornhuskers have a 1-2 conference record this season, losing to Colorado twice, and winning over Missouri.

K-State defeated the Cornhuskers this season in Big Seven tournament play, 79-51. The Cats will be completing the first-half circuit with the Nebraska game, having met all other Big Seven teams in at least one conference game.

## Intramural Heads To Meet Tonight

Frank Myers, director of intramurals, has called a meeting of all intramural managers. The meeting will be in Ahearn Field House, room 304, tonight at 7.

Volleyball and forthcoming individual sports will be discussed, Myers said.

## Gerald Hackney Killed Friday In Texas Explosion

Gerald Hackney, star fullback on the 1948 and 1949 Kansas State football teams, was killed Friday in a Texas oil well explosion.

Hackney, originally from Oberlin, lived at Odessa, Texas, and was employed as a rigger in the oil fields.

He was named fullback on the Associated Press all-sophomore team in 1948. That year he made the longest run of any collegiate player by running 96 yards from scrimmage against the University of Kansas.

He was a brother of Elmer Hackney, a former K-State football player from 1937 to 1939, who lives in Manhattan.

K-State's indoor track team defeated the Nebraska Cornhuskers 54 1/2-49 1/2 in the season opener Saturday night at Lincoln.

The two teams were tied with 49 1/2 points apiece going into the final event, the mile relay. K-State won the relay and the meet when Marvin Chiles, Wildcat anchorman, beat his Husker opponent to the tape by 6 feet. Chiles had started the final sprint several feet behind when there was trouble in passing the baton.

The Wildcats won six firsts and swept all three places in the 60-yard dash and the 60-yard high hurdles. The Cornhuskers also won six firsts.

Chiles took first in the 60-yard dash and the 440. Gary Doupnik won the high hurdles, Jesse Unruh won the 880, and Gene O'Connor won the low hurdles.

### Summaries:

60-yard dash—Chiles (KS), McDaniel (KS) and O'Connor (KS), 06.4.  
440-yard dash—Chiles (KS), French (KS), Anderson (N); 52 seconds.  
880-yard run—Unruh (KS), Osmera (N), Guest (KS); 2:01.  
Mile—Ellwood (N), Osmera (N), Unruh (KS); 4:28.3.  
Two mile—Ellwood (N), Cartes (N), Stackley (KS); 10:01.3.  
Low hurdles—O'Connor (KS), Doupnik (KS), Marten (N); 07.1.  
High hurdles—Doupnik (KS), O'Connor (KS), Russell (KS); 07.7.  
Mile relay—Kansas State: French, Russell, O'Connor, Chiles; 3:31.4.  
Shot put—Reiners (N), Smith (N), Pasen (N); 50 feet 1/2 inch.  
High jump—Brestes (N) and Gaysman (N), tie; Clark (N) and Delker (KS), tie; 6 feet 2 inches.  
Broad jump—Hanscom (N), Nesmith (KS), Hawkins (N); 21 feet 11 inches.  
Pole vault—Randolph (N), Miller (KS), Lindemuth (KS); 13 feet 10 inches.

## Wildcat Grapplers Lose to Sooners, 29-2, at Norman

K-State's wrestling team went down to its first defeat of the season as it was beaten by a strong Oklahoma squad, 29-2, Friday night at Norman.

The only Wildcat to score was Bob Mancuso, who wrestled Oklahoma's Bobby Lyons to a draw in the 130-pound class. Both men had one point at the end of the match.

Oklahoma's two falls were gained by Don Hart, Big Seven 137-pound champion, and Dan Hodge, NCAA 177-pound champion.

K-State's next match is with Iowa State on February 11 at Ames.

### Match results:

123-pounds—Delgado (OU) won by forfeit.  
130-pounds—Mancuso (KS) drew with Lyons (OU) 1-1.  
137-pounds—Hart (OU) pinned Everist (KS) 4:40.  
147-pounds—Studebaker (OU) decisioned Alexander (KS) 8-5.  
157-pounds—Bross (OU) decisioned Blume (KS) 5-0.  
167-pounds—Edgar (OU) decisioned Glaze (KS) 6-2.  
177-pounds—Hodge (OU) pinned Haller (KS) 2:23.  
Heavyweight—Coin (OU) decisioned Rainsberger (KS) 3-2.

# Debaters Win Five Events At Pittsburg

K-State debaters Kay Eplee, Clo Fr, and Larry McDonald, ME Soph, posted wins at the Pittsburg State Teachers college tournament, February 3-4.

Members of the debating team won five events and lost one in the junior division of the tournament, according to Charles Gotezinger, director of forensics.

The single loss was to Washburn university in the meet semifinals.

K-Staters scheduled to debate in individual events were forced to forfeit because bad weather caused them to arrive too late to compete.

VOLUME LXII

Kansas State College, Manhattan, Kansas, Tuesday, February 7, 1956

NUMBER 77

### Union Board Sets Membership Rules

The Union Governing Board paved the way for faculty use of the new Student Union without paying fees at its meeting last night.

This was made possible by a rule stating that alumni, former students and former faculty members, and current faculty members are eligible for membership in the new union.

Kottner said those faculty members who wanted to use the Union, but felt they should pay for such use, could contribute \$5 a semester toward a life membership. Such a life membership would go to anyone contributing a total of \$100 to the Union.

Another membership clause passed last night will give membership to "any person who voluntarily contributes \$5 or more, per year to the Union. These contributions, together with fees paid while a student at K-State, will contribute toward a life membership."

This will enable anyone to contribute over a period of years instead of in one lump sum, Kottner said.

Other types of membership are:

Student membership—for any student currently paying fees.

Life membership—for any person who has contributed \$100, either through building fees or by contributions exclusive of operating fees.

Honorary life membership—for persons who have played an important role in Union development and operation.

Such a membership is advantageous because fees for use of game-room facilities will be lower for members.

Work is almost completed on the bowling alleys and in the Little Theatre, Kottner said. The alleys will be ready for use by bowling classes this week, he said.

About half of the kitchen equipment has arrived, he said. Work is expected to begin on kitchen equipment installation this week.

The board approved a tentative schedule of events to take place at the opening ceremonies for the Union.

Final approval of the agenda for opening ceremonies is expected at the next meeting of the board, February 20.

### K-Staters Should Appreciate Legislative Grants—McCain

By DON MARKER

K-State students should be grateful for Legislative appropriations granted to the College, instead of being critical of appropriation bills not passed, President McCain told this morning's all-

College assembly. "Students are challenged today as never before to be serious in purpose and conscientious in their dedication to the main job at hand, their academic work," McCain continued in his "State of the College" address.

State-supported colleges such as K-State are valuable to the spiritual, intellectual, and material well-being of our state and nation, he said.

It is to the credit of the Legislature that it realized the value of the state colleges. The Legislature appropriated additional funds necessary to accommodate higher enrollments, plus at least part of the expanded services the people of Kansas requested, McCain said.

These appropriations were made by the legislators even though they were faced with strong pressures. There was pressure to raise student fees, to limit enrollments, and to divert students to schools where higher education could be provided at no cost to the state, or at allegedly lower costs.

That this action was taken by a Legislature confronted with such problems, was a demonstration of confidence in our schools.

McCain said appropriations are "sufficient to raise faculty salaries for the coming year, employ 24 additional staff members necessitated by enrollment increases, and make some physical plant improvement."

Thus, our Legislature has reaffirmed its commitment to two basic principles of public higher education in our democracy: (1) The right of every qualified youth to attend college regardless of his family's income or social position, and (2) the value of higher education to the state and nation.

### KS, KU To Assess Student 'Prank' Bills

K-State has agreed to pay KU for damages caused by K-State student pranks before the KU-K-State football game. K-State will pay any amount in excess of damages caused by similar KU student pranks, Pat Wilkerson, BA Jr, told the Student Council last night.

At a meeting Saturday between representatives of the two schools, the K-State Council accepted KU's bill.

K-State's bill is not yet complete. Herbert Wunderlich, dean of students, is working with the physical plant to determine the amount of K-State damages. Figures will be based on repair of the K-State football field and removal of KU signs painted on campus.

Wilkerson explained that items on KU's bill thought to mean

new paint actually were figures for painters' labor.

A truck that was supposed to have picked up books collected during a Books for Democracy drive last year did not show up as scheduled, Jim Graves, BA Jr, told the Council. Arrangements have been made for another truck to pick up the books, he said.

Bob McDowell, PsP Soph, has resigned his position as Arts and Sciences Student Council representative because he said he felt his Council activities took too much time from his academic studies.

Merton McIlvain, former Graduate School representative, will be replaced on the council because he no longer is enrolled in Graduate School. Mark Drake, Student Council president, told the Council last night.

Larry Corbet, ME Soph, and Don Taylor, BA Jr, were introduced to the Council last night as new members.

### KS To Ask Ford Fund For Education-TV Grant

The School of Arts and Sciences will apply to the Ford Foundation for funds to finance a closed-circuit educational TV system to aid instruction in seven Arts and Sciences departments. John C. Weaver, dean of the school, said yesterday that this request for funds now is being formulated

and the College should have a definite answer by April 1.

The College has been unable to develop educational TV in the past because requested funds were not appropriated by the Kansas Legislature.

The Ford Foundation has \$500,000 available to aid colleges in finding ways of extending instruction to more students, Forest L. Whan, professor of speech, said.

K-State will apply for part of this sum to set up closed-circuit educational TV here, he said.

If the College obtained the necessary funds, the TV broadcasts would begin in September, originating in Nichols and being carried via coaxial cable to the Military Science building and to Eisenhower hall.

This would allow one professor to lecture 5 to 10 classes at the same time, Whan said.

About 20 or 30 colleges in the U.S. already have educational TV in use. K-State has been utilizing TV on campus for several years for training purposes, he said.

Pennsylvania State university is using TV for educational purposes and has approximately 2,300 students enrolled in one course. These students receive just as good grades as students taught without TV, Professor Whan said.

### Marterie Concert Set for Tonight

Ralph Marterie and his orchestra, voted the most popular dance band of American colleges in a poll by Down Beat magazine, will present a concert in College auditorium this evening at 8. Doors will open at 7, and there will be no reserved seats.

Marterie's orchestra, billed as

Ralph Marterie's 2-hour concert will be broadcast over KSDB-FM tonight at 8, if permission is granted by Marterie.

The broadcast has been cleared through the Manhattan union, Local 169, according to Kay Hutchinson of KSDB-FM. Wayne Thomas, Sp Jr, will broadcast the program.

having more hit records than any dance band in America today, will present a 2-hour program of the music they have made popular. The program will include such songs as "Pretend," "Caravan," "Crazy, Man, Crazy," and "Skokiaan."

Collegian photo by Gary Haynes

**WHAT'S WRONG** with this picture? The location is Student Health; two student-health employees walk down a dimly lighted corridor past a prominent "flaw" in the wall, typical of the condition of the building. Dr. Benjamin W. Lafene, director, says that, although the Legislature refused money to build a new Student Health center, he hates "to spend the student health fees to repair repairs." He estimates repair of the plasterboard wall seen here would cost \$40-\$50.

# Veterans Say Proposed Raise In GI Benefits Would Assist

By HOWARD KESSINGER

While the proposed bill to increase GI benefits to Veterans in college is resting in the House of Representatives, the Veterans here continue to argue their ideas. Here are comments made by married and single Veterans.

Tom Hoover, Ag Soph, looks at the proposed increase from a married man's slant: "A Veteran with wife and dependent can't possibly live on the present allotment. I have to save part of the allotment for books and tuition and it's hard to get a part-time job because a Veteran must keep his grades up or lose his benefits."

Ed Hedstrom, ArE Sr, a married Veteran: "The GI bill is not meant to finance an individual but just to aid him in school. I feel the government is spending too much today to take on an increase in the Korean bill."

Jerry Costello, Sp, has a single man's slant: "Under the old aspects of the bill, a Veteran received more benefits than under the Korean bill today. The cost of living was cheaper too. Today, a Veteran gets less and has to spend more for essentials. A man who attends a top school can't get by."

John Maier, EE Soph, a single Veteran: "A part-time job cuts down on study time and I don't feel the Korean bill offers enough financial aid. I'm for an increase."

Jack Weichert, EE Soph, a single Veteran: "Rather than increase the bill, I would rather have them extend the benefits to men in service now."

Cyrus Young, CE Soph, a married veteran with two dependents: "It is hard to go along with the present bill when you

have a wife and dependents. I'm for an increase."

Stan Barnhill, PrV Soph, speaks as a married man: "The cost of living in Manhattan is high and to cope with today's prices I think the increase would be a definite boon."

George Rion, Hst Sr, a married Veteran: "The Bill is being pushed at the wrong time. The public has its eye on the already high taxes and any added toll will bring sharp criticism."

Robert Biegert, ME Jr, a single Veteran: "I drive every day, live in Junction City, and still must work part time to live on the Korean bill. I hope the new proposal goes through."

Ralph Smith, EE Jr, voices a single Veteran's idea: "I must work weekends in order to make it now. A raise would be welcome."

Raymond Smith, EE Fr, a single Veteran: "The scarcity of part-time jobs warrants a raise in the GI bill. The raise would be an added inducement to get Veterans to attend school."

Don Filby, Art Soph, a married Veteran: "The reason for an increase is very clear, a married person cannot hope to live on \$160 a month. I'm for the raise."

Ron Barber, BA Jr, a married Veteran: "I am in favor of a raise. The high rate that must be paid living around here makes it impossible to go to school on the present allotment alone."

John Costello, TJ Sr, a single Veteran: "I am in favor of a raise in the GI bill to coincide with the rising cost of living."

Arnold Droge, Geo Sr, voices his opinion from a single Veteran's experience: "I am for a raise in GI benefits. Prices today are

far above those after World War II when benefits offered more."

Fred Fox, PrV Soph, a married man: "I think married Veterans need a raise. You can't rent an apartment and feed your children on the present allotment."

Ralph Snyder, BAA Soph, a married veteran: "We need a raise in the GI bill. A married Veteran with dependents is forced to support his family."

Bluford Nikell, GA Soph, is single: "I don't think the Korean bill amounts to as much as the old bill did. Books and equipment are higher in price and an increase would really help."

William Silkman, EE Fr, a married Veteran: "With my wife working, we just get by under the Korean bill. I carry 18 hours and cannot work with a load this heavy. An increase would really be appreciated."

POGO

By WALT KELLY

## Arabian Leaders Promote Unrest In Israel, Foreign Student Says

Trouble between the Jews and Arabs in Israel, comes not from any personal hatred between the people themselves, but because the Arab leaders are interested in promoting unrest, Danny Chajuss, Milling senior from Israel, said.

"The Arab countries are in a state of transition. The people want to move from a feudalistic mode of living towards modern 20th century living but the leaders do not," Chajuss said.

"If the Arabic countries are banded together fighting against another country, they forget the problems and the social unrest in their own countries," he said, "so the leaders make Israel the scapegoat and promote hatred and stir up trouble."

"Many people think the problem is between races or religions, but it really is a conflict between two ways of living," he said. "Once the Arabs get a democracy, I think the problems will be solved and we can turn our attention to the real problems—soil reclamation, disease, integration of immigrants, and uneducation."

Danny says he feels there are three reasons the people of Israel want peace. Because it is a desired thing by itself, because the people of Israel cannot devote their entire time to constructive projects inside their own country without peace, and by co-operation with their neighbors, they can improve the whole region.

"Of course, Israel can't get peace by herself. The Arabs must help," Danny said. "When border-crossers, inspired by the Arab government, kill

the Israel people, of course the only thing Israel can do is to retaliate."

"Israel wants peace with the Arabs, but if they can't have peace then all they want is just to be left alone," he said.

"Since no place in Israel is farther than 30 miles from the Arab border, the people are very security conscious," he said. "The Army is basically a reserve, and the people devote more time to national guard duty than in the United States."

Chajuss says he feels that Israel and America are alike in spirit.

## U.S. Should Aid Arabs To Unite, Student Believes

America should help the Arabs unite because of the benefit it would derive from such a move, and because it would fulfill a long dreamed of hope for the Arabian people, to be one nation, Samih Hasayen, student from Palestine said.

"The reason the people of Arabia don't want to join any pact is that they believe this would further widen the gap between the Arabian countries. They want to unite themselves first, and then join one side as one nation, willingly," he said.

"If America would help the Arabs unite, it would be to her advantage," Samih continued. "A unified ally is always much stronger than a divided one, even though each of the individual Arabian countries could join the American side individually."

Samih explained that the people of Jordan are like any other nation and want peace and Arabian unity. He thinks there is better understanding between the Arabian countries now, than ever before.

"The people are not Communists, don't believe in Communism, and are not led by Communist educators," Smith said. "The riots that have been happening recently are the people protesting against the government," he said.

He said that some of the governmental leaders in Arabia are selfish individuals who have more to gain if the countries stay unified.

"The Arabian people are also in the transition of social reform," Smith said. "They want to be individualistic, and not imitate the West, but revive their own culture. But translation of American text books into Arabian language, is doing much to further education in Arabia."

"High school is compulsory in Arabia and Palestine is second only to Lebanon in educational standards," Smith said.

"Women are gaining more rights now, including the right to vote and be elected. We have many more new factories, the oil industry is bigger and more flourishing than ever, and railways, ships, trucks, and airplanes are becoming common modes of transportation," he said.

Samih said that although Palestine's major industry is agriculture, the country has much tourist attraction.

## Pre-Advisement Misunderstood By Collegian, Registrar Says

There has been a misunderstanding on the terms "pre-enrollment" and "pre-advisement" in the Collegian, E. M. Gerritz, director of admissions and registrar, said.

"We don't have pre-enrollment as yet, and it was not intended that it be called so. It is pre-advisement," Gerritz said.

Pre-advisement is a step toward pre-enrollment, which is scheduled to begin second semester next year, Gerritz said. The benefits of such a system would include more complete faculty advising for students already in school and the reduction of the confusion and pressure at enrollment time for both students and faculty.

"Pre-advisement has taken more time of the faculty, but we feel it is worthwhile," he said.

"There would be no magic to pre-enrollment to keep classes open, but it would provide a longer period for adjustment," he said. There will always be disgruntled students who don't get the cards they want, but there is no way to guarantee that the last students can get what they want, he added.

Actual pre-enrollment, not pre-advisement that is in operation now, would begin about the 14th week of the semester, he said. Cards would be pulled and reserved for the student until fall. Then, in the fall when fees would be paid, the student's schedule would be ready without the hub-bub of Nichols, and the pulling of cards, he said.

Adjustments would be made at a central location, when cards would be pulled during pre-enrollment, he explained. Someone of authority could make the changes if classes were closed, or new ones were opened.

Final details of pre-enrollment still are being planned, but the basic plan has been on paper since May 1954, Gerritz said.

In commenting on the opinion poll in the Friday, February 4 Collegian, Gerritz said opinions of a few students are not representative. Statements from a few individuals aren't a true picture of campus opinion, he said.

The opinion poll referred to above was an Inquiring Reporter article stating that the value of pre-enrolling at semesters or seeing an adviser and making out a schedule ahead of time seemed to follow the law of diminishing returns.

# 'Pastels' To Play for Military Ball

Marshall McNutt and the Pastels are scheduled to play for the Military ball sponsored by Scabbard and Blade and the Arnold Air society, according to Kay Hutchinson, Sp Sr, publicity chairman for the dance.

It is set for February 18 at 9 p.m. in Nichols gymnasium. Admission will be \$2 a couple and tickets will be on sale beginning Monday, February 13, in Anderson hall, Waters hall, and the Military Science building. Dress will be formal.

McNutt, presently a student at Emporia State college, formerly was trumpet soloist with the Prez Prado orchestra. He has since organized his own band, known as the Pastels.

Heading committees in charge of the dance are Alan Wright, Ar 05, and Dick Boyd, AH Jr, of Scabbard and Blade; and George Yapp, MT Sr, of Arnold Air.

The Military ball queen will be crowned at intermission, at which time a special program also will be presented. The queen and four attendants will be chosen from the twelve finalists who were selected in the fall by members of Scabbard and Blade and Arnold Air.

Scabbard and Blade finalists chosen were Dixie Brown, HDA Soph, Alpha Delta Pi; Connie Eller, EED Soph, Pi Beta Phi; Dottie Newton, DIM Fr, Northwest hall; Marie Price, HE Soph, Chi Omega; Joyce Rawlins, HT Jr, Alpha Chi Omega; and Leann Riggs, Hst Soph, Kappa Kappa Gamma.

Finalists selected by Arnold Air were Marilyn Adams, EED Soph, Delta Delta Delta; Kay Benjamin, EED Soph, Kappa Kappa Gamma; Charlene Brooks, Clo Jr, Pi Beta Phi; Kathleen Dodd, EED Soph, Alpha Xi Delta; DeAnn Mackie, PEW Jr, Alpha Delta Pi; and Genie Munn, HEJ Soph, Chi Omega.

The queen candidates will appear on a television show planned for Valentine's Day, February 14, at 5 p.m. WIBW-TV will televise the show.

## Art Program On Farm-Home Agenda Today

Farmers and homemakers arrived on the campus yesterday for opening sessions of the 88th Farm and Home Week program.

The annual Kansas art program is planned for 3 p.m. today with Alden Megrew, chairman of the Colorado university art department, as chief speaker. K-State Friends of Art will be host at a reception following Megrew's talk.

Tonight's events include a dairyman's dinner, a Sears dinner, and a get-acquainted party in Nichols gym.

The homemakers' program begins tomorrow morning. Sessions for dairymen will be held throughout the day. Wednesday's sessions will be highlighted by a talk by President McCain at 1 p.m. The week will end Thursday.

Kathleen Dodd, Connie Eller, Dottie Newton, Marilyn Adams, and Leann Riggs. Joyce Rawlins, the twelfth queen candidate, was not available for the picture.

## RP Sports Section To Be Best in History, Editor Says

"Sports coverage this year will probably be the best in the history of the Royal Purple," said editor Sam Logan. Logan says that last spring's picture, coverage in baseball and golf are particularly good. "Our shot of Kent Poore, golf letterman, is one of the most vivid I have ever seen," said Logan.

May 14 is the tentative date set

up for distribution of the year-books. About half the work is done—all 156 group pictures have been taken and engraved. This figure compares with last year's 135 group shots.

There will be 464 pages in the new Royal Purple, 32 more than last year's annual. In these pages will be four color photos, considerably larger than last year's. The contract was let for a purple and white cover last December.

February 25 is the deadline for the first 116 pages. After that, Engineers' Open House will be the last event covered in the 1956 year-book.

"Our success this year comes largely from the cooperation student groups have shown in getting pictures and information. With this year's staff, I think we're really going places," Logan said.

## J. Paul Sheedy\* Had A Hangdog Look Till Wildroot Cream-Oil Gave Him Confidence

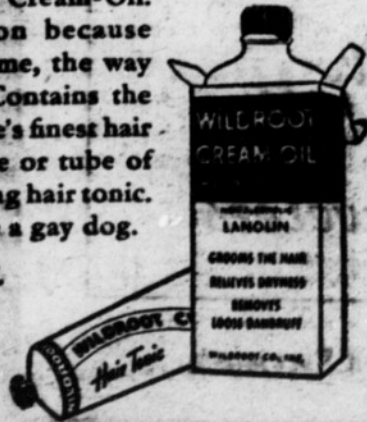

Poor old mangy Sheedy was hounded by a lack of confidence! Every girl he talked to told him he was barking up the wrong tree. "Fido 'nt get a date pretty soon," he howled, "I'm gonna flea the campus and go home to mutter." Then he got wise to Wildroot Cream-Oil. Now he has confidence in any situation because he nose his hair looks healthy and handsome, the way Nature intended... neat but not greasy. Contains the heart of Lanolin, the very best part of Nature's finest hair and scalp conditioner. Get yourself a bottle or tube of Wildroot Cream-Oil, America's biggest selling hair tonic. It gives you the confidence you need to be a gay dog.

# K-State Ends NU Jinx With 66-52 Victory

K-State's basketball team smashed Nebraska, 66-52, at Lincoln last night and broke a 3-year jinx on the Husker court.

The victory gives the Cats a 6-1 record in the Big Seven, putting them 1½ games ahead of runnerup Iowa State, who is 4-2. In another Big Seven game last night, Missouri downed KU, 85-78, to hand the Jayhawks their third conference loss. The Jayhawks and Tigers now are tied for fourth place with 3-3 records. Colorado is in third place with 3-2.

The victory over Nebraska was a sweet one for the Cats, who have been winless since 1952 at Lincoln. In winning their ninth contest in 10 games, they were never behind and never were in danger after the closing minutes of the first half.

The Cats were led by sophomore center Jack Parr, who scored 20 points. Forward Rex Ekwall was high man for the Cornhuskers with 18 points. Four Wildcats besides Parr hit the cords for 10 points or better. Pachin Vicens got 13, Roy DeWitz 11, and Hayden Abbott and Fritz Schneider 10 each.

The first score of the game was made by Parr, a layup with a minute and 13 seconds gone. More than 4 minutes elapsed before Nebraska made its first basket. At this point it was 4 to 2, K-State. After 8 minutes, K-State led at 11-8. Then 2-pointers by Schneider and DeWitz, plus 4 points at the charity line by Abbott, gave the Wildcats a 19-8 lead.

The Cats went ahead by 15 with a minute left in the first half, but two quick Nebraska baskets cut the lead to 11 as the half ended, 36-25.

The second half started slowly with each team scoring only 2 points in the first 3 minutes. Then Parr quickly hit 6 points on 3 field goals, Schneider got 4 points with 2 buckets, and Vicens hit a jump shot. That flurry gave K-State its longest lead of the game, 50-29.

Then Nebraska, led by Chuck Smith and Rex Ekwall, began to whittle the Cats' lead. With 3½ minutes to go they had cut the lead to 10 points as K-State led 56-46.

The Cornhuskers, as a last resort, put on a full-court press. It failed to rattle the Wildcats, and they went on to win 66 to 52.

## Summaries:

Kansas State—66	G	FT	P

## K-State Gets Mention by UP Cage Poll

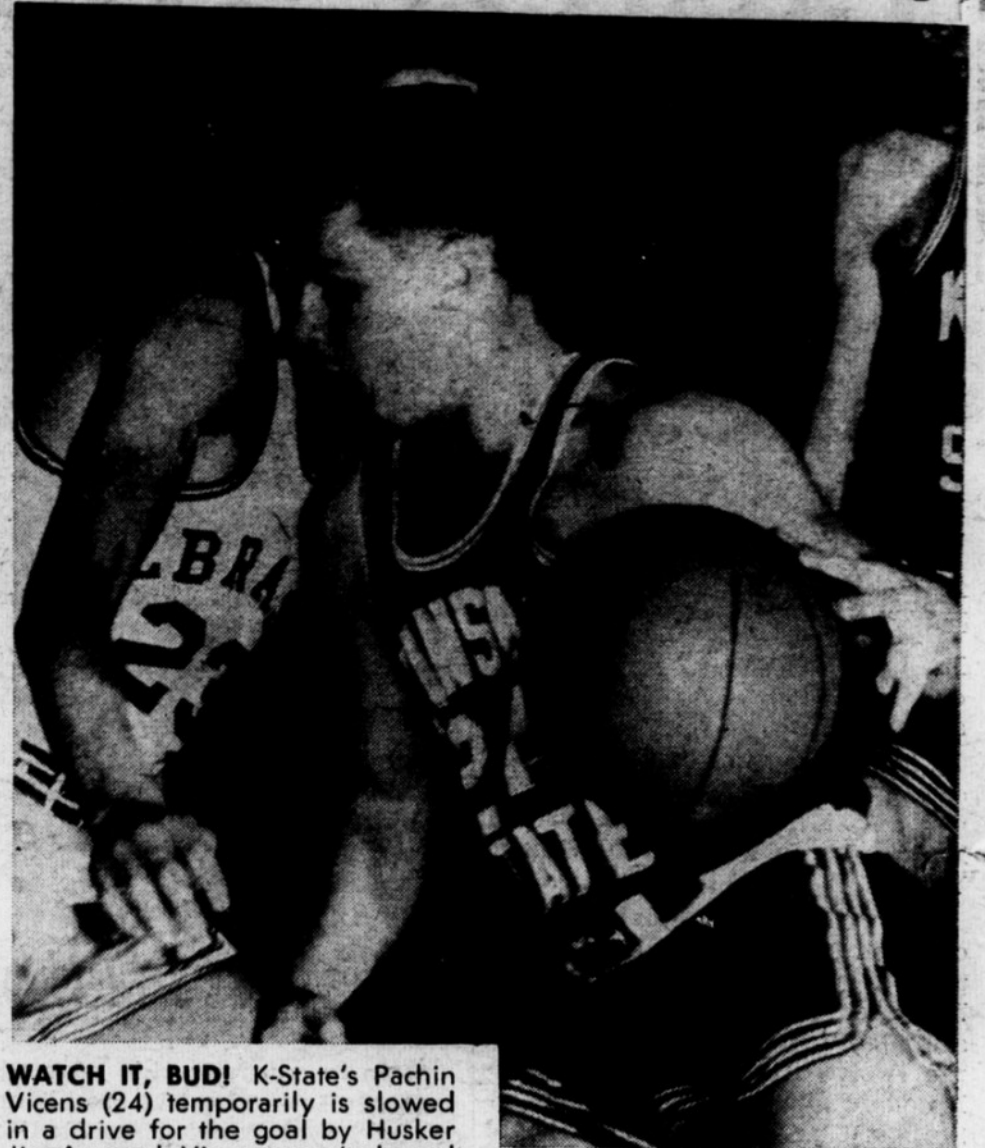

Kansas State receiving a mention appeared on the United Press college basketball poll for the first time this season. Undefeated San Francisco was in its same old position as number one team of the nation.

The only new member in the top ten is Duke, No. 10, who regained that position after being 11th last week.

## The standings:

Team	Points
1. San Francisco (31)	(16-0) 339
2. Dayton (1)	(16-1) 272
3. Illinois (1)	(12-1) 252
4. North Carolina State	(16-2) 208
5. Louisville (1)	(18-1) 170
6. Vanderbilt (1)	(15-1) 143
7. Kentucky	(13-3) 96
8. Temple	(14-1) 76
9. Southern Methodist	(16-2) 69
10. Duke	(13-3) 53
Second 10 teams—11. St. Louis,	
51; 12. North Carolina, 37; 13.	
U.C.L.A., 27; 14 (tie), Holy Cross	
and Alabama, 21 each; 16. Iowa,	
19; 17. Brigham Young, 17; 18.	
St. Francis (N.Y.), 11; 19. Utah,	
10; 20. Stanford, 9.	

Others—Cincinnati and Canisius, 6 each; Marquette, 4; Kansas State, 3; Purdue and Ohio State, 2 each, and George Washington, 1.

**WATCH IT, BUD!** K-State's Pachin Vicens (24) temporarily is slowed in a drive for the goal by Husker Jim Arwood. Vicens wasn't slowed for the night, and netted 13 points to help the Cats to a 66-52 victory.

**IT'S MINE!** Jim Thom, Husker center, seems to be yelling for help as K-State's Joe Powell makes a diving attempt to tie up the ball during the game at Lincoln last night.

SHULTON New York • Toronto

Grade trouble has hit the basketball court with a bang in the Big Seven. It may change the whole conference race.

Probably the hardest hit is Kansas university. Loss of Dallas Dobbs, the Hawks' captain and leading scorer, probably will hurt KU more than the loss of Gene Wilson, Wayne Hutchins, and Chuck Hollinger will hurt K-State.

Dobbs has been the backbone of the KU attack and the general floor leader for Phog's boys since he was a sophomore.

There seems to be some doubt about just how long Dobbs will be ineligible. Dutch Lonborg, KU director of athletics, says that Dobbs is lost for the season. The Daily Kansan, KU's newspaper, says that all of Dobbs' grades have not been returned, and that his final status has not been determined.

The Kansan intimates that Dobbs may be able to play again after an "incomplete" is made up. Wonder who the brave prof was who gave Dobbs the low grade?

That reminds me of the case of a "non-cooperating" instructor at Colorado. Jim Jochems, sub center for the Buffs, has this instructor in an English class. On the first day, the instructor announced that she was one of the few pros to give "Whizzer" White a B. "Whizzer" was an all-American footballer at CU during the 1930s, who graduated with honors.

Needless to say, Jochems dropped the course.

### Are We Still Bush League?

Next Monday Cat fans will have a chance to learn how "bush league" their schedule is when the Cats meet Wyoming.

Wyoming has fared rather poorly this year, but took a 59-54 decision from Jack Gardner's Utah Redskins Saturday night. It was the second conference loss for the Utes in as many nights. They had lost to Colorado A&M Friday night.

Gardner got into a scrape with the official scorer in the Wyoming game. Shortly before the end of the first half he sent in a substitute. It was quite a while before a dead ball would allow the sub to enter the game.

When the dead ball occurred, Jack yelled at the official scorer to get on the ball. The scorer said something back and a scuffle ensued in which the scorer got his glasses and his dignity bent.

Gardner says he is "misunderstood."

## Cats To Meet Wichita in '59 On Gridiron

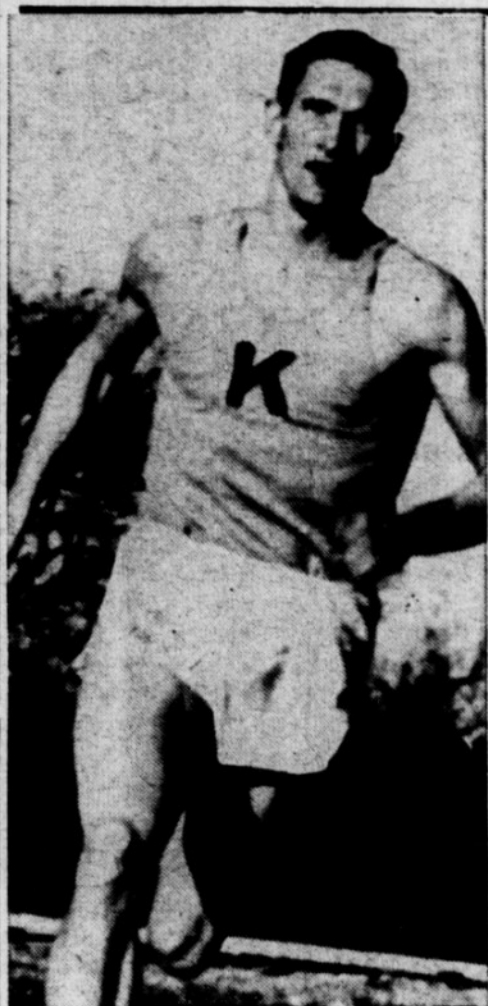

Kansas State will meet Wichita university in football in the 1959 season, Larry (Moon) Mullins, K-State director of athletics, announced late Monday.

The game will be played at Manhattan September 19, 1959.

"We are pleased to be getting back into football competition with Wichita," Mullins explained. "The game will be good for the whole state."

Last grid meeting between the two schools was in 1953, when K-State took a 21-0 win from the Shockers. The "off and on" series between 1900 and 1953 included 16 games.

# Indoor Track Meet Tonight Opens Cats Home Season

Billy Tidwell

... E-State's ace miler

K-State's first home indoor track meet of the season will be tonight in Ahearn Field House at 7.

The meet, a quadrangular affair, will pit the Wildcats against Drake, Omaha, and Emporia State Teachers college. This will be the first four-way indoor meet ever held here.

A feature of the meet will

be the appearance of Bill Tidwell. The Emporia ace is favored to win the half-mile and the mile runs.

Tidwell is recognized as one of the top distance men in the United States. He bettered the recognized world mark for the half-mile at Boulder last June with a time of 1:48.1. He also holds a 4:07.4 time in the mile which he set in the Los Angeles Coliseum last May.

Marvin Chiles, Cat dash man, will find the competition strong when he runs against Jim Ford of Drake.

Ford was national collegiate

200-meter champion in 1952 and in 1951 he won the National AAU 200-meter race as well as the National AAU junior 100-meter event.

The pole vault is shaping up as a real battle with two men who cleared 13½ feet. Paul Miller, (KS) vaulted 13 feet 8½ inches last year, and Dick Utter, (ES) won top honors in the NAIA meet last year with a vault of 13 feet 10½ inches.

K-State won its first track meet of the season last Saturday night as they downed Nebraska, 54½ to 49½ at Lincoln.

## OH, FOR THE LIFE OF A NEWSPAPERMAN!

Look at the campus newspaper you are now holding. An ordinary object, you think? An everyday convenience? Something to be taken for granted?

Faugh, sirs and madams! *Faugh*, I say! Don't you know what prodigies of skill and labor and organization and art and science go into the making of your campus newspaper?

Come, I'll show you. I'll take you to a typical office of a typical newspaper on a typical campus.

The editor—let's call him D. Fermin Bohorquez, a typical enough name—calls his staff together first thing in the morning. "All right, you guys," he says, lighting a Philip Morris, which, naturally, is the favorite cigarette of newspapermen, and of anybody else who knows a hawk from a handsaw, "All right, you guys," says D. Fermin, "this here ain't no ladies whist society, this here is a newspaper. So get out there and get the news. Get it first, get it quick, get it right! Ed, you cover the ag campus. Phil, you cover the school of mines. Wally, you cover home ec. Sam, you cover buildings and grounds. Ethel, you cover the men's gym. . . . All right, get going!"

With many a laugh and cheer, the reporters light up Philip Morris, favorite cigarette of the young and agile, and dash away on their assignments.

D. Fermin retires to his office to smoke a Philip Morris and write a fearless editorial scolding the university for not buying patches for the worn-out elbows of the chess team.

On the rim of the copy desk three rewrite men—Tensing, Hillary, and Laverne—sit poised and expectant, waiting for the reporters to phone in their stories. They smoke Philip Morris, favorite cigarette of the poised and expectant. Tensing's phone rings first; it is Ed calling from the ag campus.

"Stop the presses!" cries Ed. "Got a scoop! Hunrath T. Sigafos, professor of curds and whey, has just sold his article *The Romance of Butterfat* to the Drovers and Poultryers Monthly."

On another phone Sam is calling from buildings and grounds. "Tear out the front page!" he cries. "Got an exclusive! Harold 'Pop' Wishnograd, superintendent of buildings and grounds, today announced the purchase of a new doormat for the vestibule of Burton Hall. The last doormat, it will be recalled, was eaten by a pledge named Norman Harringay for his Chi Psi initiation."

Meanwhile, elsewhere in the city room, Garglia Questover, vivacious and ubiquitous gossip columnist, sits smoking a Philip Morris, favorite cigarette of the vivacious and ubiquitous, and typing out her chatty, informative tidbits: "Maureen Valgerholtz, popular Theta, announced her engagement last night to Webster Scuff, Oliver Jenkins, Cosmo Erskine, and Walter Penn Dowdy. Wedding dates have been set for June 9, June 24, July 5, and July 18 respectively. Good luck, Maureen! . . . Irving 'Behemoth' Anselm, popular fullback, blew out 120 feet of esophagus yesterday while inflating a football. Good luck, Irving 'Behemoth'! . . . Robin Kroveney, popular Deke last year, this year popular pfc. in the U. S. Army, writes friends that he has been convicted of deserting his post and will be executed on April 28. Good luck, Robin!"

And now, friends, we take our reluctant leave of the drama, the action, the tension, the glamor, the churning, the seething, the roiling, the *sturm und drang* of the wonderful world of journalism. Aloha, journalism, aloha!

©Max Shulman, 1956

The makers of Philip Morris, who sponsor this column, have got some news for you too. It's today's new gentle Philip Morris in today's bright new package of red, white, and gold.

## Pinnings

### Younkin-Shreve

Shirley Younkin, BMT Soph, and Dewitt Shreve, PrL Soph, announced their pinning Sunday. Shirley, a member of Kappa Kappa Gamma, is from Manhattan. Dewitt, a member of Sigma Alpha Epsilon, is from Great Bend.

\*\*\*\*\*

### Shenk-Mayer

June Shenk, EEd Fr, and Larry Mayer, PrM Jr, announced their pinning Sunday, February 5. June, a member of Kappa Kappa Gamma, is from Merriam. Larry is attending Kansas university and is a member of Lambda Chi Alpha.

\*\*\*\*\*

### Freeman-Runyan

The pinning of Ruth Ann Freeman, Soc Sr, from Hutchinson, and Jack Runyan, AH '56, was announced February 1 at the Alpha Delta Pi house. Jack is a Phi Kappa from Kansas City, Mo.

\*\*\*\*\*

## Engagements

### Brown-Riley

Bette R. Brown, Clo Jr, and

Dick Riley have announced their engagement. Bette is a member of Kappa Kappa Gamma. Dick is attending Washburn University and is a member of Alpha Delta fraternity. Both are from Holton.

\*\*\*\*\*

### Rankin-Payne

Chocolates were passed at Waltham hall January 22 to announce the engagement of Diana Rankin, HEA Soph, and John Payne, PrV Soph. Diana is from Ashland, and John is from St. Joseph, Mo.

\*\*\*\*\*

### Douglas-Moore

Charlotte Douglas, BMT Jr, and Jarry Moore, BA Jr, have announced their engagement. Charlotte, a member of Kappa Kappa Gamma, is from Wichita. Jarry, a member of Kappa Sigma, is from Muscotah.

\*\*\*\*\*

### Smith-Stalker

The engagement of Delaine Smith, HEA Sr, from Satanta, and Lt. Clinton L. Stalker Jr. from Topeka, was announced recently at the Alpha Delta Pi house. Clin-

ton, a member of Sigma Phi Epsilon is a 1954 graduate of animal husbandry. He is now stationed at Chanute Air Force Base in Illinois.

\*\*\*\*\*

### Ballard-Cady

Lowanda Ballard, BMT Fr, announced her engagement to Jack Cady at the Alpha Delta Pi house. Both are from Kansas City, Mo.

\*\*\*\*\*

## Weddings

### Scholler-Shields

Mary M. Scholler of El Dorado and Fred Shields of Kansas City, Mo., were married Saturday, at the St. John's Anglican church in El Dorado. Mary is a member of Kappa Kappa Gamma and a January graduate of home economics and art. Fred is a member of Sigma Chi and a 1954 graduate of K-State.

\*\*\*\*\*

### Sargent-Sherwood

Joan Sargent, PrL Sr, from Wichita, and Howard Sherwood, Ec Sr, from Wichita, were married January 28, at the St. James' Episcopal church in Wichita. Joan is a member of Pi Beta Phi; Howard is a member of Pi Kappa Alpha.

\*\*\*\*\*

### McNutt-Jung

The marriage of Janet McNutt to Jerry Jung took place February 3 in Winfield. Janet is a member of Alpha Xi Delta. Jerry, a 1955 graduate, is a member of Sigma Alpha Epsilon.

\*\*\*\*\*

### Sewing-Giles

The wedding of Alice Sewing to David Giles took place February 5 in Manhattan. Alice, a January graduate, is a member of Alpha Xi Delta. David is a graduate of Purdue university.

\*\*\*\*\*

### Johnson-Parker

Jackie Johnson, FdN Jr, from Belleville, and Gary Parker, BA Jr, from Arkansas City, were married Saturday, at the Methodist church in Belleville. Jackie is a member of Chi Omega; Gary is a member of Beta Theta Pi.

\*\*\*\*\*

### Guy-Mills

Robbie Guy, PEW Sr, from

Hutchinson, and Lee Mills, VM Sr, from St. Francis, were married Saturday, in Danforth Chapel. Chi.

## Mock Political Confab To Use K-State Groups

Organized houses and campus organizations will represent the 48 states and the territories at a mock national political convention on campus in April. The convention will be hosted by the local Bovinian party.

Mel Baughman last night told YM and YW members that the convention will show students their responsibilities in a representative government. Plans are being made to secure outstanding governmental figures to speak at the convention, Baughman said.

In accordance with an actual political convention, the local Bovinian party will select candidates and a platform, Baughman said.

Since about 1,600 students are expected to take part, the event is to be in Ahearn Field House.

Baughman said \$800 was earmarked by the student apportionment board to finance the convention.

### Committee Positions Open for Convention

The Mock Political convention at K-State will be April 23-24, Mel Baughman, national chairman announced today.

Positions are still open on all committees, he said. Applications should be sent to Baughman, CPO box 372. Applications for the women's division committee will be handled by Marilyn Smith, CPO box 266.

Any K-State student is eligible to work on the convention, Baughman added, and inquiries are welcome.

"The purpose of the convention is to give college students the 'inside story' of how a national convention really works," Baughman said. "This gives everyone who wants to work a chance to get a better understanding of national political affairs."

## Scholarships Open For Foreign Study

Scholarships for graduate study in Austria, Germany, and Switzerland must be applied for before March 1, according to Harold Howe, dean of graduate students.

Applicants must be under thirty-five, unmarried, and have graduated from a United States college by the fall of '56.

Knowledge of French and German is a necessary qualification. Students are accepted on basis of personality, moral character, academic ability, and health.

Summer school at the University of Vienna, St. Wolfgang, will be offered this summer.

# Clubs Elect Officers For Spring Semester

### Alpha Kappa Psi

New officers were elected in a meeting of Alpha Kappa Psi, professional business administration and commerce fraternity, on February 2.

Officers are: Joseph Breitenstein, president; Gary Douppnik, vice president; Marvin Krueger, secretary; Floyd Griggs, treasurer; Don Alspaugh, master of rituals; and Roger Herman, publicity director.

### Masonic Club

The K-State Masonic club will meet today at 7 p.m. in E 127. Dr. Charles Haughey, Student Health physician, will speak.

### Collegiate 4-H

New president of Collegiate 4-H club is Nelson Galle, AEd Jr. Other officers are: Marjorie Hamon, HT Jr, vice-president; Elin McCandless, HDA Soph, secretary-treasurer; Pat Clary, TJ Soph, reporter; Shirley Suderman, HDA Jr, song leader; Kathy Schultis, HEJ Fr, pianist; and Lynn Perkins, Ag Soph, marshal.

Newly elected corresponding secretaries are: Shirley Fooshee,

HDA Fr; Marguerite Jahnke, EEd Soph; Betty Childs, HE Soph; Bob Rees, Ag Soph; Clinton Peirce, Ag Soph; and Jim Withers, Ag Soph.

### Orchesis

Barbara Puhrt has been elected president of Orchesis, modern dance club to replace Carol Antio FdN Sr, who resigned. New vice-president is Greta Kolterman, HEA

Miss Marilyn Tavares, sponsor of Orchesis will speak to the club February 13, at 8 p.m. in N1 about techniques used in dance and hold a warm-up period. All students interested in membership are invited to attend.

# KS Landscape Architect Will Combat 'Cowpaths'

Many of the "Cowpaths" on campus result from students trying to make it from class to class in the 10 minutes allowed, says Thomas B. Shackelford, K-State's new landscape architect. He plans to take measure against the use of paths instead of sidewalks. He says he will rely on the cooperation of students in ridding the campus of these eyesores.

Shackelford will focus most of his attention this year on landscaping around new building sites. The entire campus will be seeded to Zoyzia and Bermuda grasses with special attention devoted to the paths.

Although snow is now on the ground, Shackelford urged students to make use of the sidewalks or at least use a different place each time when cutting across the lawn.

Sprinkling systems will take away the desire of most to cut across the grass this spring, and

"Ouch" and "Please" signs will be put up if necessary, he said. No barbed-wire fences or police guards will be used to enforce the use of sidewalks.

Some new sidewalks are planned, but definite locations are undecided. He also expressed hope distributed to different spots that class practices would be each time to avoid having an entire area of grass trampled down.

Irrigation projects are planned for three spots on the campus: the area by Willard and the farm machine shops; the plot by the Auditorium, Fairchild, and Calvin; and the plot east of Anderson.

The areas around the new Union, the Chapel, Umberger hall, and the veterinary hospital will be seeded to grass and landscaped. Efforts are being made to purchase a specimen plant, either spruce or fir, to be placed on the north side of the Union for a permanent Christmas tree.

There are no definite plans for the future design of the campus, but with the new machinery available, new workmen, a sufficient budget, and student cooperation, Shackelford expects to make the campus a place of beauty.

## Jobs Now Open On Annual Staff

Positions are now open on the Royal Purple business staff, according to Peggy Howard, business manager. Anyone interested in a job should apply in Kedzie 103A before Friday at 5 p.m.

One hour of credit may be earned by working on the staff.

## K-Stater To Head National Pep Club

Mary Lee Durland, BMT Soph, has been elected national president of Phi Sigma Chi, women's honorary pep club. She was elected at a meeting of the Purple Pepsters Monday. She will preside at the national convention March 10, at K-State. Marylyn McCready, Eng Jr, was elected national corresponding secretary.

Members of Phi Sigma Chi from the Big Seven colleges, Washburn university and Wichita university, will attend the convention.

They will be one of the first groups to use the new Student Union open two days prior to the convention. The annual conference was held at Wichita last year.

## HD Music Unit Set To Rattle Pots and Pans

Music from pots and pans and music in the deaf mute language will be the entertainment at the Farm and Home Week talent show tomorrow night in the Auditorium.

The talent show, which is to encourage greater interest in high quality music and drama for rural people, will feature four choruses from Riley, Reno, McPherson, and Sedgwick counties.

The Farmington HDU from Atchison county will present a kitchen band with all instruments made from kitchen utensils. A Dixieland musical pantomime from Sheridan county members will make up another music number.

Four members from Lincoln county will present an unusual musical number which will feature interpretation of their songs in deaf mute language.

An original play, "The Broken Heart Bureau and Marriage Councilors, Inc.," is the talent number from the Kiowa county Better Homemakers unit. The play will stress good grooming habits and nutritional values.

The K-State band, directed by Jean Hedlund, and a modern dance number by the students of Marilyn Tavares of the college faculty will round out the programs' entertainment.

The program will begin at 7 p.m., however the doors will open at 6 p.m. Tickets may be purchased at the entrance for 35 cents.

## Stater Nominated For AF Academy

Ralph I. Wareham, BPM Fr, Manhattan, is one of eight men nominated for admission to the U.S. Air Force academy at Colorado Springs, announced Representative William H. Avery.

Wareham's nomination was based mainly on his rating on a test taken through Civil Service. In March he will take entrance and physical tests to determine if he will be eligible for classes beginning in the fall of 1956.

# Kansas State Collegian

VOLUME LXII

Kansas State College, Manhattan, Kansas, Wednesday, February 8, 1956

NUMBER 78

THE VENTILATION is too good in Robert Maloney's room in the Student Hospital. The holes in the plasterboard walls also afford a fine place to throw old razor blades. Visitors are (left to right) Duane Brown, Ralph Ball, and Maloney's mother.

Collegian photo by Gary Haynes

## TV Star ...

### Winter Credits Lead To Balance, Defense

The Big Seven race is a long way from over, and K-State has far from won it, K-State basketball coach Tex Winter said on the Tex Winter Show last night.

"No one's any more surprised than I am over our showings against Colorado and Nebraska," Winter said on his TV show. "I'm so proud of our K-State ball club that I can hardly stand it."

K-State walloped Colorado, 82-51, in Ahearn Field House Saturday night, then dropped Nebraska, 66-52, at Lincoln Monday night. The two wins gave the staters a 6-1 league mark, and jumped them 1½ games ahead of second-place Iowa State.

Defensive play, scoring balance, and team spirit were cited by Winter as causes of K-State's emergence at the head of the Big Seven pack.

Despite the fact that K-State scored 53 points in the second

half against Colorado—second highest halftime total in K-State history—Winter said defense was the key to the win.

K-State limited Colorado to one shot almost every time the Buffs got the ball, he said. Defense also won the Nebraska game, since K-State didn't have a high shooting percentage, he added.

"This proves the old adage that a good defense is a good offense," Winter said. "I'm inclined to go along with the defensive school, since shooting accuracy can vary."

Winter cited the fact that all five starters scored 10 points or more in both the CU and the NU games. "This is an indication of good balance, and an indication that everyone has equal opportunity to handle the ball," he said.

This team spirit is as much responsible for K-State's sudden rise as anything, he said.

### Wages, Library, Union Discussed by Council

The Student Council met Monday to discuss the possibility of increased student wages, longer library hours, a program of events for the new Union opening, and other matters.

Eldon Johnson, TA Sr, read letters from Kansas university and other neighboring colleges regarding student wages. He also read a report from Chester Peters, placement bureau director, concerning the student wage situation at K-State.

It was recommended that some form of disciplinary action be included in the KS-KU peace pact next year and that the two new student councils of the two schools meet sometime in May to work

out revisions of the peace pact. Beverly Sargent, HEJ Sr, reported that it is financially impossible to keep the library open later. Other colleges have no more liberal hours than K-State, he said.

A letter was read from Bob McDowell, PsP Soph, resigning his position on the Council.

Mark Drake, AH Sr, reported that Dr. G. B. Marion, associate professor of dairy husbandry, will be the new faculty adviser to the Student Council.

Newton Anderson, ME Soph, moved that the bookstore committee recommendations accepted by the Student Council December 19, 1955, be forwarded to President McCain. The motion carried.

### Artist Series Date Changed to Feb. 21

The date for the appearance of pianist Seymour Lipkin on the Manhattan Artist series has been changed to Tuesday, February 21, according to Luther Leavengood, head of the music department and Artist series manager. The concert will be at 8:15 p.m. in the Auditorium. It previously was scheduled for February 27.

Lipkin, 28, started playing the piano at three, gave his first concert at four, and toured with violin virtuoso Jascha Heifetz in his teens.

Tickets for his concert are on sale in the College music office and Betton's music store, downtown Manhattan.

### Capacity Crowd as ...

## Marterie Castle Rocks 'Em

By GENIE MUNN

Charlie McFadden, baritone saxophone player for Ralph Marterie's orchestra, made a hit with the K-State audience at the Marterie concert in the Auditorium last night.

Marterie and his orchestra presented the two-hour concert under the sponsorship of the Union dance committee. Conrad Smith, chairman of the committee introduced the group.

The program consisted of twenty-one selections chosen from hit records made by the Marterie orchestra. Other songs were played at the request of members of the near capacity audience.

A favorite with the audience was "Castle Rock." At the end of a twenty minute jam session based on this melody Marterie quipped, "The recording of this song that you buy won't be that long." Several members of the band were featured as soloists on this number.

The concert was broadcast over KSDB-FM for the benefit of those who could not attend. Thomas Wayne, Sp Jr, broadcast the program.

## KS Players Pick 'Bernadine' Cast

The cast for the K-State Players winter production "Bernadine" was announced today by Earl G. Hoover, professor of speech.

Members of the cast include Baird Miller, Sp Sr, as Arthur Beaumont; Bruce Bellamy, Sp Gr, as Buford Weldy; Ann Soelter, Sp Sr, as Enid Lacey; Norman Bengtson, AEd Jr, as Leonard Carney; and Joel Banowitch, Sp, as Will McElroy.

George Hooper, PEM Soph, will act as Morgan Olson; Landon Friesen, ME Soph, as Dave Gibbs; Judy Hall, Sp Soph, as Ruth Weldy; Lou Ann Oberhelman, Sp Soph, as Selma Cantrick; Dotty Ennis, HEA Fr, as Jean Cantrick; Pete Wimsatt, EE Soph, as Marvin Griner.

The part of George Friedelhouser will be played by Charley Peak, ME 01; Sue Thompson, EE Soph, will act as Helen; and Dick Whitney, Sp Soph, as Vernon Kinswood.

The supporting cast includes: John Berry, Gen Gr; John Miller, ME Soph; Corky Hudibury, EE Fr; Gaye Lane, Sp Soph; Joyce Brower, BA Fr; Dorothy Craft, EE Jr; and Edd Bowdon, EE Jr.

The tentative dates for presentation are March 8-9.

### Registration Due For Little Royal

Registration dates for the 28th annual Little American Royal are Wednesday, Thursday, and Friday.

Registration for drawings in dairy and beef divisions will be in the basement of East Waters. Drawings will be Saturday at 1 p.m. in the Pavilion, Block and Bridge club president Don Hunt said.

### Debate Meet Draws Four K-State Teams

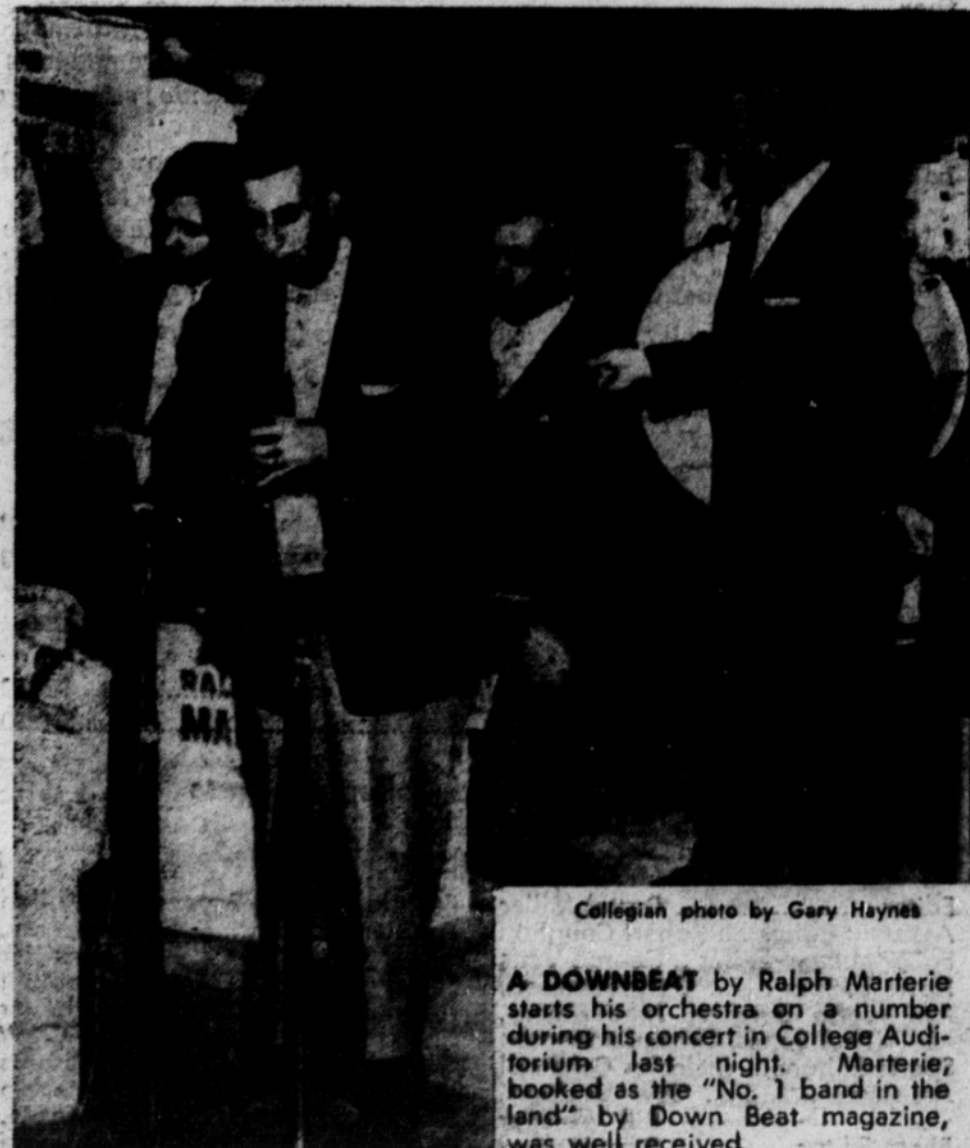

K-State will compete in the Mid-South debate tourney at Henderson State college in Arkadelphia, Ark., February 10-11, Charles Goetzinger, assistant professor of speech, said.

Four K-State teams are entered. In the men's senior division Jim Shane, Hat Soph, and Ray North, PrL Soph, will debate. Anita Grimm, TJ Soph, and Nancy Porter, Sp Soph, will represent K-State in the women's division. Larry McDonald, ME Soph, Ed McCoy, PrL Soph; and Dave Nuttle, AH Soph, and Dan Hahn, Ar 01, compose the two teams in the men's junior division.

This tournament is unique in that a team must win two out of the four rounds on Friday to be eligible to compete in the Saturday events. If one is lost Saturday, the team is eliminated.

Gerry Day, VM Sp, and Goetzinger will accompany the teams as judges when they leave Thursday morning.

Debaters from 47 schools in 12 states will compete.

Collegian photo by Gary Haynes

A DOWNBEAT by Ralph Marterie starts his orchestra on a number during his concert in College Auditorium last night. Marterie, booked as the "No. 1 band in the land" by Down Beat magazine, was well received.

# Increasing Enrollment Prompts College To Seek Ford TV Grants

Faced with providing instructors and classroom space for an enrollment expected to double within the next ten years, the College will soon apply to the Ford Foundation for \$69,000 in closed-circuit educational television grants, President McCain said yesterday.

The money, if granted, would be used to obtain a closed-circuit TV setup to aid instructors in reaching a greater number of students.

Three grants of \$23,000 each will be applied for, McCain said. Each grant will be allotted to one of three courses under Arts and Sciences that have been selected for the experiment.

The President said that two things would aid K-State in obtaining the grants.

● We have from \$35,000 to \$40,000 in TV equipment on hand.

● The staff and operational work could be handled by Prof. Forest L. Whan and the radio department.

"The experiments will run for a minimum of a year if we receive the grants," he said.

If the experiment is successful and the quality of education remains the same using TV, the College would probably take steps to obtain its own funds for permanent operation of the educational TV, McCain said.

K-State presently has one faculty member for every 13 to 14 students, A. L. Pugsley, dean of academic administration, said. This ratio must be maintained if we are to keep academic quality up to the present standard.

Some means of bringing more students under one instructor must be established, he said.

To answer this problem, a committee was established to study the possibility of requesting a research grant from the Ford Foundation which has made available to all colleges \$500,000 to be used for research in obtaining lower faculty-student ratios.

Late last year Prof. Arthur H. Brayfield and Professor Whan were appointed co-chairmen of the committee.

The \$69,000 that K-State will request is about one-seventh of the amount the Ford Foundation has made available.

The College should have an answer on the request by April 1. If the grant is approved, experiments would begin in September with fall enrollment.

Students will not be made aware of which classes will conduct the experiments before enrolling. After enrollment, the chosen classes will be divided into two groups, one receiving TV lectures and the other regular instruction.

At the end of the semester the classes will be compared. If the comparison proves favorable to the TV lectures, the system will be developed further.

\* The TV broadcasts would originate in Nichols and be carried via coaxial cable to lecture rooms in the Military Science building and Eisenhower hall.

This would allow 1 professor to lecture to 5 or 10 classes at the same time.

The TV experiments have been tried by Pennsylvania State university and proved very successful.

About 2,300 students are enrolled in various TV-instructed classes there, according to Professor Whan.

At any rate, we can hope that April Fool's day will find K-State with money for educational TV experiments.

## Comments— Wise and Otherwise

Some mighty dangerous men are enrolled in the K-State Graduate school, if a letter we received recently from an alum in Effingham is any indication.

A newspaper clipping enclosed in this letter had pictures of eight men. The heading on the clipping said, "Here they are, girls! They're leap year bait." One of the pictures was outlined in red pencil, and an accompanying note said:

"Dear Editor: This man is wanted in Atchison county by nearly all eligible old and young maids (and some who are not old or young maids). This man is enrolled in your Graduate school—warn all women to be extremely aware."

Much as we'd like to do our duty and warn K-State coeds, we just don't think it'd be sporting. Besides, our observation is that most K-State coeds can hold their own.

Things are getting mighty tough. They've been tough before (as I like to put it) but a new depth was reached this week on the cattle market.

A farmer down in Missouri sent a 2-week-old Jersey calf to market. It sold for \$1.25. The sales barn charges 60 cents for commission, 25 cents for yard fees, and 5 cents for insurance.

For a minute the farmer thought he had a neat 35-cent profit. Then the trucker handed him a \$1 bill for hauling. So he lost 65 cents.

With beef prices that low, a beefsteak should be about as easy to get as a membership in the K-State Student Union.

A pre-vet friend of mine goes with a girl who is studying restaurant management. She sometimes makes fun of him.

"One thing about those vet students," she said the other night. "They can eat their mistakes."

"Yeah," he shot back. "And I'd sure rather eat their mistakes than some of those in restaurant management."

Speaking of mistakes, I haven't seen either one of them since the night they stepped into a spot of quicksand in the student parking lot.

Monday I mentioned a provocative book titled "In One Head and Out the Other." It seems unfair to mention such a book, then leave the readers in suspense, so I'll expand your knowledge on this text explaining the science of Avoidism.

First of all, the book was written by well-known Roger Price. I guess he's well-known. I'd never heard of him, but the book says he's also author of such sparklers as "Doodles," "Oodles of Doodles," and "The Rich Sardine."

A cursory glance at the book failed to give me any information on Avoidism, but I did come across a tremendous quote by J. Taylor Dorsey that, to me, sums up everything. He said:

"The truly wise man is one who knows not and knows not that he knows not and thinks he's smarter than anybody else."

Then there was a truly wise saying by Ying Mao T'sang (an unsuccessful Chinese comedian): "Man who fall in vat of molten optical glass make spectacle of himself."

## Enrollment Trends

### Engineering To Maintain Rise; Home Ec Fall Not Permanent

The trend toward increase in enrollment in the School of Engineering is likely to continue, according to Dean M. A. Durland.

There was a 28 per cent increase in the enrollment of the school this semester. The increase was from 1,304 students enrolled last spring to 1,388 enrolled this spring.

The department of electrical engineering showed an increase of 45 per cent—the largest increase in the school. The department of architectural engineering was second in enrollment gain with 36 per cent and the department of mechanical engineering had a 25 per cent increase.

Dean Durland credited the increase in enrollment to two factors. He feels that many students enroll in engineering because of increased job openings and wage hikes.

The School of Engineering is attracting more and more students because of increased teaching facilities and better teaching methods, the Dean said.

The increased efficiency of the K-State engineering department also draws out-of-state students that increase the enrollment from year to year.

Another factor producing enrollment increases is the large proportion of returning Veterans who enroll in the Engineering school because of training along those lines received in the service.

Widespread publicity pointing up the attractiveness of a de-

gree in Engineering also influences many to enroll in Engineering, Dean Durland said.

Sixty-seven fewer students were enrolled in the school of Home Economics this spring than last fall, according to Dean Doretta Schlaphoff.

This drop in enrollment is less than many previous years in spite of the fact that more January graduates left the campus than last year.

The Sophomore class has fewer home economics students than any other class, Dean Schlaphoff said.

The Senior class has more enrollees in home economics than the spring of 1954 or 1955.

At this time several persons planning to graduate in 1956 are not enrolled on campus, but are doing home study work, or planning to finish school in the summer.

According to a summary of data collected in the fall of 1954, a similar picture of somewhat decreased enrollment in home economics has occurred at several other land grant colleges.

People in the home economics field attribute this to increased opportunities for women in many professions, increased marriage rate at an earlier age, and increased interest in preparing for work by taking less than four years of college.

One indication that the decrease in the enrollment in home economics may not be permanent is the fact that this year's freshman class at K-State is larger than that of last year.

## Wildcats Win On Cinders; Records Fall

By BILL WHISTLER

Two records were established in a quadrangular track meet in Ahearn Field House last night, which saw K-State dominate action with 79 3/4 points.

Emporia State was second with 34, Omaha third with 16 1/4, and Drake last with 1.

Billy Tidwell of Emporia State shattered Wes Santee's half-mile record for Ahearn with a time of 1:52. The old record was 1:54.3.

K-State's Joe Powell set an Ahearn high-jump record of 6 feet, 4 inches. The old record of 6-2 1/2 was held by George Helley of Colorado.

The Cats amassed eight firsts to dominate the meet. Tidwell garnered two for Emporia State in the mile and half mile, and anchored Emporia State's winning mile relay team, as Emporia grabbed three firsts.

Omaha university snared its lone first when Bob Barnes won the 440-yard dash in :51.2.

Jim Ford's groin injury in the preliminaries of the 75-yard dash hurt Drake's chances of placing higher in the meet. Ford tied Marvin Chiles' winning time of 7.7 seconds in the preliminaries.

Ford also was scheduled to compete in the 440, 880, mile relay, and broad jump.

Kansas State's standings in the meet were:

Broad jump—1. Kenny Nesmith, 22' 7 1/2"; 3. Ray Belkman, 21' 1 1/2". Shot put—1. Ralph Willard, 45' 10 3/4"; 2. Bill Carrington, 45' 3/4"; 3. Allen Muecke, 44' 9 1/2". Mile run—3. Jesse Unruh; 4. Glen Taplin.

75-yard dash—1. Marvin Chiles, :7.7; 2. Larry French.

75-yard high hurdles—1. Gene O'Connor, :9.1; 2. Gary Doupnik; 4. Mike Cornett.

440-yard dash—2. Larry French. High jump—1. Joe Powell, 6' 4"; 2. James Delker, 6' 2"; 4. Allen Hastings in four-way tie, 5' 8".

2 mile run—1. Arlen Stackley, 9:59.4; 2. Terry Turner; 4. Whitney Hicks.

880-yard dash—2. Hubert Guest; 3. Jesse Unruh.

75-yard intermediate hurdles—1. Gene O'Connor, :08.4; 3. Gary Doupnik; 4. Mike Cornett.

Mile relay—2. Kansas State. Pole vault—1. Paul Miller, 13' 7 1/4"; 2. Karl Lindenmuth in tie, 12' 6".

## Cat Gridders Win Sigma Nu Honors

Football season has been over for two months but the honors are still coming in for K-State players.

Latest honors received go to Jim Furey, Ron Nery, and Jim Rusher. All three were honored by Sigma Nu fraternity.

Furey was chosen on the Sigma Nu All-American first team, and Nery was picked on the second team. Also mentioned in the balloting was Jim Rusher.

Other players from this area that were picked were Bob Burris, Oklahoma, and Earl Lunsford, Oklahoma A&M, both on the first team.

Though he didn't win the high hurdles, it's rumored that he won a screen test from Hollywood to play the part of an octopus.

## Winter's TV Show Gives Inside Basketball Dope

K-State basketball fans get information on the team first hand every Tuesday when the Tex Winter show is presented over WIBW-TV, channel 13, at 10:15 p.m.

Winter, assisted by WIBW-TV's sports director Chuck Ennis, has presented the show during basketball season for the past 2 years.

"We discuss past and future K-State games, the technical side of basketball such as various defenses and offenses, and other things of interest to the fans," Tex said.

"Last year we stressed individual fundamentals for the younger players. Because of the late hour of the show this year, we decided that wouldn't be as interesting," he said.

Tex uses some films for illustration but relies mostly on diagrams for his explanations of the game. He has used films of some of the Cat games, and also showed

the 1954-55 K-State basketball highlights.

"I've really enjoyed doing the show," Tex said. "Although I have made several television appearances, last year was the first time I ever had a show of my own. It has been quite an experience."

Tex missed two or three shows this year because the Wildcats were playing a game. When Tex isn't available, assistant frosh coach Roger Craft, takes over.

The 30-minute program, sponsored by local business firms, will run through March 6.

"That is the date of the KU game at Lawrence," Tex said. "I might be able to make that one, although we are playing, depending on the outcome of the game," he said.

## Farm-Home Talk Cites Importance Of Family Group

Dr. Richard L. D. Morse, professor of household economics, told Farm and Home week visitors yesterday that we too often take for granted our nation's greatest source of strength—a sound American family and home.

Family life is so much a part of us that we accept it too casually; we studied pigs long before we gave as much serious study to children, Morse said. Only in the last census were families defined so that careful study of family life in America was possible, Morse added.

Morse listed five basic functions of the family: Perpetuation of the race, economic support of the children, a satisfying home life, preparation of the child for adult self-discipline, and making the family serve as a buffer for each individual.

# Antarctic Rescue Plane Crash-Lands in Jungle

WASHINGTON (U.P.)—A navy patrol bomber enroute to Antarctica on a mercy mission has crashed in the Venezuelan jungles.

The twin-engine bomber crash-landed after reporting engine trouble. An air-sea search started at dawn from Trinidad. The plane was believed down in a jungle clearing, the spokesman said.

The bomber left for Antarctica in search of a small plane missing, with seven aboard, since Friday.

## Racial Showdown at AU

TUSCALOOSA, ALA.—The University of Alabama today headed for a showdown in the controversy raging around the exclusion of its first Negro student.

University authorities refused to budge from the stand that Autherine Lucy, the student, was barred from classes in a move to prevent further violence that might cause injury to students,

faculty, and the woman herself.

But Arthur Shores, Lucy's attorney, warned yesterday that she must be permitted to return to classes or he will ask that the board of trustees be cited for contempt of court for authorizing her exclusion.

## President Hopes

# Hospital Funds In 57-58 Budget

By FAITH McCONNELL

An appropriation for K-State's proposed Student Health center will probably be included in the College's 1957-58 budget, according to President McCain.

In that fiscal year, funds from the state's Educational Building Fund will be available to pay for constructing the new clinic. The new hospital has been at the top of K-State's list of building requirements for some time, McCain said.

A certain amount of money is allotted to K-State each year from the building fund. No special appropriation will be needed to provide building funds if the college has this money, McCain said.

The Educational Building Fund comes from a state ad valorem tax levy that accumulates about \$6 million every two years. K-State receives about one-third of this, or about \$2 million every 2 years. About \$350 thousand would be required to construct the new health center.

The state Board of Health has not made a decision regarding operation of the present health center since it has been condemned. It is possible that the Board will delay its decision for a full year. This would allow K-State's Health center to operate, although its facilities have been condemned as inadequate, McCain said.

Designing and planning for the new building will begin soon, since approval by the Legislature is practically assured, McCain said.

## Can't Handle Epidemic At Hospital, Lafene Says

By LANCE GILMORE

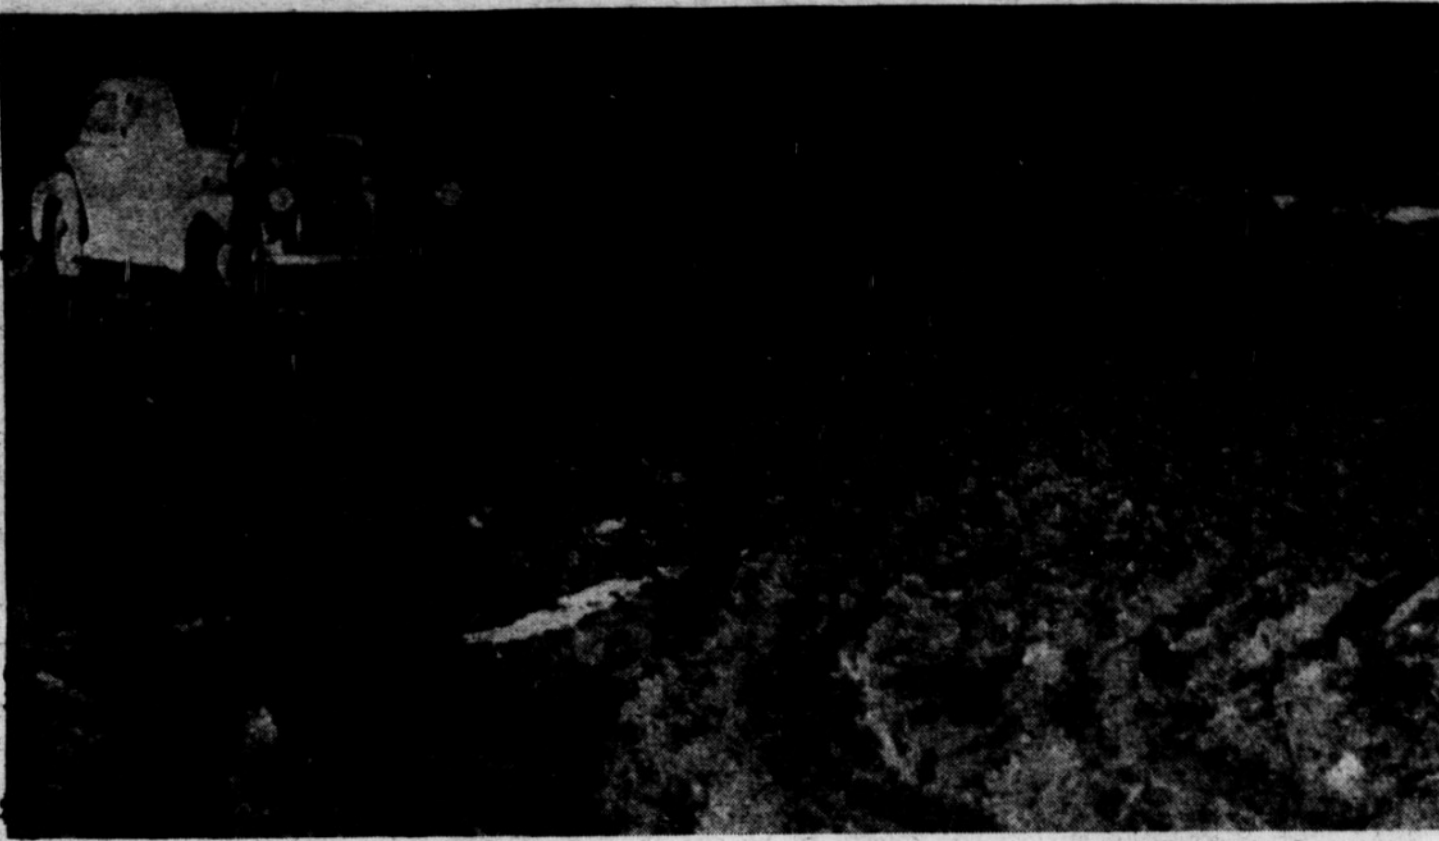

It is doubtful if Riley County hospital could be used in case of an overload of patients if an epidemic hit K-State, according to Dr. Benjamin Lafene, director of Student Health.

"If we had an epidemic, the county hospital probably would be having the same trouble with townspeople," Doctor Lafene said. "If the epidemic was of the mump, measles, or chickenpox variety, it is doubtful if that hospital would take such cases."

"The doctors there feel that these contagion cases shouldn't be mixed in with surgical cases. They feel that such minor diseases should be handled in a separate isolated hospital," he said.

"By 1958, Riley County hospital expects to be using its full bed space," Lafene said. "One more reason that would make the big hospital an unlikely relief for a medical problem at K-State is that fees there probably would be, at a minimum, \$9 for one day."

"Just what we would do at K-State in an emergency, I don't know," he went on. "It is virtually out of the question to repair the old building, and we have no funds for a new one." (See Page 2 for more details on the epidemic situation.)

Collegian photo by Gary Haynes

**STUCK IN THE MUCK**—This student didn't go home until late last night. He parked in the parking lot directly south of the Union, came out of class at 5, and his car wouldn't budge from the sludge. After 20 minutes work, it was deeper, but was no closer to the exit. He could be seen last night waiting for the mud to freeze.

## RCC Questions Policy Governing Union Use

By ESTALEE VAN SICKLE

Should religious groups be barred from using the K-State Union? The present Union policy says so, but the campus religious groups do not agree.

Recently a letter of protest was sent to President McCain which had been written by Gordon Grosh and unanimously adopted and endorsed by the Religious Coordinating council.

In the letter the endorsers said they believe the present policy is an oversight on the part of policy makers.

Under fire is the section which says "any religious organization

may schedule facilities of the K-State Union for either business or social meetings. However, those holding worship meetings, study groups, or other sectarian activities should make arrangements for the use of other facilities, such as the College chapel."

The letter to the President requests that this policy be changed and read "any religious organization may schedule the facilities of the K-State Union for business, social, or educational meetings. However, holders of worship services, prayer meetings, and assemblies which may suitably utilize the

College Chapel will be encouraged to do so."

Grosh and the council believe that part of the present policy was set up on the belief that the Chapel would be suitable for all religious meetings, and that there are more meeting facilities for religious groups than actually exist.

The council contends that the Chapel is not a suitable place for all their meetings. The policy for the Chapel states that its purpose is "for programs and activities which contribute to the spiritual and cultural guidance of man."

Almost 80 per cent of the religious meetings are either informal, spontaneous gatherings or small study groups. For this type of meeting they feel they should have another place to go.

At present there is no place for the majority of the religious groups of this nature to meet. Only 6 of the 18 groups have such meeting facilities. Therefore other places must be found—but where?

President McCain has indicated in a reply to Grosh's letter that the present policy for the Union will be tried for a period of time and that if it does not seem to work, will be changed.

## McCain Says

# Research and Extension Need Farmers' Support

"Kansas farmers should rally as never before to the support of agricultural research and extension," President McCain told the general assembly of the 88th annual Farm and Home Week yesterday afternoon.

McCain said that the future of these programs is in jeopardy because of inadequate understanding of their importance, and because of indiscriminate efforts to hold down taxes.

He said that farmers are appreciative of the value of research and extension but the general public must be educated as to their value. He said that emphasis should be given to four of the more compelling reasons for increased support.

First, research is the most effective means for solving the economic problems created by crop surpluses," McCain said.

In addition to increasing agricultural production, research projects hold promise of increasing consumption, he said.

"Secondly, most of the easy agricultural problems have been solved," he said. The remaining problems require "task forces" of agricultural scientists from several specialized fields to give the farmer the best solutions possible.

The third reason for educating the public is that agriculture, unlike industry, must rely upon governmental support for research services, McCain said.

"Finally, the benefits of agricultural research and extension to the non-farm population more than justify adequate tax support," he said.

Collegian photo by Gary Haynes

**FOUR MEMBERS** of the Farmington kitchen band "tune up" before playing a concert in the College auditorium last night. The women, who make music from curtain rods, funnels, meat grinders, and pan lids, have appeared several times on television. The "concert" last night was a part of the 88th annual Farm and Home Week held here this week.

# Student Health Would Use Dorms if Epidemic Occurs

If an epidemic should occur on the campus, such as the College usually experiences every two or three years, Student Health would be forced to hospitalize some of its patients in the dormitories, Dr. B. W. Lafene said yesterday.

"Student Health is completely inadequate in its number of beds. Even when enrollment was at a low ebb after World War II we sometimes kept patients in beds in the halls when there was no epidemic," he said.

The building is in worse shape now than it was in those times, Dr. Lafene said.

"The floors are either disintegrated or disintegrating. The worst part of it is, there is no future in trying to repair the building," he said.

## Repairs Not Answer

The Doctor expressed doubt that repairs are the answer to even a temporary relief from the unhealthy condition that now exists.

"Each time we repair something it goes to pieces faster than before," he said.

Dr. Lafene pointed out an examination table in his office and explained that nearly by smears and blotches on the wall were from patients' feet.

"I have no other place to put the table but here and patients must lie with their feet against the wall," he said.

Not long ago the State hospital division facilities condemned Student Health as being a fire hazard and too difficult to maintain sanitary conditions. The rooms were said not to measure up to the American hospital standards.

## Epidemic Is Overdue

"We expect epidemics periodically," Dr. Lafene said. "It now has been longer than usual since we have had one. The last epidemic of major proportions was an

# Weather Balloons Bring Red Protest

By HARRY MACHIN JR.

Soviet Russia seems worried over the anti-communist propaganda which is getting through its "iron" curtain.

A formal note of "determined protest," which the Soviet government sent to Washington over the weekend, mentioned big balloons, equipped with photographic and radio devices, which are landing in communist territory.

In the weekend note, "legitimate" complaint specifically was directed against "United States military organs" as the source of the balloons.

The U.S. advised Russia yesterday that it will seek to avoid launching weather balloons which might cross Russian territory in an answer to the Soviet protest note.

A note delivered by the U.S. embassy at Moscow to the Soviet foreign ministry nevertheless, appealed to the Soviets to co-operate with the weather survey program by returning balloon-carried instruments which may come down in Russian territory.

# Study of Professors Unveils Some Real Strange Critters

By Ann Weathers

By now, you all ought to have a fair idea of what miseries you will be subjected to in your various courses and to what degree.

If not, these studies from the Oklahoma Daily of that strange and unfortunately not too rare critter known as the professor may help with your predictions.

One of the most common types is the prof who strolls in, glances around the full classroom and promptly announces that this section is certainly overcrowded and the enrollment ought to be cut in

half. The student is generally all too willing to agree, but the class is required.

The prof knows this, and proceeds to outline a preposterous list of assignments which will be "minimum requirements," at least three to be completed by next class meeting, casually dropping hints along the way that it will be exceptionally easy to drop this particular course and why don't you, huh?

Then there is his fellow hat-mate, the professor who begins lecturing with the comment:

"This is a senior level course. We expect only seniors to be in the class and the work to be of correspondingly high caliber."

As you and your fellow freshmen stare at each other, you remember your adviser's insistence that you take this particular course immediately and his refusal—to allow you to put it off even one more semester.

The ideal prof holds the class only long enough the first day to check roll, explain the quiz schedule and grading basis, and conclude that he hopes he hasn't kept you too long and you aren't late for coffee, suggesting subtly that the best way to guarantee an "A" is to invite him along.

Such is life . . .

The University of Colorado is desperately trying to railroad a non-discriminatory clause through to its social sororities and fraternities.

Thirteen of the 33 Greek organizations without discriminatory clauses have admitted that they select members "on the basis of race or religion."

Although the Greeks have all shown willingness to let down racial and religious barriers this year, the college president is trying to push through a "get tough" proposal whereby the Greek group violating the non-discrimination clause would be refused permission to pledge new members for a year—almost enough to force abandonment of the chapter.

Seems like a lot of stewing over nothing. A person can always be turned down on the basis of how he combs his hair, without even mentioning what might be the real reason.

It just had to happen someday—and now it has! A Texas coed finally had to resort to a moving van to transfer her wardrobe from one college residence to another. And it only cost her six dollars.

One student's curiosity got the better of him at the University of Illinois. An employee of the student union, he became fascinated by a new-fangled dishwasher recently installed—a conveyor-belt affair that sends dishes through 24 feet of soaping and rinsing.

He figured, quite astutely, that if dishes could be washed thereby, why not humans?

Since the water was turned off, he began a dry test run, climbing up and stretching out on one end of the conveyor belt.

He rode along the belt through the various compartments and as he sailed out the other end, he was "greeted" by a supervisor who happened to be passing by. Result—no job.

Wonder how many other modern Curies and Columbuses have been squelched by the unfaithful few?

# Reasoning Behind Setting Limit On Bill To Kansas U Could Endanger Campus

If the reasoning now being used in preparing a bill of damages for last fall's KU pranks on campus were carried to the extreme, the K-State campus could be in danger.

It was announced at Monday night's Student Council meeting that K-State's bill for damages was not to exceed the amount of a similar KU bill. The dean of students and the physical plant are computing the cost of repair of the K-State football field, and the cost of removal of "KU" signs painted on campus.

This doesn't take into account the mental anguish suffered by Touch-down IV while she was in the hands of KU students. Nor does it take into account the anxious hours she spent hidden in a hole on the Hawk campus. Such things are intangible, but nevertheless are important. To show how shook she was, all she could say for three days was, "What's par for this course?"

We can see two dangers in limiting the K-State bill to the total of the KU bill.

First, if the two bills are going to practically cancel each other, both schools could be wrecked without either KU or K-State being charged more than \$100 or \$200. The students of the two schools could get together and coordinate damage, so that neither school would go too deeply in debt. Perhaps a referee would be necessary—preferably a certified public accountant.

The second danger would be more subtle. KU students could wait until K-Staters had done a measly \$300 or \$400 damage, then arrive on the K-State campus at the last minute with bulldozers and similar paraphernalia and wreck our campus. Since we couldn't charge more than \$400, we might go in debt a little.

Possibly the best solution would be a student fee to be put into a KU-K-State Football Prank Week fund at each school. Thus the students would have a certain amount of credit to use up during the week, then would stop when the money was gone.

If all of this failed, the students caught defacing either campus could be chastised, jailed, fined, and kicked out of school.—Darrel Miller.

# Lets Jazz It Up at Pep Rally

K-Staters who are getting hepped up about the Wildcats' chances of winning the Big Seven title can display their exuberance at a pep rally planned for tonight.

As things shape up, a win in the upcoming game at Colorado Saturday could be a big step toward cinching the title. A win would boost the Cats to a 7-1 league mark, with their next three games in Ahearn Field House. A K-State win would give Colorado its third league loss.

All of which makes tonight's pep rally a must. Coach Tex Winter and team members will attend the rally in Ahearn Field House, and a pep band will be on hand, Marylyn McCreedy, Purple Pepsters' president, said.

K-Staters who have been complaining about a lack of pep rallies can attend and shout up a storm.—Darrel Miller.

KANSAS STATE COLLEGIAN

Collegian photos by Gary Haynes

ENGINEERING ART includes charcoal drawings from models and plaster busts (above). Darrel Grove, an architecture major, receives help from an instructor with a drawing he is making of the figure in the foreground.

CLAY BEATERS Mary Faye Frazier, HEA Soph; Jo Ann Wittenberg, ARG Fr; Ilse Reiling, Hum Soph; Margaret Regnier, AT Fr; and Joyce Knepper, HEA Soph (pictured at right) prepare materials for their pottery-design class in the home economics art curriculum. Looks easy, they admit, but they claim it will be harder when they actually get started.

Two fish peer suspiciously from their aquarium home in Fairchild.

## Everyone Has Creative Ability

By ROSELYN KIRK

"EVERYONE HAS some creative ability," Elmer Tomasch—professor in the engineering art curriculum—observed optimistically. "Some students who take art classes just for fun, surprise themselves."

Tomasch's observation sums up the attitude of the engineering art school in which less than half of the students are "straight art majors." This "mixture" of students, according to Tomasch, is drawn from architecture, landscape, and engineering fields, in addition to those who just drift in "for the fun" of it.

"Fundamentals of drawing start with the simple and develop into the complex," and the six basic freehand drawing classes always are well-filled, Tomasch said. Mrs. Joan Hahn, freehand-drawing teacher, added that classrooms are "informal," but that students "work hard" on their charcoal sketches.

ONCE THE "SIMPLE requirement is filled," the aspiring artist progresses to the more "complex" classes which include pen and ink sketching, oil painting, water color, and finally pictorial composition.

In abstract art—an offshoot of pictorial composition—young artists learn to express themselves through "painting pleasing arrangements with shapes and circles," Tomasch said.

Both instructors admitted that grading is "difficult" since, as Tomasch put it, "a sketch can be neither right nor wrong." Mrs. Hahn added that the "grading by jury" system is particularly rough. Here student masterpieces are "hung" and a board of instructors judge, and "record the grade for all to see."

## Fish Collection Has Fighter

By CAROL WARD

A SIAMESE fighting fish used in the Orient for commercial fish fights is among the occupants of the tropical fish aquariums in the Fairchild museum.

The aquariums, which were first stocked three years ago by Leonard Dewhirst, instructor in zoology, now contain 25 fish, mostly of different varieties. Mr. Dewhirst and Wendell Minckley, Zoo Sr, share in their care.

Most of the fish are purchased from local pet shops, Mr. Dewhirst said.

A constant water temperature of about 75° F and the correct proportion of plants and fishes to provide oxygen balance are important aspects in their care.

"ALTHOUGH THE display was originally put into the museum to add color and live specimens, it has proved of interest to local amateur fish hobbyists," Dewhirst said.

Charts and explanations about the fish are posted for added information.

The display contains the three general kinds of tropical fish, egg layers, those which give birth to live young, and those which make bubble nests on the surface of the water.

Dewhirst added that many varieties of fish will eat their own young if they are not separated from them.

## Loop Crown Within Reach With Win at Colorado U

"We may not have sacked up the Big Seven crown with our win over Nebraska Monday, but I feel we're in for sure if we beat Colorado Saturday," Fritz Schneider, Wildcat forward, said today.

"We've either got to beat CU or Iowa State; so if we take the Buffs we can even drop the I-State game and still come out ahead," Schneider said.

Fritz, a PEM Jr from Crystal Lake, Ill., has sparked the Wildcat hoopsters' latest winning streak of 9 out of the last 10 games. Winning is nothing new to Fritz, for while at Crystal Lake Community high he captained two championship basketball teams (1951-52) and a league championship football team (1952).

Schneider has scored at an average of 15.6 points a game against K-State's last five opponents. He tossed in 16 against KU, 21 against MU, 14 against OU, 17 against CU, and 10 at Lincoln Monday.

This 21-year-old, six-foot-three hardwood ace came here from Marquette in 1953 with teammate, Pachin Vicens, at the request of Wildcat mentor Tex Winter. Winter had coached Schneider and Vicens as freshmen at Marquette.

When asked about next year, Schneider said he planned to marry Karen Ross in July. Karen graduated from K-State in January and is now teaching elementary school in Kansas City, Mo.

"Since Pachin and I were ruled ineligible for Big Seven competition next year, I plan to try for a job as an assistant coach while attending college," Schneider said.

After Fritz graduates in the spring of 1957, he plans to use his AFROTC commission and become a jet pilot. "If I like jet jockeying well enough, I may make a career out of it; if not, I'll go into the coaching field," Schneider said.

## Connie Mack Dies at 93

Philadelphia (U.P.)—A nation of baseball fans, from President Eisenhower to the spectators who once cheered the world champion Philadelphia Athletics, today mourned the passing of Connie Mack.

Mack, 93, whose baseball fortunes plummeted from the dizzy heights of World Series victory 25 years ago, to the depths of despair when his beloved club was sold 15 months ago, died quietly at the home of a daughter in Philadelphia yesterday.

## KU Baseballers Start Indoor Drills

Lawrence (U.P.)—University of Kansas athletes began preparing for the 1956 baseball campaign yesterday.

Nine lettermen took part in the indoor exercises. Wichita senior Bob Conn became captain of the varsity nine.

Rockhurst of Kansas City will oppose KU in its season-opener in a Lawrence game April 14.

Read Collegian Want Ads.

## Top Matman Says Team Has Balance

"This season's K-State wrestling squad is the best balanced club I've seen since I've been here," says Bob Mancuso, K-State's lone undefeated wrestler this season.

In his fourth year on the varsity, K-State's wrestling captain has won four and gained a draw in five matches this season.

Bob, who hails from Omaha, went on to say that "this year K-State is going to fool a lot of people and win some championships in the Big Seven tourney."

One of the championships, in the 130-137 pound class, could fall into the hands of the Wildcats, for that's Bob's weight class. Bob has taken second place in his class twice at the Big Seven tourney.

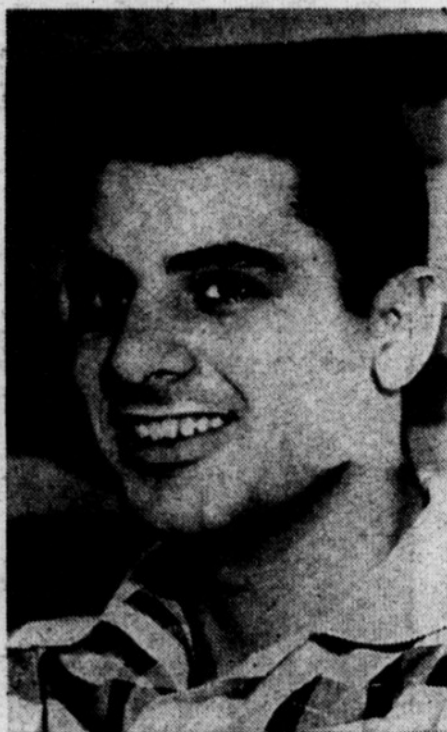

In four years as a varsity wrestler, Bob has lost only five matches in dual meets. Twice he has gone into the NCAA semifinals. He also has been high-point man and "outstanding wrestler of the season."

To win and become a good wrestler, Mancuso says "you must have an intense desire to win, and you must like to wrestle."

Bob's winning ways started in his high school days at Central High in Omaha. In high school he carried off the city, state, Missouri Valley, and junior national AAU championships.

Bob now is working on a master's degree in physical education. His ambition is to be a college wrestling coach.

"K-State's wrestling program is improving every year. With this trend we ought to be in the top ranks of wrestling in the nation before too long," Bob said.

## Cat Thinclads After 3rd Win At MS Relays

K-State's track team will mingle with the mighty Saturday when it journeys to the Michigan State Relays at East Lansing, Mich.

Several of the Big Ten schools are scheduled to be on hand plus the University of Kansas from the Big Seven.

The Wildcats edged Nebraska by five points in a dual meet February 4 at Lincoln and won the home quadrangular Tuesday beating Emporia State, Omaha university, and Drake university.

K-State's perennially strong mile-relay team took a whipping from Emporia State when Marvin Chiles, K-State senior anchor man, pulled a leg muscle early in the action of Tuesday's meet to keep him from running. Emporia ran the distance in 3:25.5 as Billy Tidwell, Hornet star, anchored with a 49.1 quarter.

Joe Powell, 6-7 Wildcat cager, cleared the 6-4 mark for a new record in the high jump at Ahearn Field House.

Wildcats making the Michigan trip are Paul Miller, Gary Doupnik, Ray Russell, Marvin Chiles, Mike Cornett, and Gene O'Connor. A shuttle-hurdle relay, run by Cornett, Doupnik, Russell, and O'Connor, might get the K-State team a first place.

K-State will play host to Colorado and Iowa State February 17 in the fifth annual triangular meet of the three Big Seven schools. The Wildcats have won the meet for three consecutive years before losing to Colorado in 1954.

Last season K-State got back into the win column in a tightly contested affair with only 8½ points separating the three teams. The Wildcats compiled 48½; Iowa State 40½ and Colorado U. 40.

## Wrestlers To I-State, Will Face 15-Year Jinx

Wildcat grapplers will attempt to break a 15-year winless drought when they travel to Ames, Iowa, today. They will be trying for their first win over the Iowa State matmen since 1940.

"The flu bug has hit us for the past two weeks, leaving us weak in spots," coach Knorr said. "Mancuso has missed two practices this week because of sickness and may not be able to make the trip. Rainsberger is just now getting back in shape after a touch of the flu.

"Our biggest drawback is that we don't have the depth that the Cyclones boast," Knorr said he does have depth in his freshman grapplers, but can't use them in Big Seven competition.

The Wildcats stand 4-1 for the season with wins over Cornell College (24-5), Minnesota U. (17-13), Colorado State (17-9), and Nebraska (24-10) against a single loss (2-29) to Oklahoma. The record with I-State to date is 17-4-1.

The Cats mat classes with season records in parenthesis is 130-pound, Bob Mancuso (4-0-1); 137-pound, Marvin Everist (0-2); 167-pound, Ray Glaze (3-1); 177-pound, Gary Haller (4-1); and heavyweight, Ellis Rainsberger

(3-2). The Cats are still minus a 123-pound competitor.

Kyle Mines will probably be out with a shoulder separation for another two weeks; so Calvin Schwalbe will fill the 130-pound position. Knorr says James Linnell, who was injured in the Minnesota match, will be back in the lineup in another two weeks.

Knorr said the Cats will leave at 3 p.m. today after a short workout. They will travel by car.

**WAREHAM**

TWO NEWS ITEMS from the Salt Lake City Deseret News and Telegram may be of interest to K-Staters.

The first is that Bob Rousey, former Cat, may be added to Jack Gardner's coaching staff. Bob visited with Jack when the Utes played at Colorado A&M and the speculation soon had him named to the job.

If Bob does go to Utah he would be joining teammate Dick Knostman, all-American in 1952, who is taking graduate work in geology and helping coach the Redskin frosh.

IF ROUSEY is as good a coach as he was a player he should make a good one. No little man ever had more drive, desire, and all-around ability.

Bob's father-in-law, Nate Harwood, member of the K-State athletic council and mayor of Manhattan, accompanied Bob and talked to Gardner. This set Utah sports columnists to speculating on the fact that Jack might be considered for the athletic directorship here.

This speculation takes on more importance with the information that a petition is being circulated in downtown Manhattan to bring Gardner back to the campus in the director's role.

WHILE GARDNER probably would be a good director of athletics, I doubt that this is the place for him to start out.

The controversy over his leaving has left a bad taste in the mouth of many, both in the department and downtown. I would imagine that the strife between Gardner and Moon Mullins would erupt again with different personalities.

The Deseret News and Telegram in the same issue adds another name to the growing list of possibilities for Mullins' post. Red Jacoby, dynamic director at Wyoming, was reportedly contacted about the job but has denied it.

The name most strongly mentioned for the post this week has been that of "Bebe" Lee, Colorado basketball coach.

Bebe has denied that he knows anything about the offer or has any inclination toward it. Right or wrong, Bebe would be one of the better men for the job.

### Foul Baiting

PHOG ALLEN took films of the first KU-Iowa State game with him to Ames last week to illustrate his claim that Gary Thompson is a "foul baiter."

The good doctor failed in his effort because the Iowa State officials would make no comment on the matter. He did point up a fact, however, that this "foul baiting" does occur.

The Cats will be up against one of the masters of this art Saturday at Boulder. Witnesses at the Cat-Buff game here are in accord that Jim Ranglos is such a master, although Thompson is more subtle.

## Baseballers Working Out In Ahearn

K-State's varsity baseball team commenced spring practice last week in Ahearn fieldhouse.

Varsity players reporting to Ray Wauthier, baseball coach, were Jim Rhodes, PEW Sr.; Ron Bergren, AH Jr.; and Bill Sinderson, ChE Jr., returnees from last year's pitching staff.

Shortstop Leon Hoyt, Ag Sr.; and outfielders Jack Smith, BA Sr.; Bob Boyd, TJ Jr.; and Dick Coupe, Agr Sr., also reported back.

"Our first two weeks of indoor practice will cover the conditioning phase," Wauthier said.

Last season the Cats tied KU for the league cellar, with a 2-10 conference record. Their two wins were at the expense of Colorado, 3-2, and KU, 9-7.

These two league wins, plus a pair of victories over Wichita in a season-opening double-header, were the only bright spots of the K-State season.

The Cats overall record was 4 wins and 11 losses.

Lefty Jim Rhoades was the top moundsman for the Cats last year. Rhoades compiled a 2-3 won-lost record in Big Seven play.

The team will be minus its top star in catcher Larry Hartshorn. Hartshorn hit .307 in Big Seven games to rank twelfth in the league.

Other top players not returning are Bob Whitehead, Jim Pollom, and Steve Hennessey.

### Places Available In IM Volleyball

There is room for several more entries in the independent division of the volleyball tournaments, according to Frank Myers, director of intramurals.

Entry blanks for the table tennis tournaments are due by tomorrow, Myers said.

The table tennis tournaments are tentatively scheduled for February 13, 14, and 16.

## KS-KU Swim Meet To Be Close—Thrall

The K-State swimming club should be able to hold its own against the University of Kansas in a dual swimming meet scheduled at Lawrence Saturday, coach Bill Thrall said.

K-State as yet doesn't have a varsity swimming team, but has organized a swimming club in the hope that the athletic council will deem swimming a varsity sport, Thrall said.

If swimming does become a varsity sport, we will apply to the Big Seven for entrance into the league, Thrall continued.

Regarding the upcoming meet with KU, Thrall said that if the boys come through as they are capable of doing, the meet could be decided by the last event, the

440-yard relay. That event is rated as a tossup, Thrall added.

This will be the third swimming meet that the club has participated in this season. K-State has beaten Hutchinson naval air station, 46-38, and has tied Nebraska, 42-42. Kansas has a 1-1 record for the season, winning over Nebraska by a close margin and losing to Colorado university.

### Yeagley-Wary

The marriage of Connie Yeagley, Salina, to Ted Wary, AA Jr, took place February 4 at Sacred Heart cathedral in Salina.

♦ ♦ ♦ ♦

### Moss-Adelgren

Treva Moss, HT Sr, Atlanta, and Kermit Adelgren, TA Sr, Chautauque, member of the 1834 Club, were married February 1 in Atlanta.

## Shape of Face Sets Hat Styles—Craigie

The shape of the face determines the most becoming woman's hat styles, Barbara Craigie, instructor in art, said in a Farm and Home Week talk.

"Most new high-style hats are for women with oval, pear-shaped, or long-narrow faces," Miss Craigie said.

"The new cakebox hat topped with white tulle and a pink rose, or the nearly washbasket-size hat 2 feet across and 6 inches wide just can't be worn by women with square or round faces."

Basic rules for choosing hat styles were explained by Miss Craigie. Hats for square or round faces should cut the forehead with a diagonal line, perhaps with a little height added in

decoration, Miss Craigie said.

A narrow hat, perhaps with a pixie crown, is good for a heart-shaped face, she said. Width above the ears flatters oval and pear-shaped faces. Flat, wide hats are good for long, narrow faces.

# Phys Ed Classes, Leagues Eager To Start Bowling

By JUDY WILLIAMS

Bowling, a new course this semester, is one of the most popular classes in women's physical education, Prof. Katherine Geyer, head of the department, said.

The class, scheduled for the new Student Union bowling alleys, is one of the most expensive offered, but this hasn't stopped students from enrolling in it.

Girls desiring to enroll in the

bowling class may still do so.

There are about 15 openings in the beginning and advanced classes held at 1 p.m. on Tuesdays and Thursdays.

Coeds also like tennis, and rhythm work such as modern and social dancing. TV has revived interest in tap dancing, Professor Geyer said.

"The college girl today likes to learn an activity she can enjoy after her college days are com-

pleted. For that reason she has turned to individual and couple sports," Professor Geyer said.

Least popular this semester are classes such as those in team sports such as basketball. Several years ago the opposite was true, she said.

Swimming classes never are too popular second semester. The girls take one look at the weather, and decide it's just too cold. Enrollment in the warm days of fall usually brings a lot more girls into the class," she pointed out.

Social dancing is popular among the men taking physical education, Professor Geyer said with a smile. "In fact we have a pretty long waiting list right now."

You'll be pleased with a Collegian want ad.

## Klub Kolumn

# Clubs Busy Choosing New Officers, Pledges

### Block and Bridle Initiation

Spring initiation of the Block and Bridle club will begin next week, according to Don Hunt, club president. All students interested in joining are asked to meet in WA 47 at 4:00 p.m. Monday. Membership is open to any students, including women, who are interested in the livestock industry.

### Grad Students' Association

Officers of the Graduate Students' association for second semester are Harrison McGregor, president; James Craig, vice-president; Mary Overfield, treasurer; Martha Garret, corresponding secretary; Imelda Wasinger, program chairman; and Ann Sullivan, social chairman.

### K-State Veterans

Members of the K-State Veterans' organization have volunteered to donate blood to Manhattan hospitals at any time the need arises. A list of names and blood types will be submitted to St. Mary and Riley County hospitals in the near future.

The organization will clean up "top of the world" at Washington park February 18 if the weather is favorable, Pres. Calvin Glenn, PrV Soph, said.

New members of the club's executive council are Ron King, CE Jr; Charles Hanson, ME Fr; Tom Lally, CE Fr; Marvin Wehrman, CE Soph; Dale Steffes, ME Jr; Ronald Gerleman, Zoo Fr; and Charles Graham, CE Soph.

### Conservation Club

The K-State Conservation club

will meet this evening at 7:30 in F 102. Election of officers for the spring semester will follow a short program.

### Dietetics-Commercial Demonstration Club

Betty Brammell Tointon, '55 grad, will tell of her experiences with the State Agricultural Marketing administration at a Dietetics and Commercial Demonstration club meeting Thursday at 4 p.m. in Thompson hall dining room.

Foreign foods prepared by faculty members will be featured at the Dietetics and Commercial Demonstration club dinner at 5:30 p.m. February 13. The dinner will be held at the home of Bessie West, professor of institutional management, 815 Sunset.

### Mortar Board

Mortar Board will meet Thursday at 7 p.m. at the home of Mrs. H. Dean Umberger, 1412 Leavenworth. Plans for tapping and initiation will be made, according to President Jan Boster, DIM Sr.

### IOHC Mixer

The Independent Organized House Council will sponsor a mixer Friday, February 10, in Rec center at 8 p.m. The mixer is with Northwest, Southeast, and Van Zile dormitories and the independent organized houses.

### Graduate Students' Association

A Valentine's party for graduate students will be held February 14 at 8 p.m. in the temporary student union. Guests are welcome.

### Electrical Engineers Meet

A meeting of all electrical engineers is scheduled Thursday at 4 p.m. in the auditorium. Election of officers for American Institute of Electrical Engineers will be held and open house will be discussed. Candidates for St. Pat and St. Patricia will also be chosen.

### Steel Ring

Steel Ring will meet Thursday at 5 p.m. in Seaton 238 for election of officers.

# Coed Once Was State's Youngest Female Pilot

Solo flying is old stuff for Jane Moore, TJ Sr, from Scott City.

At 17, Jane obtained her private pilot license and then was the youngest licensed pilot in Kansas. She since has found that it is "quite handy" to be able to fly to school and back.

"My father got me interested in flying when I was young because he had a plane and did a lot of flying himself," Jane said. "It just was understood that when my brother and I

became 16 we would learn to fly."

Jane started taking lessons at the Scott City airport on her 16th birthday. She got her student license two weeks later. On her 17th birthday, Jane became eligible for her private license by passing a written test. It also was necessary that she have 60 hours of solo flight, and 12 hours of cross-country flight.

"I never have been as scared as I was that morning," Jane said. "I got up bright and early and hurried to the airport to take the test. That was a most eventful day for me, and one that I'll never forget."

After she passed her final test her father bought her a lightweight, two-passenger plane. Jane sold it before coming to school, and now flies her father's plane.

"About the only thing I have time to do anymore is to fly home and back," Jane said. "However, when I'm home on vacation I do find a little time to fly for pleasure."

## Deadline for RP Pics Of New Students Soon

New student wanting their pictures in the Royal Purple should buy photo receipts in K 103A by February 10, according to Sam Logan, RP editor.

The student should then make an appointment at the Studio Royal to have his picture taken, Logan said.

## Bowling Begins in New Union

Collegian photo by Gary Haynes

**SHE HOPES TO HEAR A PIN DROP**—Mickey Ecord, PEW Sr, bowls a potential strike with the help of Alice Becker, instructor, during one of the first bowling classes to be held in the new Union yesterday. Other class members (behind) wait their turn to try their luck.

## 'Work, Life, Bernardine' To Be Lift Week Theme

By GENIE MUNN

LIFT week, a campus-wide religious emphasis week, will be March 4 to 11, according to Warren Rempel, YMCA executive director.

The theme for LIFT week is "Your Work—Your Life and Bernardine." It is based on the idea of vocations, and ties in with the play "Bernardine," which, although not a religious play, has a direct bearing on religion, Mr. Rempel said.

Eight guest speakers representing different religious organizations will come to the campus to participate in the activities. They are Rabbi Louis Cashdan, Hillel; Mr. T. Boering Woodbury, Latter Day Saints; Dr. Clifford Lewis, Kansas State Christian Fellowship; College Baptist, United Presbyterian; Father Richard J. Smith, Newman.

The Rev. Raymond P. Jennings, Roger Williams, Westminster Fellowship; The Rev. James Christiansen, Wesley, Disciple Student Fellowship; The Rev. W. J. Fields, Lutheran Student association, Gamma Delta; and Mr. Benjamin J. Sage, Christian Science organization.

The speakers will be available for class room discussions throughout the week and will come to the class at the request of the instructor or students.

They will also conduct fireside meetings at the organized houses on March 5, 6, and 7.

Recreation center in Anderson hall will be headquarters for the seminars, panel discussions, and

other sessions the speakers will lead every afternoon from 1 p.m. to 4 p.m. The sessions will enable the students to get acquainted with the speakers, Mr. Rempel said.

Dr. Louis Hadley Evans will be the guest speaker at the assembly Monday morning, March 5. Dr. Evans was picked by Life magazine as one of ten outstanding ministers in the United States. He is pastor of the First Presbyterian church in Hollywood, Calif.

Other activities include evening meetings for the YMCA and WCA, Kansas State Christian Fellowship, Independent Student association, and a joint meeting of Westminster Foundation and Roger Williams Fellowship. There will be luncheon meetings for different student groups, and a workshop meeting for chaplains and religious co-ordinators of organized houses. A religious art and literature display will be exhibited in Anderson hall through Wednesday, March 7.

The committee chairmen in charge of plans for LIFT week are Harry Kaper, FT Sr, and Joyce Knepper, HEA Soph, co-ordinating chairmen; Robert Robinson, Bac Gr, and Judith Crawford, Hst Soph, program chairmen; Mary Ann Rogler, HE Soph, and Jerry Thies, Ent Soph, organized house chairmen.

Lila Orme, TJ Sr, and Rachel Pickett, MEI Soph, publicity chairmen; Earl Hammond, BAA Jr, and Avis Tromble, HT Sr, classrooms chairmen; and Francis Reichart, Agr Sr, orientation chairman.

## Bowling Leagues Interest Students

Strong interest in bowling leagues was indicated by activity questionnaires sent to faculty and student groups by the Student Union games committee.

Twelve fraternities and three sororities favored leagues. Nine independent men's groups and five independent women's groups were in favor of leagues.

Eleven faculty departments favored a men's league; three departments favored a women's faculty league.

Application blanks soon will be sent out to start formation of bowling teams.

## Weber Says

## Ag Combine Heads Set for Approval

Directors for the extension service, agricultural experiment station and Agriculture school may be named in the near future, Dean Arthur Weber said yesterday.

Since the combination of the extension service and Agriculture school the three positions have been filled by acting directors.

## Athletic Council Still Searches For Director

The K-State athletic council met yesterday to consider applications for the director of athletics post after accepting the resignation of Larry (Moon) Mullins, who is taking a similar position at Marquette.

The council spent most of the meeting time going over qualifications of applicants in an attempt to gain a more workable list.

Approximately 25 names are under consideration by the council.

R. I. Throckmorton, chairman of the council, said that another meeting will be called when more information on the candidates is available.

Throckmorton said that the council will take their time and go over all applications thoroughly since they have two months in which to make their decision.

The council, in accepting Mullins' formal resignation, expressed regret at his leaving and gave him a vote of appreciation for his services.

At the present time C. Peairs Wilson is acting director of the school of agriculture, Harold Myers is acting director of the experiment station and Paul Griffith is acting director of the extension service.

The Board of Regents will meet February 17, and if the recommendations come from Dean Weber with the approval of President McCain the positions will probably be confirmed. However, if no recommendations are received the position held by Harold Myers will be temporarily filled because he is taking a leave of absence effective April 1.

Dean Weber said that it is likely that all three positions will be filled at the same time. He said the new combination should operate more smoothly when the new directors are named. Weber did not indicate who the new directors might be.

## Enrollment Jumps; 3-1 Ratio Remains

Late enrollees brought total enrollment to 5,652 yesterday noon, according to E. M. Gerritz, registrar.

An additional 164 students have enrolled since the end of formal registration last Wednesday. "I don't expect many more late enrollees," Gerritz said.

This semester's enrollment is an increase of 570 over the same period last year and is 309 less than last fall's final figure.

Figures released by Gerritz after the end of registration last week show that the approximate ratio of 3 men to 1 woman has been maintained. Of the 5,516 students then enrolled, 4,207 were men and 1,309 were women.

## Union Opening To Feature Talent

Included in opening ceremonies of the K-State Union March 8 will be a talent show. Conrad Smith, head of the Union dance committee, has announced.

The show will be from 10:30 to 11:30 p.m.

Applications of any student or instructor who wishes to take part will be accepted in the Union offices until next Thursday, Smith said. Auditions will be February 24 and 25.

Collegian photo by Gary Haynes

**WHO NEEDS A DIRECTOR?** These two K-State band members, Larry Northway and Benny Brandt, seem uninterested in the efforts of their director Jean Hedlund (center), as they engage in a "jam session" of their own at the pep rally in Ahearn Field House. About 150 people attended the rally. "Not bad" for an out-of-town game, cheerleader Phil Stiles said.

## Increase in Benefits Is Attitude of Veterans Wrong?

An increase in GI Bill benefits for veterans attending college seems reasonable, but veterans who need the increase may be defeating their purpose by the attitude they are taking toward the raise. If the rates set up when the bill was initiated were correct, it stands to reason that, with the 14 per cent increase in living costs since that time, the rates should be changed.

But the proposed bill being pushed by K-State veterans asks that the single man's allowance be raised from \$110 to \$135; that the married man's allowance be raised from \$135 to \$170; and that the married man with children get \$205 instead of \$160. This figures out as an overall increase of about 26 per cent, or twice the purported cost-of-living rise.

This situation, plus the reasons given by many veterans who want the raise, indicates a "get-all-we-can" attitude. That type of attitude won't go far in convincing Senators and Representatives that veterans need a raise. In fact, such a bill could cause Congress to turn down the raise completely, whether it's needed or not.

One of two things is needed—either proof that this large an increase is needed, or a proposed bill more in line with the cost-of-living increase.—Darrel Miller.

## This Could Happen to You

The Tribunal has released a report concerning a K-State student who was arrested following an accident in Aggieville last semester for driving while intoxicated.

Fortunately no blood was shed, but the student:

- Was fined \$100 by the city and had to pay full damages to the other driver.
- Was sentenced to 30 days in jail by the city.
- Had his driver's license suspended automatically by the state for one year.
- The Federal government took away his right to any Federal employment where security or trust is involved.
- The Federal government denied him the right to an Air Force commission from advanced ROTC.
- He was removed as a candidate from an important campus election by his fraternity.

pus election by his fraternity.

● Was placed on inactive status by his fraternity.

● The College (see Student Directory, page 148) placed him on disciplinary probation for the duration of his college career. One more infraction of any rule will mean immediate dismissal from college.

● He was made subject to a rehabilitation program where positive improvement must be shown in order to continue as a student by the College.

● He personally made a fine Christmas present to himself, his parents, his fraternity brothers, and the College by his actions.

Were these penalties too severe? No one agency "threw the book" at him. These penalties are not the exception, they are little more than the minimum.

Quite a price to pay for mixing alcohol and gasoline for a few short hours of "fun."

Think it over... don't let it happen to you.

# New Married Housing Rentals Will 'Average Less' than City

This is the first of a series of articles about K-State's new married housing.

Rental prices set for the College's new married housing now under construction northwest of the campus will average \$5 less than rent paid for comparable apartments in Manhattan. A. Thornton Edwards, director of housing, said yesterday.

The rentals to be charged for the new permanent married housing are \$62.50 a month for a one-bedroom apartment and \$67.50 for a two-bedroom apartment.

A recent survey conducted by the housing office has revealed that married students pay an average of \$67.03 a month for one-bedroom non-College apartments. The rents average from \$49 to \$88. An average of \$81 is paid for two-bedroom apartments in Manhattan. These rents range from \$54 to \$110.

## May Apply April 2

Applications for the new housing will be accepted by the housing office beginning April 2, Edwards said.

Basic policies released by the Director of Housing for the operation of the married housing apartments are:

- Priority for assignment will be determined by the date of deposit only.
- Only married students may apply.
- Should a married student become a faculty member of the rank of instructor or above while residing in an apartment he must vacate within 30 days from the date of his appointment.
- Apartment priority is abandoned when a student moves out.
- Apartments may be sublet for summer sessions only, in accordance with College policy which includes approval by the Director of Housing.
- A deposit of \$10 is required with each application. Lists are kept separately for each semester and each summer session.
- No pets are permitted in the courts.
- Assignments to the two-bedroom apartments will be made on the basis of the number and ages of children.

## Ninety-Six by October

It is hoped that 96 units of the new housing will be ready for occupancy before October, and an additional 96 by February 1, 1957.

Rental rates in the new housing are an average

of \$37 higher than rates charged in the temporary (Veteran) housing. The increase will be used for operation expenses including heat, light, sewer, water, replacing furniture, and wages of maintenance crews.

A portion of this increase will also be used in a sinking fund to pay the debt for construction of the housing. The College is taking 40 years to pay this debt instead of a shorter time in order to keep the rental price as low as possible.

## Comments—Wise and Otherwise

If a word to the wise is insufficient, it is possible to follow the example of a high school student in Amarillo, Texas. He substituted a "fist to the wise" in place of a word to the wise.

He broke the nose of an algebra teacher who had flunked him for the third straight time. Understand he was following the law of random pervarsity.

We don't advocate such a solution to the age-old problem of flunking. But we would like to point out that it wasn't the student's fault. Psychologists and sociologists tell us that we all are born as complete blanks. Therefore everything the boy in question has done is someone's else's fault, since he learned it from them. The question is, Who?

If the above sounds screwy, that's probably because it is. Anyway, it's only the workings of a college-type mind.

You understand a college-type mind, don't you? Well, before you came to college you accepted most of the things you heard. Then, after a year or so on the Hill, you reached the first step—you started doubting everything. About two years later you reached the second step—you started justifying all the things everyone else was doubting. This seems like a positive attitude, but actually is a double-negative attitude.

Soon you'll reach the final step—you won't give a darn either way.

I met a friend sidling across campus the other day. "Nice weather, isn't it?" I asked for no reason at all.

"Yeah," he said. "But I ain't caught no rabbits yet."

## Prof's Poem Published By 'Atlantic' Magazine

Prof. James L. Rosenberg's poem, "A Winter's Song," has been published in the February issue of the "Atlantic." The poem is in the "Young Poets" section which states that the "Atlantic" receives an average of 1,500 poems a month. Four are printed in the February issue. The magazine chooses the best poetry and devotes a few pages to that section from time to time.

Rosenberg's most recent poetry publications were in the Saturday Review of Literature, Kansas magazine, University of Kansas City Review, Prairie Schooner, and Beloit Poetry Journal. He received the William Rose Benet poetry award for outstanding literary work in 1953. Then in 1954, Rosenberg's works were published in the Borestone "Mountain Poetry Awards," a selection of the best poetry of that year.

Another of Rosenberg's activities is Manhattan's Civic theater productions. He directs many of these shows in which he and his wife, Dorothy, take part in the acting.

Dr. Rosenberg says of his work, "I make my living at teaching, however meager, but the directing, acting, and writing I do because I like it. There is little money in those fields unless you get your name on the dotted line of a Hollywood contract."

# Jinx Bustin' Cats Set for Colorado

Knorr Says

# Frosh Matmen Look Good

KANSAS STATE COLLEGIAN  
Friday, February 10, 1956-4

By BILL WHISTLER  
K-State will face a Colorado team seeking revenge when they tackle the Buffs at Boulder tomorrow night.  
It will be just a week ago that the Cats dealt the Buffs an 82-51 shellacking, but memories of return engagements at Boulder are still vivid.  
The Coloradoans have avenged Cat wins at Manhattan in three of the last four Boulder meetings. An indication of what can happen was the 1952 season that saw the Cats overwhelm the Buffs 92-40 at Manhattan, only to go down 67-57 at Boulder.  
The Cats have the added task of breaking a Colorado 19 game home winning streak.  
Buff coach, Bebe Lee, was impressed with the Cat defense in their last meeting which limited the Buffs to only five baskets in the second half.  
"The Wildcats were far and away the best team we've met

in the conference thus far," Lee said.  
Colorado will be gunning for a victory over the Cats to stay in the conference race, so K-State will be playing a determined team.  
The Cats must stop Buff forward Jim Ranglos who is averaging 15.7 points a game. Center George Hannah is next with 11.8 points, followed by guard Bill Peterson with 10.6.  
Big Jack Parr handcuffed Hannah for a 3-for-15 shooting average last Saturday.  
A Kansas State loss coupled with an Iowa State win over Missouri would cut the Cats lead to a half game and hurt their chances for the Big Seven crown.  
A win, however, would give the Cats the inside track for at least a share of the crown. With four games remaining, they will be playing three of them on their home court. The last obstacle facing them would be the sagging Jayhawks at Kansas. The Hawks have handed the Cats their only conference loss of the season.  
Kansas university must win over Nebraska tomorrow night if they are to remain as title contenders.  
Probable starting lineups:

"This year's frosh matmen may put us in a spot to challenge Oklahoma for Big Seven mat supremacy in the next two years," says Fritiz Knorr, K-State mat mentor.  
"The freshman wrestlers are steadily improving, and I feel sure that some of them will hold down positions on next year's team," he said.  
Knorr says best bets for next year are Pat Doyle, twice a state champion from Douglass, at 157 pounds, and Jimmy Roberts of Tulsa, who placed third in the Oklahoma high school tournament, at 137 pounds.  
James Miller of Wichita at 123 pounds who won his district but was kept out of the state tourna-

ment by injuries; and Perry Brinless from Tulsa at 147 pounds, who placed third in the Oklahoma state meet are also good bets.  
Other members of the team are Billy Youngers of Wichita at 123 pounds; Steve Santiago of Wichita and Jim Good of Salina at 130 pounds; and Jim Caster of Douglass, Dale Cox of Topeka, and Tommy King of Douglas at 137 pounds.  
Kenenth Ellegood of Oakley, Larry Figgs of Effingham, and Jim Hostetter of Manhattan, at 147 pounds. R. K. Wilson of El Dorado at 157 pounds, and Danny Noe of Topeka and Jack Hedley of Douglass at 167 pounds.  
Larry Hodges of Goodland, Don

Martin of Clay Center, and Jim Dietrich of Manhattan, at 177 pounds, and heavyweights Robert Schmidt of Caldwell and Bill Brown of Pittsburg.  
Tryouts for the freshman first team will be held in the near future in preparation for the Missouri Valley AAU tournament at Kansas City, Mo., in March. The grapplers who win at Kansas City will travel to Omaha, Neb., to compete in the Junior AAU tourney.

## Top Scorers Lists 4 Cats

Four Wildcats are listed in the top 15 scoring leaders in the Big Seven. Jack Parr leads the Cats and is second in the league with 120 points, one point behind Joe King of Oklahoma.  
Other Wildcat scorers are Hayden Abbott, 96, Pachin Vicens, 84, and Fritz Schneider, 82.  
K-State leads in team scoring with 492 but has played more games than the other teams.

Player	T. Pts.	Av.
King (OU)	121	20.2
Parr (KS)	120	17.1
Smith (MU)	106	17.6

# Life Is Never Dull For Coach's Wife

By JUDIE ROSS

The life of a coach's wife is sometimes lonely but never dull, said Mrs. Tex Winter yesterday.

Being an ardent basketball fan, she enjoys going to all the games with her husband. The past several years, Mrs. Winter has been unable to attend many of the out-of-town games because of her three small sons. However, at the start of this season, she attended the game at Ames. As K-State won, she was able to talk Tex into taking her to the others.

Mrs. Winter likes to sit in the stands and listen to the comments of the spectators. "The only thing that bothers me is people sitting around me cheering for the other team," she said. "The hardest thing for me to do is to listen to the game on the radio. One gets such a helpless feeling," Mrs. Winter said.

When Tex is away, she keeps herself busy with her three small sons, plays bridge, and goes to the movies. When she is invited out on the night of a game, all the excuse she needs is, "I'm sorry but we play a game tonight." Mrs. Winter also plays the piano and frequently entertains the family with her music.

As of yet, the boys aren't interested in basketball. However, Tex didn't touch a basketball until he was a sophomore in high school, she said.

During the season, the Winters have little social life since Tex is gone so much. After home games, they both like to go out with their friends, however.

Mrs. Winter likes Kansas very much. She finds that Kansans "smile easily" and seem to be "typically American."

Mrs. Tex Winter and Chris  
... life is interesting

## Gymnast Meet Is Cancelled

The gymnastic meet that was to be Saturday between K-State, Nebraska, and Minnesota State, at Lincoln, has been cancelled, according to Frank Thompson, gymnastic coach.

The next scheduled meet for the Wildcats is February 29, when they will host Western Illinois State.

Thompson has issued another call for men interested in trying out for the team. "Gymnastics is a year long sport and any one interested may contact me," he said.

## Miller Holds Field House Vault Mark

By LARRY MCGHEE

Paul Miller, senior track man, is K-State's bid for top man in the pole vault this year.

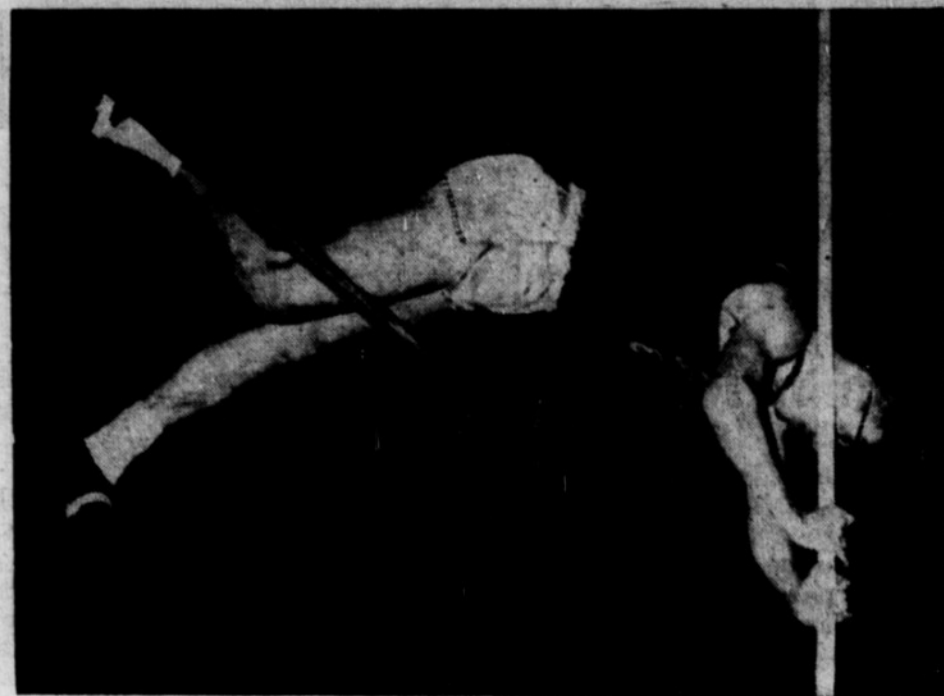

Miller gained the spotlight last year with a 13-foot, 8 1/2 inch vault which set a new Ahearn Field House record.

The track team journeys to the Michigan State Relays at East Lansing, Mich., Saturday, where he will have a chance to better his record.

A recent bridegroom, Paul was married in November. He is a senior in mechanical engineering, and expects to work for Socony-Vacuum in Augusta, for about six months after he graduates. He will then go into the air force as a second lieutenant. Paul is also a member of both Phi Tau Sigma and Sigma Tau, engineering honoraries.

Miller holds both the indoor and outdoor records at K-State. His 13' 8 1/2" effort eclipsed the former Ahearn Field House standard of 13' 6 1/2" set by Dennis Plooster of Colorado in 1954. This mark also bettered the Wildcat varsity indoor mark of 13-3 set by Fred Wingert.

"There is plenty of competition in the conference this year. There are seven vaulters that have done over 13-6, but I think I can beat them," Paul said.

Paul Miller  
... up and over.

**GOLDEN KRUST BAKING COMPANY**  
MANHATTAN, KANSAS

## A Campus-to-Career Case History

Dick Abraham of Bell Telephone Laboratories, here experimenting with closing the loop on a transistor feedback amplifier.

## "I'm working with top names and top talent"

That's one of Richard P. Abraham's comments about his career with Bell Telephone Laboratories in Murray Hill, N. J. "In 1954, after I'd received my M.S. from Stanford," Dick continues, "I was interviewed by a number of companies. Of these I liked the Bell Labs interview best—the interviewer knew what he was talking about, and the Labs seemed a high-caliber place."

"The Labs have a professional atmosphere, and I'm really impressed by my working associates. As for my work, I've been on rotating assignments—working with transistor networks and their measurement techniques, studying magnetic

drum circuitry, and doing classified work on Nike. This experience is tremendous.

"In addition to the job, I attend Lab-conducted classes on a graduate level several times a week. Besides that, the Labs are helping me get a Ph.D. at Columbia by giving me time off to get to late afternoon classes. That's the kind of co-operation you really appreciate from your company."

"What are important to me are the opportunities offered by the job and the work itself. My wife and I own a house near Murray Hill, and we've found a lot of friends through the Labs. All in all, I think I'm in the right kind of place."

Dick Abraham is typical of the many young men who are finding their careers in the Bell System. Similar career opportunities exist in the Bell Telephone Companies, Western Electric and Sandia Corporation. Your placement officer has more information about these companies.

# Chocolates and Cigars Announce New Couples

## Pinnings

### Atlas-Blume

The pinning of Nancy Atlas of Stephens College at Columbia, Mo., to Dale Blume, BA Jr, from Atwood, was announced last week by the passing of cigars at the Alpha Tau Omega house.

### Huseman-Kozisek

Chocolates at Van Zile hall and cigars at Beta Sigma Psi Tuesday announced the pinning of Melva Huseman, DIM Jr, from Kanopolis to Don Kozisek, AH Sr, from Holyrood.

### Antic-Betz

Chocolates at the Pi Beta Phi house and cigars at the Sigma Alpha Epsilon house Wednesday night announced the pinning of Carol Antic, FdN Sr, from Kansas

City, and George Betz, BPM Sr, from Asherville.

### Eller-Hess

Chocolates were passed at the Pi Beta Phi house Wednesday evening to announce the pinning of Connie Eller, EEd Soph, from Salina, to Jim Hess, of McPherson. Jim is a member of Delta Tau Delta at the University of Kansas.

### Cowan-Santala

Chocolates at the Kappa Delta house and cigars at the Theta Xi house announced the pinning of Leone Cowan, Hst Jr, from Cullison, and Duane Santala, BS '56, from Satanta.

## Engagements

### Scoby-Balzerick

Connie Scoby, BA Sr, from Hayes, announced her engagement

to Bob Balzerick, BA Sr, at the Alpha Delta Pi house. Bob is a member of Phi Delta Theta from Wichita.

### Parshall-Winegardner

Ilene Parshall, HT Sr, and William Winegardner, ChE Sr, have announced their engagement. Ilene, a member of Kappa Delta, is from Manhattan. William, a member of Sigma Chi, is from Kansas City, Kansas.

### Johnson-Graham

Chocolates at Waltheim Sunday announced the engagement of Pat Johnson, HEA Soph, Topeka, to Charles Thomas Graham, CE Soph, Council Grove.

## Weddings

### Shields-Henley

Janet Shields, BA '55, of Kansas City, Mo., and John Henley were married January 29 in Kansas City, Mo. Janet is a member of Kappa Kappa Gamma. John, a member of Sigma Nu, is a graduate of Colorado A and M. The couple will reside in Nancy, France.

### Harms-Rash

Billie Jo Harms of El Dorado, and Larry Rash, ME Jr, of Thayer, were married January 28 at the First Methodist church in El Dorado. Billie Jo has been employed by a firm in El Dorado. Larry is a member of Sigma Chi.

### Koger-Stunkel

Barbara Koger and Norvin Stunkel, AH Sr, both of Belle Plaine, were married January 29 at the First Presbyterian church in Manhattan. Barbara, a member of Delta Gamma sorority, is a junior at Kansas university. Norvin is a member of Sigma Chi.

### Summers-Albers

Bernard Albers, Geo Sr, and Laura Summers, a former K-State student, were married in Kansas City, Mo., January 28.

# House Parties Lead Full Week of Events

Phi Kappa Tau will hold a Buccaneer's Ball costume party Saturday at 8 p.m. in the Phi Tau house.

This party will replace the former "Klondike Klomp," which was the regular house party. Members and their dates will dress in the fashion of the days when Captain Kidd pirated the high seas. Refreshments will be served.

The 1834 Club entertained 16 Kansas high school seniors at a house party after the Colorado-Kansas State game. Richard Ford, hypnotist, gave a demonstration.

The Sigma Nu's entertained their dates at an informal house party after the game Saturday night.

A meeting and dinner was held Saturday for the board of directors, the alumni and their wives of Alpha Kappa Lambda.

Sunday there was a rush dinner at which 14 rushees were present.

Members of Delta Sigma Pi entertained their dates at a house party after the game Saturday night.

THE GOODYEAR TIRE & RUBBER COMPANY

# DSF Will Discuss 'Racial Relations'

The Disciple Students will plan the program for the semester Sunday at 2 p.m. at the Christian church.

The annual Brotherhood service Sunday evening will feature Jim Craig, Ent Gr, from West Africa speaking on "Racial Relations." The annual Brotherhood service is sponsored jointly by all College church groups.

## Gamma Delta

Kansas and Nebraska chapters of Gamma Delta will be in Lincoln, Nebraska, for a retreat this weekend.

The Sunday evening meeting will be in the Students' room of St. Lukes Lutheran church at 5 p.m. The topic will be "What is Gamma Delta?"

Vespers will close the meeting.

## USF

Shirley Bessey, extension recreation specialist, will lead the United Student Fellowship group in Fun Night, Sunday, February 11. The evening will begin with supper in the First Congregational church basement at 5:15 and will last until 7:30 p.m. Anyone needing a ride should call Harold Kannarr at 59463.

Sunday morning at 9:45 will be a discussion class for college students and church is at 11 a.m.

Officers cabinet meeting will be held Sunday at 3 p.m. at the church.

## College Baptist

The Rev. John Arnside will speak at the College Baptist Youth Fellowship meeting, Sunday at 6:30 p.m., following the theme of World Day Prayer.

## Hillel

B'nai Brith-Hillel foundation members will attend church service at 7:30 p.m. tonight at the Jewish Chapel, 10th and East streets, Camp Funston, Fort Riley.

Dr. Shivanani, First Hillel Brotherhood winner, will speak at the Sunday evening services. Reservations may be made by calling Neil Boodman at 6-9960.

## Canterbury Association

John Painter, Hst Soph, is the newly elected president of the

Canterbury club. Other officers are Charles E. Davies, MT Fr, secretary; Marilyn Brooks, HT Soph, corresponding secretary; and Arline Gray, Eng Jr, treasurer. Formal installation of the newly elected officers will be held at Danforth chapel February 15, at 6:45 p.m.

Sunday evening, February 12, Dr. and Mrs. Earl Davis will be guests at the Canterbury House. Dr. Davis will discuss "Variations of Folk Songs."

## Roger Williams

A religious film is scheduled for the 5:30 p.m. worship service, with Ronald Garlow, EE Fr, in charge. This will be preceded by a dinner at 5:15 p.m. Church services are at 8:30 a.m. and 11, and Sunday school at 9:45.

Seminar is scheduled for Wednesday evenings at 526 Bertrand with Dr. Floyd Sloat in charge. A study of the Prophets will be continued.

## Westminster

The Rev. Frances Hayward, moderator of Kansas Synod, will speak to Westminster Fellowship Sunday at 5:30 p.m. At 6:15 p.m. Monday, he will talk to the Westminster men. Both will be held at Westminster house.

"God's Care In the Wilder-

ness" is the topic for 9:30 a.m. Sunday school. An impromptu fellowship sing is planned for 4:30 p.m. Sunday.

## Wesley Foundation

The Rev. B. A. Rogers has chosen "I Take Thee" as his topic for the 6 o'clock evening worship. Terry Price, ME Soph, will give the devotions and Dixie Roberts, HEA Soph, has charge of special music. Evening worship will be preceded by church service at 9:50 a.m., church school at 11, Bible study at 4 p.m. Fellowship begins at 5. A square dance is scheduled for 8 tonight.

## Newman Club

Tickets for the Newman club banquet at the Wareham Hotel on March 4 will be on sale at coffee hour, February 19. They may also be obtained from Kitty Cannon, BA Sr, at Van Zile hall or Pat Wilkerson, BA Jr, at the Delta Sigma Phi house.

Rosaries are at 11:55 a.m. in the Newman club office in Illustrations hall and at 4 p.m. in Danforth Chapel.

The weekly discussion, led by Father Weisenberg, will be held Monday, February 13 at 7 p.m. in J15.

February 15 is Ash Wednesday

and all are urged to attend mass on that day.

## Latter Day Saints

Sunday School will be at 11 a.m. Sunday. At 3 p.m. there will be the sacramental service.

## KSCF

"What Does It Mean to Go Into All the World" will be the topic of a talk given by the Rev. Nye J. Langmade Tuesday, February 14 at 7:30 p.m. in rec center.

## TO INTERVIEW

## ELECTRICAL, MECHANICAL, AERONAUTICAL ENGINEERS ABOUT TO GRADUATE

At Convair, in beautiful, smog-free San Diego, California, you will find the diversity of challenging, far-reaching projects that offers you the unlimited career opportunity you seek.

This is young country, beautiful, exciting country—the very heart of the busy, vital aircraft and missile industries. And good, young engineers are needed now to grow with new, long-range aircraft and missile programs.

You will find the Convair Engineering Department a genuine "engineer's" engineering department—imaginative, energetic, explorative. You will discover the very latest engineering equipment, excellent working conditions, salary, personal job advantages, and opportunities for continuing education.

Remember these facts about Convair: Convair was awarded the Nation's first production missile contract and the first production contract for supersonic all-weather interceptors.

Convair has the greatest diversity of aircraft engineering projects in the country, including high performance fighters, heavy bombers, large flying boats, transports, trainers, seaplane fighters, vertical take-off aircraft and guided missiles.

Convair has a completely integrated electronic development program devoted to advanced development and design on missile guidance, avionic projects, radar systems and special cathode ray tubes.

Now you are invited to get full information about your career at Convair. Talk it over with our Convair Engineers on your campus soon.

GRADUATING CIVIL ENGINEERS interested in the field of aircraft structure are also invited to apply.

Graduate degree candidates in Engineering, Mathematics or Physics are invited to discuss Convair opportunities in the general field of advanced engineering analysis and design.

CONVAIR ENGINEERS WILL INTERVIEW ON YOUR CAMPUS

FEBRUARY 17TH

## Ag Engineering, Home Ec Halls To Go Up Soon

New Ag Engineering Wing

### Staters Run Gamut On Police Blotter

K-State students have been charged with everything from carrying concealed weapons to drunken driving since beginning of school this year, said Dean Herbert J. Wunderlich. The concealed weapon turned out to be a switch-blade knife used for cutting clothesline, according to the police records.

Students were involved in 128 car accidents within the city limits since September. There have been injuries in eight instances. Two students were injured and the others injured were townspeople.

In six of the accident cases, students received fines. Three of them were charged with reckless driving. Two did not have valid licenses and one didn't have his license with him at the time of the accident. Estimated damages were between \$7 and \$700 on the accidents.

Thirty-two students were picked up for speeding. According to the police records, fines have run from \$10 to \$15, depending on the circumstances involved.

Fines of \$25 each were collected from 10 students charged with reckless driving. Stop-sign violations have cost K-Staters from \$2 to \$5 each.

Besides traffic violations, students have broken several other laws. One case of drunken driving was brought before the court. Prowling and loitering, and interfering with the law are other violations which students have committed. Four were picked up on morals charges.

### MEs, EEs Choose Four Open House Hopefuls

St. Pat and St. Patricia candidates have been chosen by the mechanical and the electrical engineering departments.

Mechanical engineering, first of the seven departments in the School of Engineering to choose its candidates, elected Sondra Tate, Art Soph, and Ronald Bryant, ME Jr. Representing electrical engineering will be Joneta Edwards, EEd Soph, and Ralph Smith, EE Jr.

Pairs of candidates from the seven Engineering departments will compete for St. Pat and St. Patricia. The winners will reign at Engineers' Open House March 16-17.

St. Pat candidates were elected at departmental assemblies. Girls

PROPOSED HOME EC building... "newest ideas in design and construction."

### SC To Discuss Primary Elections

A report on a proposed constitutional revision to allow primary elections is to be made at Student Council meeting tonight at 7:30 in A 211 by Warren Nichols, VM Soph.

The proposal also calls for revision of election rules for SGA officials and senior class offices, and election of a chairman of the Student Council.

### Directors of Athletics

## Phone-Happy Scouts Call Governor, Other Dignitaries

By CAROLYN LUSK

Two telephone-happy Boy Scouts took over the job of K-State director of athletics Saturday during Boy Scout run-your-town day, and ran up quite a telephone bill under the direction of Moon Mullins, their instructor in the business.

Scouts Alan Mishak and Douglas Robinson of local Troop 75 had a full day that was highlighted by a call to Seattle, Wash., to the president of Washington university.

The boys, in learning the responsibilities of an athletic director, asked how they should go about scheduling a basketball game with Washington. They found they should contact the basketball coach there.

Dutch Lonborg, director of athletics at KU, received an invitation from the Scouts to attend the KU-K-State basketball game in Manhattan March 6, 1957.

The boys also phoned the Kansas governor's mansion and extended an invitation to Governor and Mrs. Fred Hall to attend the KU-K-State football game here next November 3.

Collegian photo by Gary Haynes

MULLINS and telephoning directors-for-a-day Alan Mishak (left) and Douglas Robinson, Manhattan Boy Scouts.

By ESTALEE VAN SICKLE  
The latest ideas in design and structure will be incorporated in a soon-to-be-built home economics building, Doretta Schlaphoff, dean of Home Economics, said.

The \$1.5-million building will contain the departments of the Home Economics School that presently are scattered in various buildings across the campus, she said.

Construction of a new agricultural engineering wing on the engineering building is scheduled to begin this summer, R. F. Gingrich, physical plant superintendent, said.

The ag engineering wing will cost about \$500 thousand, and will be added just north of the newest addition to Seaton hall. Plans will be finished by March 15, and construction should be finished in about a year, Gingrich said.

Plans for the home ec building have been submitted to the Legislature and provide for 67 offices, 29 labs, 8 classrooms, 17 research labs, and necessary storage space and service facilities.

The building will be constructed east of Dickens hall. A feature of the building is a large, multipurpose room that can be divided into two rooms by a soundproof panel. This will provide two rooms for small conferences and meetings.

A kitchen is planned near the room to provide facilities for large receptions. A movable stage will allow the room to be used for speeches, fashion shows, and demonstrations.

"The uses of this room are limited only by the user's imagination," Miss Alpha Latzke, head of the department of clothing and textiles, said.

The new ag engineering wing will house the laboratories and (Continued on page 8)

# Are Pep Rallies Necessary?

KANSAS STATE COLLEGIAN  
Monday, February 13, 1956-2

Thursday night's disappointing crowd at the pep rally at the Field House brings up the question: Are pep rallies necessary?

According to Tex Winter pep rallies don't affect the players on the team either way. Of course larger crowds at pep rallies are a good thing he said, but actually the players want to win badly enough so that the crowds at the rallies don't influence them much.

It is at the games themselves that the players need the support of the fans Winter said. "K-State has the best team support at games of any college I have seen."

"If K-Staters really want to support their team they can be at the Union Pacific train depot at 8:03 Tuesday night when the Cats return from a two-game swing westward," he said.

In addition to meeting the Buffs in Boulder last Saturday night, the Cats will face Wyoming U in a non-conference tilt tonight.

Students called after the pep rally Thursday night revealed that most disagree with Winter as to pep rallies being relatively unimportant in regards to team spirit.

Most students expressed the opinion that more people are needed at pep rallies. All of the students called felt that the rally had been publicized enough.

A Humanities film was in part responsible for the small crowd at the Field House, it was thought by most. Some of the students felt also that pep rallies should be scheduled only on

weekends.

A majority of the students called believed that something should be done about flagging attendance at the rallies, but most of them had few suggestions as to what could be done to remedy the situation.

They seemed to feel that the

rallies were fairly important, however.

If the pep rallies do not substantially affect the team either way, it would seem that at best the only function of the rallies is to practice yelling for the games.—Mary Fabin.

## Arabs Would Support West if Forced into War, Ghalib Shahabeddin, Student from Jordan, Believes

"All Arab people are neutral concerning war and armament and the Western and Eastern blocs. If forced into war, though, they would enter with the Western block," according to Ghalib Shahabeddin, civil engineering senior from Amman, Jordan.

He said that "Communism is rejected socially and religiously in all Arab countries, and the death penalty is imposed upon those who are convicted for being active Communists."

The Arab states include Syria, Lebanon, Jordan, Iraq, Egypt, Saudi Arabia, Libya, Yemen, and Sudan, which became an independent country on January 1.

The Arab people hope to unite all Arab states someday. One group wants to make the fertile crescent (Iraq, Syria, Lebanon, and Jordan) into a big Syria. Another group wants to unite the Arab states under a federal government in much the same way as our United States are under our federal government.

There are two reasons why uniting the Arab states would be difficult, Ghalib explained.

Some of the Arab states have kings who want to stay in power.

The West doesn't want a strong united Arab front. If the Arab states united they would have enough resources and people to become self-sufficient, and Britain would lose a market for her products.

The Arab league has been

formed to help the Arab states decide together on settling their problems and to help further the progress of the countries. The Arab states are now planning a four-lane super highway from Iraq into Africa.

"One reason the Arab people wish to unite is to have a stronger representation in the United Nations," Ghalib said.

"The Arab people want the UN to continue as long as it carries on its work according to the principles on which it was established, and not according to the interest of the East and West blocs without much consideration of the smaller neutral countries."

Military service is voluntary in Jordan, although all young men do receive military training. Training is given in the junior and senior years of high school.

When the Jews were attacking after the British left in 1948, Ghalib went from Jaffa, in what is now Israel, to Amman, in Jordan. After finishing high school there, he came to the United States and went to McPherson college for two years. This is his second year at K-State.

Schools in Jordan are similar to those here. They have seven years of grade school and four years of high school. After the sophomore year of high school, students decide whether to study in the scientific, literary, or commercial field.

Ghalib said that a person

graduating from a high school in Jordan could start in a U.S. college as a sophomore.

Jordan is mostly mountainous and desert country. There is only a small amount of rain in the winter and practically none in the summer. It is mostly an agricultural country, with wheat, olives, and grapes being the main products. Farms average from 20 to 50 acres, and land is more valuable than here. Cement is the main industry of Jordan.

## At the Movies

## Variety of Good Entertainment Now Showing

By DICK HOLDREN

"FOREVER DARLING," Campus through Wednesday, stars Lucille Ball, Desi Arnaz, and James Mason, in a story resembling the "I Love Lucy" TV show.

Desi and Lucy, as Larry and Susan Vega, find their marriage breaking apart because of Larry's long hours at the office, a couple of Susan's relatives, and Susan's guardian angel, played by Mason.

Larry is a scientist trying to perfect an insecticide that will make DDT look like "talcum powder," but Susan doesn't understand his work and doesn't seem to care.

The angel convinces Susan that she must show more interest so she goes with Larry on a camping expedition to test the insecticide. After Susan fouls things up in general, the tests prove the insecticide's worth and all ends happily.

The movie has many funny spots but the plot is thin. For one who likes "I Love Lucy" it's a good show.

trouble. The townspeople misunderstand him but in the end good wins over bad and Scott's a hero.

By MALCOLM COLDWELL

"THE LIEUTENANT WORE SKIRTS," Wareham through Wednesday, is the story of a husband's attempts to get his wife out of the WAFS.

Greg Whitcomb, played by Tom Ewell, had received a letter from the air force calling him to active duty. His wife, Katy, played by Sheree North, decides to get herself recalled to the WAFS in hopes she can be near him. Greg is turned down on his physical and comes home to find that Katy is back in.

All efforts fail to get her recall cancelled and she takes off for duty in Hawaii. Greg finds life impossible without her so in a short time follows her. He tries to talk her into feigning insanity so she can get a discharge, but Katy feeling she should stick it out refuses. Greg still undaunted works out a feindish plot to make his wife think she is really looney.

The ensuing tomfoolery manufactures laugh after laugh for the audience. Tom Ewell fills another "Seven Year Itch" role superbly and Sheree North is very desirable as Lieutenant who is often without her skirts.

## PRs To Pick Coed Captain

Pershing Rifle members will select an honorary cadet captain tonight from candidates nominated by sororities and women's residence halls.

The honorary captain will represent Kansas State Company G-7 in competition for honorary cadet

colonel. Honorary colonels will be selected by each of the 12 regiments over the nation. The colonels will compete in the spring for the honor of national commander of Pershing Rifles.

The twelve candidates for honorary captain are Karen Andrews, EEd Jr, Northwest hall; Edna Bourquin, EEd Soph, Kappa Delta; Linnea Brown, Ar 02, Van Zile hall; Barbara Brown, HEN Fr, Southeast hall; Rosemary Derks, ML Soph, Kappa Kappa Gamma.

Mary Faye Frazier, HEA Soph, Chi Omega; Carol Miller, EEd Jr,

Pi Beta Phi; Elaine Raile, EEd Sr, Alpha Chi Omega; Mary Reed, Clo Soph, Alpha Xi Delta; Barbara Starnes, DIM Soph, Alpha Delta Pi; Kay Wadsworth, HT Fr, Clovia; and Judy Zerener, EEd Soph, Delta Delta Delta.

## WIBW Gives \$250 Awards To 2 Staters

Two K-State 4-H club members are winners of WIBW scholarships, Wes Seyler, farm director for WIBW radio and television, said.

Shirley Hundley, HDA Soph, and Rae C. Luginsland, Ag Fr, each will receive \$250 grants.

Miss Hundley has done most of her 4-H work in home economics. She also has had garden, poultry, dairy, swine, and junior leadership experience.

Luginsland has been in 4-H work for 10 years. Last year he completed 15 projects. He has had a sheep flock, and has had a total of 46 beef projects. He has been a member of 19 judging teams at state and county level.

## Old Vet Hospital Remodeling About Four-Fifths Done

R. F. Gingrich, superintendent of Physical Plant, has announced that remodeling of old veterinary hospital is now 80 per cent completed. It is estimated that another \$10,000-\$11,000 is needed to complete the job.

Final inspection on the new Danforth chapel addition was made last week. The chapel is scheduled to open March 1.

### Klub Kolumn

## Psychology Club To Elect Officers Tuesday at 7:30

Election of officers is planned for a Psychology club meeting Tuesday at 7:30 p.m. in J 15, Marianne Ptacek of the club's steering committee said. A movie will also be shown.

### Dairy Club

There will be a Dairy club meeting Tuesday at 7:30 p.m. in Wa 244. There will be a business meeting, program, and refreshments, according to L. C. Garrison Jr, Ag Jr, reporter.

### Political Science Club

The Political Science club will meet at the temporary Student Union tonight at 7:30.

# K-State To Play Wyoming Tonight

KANSAS STATE COLLEGIAN  
Monday, February 13, 1956-4

K-State suffered its first Big Seven road loss Saturday night at Boulder as the Colorado Buffaloes played "turn about is fair play" and handed the Wildcats a 71-53 lacing.

This was a reversal of the score in a game played a week ago in Manhattan when the Wildcats won 82-51.

The defeat left the Wildcat's league mark at 6-2, but K-State still holds first place by one-half a game. Iowa State (5-2) and

Colorado (4-2) follow the Cats in the standings.

Tonight the Wildcats complete their short westward swing when they clash with the steadily improving Wyoming Cowboys at Fort Laramie. Wyoming topped Jack Gardner's Utah squad recently, 59-54.

In the Colorado loss the Wildcats were behind from the first toss-up and trailed by 22 points midway in the second half.

The Buffs took a quick 4-0 lead, built to an 11 point bulge

at the 10 minute mark, and held a 42-26 lead at half-time.

With 14 minutes left in the second half Colorado applied the pressure and scored 10 straight points while holding the Wildcats scoreless. This boosted the Buffs to a 58-37 lead and put the damper on K-State hopes for a win.

Coach Tex Winter had lifted his starters and the second unit was the victim of the Colorado surge.

The starting team re-entered the game with 8:36 remaining and cut the Buff lead to 61-44 on buckets by Parr and Schneider and a freethrow by Stone. The Wildcats, however, couldn't come any closer and Colorado matched them point for point the rest of the way.

Fritz Schneider led the Wildcats with 15 points. He was followed by Hayden Abbott with 14 and Jack Parr with 11. Vicens scored 6, DeWitz 4, Fisher 2, and

Stone 1 to round out the Cat scoring.

Bob Helzer hit 18 for Colorado. Close behind were Jim Ranglos and Bill Peterson with 14 each.

The next league action for K-State is a home game a week from tonight against Nebraska.

The probable starting lineups for the Wyoming game:

K-State	Pos.	Wyoming
Abbott (6-3½)	f	Carlson (6-5½)
Schneider (6-3)	f	Campbell (6-4)
Parr (6-9)	c	Bradley (6-8)
DeWitz (6-2)	g	Capua (5-10)
Vicens (5-8½)	g	Eckhardt (6-1)

## A frank message to graduating electronic and mechanical ENGINEERS

You know it . . . we know it . . . so let's be frank about it.

The demand for engineers—experienced or graduate—far exceeds the supply. And, from now on in, you are going to be sought after more than a triple threat halfback for next year's varsity.

You will be promised many things (including the moon with a fence around it), and for a young man just getting started these things are pretty hard to resist.

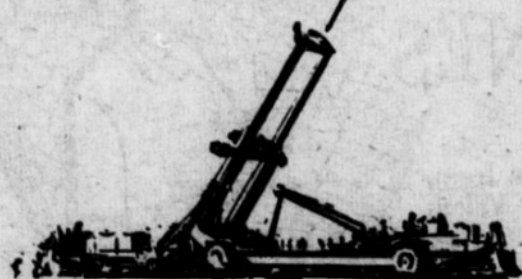

So, again, let's be frank. We at Farnsworth won't promise you the moon. (Although we are working on some ideas that may eventually get you there and back.) We are an old, young organization. Old, in the sense of being pioneers in the field of electronics. (Our technical director, Dr. Philo Farnsworth invented electronic television.) Young, by being the newest division of the world-wide International Telephone and Telegraph Corporation, devoting our efforts exclusively to research, development and production of military and industrial electronics, and atomic energy.

All of which makes Farnsworth big enough for stability and technical perspective, yet small enough for mobility, flexibility and recognition of the individual. Here you will be associated with and encouraged by a team of eminent scientists and engineers with many "firsts" to their credit in the field of electronics. Here you will be heard . . . not just one of the herd.

We earnestly invite you to hear the whole fascinating Farnsworth story. We're pretty certain it will make the decision for your future easier.

# Miller Vaults 14 Feet; Cats in 'Best Showing'

K-State's thinclads stepped up into the Michigan State relays Saturday and walked away with two firsts, three seconds, two fourths, and one fifth place.

The best individual performance by a Wildcat was in the pole vault, where Paul Miller cleared 14 feet to carry away the first place honors.

Miller's vault sets a new K-State varsity record. He previously held the record at 13-8 1/2. Miller was only 1 1/2 inches shy of Michigan State Relays record.

K-State's other first came in

the 600-yard run, when Larry French covered the distance in the winning time of 1:13.9.

Official scores were not kept at the meet, but on an unofficial basis K-State finished fourth out of a field of 18 schools with a point total of 27.

"This is the best showing that K-State has made in the last three or four years," coach Haylett said. "I am more than pleased with the showing."

Special to the Collegian  
**FIELD GOAL!**—Bill Peterson of Colorado (12) fires up a right-handed fieldgoal attempt as Dick Stone of K-State (20, dark jersey) seems to be trying to kick a field goal. White-clad Buffaloes seemed to be all over the court as CU blasted the Cats, 71-53.

## Cat Tankers Lose to KU

Despite a terrific effort by K-State's Don Matsuoka, Kansas university defeated the Kansas State swimming club 51 to 33 at Robinson pool in Lawrence Saturday.

Matsuoka was the meet's best individual performer, winning the 220 and 440-yard freestyle and swimming on the victorious 440-yard freestyle relay team.

The summaries:

330-yard medley relay—Kansas (Thompson, Clevenger, Burke)—3:15.0 (new school record, breaks old record of 3:15.9).

220-yard freestyle—1. Matsuoka, KS; 2. Poort, K; 3. Dicken, KS—2:31.0.

60-yard freestyle—1. Edwards, K; 2. Fitzgerald, KS; 3. Onuma, KS—31.5.

160-yard individual medley—1. Burton, K; 2. Buchanan, K; 3. Brown, KS—2:00.2.

100-yard freestyle—1. Edwards, K; 2. Onuma, KS; 3. Fitzgerald, KS—54.8 (new school record, breaks old record of 56.5):

200-yard backstroke—1. Kreye, K; 2. Thompson, K; 3. Sleeper, KS—2:56.3.

200-yard breast stroke—1. Clevenger, K; 2. Buchana, K; 3. Nolen, KS—2:26.5.

440-yard freestyle—1. Matsuoka, KS; 2. Poort, K; 3. Dicken, KS.

440-yard freestyle relay—1. Kansas State (Matsuoka, Dicken, Onuma, Fitzgerald).

Diving—1. Meyers, K, 182 points; 22. Pfuetze, KS, 161 points; 3. Matthews, K, 151 points.

## Grapplers Lose 8-23 To I-State at Ames

Gary Haller and Bob Mancuso were the only Wildcat matmen who posted victories against Iowa State at Ames Saturday. Ellis Rainsberger drew with his opponent as the Cyclones won, 23-8.

Haller, Mancuso, and Rainsberger were highly commended by Coach Knorr. Haller, a sophomore, defeated senior Don Jensen, 7-4, in the 177-pound class. Gary now sports a 5-1 record. Mancuso ran his string of wins of five as he defeated Bob Davis, 9-3, in the 130-pound class.

Rainsberger fought well as he drew with former Big Seven champion Mel Waldon, 3-3, in the heavyweight division. Ellis' record is now 2-2-2. Knorr also mentioned that 147-pound Roland Alexander lost his match, 7-5, in the last 10 seconds. Alex now has a 4-2 record. Blume went the full distance for the first time this season in the 157-pound division.

The loss was K-State's second in six starts. The Cats defeated Nebraska university, Colorado A&M, and Cornell college. Only loss other than that Saturday was to the league-leading University of Oklahoma Sooners.

Knorr's team is still five points in the hole every time the wrestlers feet touch the mat. They lack a 123-pound man; so they must forfeit the five points every match, even though no one wrestles in that class.

Coach Knorr takes his wrestlers

to Stillwater on Saturday, February 18 to meet the Oklahoma Aggies. The Aggies, defending national champs, fought to their second 12-12 tie of the season Friday night when they took on the University of Oklahoma at Norman.

The Wildcats dropped a 29-2 decision to OU on February 3.

Results: 123—Kent Townley, IS, won on forfeit; 130—Bob Mancuso, KS, defeated Bob Davis, 9-3; 137—Dean Horner, IS, pinned Pete Everist in 5:57; 147—Dale Ketelsen, IS, defeated Roland Alexander, 7-5; 157—John Haizlit, IS, defeated Dale Blume, 8-1; 167—Frank Powell, IS, pinned Ray Glaze in 55:17; 177—Gary Haller, KS, defeated Don Jensen, 7-4; Heavyweight—Ellis Rainsberger, KS, drew with Mel Waldon, 3-3.

Boeing has many positions open for graduating and graduate students. These opportunities are in all branches of Engineering (AE, CE, EE, ME and related fields). Also needed are Physicists and Mathematicians with advanced degrees.

Fields of activity include Design, Research and Production. Your choice of location: Seattle, Washington or Wichita, Kansas.

Personal interviews will cover the details of openings, the nature of assignments, Company projects currently in work, and miscellaneous information about the Company.

Come and learn about the excellent opportunities with an outstanding Engineering organization—designers and builders of the B-47 and B-52 Multi-Jet Bombers; America's first Jet Transport, the 707; and the Bomarc IM-99 Pilotless Aircraft.

For time and place of group meeting and for personal interview appointments—consult your

## Mueller Is Sig Ep 'Queen of Hearts'

Sandra Mueller, Clo Jr, was crowned Sigma Phi Epsilon Sweetheart Friday at the Golden Heart Ball.

The dance was held at Pottorf hall, which was converted into a "Royal Night of Hearts." Murals of knights and ladies decorated the walls. Red and gold hearts were suspended from the ceiling; Sandra was crowned beneath a large gold revolving heart.

Sandra, a Kappa Kappa Gamma, is pinned to Bill Swinson, BA Jr, from Anthony. Bill is a Sig Ep.

Couples danced to the music of Freddie Meinholdt.

The dance followed a banquet in the Terrace room of the Wareham hotel. Guest speaker was L. W. Newcomer of El Dorado. Awards in scholarship were presented to Roger Craft for the most improvement in scholarship last semester.

Terry Turner was honored for the best over-all grade average last semester, and Doug Eriksen for the highest grade average for an active last year.

**QUEENS DON'T** have it so easy, or candidates don't, at least. These three girls, candidates for Queen of Hearts at the annual Northwest hall Valentine dance, had to get up early to help plan decorations for the dance, at which one will reign as queen. Coffee breaks were frequent however. Resting after a not-so-regal morning's work are Lou Ann Sheldon, EEd Fr, Patsy McClenhan, EEd Fr, and Corrine Wright, HT Fr. The annual dance will be Friday.

## Greeks Add More Pledges

New pledges of Alpha Gamma Rho are Stanley Johnson, PrV Soph, Arkansas City; Dennis Waldorf, AEd Fr, Arkansas City; and Chester Peterson, DH Fr, Falun.

♦ ♦ ♦ ♦

Jerry Lundberg, ME Fr, Manhattan, recently pledged Acacia.

♦ ♦ ♦ ♦

New pledges of Alpha Tau Omega are Bill Harrison, Ag Fr, Lenora; Phil Fabricius, CE Fr, Hill City; and Don Hanson, ME Fr, Kansas City.

♦ ♦ ♦ ♦

New pledges at the Sigma Chi house are Sid Jones, PrV Fr, from Leavenworth, and Keith Small, ME Jr, from Conway Springs.

♦ ♦ ♦ ♦

Kay Wadsworth, HT Soph from Overbrook, is a new Clovia pledge.

♦ ♦ ♦ ♦

The Phi Delt pledged Dave McArthur, Sp Fr from Manhattan, January 18.

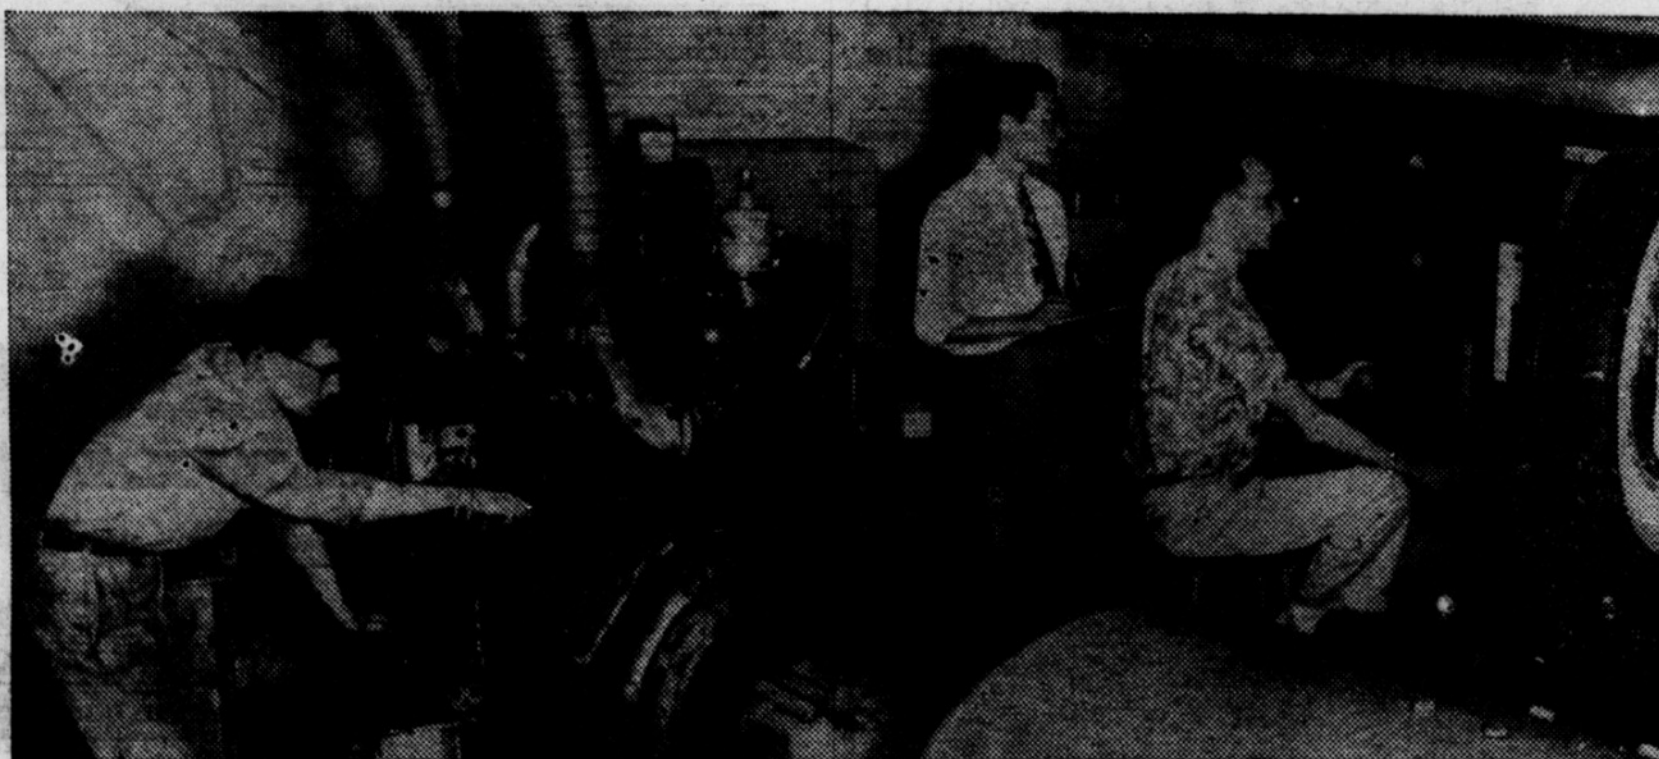

♦ ♦ ♦ ♦

New pledges of Alpha Gamma Rho are Stanley Johnson, PrV Soph, Arkansas City; Dennis Waldorf, AEd Fr, Arkansas City; and Chester Peterson, DH Fr, Falun.

## Wayne Smith New Head of KSDB-FM

Wayne Smith, Sp Sr, has been chosen general manager for KSDB-FM, student radio station, for the spring semester.

Pete Charlton, Sp Soph, is the new program director, announced George Carroll, faculty advisor for the station.

Daily directors are Dick Whitney, Sp Soph; Jim Brown, Sp Soph; Bob Huscher, Sp Jr; Bob Parker, Sp Jr; Gayle Griffith, Sp Soph; and Kay Hutchinson, Sp Sr.

Other members of the staff are Bill Cole, Sp Soph; continuity chief; Tom Rees, Sp Soph, announcer chief; Harry Shank, Sp Jr, sports chief; Bill Brenner, Sp Jr, music chief; Karen Bennetts, Sp Fr, traffic chief.

Don Latter, Sp Jr, engineering chief; Don Whan, Sp Soph, maintenance engineer; Gordon Jump, Sp Sr, news chief; Wayne Thomas, Sp Jr, special events chief; Jim Crabb, Sp Soph, talent chief; Beth Shafer, Sp Sr, women's chief; and Joe Banowitch, Sp dramatic chief.

Starting date for regular broadcasting will be announced soon.

## Blood Is Business Of Three Staters

Blood is the business of three K-State students working as laboratory technicians at Riley County hospital. Bill Clark, Bac Sr, Paul Willis, Zoo Gr, and Emilo Mora, Bac Gr, have charge of keeping an ample supply of blood available at the hospital.

Donors go to the hospital each Tuesday afternoon to donate blood to the bank. The three technicians draw the blood, and store it until used.

All three have had extensive experience in laboratory work. Clark has a bachelor's in medical technology, and worked in navy hospitals while in the service.

Willis has a bachelor's degree in medical technology. He worked in several hospital laboratories prior to enrolling this semester in zoology. He plans to teach after receiving his master's.

Mora is working on his doctorate in bacteriology, and does part-time research work for the College. He has worked as medical technician in hospitals in New Mexico and Louisiana.

Getting the right type of blood to patients is a big responsibility, these men said. Many precautions are taken to insure that the right blood is given, they added.

## Nine Get Positions On Ag Mag Staff

Nine students have been named as staff members for the Ag Student magazine this semester, Clayton Herman, AgJ Jr, editor, has announced.

Staff members are Phillip Young, AgJ Soph, business manager; Elaine Olson, TJ Soph, circulation manager; John Burgess, TJ Sr, photographer; and Ray Lippe, AgJ Soph, Larry McGhee, AH Jr, Gary Yeakley, AgJ Soph, George Atkeson, DH Sr, Hayes Walker, AgJ Sr, and Bev Sargent, HEJ Sr, reporters. Lowell Brandner is the faculty adviser.

## KS Football Film In Rec Center at 1

A K-State "Football Highlights of 1955" film will be shown today in Rec center from 1 to 3 p.m.

Sportscaster Dev Nelson, assistant director at Radio Station KSAC, will narrate the color films. Included in the movies are outstanding plays from games played last fall.

## Debaters Tie For Second

K-State debaters tied for second place in the Mid-South debate tourney at Henderson State college in Arkadelphia, Ark., Friday and Saturday, Charles Goetzinger, debate coach, said.

All K-State entrants qualified for the elimination rounds on Saturday. In the women's division, Anita Grimm, TJ Soph, and Nancy Porter, Sp Soph, won the quarter-finals but were defeated in the semi-finals.

Of the three men's teams, Jim Shane, Hst Soph, and Ray North, PrL Soph, were beaten in the quarter-finals; Dan Hahn, Ar 01, and Dave Nuttle, AH Soph, lost in the semi-finals; and Larry McDonald, ME Soph, and Edd McCoy, PrL Soph, were defeated in the quarter-finals.

## Doris Fleeson To Speak At April Hospitality Days

Home Economics Hospitality Days are planned for April 20-21 this year, Prof. Margaret E. Raffington of the Home Economics School said.

Doris Fleeson, nationally known journalist, will be speaker at the April 20 Hospitality Days assembly.

The keynote assembly to acquaint Home Ec girls with Hospitality Days is to be February 23 in the Auditorium. The keynote assembly theme will be "Cast Your Ballots."

note assembly theme will be "Cast Your Ballots."

Theme of Hospitality Days will be "Home economics campaigns for better living," Professor Raffington said. General chairman of Hospitality Days is Delaine Smith, HEA Sr. Assistant chairman is Shirley Sarvis, HT Jr.

Chairman for the various exhibits have not all been appointed, Professor Raffington said.

## K-State To Help Train Civil Defense Leaders

K-State will be headquarters for a twice-a-year short course in civil defense leadership, Max Milbourn, director of public service and chairman of the K-State civil defense program, said yesterday.

The program, to begin April 2, is set up primarily for persons who have civil defense assignments at a community level. It is to train key civil defense personnel to direct city and county units, President McCain explained.

The federal government will furnish the faculty and training aids, in cooperation with K-State instructors.

Training will include protective measures against radiation and atomic fallout, techniques of urban evacuation, and a 2-day control-center exercise designed to solve disaster problems.

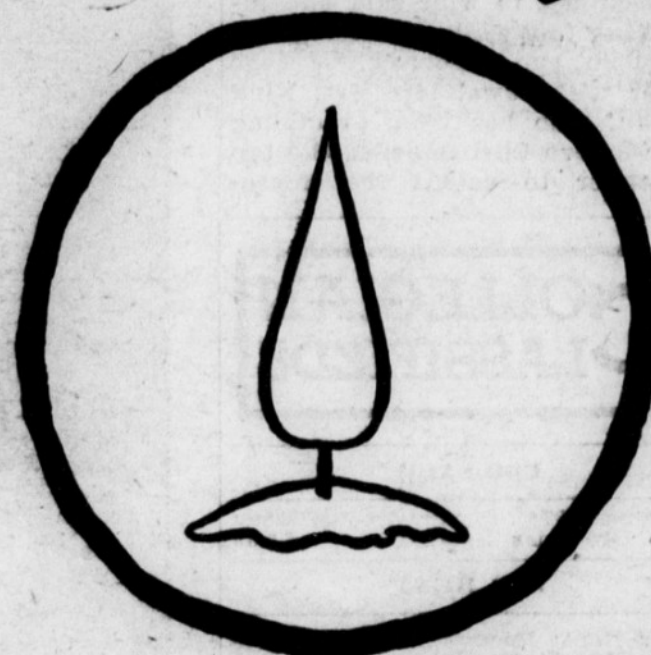

Organization details of the short course have not been announced.

EVERYBODY CALLS

FOR LUCKY DROODLES!

WHAT'S THIS?  
For solution see paragraph below.

**MATCHLESS**—that's the word for Lucky Strike! Want better taste in a cigarette? Light up a Lucky! Luckies taste better because they're made of fine tobacco that's **TOASTED** to taste better. Incidentally, *matchless* is the word for that Droodle, too; it's titled: Very short candle as seen by Lucky smoker about to light up. Touch a flame to a Lucky yourself. You'll call it the most *glow-rious* cigarette you ever smoked!

# Adlai Says Segregation Not Presidential Issue

Portland, Ore. (U.P.)—Adlai Stevenson said yesterday that the issue of segregation should be kept out of the Presidential campaign because it pits "section against section or race against race."

The Democratic Presidential candidate said strong federal action to end segregation may "actually delay the process of integration in education," and said candidates should not "exploit for political ends" racial tensions in the South.

Stevenson has been criticized by liberal elements in his party for the advocacy of "gradualism" in desegregation. Negro leaders have expressed disappointment with Stevenson, and have indicated they lean toward Sen. Estes Kefauver.

## Uranium in Joisey?

Lambertville, N. J.—A uranium rush may start in New Jersey— if discovery claims of two New York public library geologists are true.

Alvin and Vernon Gatling claimed yesterday to have found a "fabulously" rich uranium mine about 60 miles southwest of metropolitan New York. The Atomic Energy commission granted them a license after assays proved sufficient ore for processing.

## Pancake Racer Injured

Liberal (U.P.)—America's hopes of capturing a third straight international pancake race from England were dealt a severe blow today when a favorite for the race announced she couldn't run because of a sore foot.

Mrs. Wallace Naegle, who up to three days ago was considered the best bet to win, said she injured her foot while practicing and would not run tomorrow.

Her withdrawal left Mrs. Nina Jordan, who has been practicing since before Christmas, as the top contender to defeat the house-

wives of Olney, England, in the seventh annual event.

The housewives must carry a frying pan with pancake through the race, flipping the cake at the beginning, the middle and the end of the course.

## KS Union Gets \$5,800 in Gifts

Gifts from five campus organizations totaling \$5,800 have been received by the new Student Union, Loren Kottner, director of the Union, said.

Collegiate 4-H Club gave \$4,500 to pay for furnishings in the browsing library. One thousand dollars from Blue Key is to provide for building of a fireplace in the main lounge.

"Today at the Union," a bulletinboard showing daily events, was financed with \$100 given by APO scouting fraternity.

Chimes presented \$100 to be used for purchasing a speaker's stand. Panhellenic gave \$100, which has not yet been designated for a particular project.

## College Choir Plans Concert For March 28

The first A Cappella choir concert to be presented at an all-College assembly in the past few years is set for March 28, William R. Fischer, associate professor of music, said.

The program is to consist of three divisions. The first is to be sacred songs, including such compositions as "Beautiful Savior" and "Sing to the Lord a New Song."

K-State Singers will follow with excerpts from the operetta "Carousel."

Original tunes and arrangements by Professor Fischer will conclude the program. Among these will be "Love Is Where You Find It" and "Golden Slippers."

Soloists will be Royce Johnson, MGS Soph, baritone; Jack Hartle, MGS Fr, bass; Peggy Hodge, MAV Fr, contralto; Georgia Rundle, MAV Soph, mezzo-soprano; and Virginia Roenbaugh, HT Jr, soprano.

## A Likely Story!!

Minneapolis, Minn. (U.P.)—George E. Sheehan was fined recently for driving with his arm around his girl.

Sheehan protested it was 17 degrees below zero, his car heater wasn't working, and he was trying to keep her warm.

## Ag Engineering...

(Continued from page 1)

shops presently located in the barracks behind Seaton hall. The new wing will have 12 offices, 7 labs, 7 classrooms, and vocational shops.

Overall dimensions of the planned addition are 120 feet by 152 feet. The farm machinery lab will measure 40 feet by 100 feet.

One of the "better hydraulics labs in this area" is planned for the basement of the building, Ralph Lipper, assistant professor of agricultural engineering, said.

He described it as "very adequate."

No completion date has been set for the home ec building, according to Dean Schlaphoff.

"We hope girls who now are freshmen will be able to use the building before they graduate," she said.

Part of the ag engineering wing will be three stories, and part of it will be two stories. This will allow the department to use larger equipment than was available before, Lipper said.

# Karen Andrews Is Honorary Captain

Collegian photo by Gary Haynes

**THE CAPTAIN SALUTES**—Karen Andrews, EEd Jr, practices her salute under the supervision of Rosemary Derks, ML Soph, and Carol Miller, EEd Jr. Miss Andrews was elected honorary cadet captain at a meeting of the Pershing Rifles last night.

Karen Andrews, EEd Jr representing Northwest hall, was chosen honorary cadet captain by Pershing Rifles members last night. Her attendants are Rosemary Derks, ML Soph, Kappa Kappa Gamma; and Carol Miller, EEd Jr, Pi Beta Phi.

Miss Andrews will be K-State Company G-7's candidate for honorary cadet colonel. Honorary colonels will be chosen by each of 12 regiments over the nation, and will compete for the honor of national commander of Pershing Rifles.

Other candidates for honorary cadet captain were Edna Bourquin, EEd Soph, Kappa Delta; Linnea Brown, Ar 02, Van Zile hall; Barbara Brown, HEN Fr, Southeast hall; Mary Faye Frazier, HEA Soph, Chi Omega; Elaine Raile, EEd Sr, Alpha Chi Omega; Mary Reed, Clo Soph, Alpha Xi Delta; Barbara Starnes, DIM Soph, Alpha Delta Pi; Kay Wadsworth, HT Fr, Clovia; and Judy Zerener, EEd Soph, Delta Delta Delta.

# Ralph Bunche To Top Semester Assembly List

Student assemblies, topped by the May 10 appearance of Dr. Ralph Bunche, this semester will bring to the campus outstanding personalities from the fields of entertainment, religion, science, and government.

The first assembly is scheduled for Friday, and features actress Ruth Draper in a 70-minute program of character sketches.

Miss Draper has been characterized by the New York Times as "the foremost mimic of our time," and by the New York Herald Tribune as presenting "hilarious original monologues."

She retired from the stage in 1954, but returned last year for a 3-week appearance on Broadway with her nephew, dancer Paul Draper.

A Lift Week assembly March 5 will present Dr. Louis H. Evans, recently selected as one of the country's 12 most eminent clergymen.

For 12 years, Doctor Evans was head minister at the First Presbyterian church in Hollywood. During that period the congregation increased from 2,300 members to 6,400 members, and became the largest in the denomination.

Since 1951, Doctor Evans has been minister-at-large of the Board of National Missions of the

Presbyterian church in the United States.

Dr. W. Bronk is to speak at the Engineers' Open House assembly either March 12, 13, or 14. Bronk is president of Rockefeller Institute, and was president of Johns Hopkins university from 1948 to 1953.

Doctor Bronk received the Atomic Energy Commission award for exceptional civilian service in 1946.

An A Cappella choir concert is set for the annual Easter assembly to be presented March 28 by the YMCA and the YWCA.

Joseph F. Finnegan, director of the federal mediation and conciliation service, Washington, D.C., will speak at the Industrial Relations Conference assembly April 12.

Syndicated columnist Doris Fleeson will appear at the Hospitality Days assembly April 30. Miss Fleeson generally is regarded as one of the outstanding women journalists in the country today. She twice has received the New York Newspaper Women's Club award for distinguished reporting.

The activities recognition assembly May 10 will bring to the campus one of the world's most distinguished statesmen, Dr. Ralph Bunche.

Doctor Bunche was United Na-

tions mediator between Israel and the Arab nations in 1948-1949. In 1950 he was recipient of the Nobel Peace prize. In January of 1955, he was appointed under-secretary of the UN, and formerly had served as principal director of the UN department of trusteeship.

"YES IS FOR a Very Young Man"—Jerry Hager, Sp Soph, and Judy Thatch, HEN Fr, enact a love scene from the play which will be presented Thursday and Friday.

# Kansas State Collegian

VOLUME LXII

Kansas State College, Manhattan, Kansas, Tuesday, February 14, 1956

NUMBER 82

## Council Proposes Revision To Allow Primary Elections

The Student Council last night passed constitutional revisions allowing primary elections and changing election of the Student Council chairman. The proposed revisions will be sent to the individual school councils for final approval.

If the revisions are passed the candidate for student body president who receives the second highest number of votes in the general election will be vice-president of the student body and chairman of the Student Council. The chairman is now elected by the Student Council, from its members.

Newton Anderson, ME Soph, moved to withdraw

this revision; however, the amendment was not passed by the Council.

The revision also includes provision for a primary election each spring preceding the general election. Any student wishing to run for Student Council, study body president, or Student Board of Publications would submit his petition at least 10 days before the primary elections, noting on his primary which party ticket he wished to run on or stating that he would run as an independent.

Other items included in the provision are:

Primary ballots will be printed for each school listing all of that party's candidates running for

Student Council. Independent candidates will be carried through the primary and listed on their school's ballot in the general election.

Any student who loses in the primary may not file to run for Student Council in the general election.

The provisions will be taken to the school councils by Student Council members.

Other Council actions:

1. Prof. W. H. Martin, new faculty advisor, was introduced.

2. George Atkeson, DH Sr, reported that R. F. Gingrich, physical plant superintendent, said steps to the Ag parking lot will be built soon. A class bell for the third floor of Calvin may be included in next year's budget.

3. Bill Johnson, Geo Sr, reported that the student-wage studies committee will drop its studies since no changes in the wage scale can be effected at the present time.

4. Marilyn McCready, Eng Soph, reported that no payments can be made to dorm counselors.

5. A letter from President McCain said that the Council's proposal for a student-operated bookstore was being referred to Loren Kottner, Student Union director, and Herbert Wunderlich, dean of students.

6. Gary Rumsey, AEd Soph, requested that the Student Council appoint three new members to the Student Activities committee to take care of additional work.

## Lee Considered As Replacement For Moon Mullins

H. B. (Bebe) Lee, head basketball coach at Colorado university, has been contacted about the vacant job of director of athletics at K-State. R. I. Throckmorton, chairman of the K-State athletic council, said yesterday.

"Nobody has been offered the job as athletic director nor can they be until the Board of Regents meets," President McCain said. The Board of Regents is to meet next Friday.

Lee never has applied for the job but has been recommended by three sources, two of which are outside the campus. Throckmorton said. Throckmorton said he hopes a successor to Laurence (Moon) Mullins can be announced in the next ten days or two weeks.

## English Proficiency Grading Breeds Confusion, Bad Results

This semester another crop of juniors will take English Proficiency. Though they have passed Written Communications I and II, or equivalent courses, they haven't much assurance that they'll pass English Proficiency.

If you don't believe that YOU can flunk, get set for a sad story that proves that you can. This story deals with a student who had an A in Written Communications I, and a B in Written Communications IIB. He flunked English Proficiency. Without any additional preparation, he passed it on his next try.

This sounds impossible? Friend, nothing is impossible in English Proficiency.

However, despite such goings on, the basic idea of English Proficiency remains sound. It is supposed to weed out those potential graduates who cannot meet minimum requirements for English usage. (Of course, one can't help but wonder why, after Written Comm I and II, they are deficient.) Anyway, those who flunk the test twice must take a remedial English course, then can take another crack at English Proficiency.

Few persons would argue with the idea that college graduates should be proficient in the use of English. Few would argue with the point that it is a good idea to weed out persons who aren't proficient.

However, such incidents as the one cited above tend to shake one's confidence in the K-State English Proficiency system. If the basic idea is sound, where's the flaw?

We think the flaw is in the grading system. The themes are graded by three faculty members—one from the student's own school, one from another school, and one from any school. The persons who teach English usage—English department faculty members—do not grade the themes.

Regardless of attempts to rationalize the present grading system, its result is a conglomeration of standards that fosters odd situations such as the one cited above. Some professors say they never flunk anyone. Others claim to be rough graders. Regardless of attempts at coordination, the system breeds confusion.

The confusion won't be cleared up until K-State can hire enough English professors to do the grading in the English department.

But don't sweat it, juniors. The chances are good that a lax grader will get your theme.—Darrel Miller.

## Sorority Rushing Parties Inspire Nickname Brainwashing Parties

By Ann Weathers

Sorority rush parties at Drexel university inspired one writer to nick-name them "Sorority Brainwashing Parties."

Consider the Ima Gonna Wanna sorority. Its party must naturally have a theme which can be anything from "A Day at the Bull Fight" to "A Dog Sled Trip Through Sunny Alaska."

Ima Gonna Wanna selects the latter, and their chapter house is decorated appropriately. Snow is banked around to make the house resemble an igloo. Inside, the sisters are attired in the customary seal skins with fur-lined snug—oops,—furlined parkas.

The brainwashing candidates soon arrive and immediately are cunningly draped with a piece of curing seal skin. This, of course, provides the proper atmosphere.

All take their places on the floor for dinner. The sisters are carefully scattered throughout the "guests." Naturally, the dinner is in the proper Alaskan style—

- Appetizer—seal juice on the rocks
- Soup—seal soup
- Salad—scrub greens with seal hollandise
- Main Course—seal steak fried in seal fat
- Dessert—baked alaska.

Between the main course and dessert, the Ima Gonnas "spontaneously" start singing. They'd only been rehearsing all afternoon. The "guests" are now properly impressed with their spirit and congeniality.

Then the entertainment begins with all sorts of frolicsome gaiety. It seems a voluptuous IGW named Ida wanders into a Yukon bar (it is never explained what a girl of the fine caliber of IGW is doing in a bar). Like all IGW's, she attracts the opposite sex. Handsome Black Mike, head of the prospectors' protection racket, saunters up and says:

"I've always wanted to meet a girl of Ima Gonna Wanna. They have a reputation for being the finest in the land. Baby, I could go for you."

Ida, naturally, reacts violently, knocking Black Mike's teeth out with one ladylike swipe, and things start to get rough. Enter Hero No. 1—namely Sergeant Preston and King. The good sergeant naturally is attracted to Ida. Ida being an IGW tolerates only the advances of the fine, upright Preston-type man. Preston and Ida fall in love and are married with King in attendance as best man. Finis—thank heaven.

If the brainwashing has been successful, the "guest" will return home and immediately proceed to redecorate her room in the color of glorious Ima Gonna Wanna.

Indiana university then sticks its four cents in (inflation you know) with:

Sorority Rush—the art of running around like H—to impress others with one's natural composure.

Indiana is also trying to sponsor a club called Society for Retaining Nonentities. The qualifications are simple: to join, you must be the kind of person who sits in the middle row, third seat from the aisle, in all classes; who never remembers the name of the text; who can go to the Union at 10 a.m. without knowing a person and who never

### Quotes from the News

By UNITED PRESS

New York—Former President Truman, in his memoirs in Life magazine, on why he fired Gen. Douglas MacArthur as Far East commander in 1951:

"I could no longer tolerate his insubordination."

New York—Gen. Douglas MacArthur, in an article written for Life magazine, on his dismissal:

"No office boy, no charwoman, no servant of any sort would have been dismissed with such callous disregard for the ordinary decencies."

London—British minister of state Anthony Nutting on reports that "unauthorized balloons" are flying over Britain:

"I am informed that the danger to aircraft from these balloons is infinitesimal."

New York—Marilyn Monroe when asked if she planned to continue her studies at the actors studio:

"I would like to continue my growth in every way possible."

Knoxville, Tenn.—Mrs. Harland Jacobs, seeking a divorce, in denying she hurled a radio, telephone, and other objects at her husband:

"All I ever threw at him was a bowl of soup."

knows exactly what the Board of Trustees is.

A likely candidate, feels the student paper, is the girl who in the early rush parties found herself discussing psychology lab and white rats. She calmly remarked, "We used to have a white rat at home until the snake ate it."

From Iowa comes the sad tale of the man at Grinnell college who finally received the Eisenhower campaign button he requested back in 1952—not one button, but two dozen buttons and stickers. Tough, Ike, you waited too long. He is now president of the college's Young Democrat club.

Drexel Institute of Technology has found that there is quite a gap between the ideal campus beauty queen and the average American woman, as statistics depict her. (You're telling us?)

One of the nation's foremost industrial designers has developed the "typical figure" of all American women. "Josephine" is five feet, three inches tall, and has a 39-inch hip spread, a 35-inch bust and a 29-inch waist. Definitely nothing to be jealous of, girls.

### Readers Say

## Loss of Scholarship Unjust to Lindsey

Dear Editor:

We're sure you are all familiar with the functions of our Scholarships committee at Kansas State, and especially the one of granting athletic scholarships to worthy, aspiring young athletes whom they, the committee, feel can make the grade scholastically and can do a job on the athletic field. Another important function of the committee is taking away these same athletic scholarships for reasons which they feel just and deserving.

We are 100 per cent behind the committee and their functions, when properly handled, but we feel that in dropping Bill Lindsey off scholarship they have acted unjustly. For the benefit primarily of the committee and secondarily of those interested, here is exactly why Bill is no longer on scholarship.

On the evening of December 17, just before the Kansas State-Washington basketball game, Bill parked his car where he always does in the West Stadium parking lot. As he was leaving his car, a College building and repair parking lot attendant informed him that if he didn't move his car he'd run another car into the side of it. What did Bill do? What would you have done? Instead of fighting the gentleman, he used one "harsh" word on him which was enough to do the trick. Bill is now off scholarship and has no visible means of putting himself through college.

Bill worked hard to put himself through his first semester in college on his own so that he might prove himself scholastically and thus obtain a scholarship, which he did. This is a real slap in the face to both Bill and his parents, and also to our system of athletic scholarships.

The Scholarship committee, as well as quite a few other people, always have a lot of derogatory remarks when the team loses a game. If they ever realized that it was their fault that our teams can't field players comparable to our opponents, we're sure they would feel very differently about the whole matter.

We realize that everyone on an athletic scholarship is at the mercy of the committee in matters like this, but why handle things in such a childish, ridiculous manner? Kansas State needs and deserves winning teams, but without athletes the coaches' hands are tied.

It is our understanding that the committee is willing to reconsider Bill's case fairly in light of misunderstandings on the part of certain prominent committee members. However, there will be no meeting because the one member of the group, Max Milbourn, who can call another meeting refuses to do so.

Bill Lindsey is definitely not a troublemaker, and all he wants is a fair shake in this ordeal.

Ron Nery, Bill LaLonde, Jim Luzinski, Tito Cordelli, Chuck Farinella, Jim Rusher, Wm. Carington, Bill Pulford, Keith Wilson, Ronald Haney, Jerry Hayes, Jerry Overton, Jim Furey, Chas. Zickefoose, Cecil Keith, Frank Rodman, Eldon Zeller, Rudy Bletscher, Jon Walker, Len Legault.

In a telephone conversatoin this morning, Max Milbourn stated that he did not refuse to call another meeting and that it was a "personal matter with the committee."

# Wildcats Stave Off Pokes, Win 78-74

Staving off a game and determined Wyoming team in the last few minutes of the game, the K-State Wildcats nipped the Cowpokes, 78-74, last night at Laramie.

A concerted team effort spelled the difference. Three Wildcats scored in double figures, with two getting 20 points or better.

Jack Parr led the Wildcats with 25 points, 13 coming on free

throws. Parr hit 10 straight free throws before missing one, and ended the evening with 13 of 15 from the line.

Hayden Abbott was close behind Parr with 20 points on nine field goals and two free throws. Pachin Vicens was the third double-figures scorer for the

Wildcats with 18 points. Both Parr and Abbott fouled out late in the second half.

However, these three Wildcats had to take a back seat in scoring department to Wyoming's Joe Capua. The 5-10 guard was high for the game with 30 points. Capua is leading scorer in the Skyline conference.

Parr started the scoring in the game with a pair of free throws. Wyoming came back immediately to tie the game with a basket. The lead changed hands 10 times before the Cats went ahead to stay. The score also was tied 3 three times during this time.

With 5 minutes and 56 seconds cens hit a layup to put the Cats

Jack Parr  
... top scorer with 25

left to play in the first half, Vin the lead, 28-26. The Cats gradually increased this lead, and left the court at halftime with a 40-32 advantage.

While Parr kept the Cats from bogging down in the first half, the load shifted to Abbott in the second half. Abbott got 15 of his 20 points in the second half.

## Tourney Starts In IM Ping Pong

Single matches of intramural ping pong got underway last night in both the fraternity and independent divisions.

Double matches will begin at 7 tonight with 22 fraternities entering 44 teams and 13 independents listing 23 teams. The doubles will probably go to the semi-finals tonight, said Frank Myers, intramural manager.

Finals of the single and double matches will be played Thursday night at 7.

Results in last night's independent groups were: first quarter of play, Lynwood Myers, House of Williams, over Tom Alley, West Stadium. Second quarter, John Stockmeyer, Disciples Student Fellowship, over Buster Kelley, Rho Alpha. Third quarter, Daniel Lee, unattached, over Otes Post, Rho Alpha. Fourth quarter, Jerry Ervin, unattached, over Dale Knepper, DSF.

Results in the fraternity division were: first quarter, Paul Clark, Sig Ep, over Roger Kraus, Theta Xi. Second quarter, Steve Ahrens, TKE, over Andy Sorkin, Phi Delta. Third quarter, Ronnie Bryant, Sigma Chi, over Bill Harrington, SAE. Fourth quarter, Art Fromm, SAE, over Murray Farr, Sig Ep.

# San Francisco Leads U.P. Poll For 16th Consecutive Week

New York (U.P.)—The San Francisco Dons led the United Press basketball ratings today with 30 first place votes and 339 points.

They also are heavy favorites to extend their record major college victory streak to 46 by defeating San Jose State tonight and St. Mary's (Calif.) Friday night.

San Francisco now has topped the ratings for 16 straight weeks, counting the last five weeks of the 1954-55 season. No other team has dominated the ratings for such a stretch since they were inaugurated in 1950.

Dayton (18-1) remained second with two first place votes and 283 points. Illinois (14-1) held third place and reduced Dayton's margin to 7 points by drawing two first place votes and 276 points. Dayton led Illinois by 20 points in last week's voting.

The next four teams also held

### Ratings:

Team	Points
1. San Francisco (30) (18-0)	339
2. Dayton (2) (18-1)	283
3. Illinois (2) (14-1)	276
4. North Carolina State (18-2)	199
5. Louisville (1) (19-1)	148
6. Vanderbilt (16-2)	133
7. Kentucky (15-3)	106
8. Southern Methodist (17-2)	92
9. Temple (17-1)	69
10. North Carolina (15-3)	44
Second 10 teams—11. Alabama, 40; 12. UCLA, 32; 13. Iowa, 23; 14. Duke, 26; 15. St. Louis, 18; 16. Holy Cross, 17; 17. (tie), Utah and Brigham Young, 16 each; 19. Houston, 13; 20. (tie), Xavier (Ohio), Iowa State, and Cincinnati, 6 each.

the same positions. North Carolina State (18-2) was fourth with 199 points. Louisville, which received the other first place vote, was fifth with its 19-1 record and 148 points. Vanderbilt (16-2) was sixth with 133 and Kentucky (15-3) was seventh with 106.

While San Francisco appears a cinch to boost its current season mark to 20-0 this week, the other highly-ranked teams face some rugged tests.

The Dayton Flyers entertain Memphis State Wednesday night and Friday night they visit Louisville. Louisville handed the Flyers

their only defeat of the campaign January 28 at Dayton. Illinois has a date with Michigan State Saturday night at East Lansing. North Carolina State entertains 14th ranked Duke tonight.

Southern Methodist (17-2) advanced from ninth to eighth in the ratings with 92 points. Temple (17-1) received 69 and slipped from eighth to ninth.

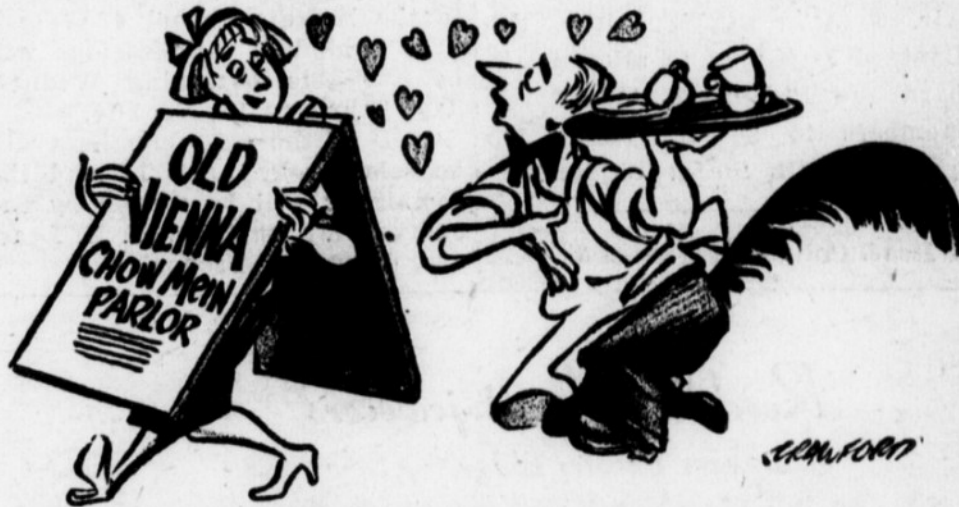

North Carolina (15-3) dropped out of the top 10 last week but popped back into 10th place this week with 44 points. Duke, 10th last week, dropped to 14th.

## FAMOUS LAW CASES: NO. 1—GRANSMIRE vs. MIDDLE ATLANTIC BUS AND DRAY CO.

Gransmire, the plaintiff in this celebrated case, lived with his daughter Ernest and a canary named Whirlaway on Elm Street in Cooch, Delaware. The Middle Atlantic Bus and Dray Co. started operating a bus line on Elm Street. The passing buses caused a cut-glass chandelier in the Gransmires' living room to begin tinkling. The chandelier tinkled in the key of E-flat. This so unnerved the canary, Whirlaway, whose key was C-sharp, that the poor bird moulted out of season, caught a chill, and died untimely.

Ernest, Gransmire's daughter, was herself so unsettled by the death of the canary that she flunked her final exams at the Boar's Head Beauty and Barber College, where she had been a promising student, majoring in bangs. Now removed, willy-nilly, from the skilled labor market, Ernest found work carrying a sandwich sign for the old Vienna Chow Mein parlor.

Here she met a bus-boy named Crunch Sigafoos. Although Crunch was not especially attractive—he had, for one thing, a large bushy tail—he was always clean and neat and kept his shoes shined, and after a decent interval, he and Ernest were married.

Ernest soon learned that Crunch's large bushy tail was not as anomalous as she had supposed: Crunch was a werewolf. After a while Ernest got sick of staying home at night while her husband went prowling about, so she asked him to change her into a werewolf too, which he did with an ancient Transylvanian incantation. Then, together, the two of them would lope out each night and meet a lot of other werewolves and maybe kill a few chickens or hear some book reports or just lay around and shoot the breeze.

Meanwhile, Ernest and Crunch's landlady, a miser named Mrs. Augenblick, noticed that Ernest and Crunch never used their room at night, so she, in her greed, started renting it to transients. One night a Mr. Ffolliott stayed there. In the morning while brushing his hair, he took a bottle that looked like hair tonic out of the cabinet, poured some, and rubbed it vigorously into his scalp. Unfortunately, it was not hair tonic, but a bottle of glue which Ernest had bought to mend a model airplane that Crunch had given her for their paper wedding anniversary.

As a result of Mr. Ffolliott's grisly error, he was unable to remove his hat and was, therefore, barred from his usual occupation which was lecturing to women's clubs. He sued Mrs. Augenblick, who sued Ernest, who went to her father, who sued the Middle Atlantic Bus and Dray Co. who had started the whole horrid chain of events.

"Ladies and gentlemen," said the defense attorney in his opening address, "this case, though very ramified, is covered by law. Indeed, every facet of life is covered by law. Law governs the homes you live in, the cars you drive, the food you eat. Even the cigarette you smoke is strictly regulated. The gentleness, however, is Philip Morris's own idea. Out of their vast experience as tobacco people, out of their profound regard for the astuteness of your palate, the makers of Philip Morris have evolved a gentle, new cigarette, with a taste as mild as a May morn, as subtle as gossamer, as welcome as money from home. I thank you."

Whereupon everybody rushed to the tobacco counter to buy bright red, white and gold packs of Philip Morris and were all rendered so amiable after a few gentle puffs that the whole complicated case was dropped. This later became known as the Delaware Water Gap.

©Max Shulman, 1956

We, the makers of Philip Morris, sponsors of this column, rest our case on our new, gentle cigarette in our new, smart pack.

# Military Ball Candidates To Be on WIBW-TV Today

Military Ball queen candidates will appear on a television show today at 5 p.m. over WIBW-TV. The twelve candidates, dressed in formals, will be introduced by Gordon Jump, Sp Jr.

Kay Hutchinson, Sp Sr, will be program director for the show. Music will be provided by the band of Gordon Bute, Sp Soph. Vocals will be sung by Gail Compton, Sp Fr, and the "TKE Four," which is composed of Tom Carpenter, EEd Jr; Gail Cross, AA Soph; Darrel Dyer, BPM Soph; and Bob Nelson, ME Fr.

Queen candidates who will appear on the show are Dixie Brown, HDA Soph, Alpha Delta Pi; Connie Eller, EEd Soph, Pi Beta Phi; Dottie Newton, DIM Fr, Northwest hall; Marie Price, HE Soph, Chi Omega; Joyce Rawlins, HT Jr, Alpha Chi Omega; Leann Riggs, Hst Soph, Kappa Kappa Gamma.

Marilyn Adams, EEd Soph, Delta Delta Delta; Kay Benjamin, EEd Soph, Kappa Kappa Gamma; Charlene Brooks, Clo Fr, Pi Beta Phi; Kathleen Dodd, EEd Soph, Alpha Xi Delta; DeAnn Mackie, PEW Jr, Alpha Delta Pi; and Genie Munn, HEJ Soph, Chi Omega.

Following the television program the candidates will be entertained at dinner by members of Scabbard and Blade and Arnold Air. A mixer will be held at the Canteen at 9 p.m. to allow Scabbard and Blade and Arnold Air members to become better acquainted with the candidates.

## Vet School Open For Applications

Pre-veterinary students may pick up applications for admission to the K-State School of Veterinary Medicine. Applications will be available beginning Wednesday, February 15, VS 104.

Half of the class members will be selected by April 15 and the remainder will be named by the end of May, said Dr. E. E. Leasure, dean of the school.

## World News Briefs

# GOP Uses Demo Split To Seek Vote of Negro

Compiled from United Press  
By HARRY MACHIN JR.

Washington (U.P.)—The Republicans have stepped into the Democratic breach over civil rights and bid for the Negro vote.

Vice-President Richard M. Nixon said yesterday that the Eisenhower administration has "registered the greatest advance" in Negro rights since the Emancipation Proclamation.

He said the Democrats are a "hybrid party . . . helpless and futile" in the field of civil rights.

Nixon's open invitation to Negroes to vote Republican in November followed several weeks of jostling among Democratic presidential candidates over the Negro rights issue.

## Physical for Ike Today

Washington—President Eisenhower will hear from his doctors today on how well he has recovered from his September 24 heart attack.

The doctors' findings, to be given to Eisenhower in the early afternoon, will play an important part in his decision on whether to seek a second term.

♦ ♦ ♦ ♦

## Earthquake Hits Tokyo

Tokyo—The stiffest earthquake since World War II rocked this

sprawling city of 8 million persons early today, injuring two Japanese and causing minor damage to buildings.

The quake opened a 1-inch crack between the main building of the "earthquake-proof" Imperial hotel and a recently erected annex, and buckled the sidewalk outside one of the city's biggest office buildings.

## A frank message to graduating electronic and mechanical ENGINEERS

You know it . . . we know it . . . so let's be frank about it.

The demand for engineers—experienced or graduate—far exceeds the supply. And, from now on in, you are going to be sought after more than a triple threat halfback for next year's varsity.

You will be promised many things (including the moon with a fence around it), and for a young man just getting started these things are pretty hard to resist.

So, again, let's be frank. We at Farnsworth won't promise you the moon. (Although we are working on some ideas that may eventually get you there and back.) We are an old, young organization. Old, in the sense of being pioneers in the field of electronics. (Our technical director, Dr. Philo Farnsworth invented electronic television.) Young, by being the newest division of the world-wide International Telephone and Telegraph Corporation, devoting our efforts exclusively to research, development and production of military and industrial electronics, and atomic energy.

All of which makes Farnsworth big enough for stability and technical perspective, yet small enough for mobility, flexibility and recognition of the individual. Here you will be associated with and encouraged by a team of eminent scientists and engineers with many "firsts" to their credit in the field of electronics. Here you will be heard . . . not just one of the herd.

We earnestly invite you to hear the whole fascinating Farnsworth story. We're pretty certain it will make the decision for your future easier.
